WHAT I FINTS OF OO.

BY MINNIE MYRTLE.

Oo say "What do oo fint of I?"
I dess oo'r a nice little tub,
Oo say oo fan laugh an' tan twy,
Tan oo drint milt fwom a mud?

Oo say oo has no hair on oor head,
No tooth in oor little wed dams,
Does oo wait for oor ma to do to bed?
Does oo ever tount over oor fums?

Do didn't wite in oor letter,
One fing I sould lite to know,
When oo wite adain oo better!
Is oo boy or dirl? I dun' no.

Oo little pittaninnie dear,
So oo've dot an untle Sam—
My untle Sam lves here
I, too, are his little lamb.

I telled him this mornin' early,
To tate a 'etter to oo,
He laughed and said, "yes, truly,
Of tourse I will do it for oo!"

He's a dayold lart, my untle,
I wish oo would wite and teli
Oor name and home as soon as oo tould,
To oor own little far away. BELL.

TARRANT'S SELTZER APERIENT.

SECTS AND CREEDS DIFFER, but there are no dissenters from the general principle, that a great medicine is a great blessing. We have many of these blessings, but among them all, in the province to which it belongs, no greater than

Tarrant's Effervescent Seltzer Aperient.

A column would not suffice to enumerate the ailments for which it is prescribed by physicians of the highest standing. It does not belong to the class derisively termed patent medicines, but is an article based on scientific analysis, and will stand the test of the sharpest and most rigid medical criticism as a cathartic, a stomachic, an anti-febrile preparation, and an admirable remedy for all bilious complaints.

Let there be no mistake. Secure the genuine article only.

Fluid Extract Sarsaparilla.

This is the time to use good blood-renewing, purifying and invigorating medicines.

Helmbold's Fluid Extract Sarsaparilla

AND HELMBOLD'S

FLUID EXTRACT GRAPE-JUICE PILLS,

ARE THE BEST AND MOST RELIABLE.

One bottle of Helmbold's Fluid Extract Sarsaparilla equals in strength one gallon of the syrup or decoction as made by druggists, and a wine-glass added to a pint of water equals the celebrated Lisbon Diet Drink—a delightful and healthful beverage.

The Grape-Juice Pill is composed of Fluid Extract of Catawba Grape-Juice and

Fluid Extract Rhubarb.

Useful in all diseases requiring a cathartic remedy, and far superior to all other purgatives, such as salt, magnesia, &c.

Helmbold's Grape-Juice Pill

is not a patented pill, put up as those ordinarily vended, but THE RESULT OF TEN YEARS' EXPERIMENTING, AND GREAT CARE IN PREPARATION. SAFE FOR AND TAKEN BY CHILDREN. NO NAUSEA; NO GRIPING PAINS, BUT MILD, PLEASANT, AND SAFE IN OPERATION. TWO BOTTLES OF THE FLUID

EXTRACT OF SARSAPARILLA

AND ONE BOTTLE OF

The Grape-Juice Pills

ARE WORTH THEIR WEIGHT IN GOLD TO THOSE SUFFERING FROM BAD BLOOD, POOR COMPLEXION, HEADACHE, NERVOUSNESS, WAKEFULNESS AT NIGHT, COSTIVENESS, AND IRREGULARITIES,

and to those suffering from broken and delicate constitutions, it will give new blood, new vigor, and new life.

THE CATAWBA GRAPE PILLS

are done up with great care and in handsome bottles, and will surpass all those vended in wooden boxes, and carelessly prepared by inexperienced men, comparing with the French and English style of manufacturing. All of

CARD.

Having become satisfied after thorough investigations that Elastic Sponge, as now and lately manufactured, is one of the best of all substitutes for curled hair, for many if not most uses in upholstery, we have accepted the Agency for it, and intend to make it hereafter a speciality in our business. The objections which been made to it and which it is well known we ourselves have thought were well founded, we have ascertained cannot be urged against the article as now perfected. The process of manufacture has been entirely remodeled under the advice and superintendence of one of the most eminent chemists of New England. New chemical and mechanical appliances have been introduced in cleansing crude Sponge, and in charging it with glycerine with such entire success, that Elastic Sponge may now be said to be chemically pure. There is absolutely nothing in it but the clean fibre of Sponge and chemically pure glycerine.

The objections to Elastic Sponge being thus removed there remain its undisputed merits which certainly entitles it to be considered one of the most valuable, as it is one of the most curious and interesting of late discoveries. Chief among these merits is, that it is proof against moths—the great scourge of the business,—against all other insects. Then its elasticity is permanent, based as it is upon the non-evaporable property of glycerine and the indestructibility of sponge fibre. We have always been satisfied upon these two points which are the essential requisites in such materials. The evidence is now equally clear that it is wholesome and sweet. It is very light and soft, easy to manipulate, and cheap enough for all except the lowest class of goods. For the cushioning of Churches, Theatres, Public Halls, Railway Stations, Omnibuses, Carriages, Steam and Horse Cars and the like, it will probably be found, everything considered, the best article in use. For all uses, and especially for Bedding, we are now prepared to recommend the public to give it a fair trial as we ourselves intend to do. We are are ready also to answer inquiries, make estimates and take orders for every description of work in Sponge as well as to supply the trade the article in Bales.

The Daily Chronicle.

Portsmouth, N. H.

SATURDAY, JUNE 17, 1871.

THE LEGISLATURE.

The following bills were introduced on the 16th:—

By Mr. Cogswell of Henniker, to reduce valuation of ratable polls to $100.

By the same, a bill exempting from taxation homesteads not exceeding $500 in value.

By Mr. Hackett of Portsmouth, relating to obstruction of water-courses under highways and bridges.

By Mr. Smith of Peterboro', a bill relating to the rights of married men.

The bill relating to Mayors of Cities was passed unanimously.

Two Democratic members are sick—Page of Concord, and Hoyt of Charlestown. Scott, Republican, of Keene, is expected on Monday, having partially recovered from his illness.

A resolution was passed accepting an invitation from the President of Dartmouth College to the Governor and members of the Legislature to be present at the dedication of Culver Hall on Friday next.

JUDGE SMITH, the new Senator from the Claremont district, denies that he ever pledged himself to support the democracy or their measures, and says he will not go back on his past record. He voted the Republican ticket up to and including last March, and his name was used by the Temperance and Labor Reform men without his authority.

LEGISLATIVE caucuses were held by both parties, in Concord, Thursday evening. The Advertiser's correspondent says no important business was transacted at the democratic caucus, which was held with closed doors. It was deemed necessary to call the meeting to keep all in the line of duty. It was the talk that if the labor reformers claimed L. W. Cogswell for State treasurer he would be supported by the democracy. J. Weare Butterfield of Concord appears to have the inside for secretary of state. It is not likely that any nomination will be made or acted on until the sense of the party is ascertained, and it will be the last of next week before it comes up. The first business next week will be action on the contested seats, in the order referred to the committee. This will give the democrats the preference, as Mr. Bingham first presented a list of doubtful members. The senatorial districts will be remodeled to suit the party demands, and inhabitants of the different localities will find themselves disannexed and annexed in a peculiar manner. The last districting was done in 1855. The republican caucus did but little business other than talk over the condition of affairs, and decide to "stick."

—We hope the self-constituted temperance party of Ward 3 in this city are satisfied with the part they have taken in placing a rumseller in the speaker's chair of the N. H. House of Representatives and stabbing, politically, the only party that has ever done anything for temperance. Such short-sightedness and folly is certainly deserving of censure by every true friend of temperance.—*Dover Enquirer.*

We did not know before that Speaker Gove was a rumseller. Is it a fact?

THE overflow at New Orleans has almost entirely disappeared.

THE Forest Cities of Rockford defeated the Philadelphia Athletics on the ground of the latter—10 to 7.

THE agricultural bureau estimates the assured cotton crop at from three million to three and a half million bales.

A republican convention to nominate a coroner in Philadelphia was broken up Thursday by rowdies, and the records destroyed.

SEVERAL herds of cattle, stolen by Indians and traded off to the Mexicans, have been recaptured in New Mexico by the United States troops.

PRECAUTIONS will be taken by the Italian government to prevent any disturbance on the occasion of the Pope's jubilee. The French journals ridicule the idea of any interference to secure the restoration to temporal power of the Pope.

SEVERAL hundred English cattle have been washed ashore on Cote Blanche Islands, near New Orleans, dead. It is supposed they came from some vessel lost during the storm of Friday.

THE Charlestown, Mass., board of Aldermen decided not to grant Saint James Fisk, Jr., liberty to hold a review of the 9th N. Y. regiment in the streets of that city on Sunday, even though the review was to be called "divine service."

THE horse disease in New York is causing great loss to the horse railway companies.

THE Connecticut legislature has given the Air Line and the Boston, Hartford and Erie such legislation as was needed to help complete their roads.

GEN. McCOOK, the great military hero nominated by the Democracy for Governor of Ohio, had his only active military services as a regimental quartermaster in a three month's regiment!

THE Navy Department have received despatches announcing a serious engagement on the Chinese coast, between our naval fleet and the Chinese forces. The details have not yet come to hand.

THE U. S. ship Kansas, of the Tehuantepec expedition, and late from Key West, arrived at the Washington navy yard Thursday. Of the crew of 100,60 are sick with fever and ague, and were tranferred to the naval hospital. The disease was contracted from exposure in surveying.

Two barns of Mr. Nathaniel Richardson in Warren were burned Thursday morning; fully insured.

Mr. David R. Leach was severely injured a few days since at the station in Manchester, by being thrown from his carriage, his horse taking fright at the passing engine.

ROOSEVELT, of the N. Y. Citizen, has an eye for the beautiful. In the last number of that sheet he says: "It would be a pity to hang Mrs. Fair, she is such a handsome and attractive woman, and has such killing ways. Petrarch immortalized his Laura in exquisite Italian verse; shall we immortalize ours with an ugly modern gibbet? Unless all gallantry is dead in California, lovely Laura will not die. Her name is too pretty, too historical, to be rendered on the roll of executed felons. Forgive her if she did err rather more than is given to less ravishing woman to err; tell her to go and sin no more; or if somebody must expiate her crimes, hang some homelier female in her place."

—The city of Prentice, Penn., contains one house. A wing having been added to it a local paper takes occasion to expatiate on the "rapid growth" of that city.

—A Collinsville, Conn. man, who had for years suffered from rheumatism and been unable to labor, recently lent a hand in extinguishing a burning barn, and was thoroughly drenched with water, remaining wet three hours. To his astonishment he now finds himself entirely cured of his disease.

—A physician of Springfield, Mass., hurriedly called away from a dinner table recently by a messenger who made the following request:—"There is a child fallen into a drain and got drowned; we've got the water out of him, and now we want you to come and get the mud out of him."

—An East Indian gives the following highly satisfactory explanation of what are known as the late "Kookie" raids on British territory in India: "A daughter of the Kookie chief having died, a number of men's heads were wanted to burn with her dead body, and his subjects joyfully proceeded across our frontier to get material."

—As flowers were being received for decorating the soldiers' graves at Easthampton, Mass., two little girls brought in their hands full of wild flowers and offering them to a gentleman at the door, one said, "I know they ain't good for nothing, but they killed my father down there, and I wish you would take them."

—An artificial whirlwind blew at Glen's Falls, New York, a few days ago; it was caused by a farmer, who, wishing to burn a fallow of about fifteen or twenty acres, ignited the brush at several places at the outer edge. The flames rushed toward the centre and assumed a rotary motion, which increased in velocity till a terrific whirlwind was formed, which tore up small trees, root and branch, and frightened everybody who witnessed it. A column of smoke rose to so great a height that it was visible for many miles, and a noise as loud as thunder accompanied this singular phenomenon.

—A lady from Plainville visited Hartford the other day, and on disembarking at the station determined to patronize the horse railroad up to Main street. On Asylum street, near the crossing, a hand-organ grinder had stationed himself, and our rural friend noticed that a lady stepped up and dropped some money into his box, and then passed into the horse-car standing near by. Our friend, thinking that some "new wrinkle" had been introduced, and determining to appear conversant with all the latest city notions, followed the example set by her predecessor, and carefully selecting seven cents from her purse dropped them into the box of the musician, got into the car and calmly rode to Main street. A lady friend remarked, upon their alighting, "You did not pay your fare on the car, did you?" Whereupon exclaimed the lady from the rural village: "La me, I paid the man before I got in." Upon inquiry it was ascertained that the lady supposed the organ grinder was stationed there to collect fares: and said she, "I thought he was playing that thing to keep the horses still so folks could get in."

A SUBTERRANEAN POND.—A piece of railroad track in Ararat township, Pa., has been causing the company much anxiety and expense by sinking and disappearing altogether. A Pennsylvania paper says: "It has been found that under the swamp is a subterranean pond of several acres in extent, and of considerable depth. This pond is covered by about six feet in depth of black earth, which supports a heavy growth of woods. The trees are mostly soft maple, pine, hemlock and birch, many of them ranging from six inches to three feet in diameter. Last fall it was discovered that the subterranean pond contains many fish of the kind usually found in this part of the country—pickerel and shiners—among others—but all without eyes! The Ball Pond, about a mile and a half distant, is now 'growing over.' A considerable part of it has become subterranean within the last twenty years, and probably before many years it will be entirely covered, like the other. This pond is about twenty acres in extent. For some distance from the shore it is filled with a dense growth of water-lilies, and these, no doubt, furnish the foundation on which the superstructure of earth is commenced.

—The author of the "Swiss Family Robinson" is dead.

—A curate having been overhauled by his bishop for attending a ball, the former replied, "My lord, I wore a mask." "Oh, well!" returned the bishop, "that puts a new face on the affair."

—There is to be no more lying in jail feasting at the expense of the county among the violators of the law in Mecklenburg county, North Carolina. A chain-gang is to relieve the monotony of prison life.

—A railroad station being threatened by the flames which were consuming a mill and lumber yard close by, some one in the crowd cried out, "The station will go!" and was immediately answered, "Let it go, it ain't in the right place anyhow."

BUSINESS NOTICES.

Tooth ache proceeds from agae in the face, operating upon the exposed nerve of a decayed tooth. Rub the gum thoroughly with the finger, wet with *Johnson's Anodyne Liniment*, heat the face well, and lay a flannel wet with the liniment on the face, also put a little of the liniment into the cavity of the tooth on cotton.

The system frequently gets out of order and should be at once regulated, else other troubles will ensue; when physic is needed take *Parson's Purgative Pills*; they are a safe, wholesome, and natural medicine.

CENTRALIZATION is one of the bugbears of American politics. Every business man desires it. The AMERICAN HOUSE, BOSTON, offers not only sumptuous and quiet suites of rooms to families, but the very centre of business to merchants and commercial travelers.

SPECIAL NOTICES.

Valuable Hints.

A regular habit of body is absolutely essential to physical health and clearness of intellect. Nor is this all. Beauty of person cannot co-exist with an unnatural condition of the bowels. A free passage of the refuse matter of the system through these natural waste pipes, is as necessary to the purity of the body as the free passage of the offal of a city through its sewers is necessary to the health of its inhabitants.

Indigestion is the primary cause of most of the diseases of the discharging organs, and one of its most common results is constipation. This complaint, besides being dangerous in itself, has many disagreeable concomitants—such as an unpleasant breath, a sallow skin, contaminating blood and bile, hemorrhoids, headache, loss of memory and general debility.

Hostetter's Stomach Bitters remove all these evils by removing their immediate cause in the digestive organs, and regulating the action of the intestines. The combination of properties in this celebrated preparation is one of its chief merits. It is not merely a stimulant or a tonic, or an antibilious agent, or a nervine, or a blood depurent, or a cathartic, but all these curative elements judiciously blended in one powerful restorative. It lends activity and vigor to the inert and enervated stomach relieves the alimentary canal of its obstructions, and gives tone to the membrane which lines it, gently stimulates the liver, braces the nerves, and cheers the animal spirits. No other remedy possesses such a variety of hygienic virtues. It is to these characteristics that it owes its prestige as a household medicine. Experience has proved that it is as harmless as it is efficacious, and hence it is as popular with the weaker sex as with the stronger.

HOSTETTER'S STOMACH BITTERS are sold in bottles only, and the trade-mark blown in the glass and engraved on the label, is the test of genuineness. Beawre of counterfeits.

THE N. E. Insurance Gazette says: "The success of the Andes Fire Insurance Company of Cincinnati, has been astonishing. The company commenced business last year with a paid-up capital of $1,000,000, under the favorable circumstance of having at its head Mr. J. B. Bennett, one of the most experienced and successful underwriters in the United States. Its gross premiums from July to December 1870, were $274,098.72; gross losses $44,353; and its cash surplus January 1871, was $202,847.01. Its cash record is its greatest commendation, for no compliments of words can equal that." Its eight month's business: 2,000 agencies established! $700,000 premiums! $200,000 losses paid! and stock already 20 per cent. premium. C. A. Hazlett is the agent for Portsmouth and vicinity.

WE have already chronicled the death of a sailor named James Seymour, a native of New Brunswick, belonging on board the U. S. S. Ticonderoga, but have not learned until recently the peculiar circumstances attending his death, which (if true as related to us) reveal an instance of brutality to match the cases of Seeley, Peabody and others. It appears that Seymour had been gradually wasting away in consumption for some time, and although frequently applying to the surgeon of the ship to be placed on the sick list, he was refused until a day or two before his death, when he was ordered to the sick bay. Here he remained for a few hours, when at the prospect of the immediate departure of the ship for Brazil station it was deemed advisable to transfer the sick man to quarters at the Navy Yard Hospital. Accordingly he was sent ashore in the vessel's launch, and although quite too weak to be allowed to stand on his feet, on landing he was compelled to walk a distance of ten rods or more to his bunk in the Hospital. Arriving there exhausted and utterly prostrated, he asked for a cup of tea, after sipping which he fell back and immediately expired. It is hard to believe that the surgeon of the Ticonderoga could have been aware of the physical condition of Seymour, altho' if not, he must plead guilty of incompetency, as he evidently saw the sailor frequently, from the fact of his begging him to place him upon the sick list. As the matter is represented to us by what we consider reliable informants it stands as an instance either of glaring brutality or gross incompetency. It is possible, and even probable, that red tape had much to do with the man's death, but the responsibility rests somewhere, and his blood is upon the hands of somebody.

The Newark Daily Advertiser says of Stone & Murray's circus, which is advertised to appear here soon:—

This excellent show continues to attract thousands of our citizens, big and little, all sizes and ages seeming to be equally pleased with the performances of this first class troupe. We are at a loss to say whether the human performers or the trained animals are the most wonderful in their respective lines. The former have brought themselves to the highest state of physical perfection by their training, while the latter seem to have been made almost human by the care bestowed upon them. Perhaps after all Darwin got his ideas of the developement theory from a circus. If Stone & Murray had ever been in England we should be sure of it.

—The Boston & Maine Railroad has obtained an injunction from the Maine Courts to compel the P. S. & P. R. R. to draw their express trains between South Berwick Junction and Portland. The B. & M. Directors do not like to be left behind, even if the Eastern Railroad has abler and shrewder managers. Their appeals for sympathy and support in these trying times would find a readier response if they put themselves a little more in the way of accommodating the public. On Monday morning of last week, about the very time they were having their little difficulties with the Eastern Road, they left behind a large number of passengers at New Market Junction, bound for Portland and the East. The train from Concord was at the Junction from three to five minutes before the B. & M. train, and yet while checking their baggage the passengers were left by the B. & M. train, without notice, to find their way along as they could. And this is by no means the first occasion of the kind at which the passengers from Concord have to complain. Last Summer they were frequently left, when a delay of a minute or two would have made the connections. Let us have an injunction from our own Courts to compel reasonable accommodations for the people of New Hampshire.—*Dover Enquirer.*

A SAD STORY.—A shocking case of misplaced confidence was developed at Wilmington, N. C., the other day. A man was exhibiting an alligator there. He had taken the alligator when quite young and warmed it in his metaphorical bosom. He had let it lie upon his generous hearth, and suffered his children to play with it in the bonds of friendship and such things. As it grew older he taught it various amusing tricks, and then he began exhibiting it through the country. He would open the alligator's capacious mouth before delighted audiences, and thrust his arm down the cavity, explaining precisely how the old thing worked in a lecture which was amusing, as well as moral and instructive. He would say that this animal, so terrible in his native bayou, had become captive to the mind of man, which was another evidence of the superiority of man over brute creation. He would open the eyes of the civilized creature and no fierceness there, but a becoming humility indicative of a nature greatly changed for the better. He would wish his hearers to observe that the beast had all his teeth in, and yet wouldn't bite—that, in fact it was perfectly harmless.

And the price of admission to this great moral exhibition, gentleman and ladies, was only twenty-five cents—children half price—John, give us another tune on the organ, my boy. As the showman reached this point in his discourse at Wilmington, North Carolina, he thrust his arm down the mouth of the alligator, and the miserable beast, hungry and forgetful of its part of the performance, bit it off close to the shoulder. The alligator is therefore, armless no longer, but the showman is. And this shows, perhaps—for one price of admission—how association can change the nature of man as well as of the brute creation.

—The worst joke, says an exchange, that was ever perpetrated on scientific men, took place recently at Louisiana. A man was sick with rheumatism, or something, and a fellow went around to the doctors and professors and things and told them that it was the queerest case on record. He said the man had no feeling. You can stick pins in his body all over and he paid no attention to them at all. He was perfectly numb. So the doctors got together and called on the sick man to experiment. All arrived with pins and needles and bodkins. The man was asleep and they got around him, and each one stuck his pin in the patient. The sick man rolled over and looked at the crowd, and thought they had come to dissect him, so he took a chair in one hand and a bed-post in the other and drove the crowd thence. They were around several days afterward with their heads tied up, looking for the man who said the sick man had no feeling.

—How about this, which appears in the advertising columns of one of the city papers: "Wanted—Two sisters at No.— Grand street want washing."

THE
NEW ORLEANS, MOBILE & TEXAS
RAILROAD COMPANY
Are building a trunk line, connecting New Orleans with Mobile on the east, and giving
THE ONLY RAILROAD CONNECTION
between the former city and the great and most productive State of Texas of the west, the total distance from Mobile to Houston being 475 miles.
The Company is composed of strong Northern capitalists, who have already expended nearly
TEN MILLION DOLLARS of their own funds in the construction of the line. They have built about 225 miles from Mobile westward, and secured by purchase of securities and made provision for the thorough repair and equipment of the 108 miles of the Texas division; leaving but 140 miles to be built

To Complete the Entire Road.

It is believed that no other railroad corporation in the country has ever made so large an expenditure from its own means before offering any of its securities to the public.
The Company now offer for sale the

Eight Per Cent. Mortgage Bonds

upon the Louisiana division of 225½ miles from New Orleans to the Sabine River. This will probably be the most valuable portion of the whole line, as it will be the only rail communication by which the enormous productions of Texas can reach the Southern metropolis.
So important is this road considered to Louisiana, that the State has made very liberal grants in aid of the enterprise, by direct donations, by endorsement of its bonds, and by subscriptions to the stock of the Company, amounting in all to over eight million dollars.
The Bonds now offered are of two classes:

FIRST MORTGAGE BONDS,

to the amount of $12,500 per mile, and

SECOND MORTGAGE BONDS,

to an equal amount, both principal and interest guaranteed by the State of Louisiana. The price of the two classes is the same, and subscribers can take their choice.
The Bonds are only in the denomination of $1,000, or £200 each, interest payable January and July, at the rate of eight per cent. currency in New York, or seven per cent. gold in London, at the option of the holder, at the time each coupon is due. Bonds can be registered, if desired.
No better security has been offered to investors. The Bonds are largely profitable, as well as entirely safe. One thousand dollars invested in these eight per cent. bonds will give the purchaser *more than seventy-seven per cent.* greater annual interest than the same amount invested in the new Government Five Per Cents.
At the same price, an 8 per cent. currency long bond is far cheaper than a 7 per cent. gold one. Calculating a return to specie payment in three years, and taking the time that the bonds of the New Orleans, Mobile and Texas Railroad have to run—45 years—we find that by compounding the interest of each, every six months, at 7 per cent. **an 8 per cent currency bond at 90 will give a return of $2,613.18 MORE than a 7 per cent. gold bond, at the same price, or nearly three times the amount of the original investment.**
The Bonds are dated May 1, 1871. The first coupon will, therefore, be a fractional one, running from May 1 to July 1. The price is 90, and accrued interest at 8 per cent. currency from May 1st to date of remittance.
Subscriptions will be received in Portsmouth by

First National Bank.

Information concerning the Company and the Road, and pamphlets containing map and full details of the enterprise, can be obtained of the undersigned or any of the Company's advertised agents.

Consumption,
ITS CURE AND ITS PREVENTIVE,
By J. H. SCHENCK, M. D.
Many a human being has passed away, for whose death there was no other reason than the neglect of known and indisputably proved means of cure. These near and dear to family and friends are sleeping the dreamless slumber into which, had they calmly adopted
Dr. JOSEPH H. SCHENCK'S SIMPLE TREATMENT,
and availed themselves of his wonderfully efficacious medicines, they would not have fallen.
Dr. Schenck has in his own case proven that wherever sufficient vitality remains, that vitality, by his medicines and his directions for their use, is quickened into healthful vigor.
In this statement there is nothing presumptuous. To the faith of the invalids made no representation that is not a thousand times substantiated by living and visible works. The theory of the cure by Dr. Schenck's medicines is as simple as it is unfailing. Its philosophy requires no argument. It is self assuring, self-convincing.
The Seaweed Tonic and Mandrake Pills are the first two weapons with which the citadel of the malady is assailed. Twenty-five of the cases of consumption originate in dyspepsia and a functionally disordered liver. With this condition the bronchial tubes "sympathize" with the stomach, and respond to the morbific action of the liver. Here, then comes the culminating result, and the setting in, with all its distressing symptoms, of
CONSUMPTION.
The Mandrake Pills are composed of one of Nature's noblest gifts—the Podophillum Peltatum. They possess all the healing, purifying, preservative properties of calomel, but unlike calomel, they
"LEAVE NO STING BEHIND."
The work of cure is now beginning. The vitiated and mucous deposits in the bowels and in the alimentary canal are ejected. The liver, like a clock, is wound up. It arouses from its torpidity. The stomach acts responsively, and the patient begins to feel that he is getting, at last,
A SUPPLY OF GOOD BLOOD.
The Seaweed Tonic, in conjunction with the Pills, permeates and assimilates with the food. Chylification is now progressing, without its previous tortures. Impure humors become ejected, and cure is seen to be at hand. There is no more flatulence, no exacerbation of the stomach. An appetite sets in.
Now comes the greatest Blood Purifier ever yet given by an indulgent father to suffering man. Schenck's Pulmonic Syrup, comes in to perfect its functions and to hasten and complete the cure. It enters at once upon its work. Nature cannot be cheated. It collects and ripens the impaired and diseased portions of the lungs. In the form of gatherings it ripens them for expectoration. But if in a very short time the malady is vanquished, the rotten throne that it occupied is renovated and made secure, and the patient, in the full tide of regained vigor, steps forth to enjoy the manhood or womanhood that was
GIVEN UP AS LOST.
The second thing is, the patients must stay in a warm room, until they get well. This is as essential as possible to prevent taking cold when the lungs are diseased, but it must be prevented or a cure cannot be effected. Freshair can be enjoyed especially in this section of the country in the fall and winter season, are all wrong. Physicians who recommend that course lose their patients, if their lungs are badly diseased; and yet, because they are in the house they must not sit down quietly, but must walk about the room as much and as fast as the strength will bear, to get up a good circulation of blood. The patients must keep in good spirits—be determined to get well. This has a great deal to do with the appetite, and is the great point to gain.
To dispair of cure after such evidence of its possibility in the worst cases, and moral certainty in all others, is sinful. Dr. Schenck's personal statement to the Faculty of his own cure was in these modest words:
"Many years ago I was in the last stages of consumption; confined to my bed, and at one time my physicians thought that I could not live a week; I was like a drowning man catching at straws, I heard of, and obtained the preparations which I now offer to the public, and they made a perfect cure of me. It seemed to me that I could feel them penetrate my whole system. They soon ripened the matter in my lungs, and I would spit up more than a pint of offensive yellow matter every morning for a long time. As soon as that began to subside, my cough, fever, pains and night sweats all began to leave me, and my appetite became so great that it was with difficulty that I could keep from eating too much. I soon gained my strength, and have proven in flesh ever since."
"I was weighed shortly after my recovery," added the Doctor, "then looking like a mere skeleton; my weight was only sixty-seven pounds; my present weight is two hundred and twenty-five (225) pounds, and for years I have enjoyed uninterrupted health."
Dr. Schenck has discontinued his professional visits to New York and Boston. He or his son, Dr. J. H. Schenck, Jr., will continue to be found at their office, No. 15 North Sixth street, Philadelphia, every Saturday from 8 A. M. to 3 P. M. Those who wish a thorough examination with the Respirometer will be charged $5. The Respirometer declares the exact condition of the lungs, and patients can readily learn whether they are curable or not.
The directions for taking the medicines are adapted to the intelligence of all. A child can follow these directions, and kind Nature will do the rest, excepting that in some cases the Mandrake Pills are to be taken in increased doses; the three medicines need no other accompaniments than the ample instructions that accompany them: First, creates appetite. Of returning health hunger is the most welcome symptom. When hunger, as it will come, let the depositing at once be of good cheer. Good blood at once follows, the cough loosens, the night sweat is shaded. In a short time both of these bad symptoms are gone forever.
Dr. Schenck's medicines are constantly kept in tens of thousands of families. As a laxative or purgative, the Mandrake Pills are a standard preparation; while the Pulmonic Syrup, as a cure of coughs and colds, may be regarded as a prophylacteric against consumption in any of its forms.
Price of the Pulmonic Syrup and Seaweed Tonic $1.50, a bottle, or $7.50 a half dozen. Mandrake Pills, 25 cents a box. For sale by all druggists and dealers.

A GREAT MEDICAL DISCOVERY!
DR. WALKER'S CALIFORNIA
VINEGAR BITTERS.
Hundreds of Thousands Bear Testimony to their Wonderful Curative Effects.
WHAT ARE THEY!
THEY ARE NOT A VILE FANCY DRINK,
Made of Poor Rum, Whiskey, Proof Spirits and Refuse Liquors doctored, spiced and sweetened to please the taste, called "Tonics," "Appetizers," "Restorers," &c., that lead the tippler on to drunkenness and ruin, but are a true Medicine, made from the Native Roots and Herbs of California, **free from all Alcoholic Stimulants.** They are the GREAT BLOOD PURIFIER and a LIFE-GIVING PRINCIPLE, a perfect Renovator and Invigorator of the system, carrying off all poisonous matter and restoring the blood to a healthy condition. No person can take these Bitters according to direction and remain long unwell, provided the bones are not destroyed by mineral poison or other means, and the vital organs wasted beyond the point of repair.
For Inflammatory and Chronic Rheumatism and Gout, Dyspepsia or Indigestion, Bilious, Remittent and Intermittent Fevers, Diseases of the Blood, Liver, Kidneys and Bladder, these Bitters have been most successful. Such Diseases are caused by Vitiated Blood, which is generally produced by derangement of the Digestive Organs.
DYSPEPSIA OR INDIGESTION, Headache, Pain in the Shoulders, Coughs, Tightness of the Chest, Dizziness, Sour Eructations of the Stomach, Bad taste in the Mouth, Bilious Attacks, Palpitation of the Heart, Inflammation of the Lungs, Pain in the regions of the Kidneys, and a hundred other painful symptoms, are the offspring of Dyspepsia.
They invigorate the stomach and stimulate the torpid liver and bowels, which render them of unequalled efficacy in cleansing the blood of all impurities and imparting new life and vigor to the whole system.
FOR SKIN DISEASES, Eruptions, Tetter, Salt Rheum, Blotches, Spots, Pimples, Pustules, Boils, Carbuncles, Ring-Worms, Scald Head, Sore Eyes, Erysipelas, Itch, Scurfs, Discolorations of the Skin, Humors and Diseases of the Skin, of whatever name or nature, are literally dug up and carried out of the system in a short time by the use of these Bitters. One bottle in such cases will convince the most incredulous of their curative effect.
Cleanse the Vitiated Blood whenever you find its impurities bursting through the skin in Pimples, Eruptions or Sores; cleanse it when you find it obstructed and sluggish in the veins, cleanse it when it is foul, and your feelings will tell you when. Keep the blood pure, and the health of the system will follow.
PIN, TAPE and other WORMS, lurking in the system of so many thousands, are effectually destroyed and removed. For full directions, read carefully the circular around each bottle, printed in four languages—English, German, French and Spanish.
FOR FEMALE COMPLAINTS, whether in young or old, married or single, at the dawn of womanhood or at the turn of life, these Tonic Bitters have no equal. ☞ Send for a circular.
They are a Gentle Purgative as well as a Tonic, possessing also, the peculiar merit of acting as a powerful agent in relieving Congestion or Inflammation of the Liver, and all the Visceral Organs. 1yrdawfeb16

The Subscribers having purchased the "Business and Goodwill," of
The Old and Well Established Insurance Company of JOHN S. HARVEY,
have this day formed a co partnership, under the firm name of
MORSE & ILSLEY,
for the purpose of carrying on the Insurance Business in all its branches. They trust, by industry, integrity and strict judgment, to merit the approbation of all the old patrons of the office, and to receive a good share of new business.
MR. HARVEY will still take a lively interest in the Companies for which he has so long and faithfully worked, and he is authorized to receive applications for Insurance in said Companies as our Agent.
JOSEPH P. MORSE,
WINGATE N. ILSLEY.
Portsmouth, May 1, 1871.

A CARD.
HAVING disposed of my Insurance Business in all its branches to Messrs. Morse and Ilsley, two gentlemen well known for their integrity and business capacity, I return my thanks to my old and constant patrons and friends, for their many favors, and earnestly commend my successors, trusting the same generous patronage will be extended to them as to myself. They represent some of the oldest and most reliable Companies in both Fire and Life Insurance in the Country.

"THE NEW DEPARTURE."

CONFEDERIT X ROADS
(wich is in the State uv Kentucky),
May 24, 1871.

A calm and comprehensive survey uv the politikle field satisfied me, some months ago, that without some shift in the position uv the democrisy our hope uv success wuz exceedingly thin. The resolooshens interdoost by Vallandygum into the Convensum uv the democrisy uv Montgomery county, Ohio, wuz to me a new lite. Troo, they hev the slite disadvantage uv abjoorin everything that is democratic, and uv putting the democratic party on purely republican ground, but wat uv that? I kin stand even so sudden a change ez that. Wat I want is the soopreme happiness uv kickin that nigger Lubbock out uv the postoffis at the Corners, and uv putting myself in his place, and Kernel McFetter and Elder Pennibacker, who hev bin languishin outside the offices uv Assessor and Collector are actoontid by the same high and holy impulses. If to do this requires the okkepying uv republikin ground, the war cry uv us three is "okkepy." Kentucky is sure to go democratic anyhow, and if we kin by so simple a process ez passin resolooshens indoose enuff dissatisfied republikins in the close Northern States to vote with us these boons, we three are for passin these resolooshens, no matter wat they are. This bein my understandin uv Vallandygum's movement, I actid onto it to wunst.

I got the leadin dimocracy uv the Corners together one nite at Bascom's. That I mite get em all at one time, I waited till the regular evenin for the raid on the niggers and Northern settlers up toards Garrettstown, knowing that on their return the'd all stop at Bascom's for a drink, and that ef they'd bin successful in their hanging and burnin they'd be in good humor and ready to adopt anything I shood suggest. It wuz a very short but a very satisfactory consultashen. There wuz some objeckshuns on the part uv a few to what they called an abandonment uv dimocratic idees, but Bascom settled their bash in very short metre. He remarked that it wuz necessary that the offises be in the hands uv his friends for obvious reasons. He wantid pay and he knowd uv no other way to get it. He bleeved in the fullest freedom of thought and ackshen, and that every one shood express hisself untrameled, but he coodent abide a idiot. If there wuz any one in that assemblage so stoopid ez to differ with him on this question, let him make hisself known. No sich man shood ever git a drop at his bar, never; sich a one wuz not deservin uv even the commonest nesesaries of life. Several who had riz to their feet to object, dropt ez though they had been shot.

It wuz determined to hold a public meetin the next nite at the church to make a public endorsement uv Vallandygum's idea.

Ez the prinsiple objick of the meetin wuz to convins the republikins uv the doubtful States that the democrisy of the South really acceptid the situashen, and meant, in dead earnest, to recognize the great prinsiple uv equality, I arranged to hev all the niggers uv the Corners present, and saved for em the best seats in the house. Joe Bigler and Pollock come, uv course, wich I coodent help.

I opened the exercises by making a short speech ez I took the chair. I rejoist that the time had finally arriv when the lion and the lamb hed layed down together and a small child wuz a leadin uv em. I knowd that our colored fellow citizens hed bin despitefully yoosed, and that doo respeck hed not bin allez paid to our fellow citizens uv the North, but that time had now passed and I hoped forever. The democrisy uv the North, through Vallandygum, hed spoke; they hed accepted the situashen, halleloogy, and from this time henceforth and forever there wuz nothin but peece. I then offered the following resolooshen:—

Resolved, That the dimocrisy of the Yoonited States recognize the legality uv all the amendments made to the constitooshen doorin and since the late onpleasantnis, and that they recognize and most heartily acquiesce in all the results uv the war; that they not only withdraw all their opposishen to yooniversal suffrage, but pledge theirselves to see that our Afrikin fellow citizens hev not only this but all other rites heretofore enjoyed excloosively by the Caucashen.

I put the question ez to the adopshen uv the resolooshen, and it was carried yoonanimously. It wood hev bin well hed I stopped here, but I didn't. My prevailin weakness is to slop over and I slopt on this okkasion fearfully. I called upon the citizens uv the corners to prove their faith by their works. "There are," I said in a spasm of delite, "present at this meetin twenty-two uv our fellow citizens uv Afrikin descent. Let them step forverd on this platform—let Deekin Pogram, Elder Pennibacker, Bascom, Issaker Gavitt and eighteen other white citizens step forverd also. Let the clasp each other by the hand while I wave over em the flag uv our common kentry."

It wuz done. The twenty-two niggers stepped forverd, the whites designated advanced, the two lines grasped each other by the hand, and I wuz about to wave, when Joe Bigler riz. He begged me to wait a minit till he hed made his remark. The site afore him moved him almost to teers. Ef he had ever harbored a suspishen that there wuzn't anything generous in the Kentucky breast he took it all back. The ackshen uv to-nite wuz not only just, but it wuz generous.

"Generous!" said I. "Why generous?"

"Becoz," sed he, "the niggers wood be in a devilish bad way ef you hedn't decided on given em their rites uv yoor own akkord, for there ain't no power now that kin compel yoo to doo it. I jist got a Northern paper—alas! the republikin party is split into fragments—remarkably small fragments. Grant assaulted Summer in the capitol last Monday. Logan has bin stoned by the republicans uv Philadelfy on his way home, the Central Committees uv Ohio, Injeany and Illinoy hev divided, and each trackshen hev called a convenshen, and the Noo York Triboon throws up the sponge, and says that nethin under hevin kin prevent the success uv the democratic candidate for the Presidency, no matter who he may be or wat platform he is put onto. In view of the dissooloshen uv the republikin party, and the fact that the niggers ain't now got no perteckters, its really generous that yoo——"

"The republikin party is gone to pieces! hez it?" gasped my twenty-two white friends in korus.

"It hez!" responded Bigler.

"Then," sed Deekin Program, his eyes flashin with unwonted fire, "What we've done and sed don't count! Take that, you black cuss!"

And with a strength and activity wich I hedn't lookt for in one so agid, the Deekin fecht the darkey whose hand he hed bin graspin a most powerful blow atween the eyes, wich histed him clean off the platform. The others followed soot in their zeal, sprang off the platform after em, and wuz a executin war dances uv the most frantic decrispshen onto their prostrate bodies. It wuz with difficulty that Pollock and Bigler restrained em from takin uv em out and hangin uv em.

Ez a matter uv course the resolooshen wuz rescinded, and others adopted affirmin our adherence to the constooshen ez it yoost to be, the illegality uv the amendments, and the nateral soopremacy uv the white man over the d—d nigger, after which we adjourned to Bascom's ez is our custom, and there organized fresh raids into our nateral enemies.

The next morning I notised a peecoolyer look on Bigler's face, and likewise on Pollock's. They grinned at me ez I passed with a broadnis wich I couldn't account for. Lubbock, the nigger postmaster, burst into a roar ez I walked into his offis, and I angrily demanded the reason for his hilarity.

"Dat mistake ob Bigler's" returned he, laughing louder than before.

"What mistake?" I asked, turnin pale, for suspishun wuz creepin over me.

"Why, he didn't get no paper at all, and—"

"And all that story about the split in the republikin party North wuz one uv his infernal lies!"

"Dat's about de correct state ob de case!" replied the nigger showin all his ivories.—"Bigler wanted to see ef yoor pentance wuz genooine — dat's about dah wuz ob it. He 'spress a desire to ascertain jist how peeceable yood be to de nigger and de Northern people down heah, ef dah wuzn't no 'publikin party up North to hold yoo; dat wuz all."

And the nigger laffed a feendish laff.

"Dat wuz all?" he repeated.

It wuz enuff. I guess the cuss found out all that he wanted to. Uv course this "outrage," ez they call it, will get into the Northern papers, and uv course Vallandygum's assershun will expode itself without hurtin anybody. Joe Bigler is my evil genius. I shel never be able to run things ez I want to so long ez he lives.

600,000 ACRES
CHOICE IOWA LANDS.

This Company is now offering for sale about six hundred thousand acres of the finest agricultural lands in the West. The Company sells only to actual settlers, and the prices are exceedingly reasonable, ranging from $5 to $15 per acre—the average being about $8. The greater part of these lands are situated along the line of its railroad between the cities of Des Moines and Council Bluffs, and are in the most accessible and fertile region in the State.

Sales made for cash or on credit long enough to enable any industrious man to pay for the land out of its crops.

These lands are held under a title direct from the General Government, and are not mortgaged or encumbered in any way. Full warranty deeds given to purchasers.

For maps, pamphlets, or any other information respecting them, address EBENEZER COOK, Land Commissioner, Davenport, Iowa.

EXPLORING TICKETS are sold at the Company's ticket offices at Chicago, and all other principal stations on its line, and if the purchaser buys land the amount paid for the ticket is applied on the purchase money.

—An old rat in Elmira, N. Y., has laid in a quart of shoe pegs for winter use, under the impression that they are oats.

—A Memphis journalist complains that the delivery of Mr. Greeley's address in that city was "slabsided and grannyish."

—Moncure D. Conway was once secretary of a secession club. He afterwards became a most radical abolitionist, and during the war succeeded in getting the forty slaves, which belonged to his home estate in Virginia, to a settlement in Ohio, where they now live.

—California still waiteth for more women, and though the cry "Send us wives," is promptly met by the response "Take ours," they don't seem a bit disposed to accept the offer, but go on just as though we hadn't done the best we could for them.—*N. Y. Com. Advertiser.*

—The very latest idea in the fashionable world is the moonlight German—full dress and all that, but no lights in the saloons and windows wide open, silvery moonlight streaming in floods, delicious waltzes enchanting the air, and flirting perfectly unembarrassed by the garish gas-light.

—A Connecticut man has found a sure cure for the devastations of the current worm. He sprinkled his bushes with whiskey; the worm becomes drunk, gets to fooling around, and finally falls off, and and either breaks its neck outright, or cripples itself so that life becomes a burden.

—In Professor Phelps' book, entitled "The Still Hour," occurs the following sentence; "The stillness of the hour is the stillness of a dead calm at sea." Imagine the reverend author's horror when he found, after several hundred copies had been printed, that "calm" was made by the types to read "claw!"

—An ingenious German has gained a great reputation in New York by his success in training coach-horses to a grand gait. He used no burr bit or other cruel contrivance, and people couldn't see how he did it, until it was found that he put magnifying goggles upon his horses which made cobble-stones look like boulders, and they acquired a grand tread trying to step over them.

—In the time of the first Napoleon, when a draft was made for soldiers, one man had a substitute put in his place. After a time another draft was made and the same man was called again, but he said: "I am free. I sent a substitute into the army and he was killed, so I am as a dead man." The case was carried to the courts of France, and it was there decided that the man was free.

—A grave error committed by many mothers in these days is that of allowing their children to grow up in ignorance of work. We care not what may be the social position of the parents, it is a duty they owe their children to teach them to work so that they may be able to earn their own living—and that, too, even in the case of the girls. The old Jewish custom of giving every son a trade ought to be revived.

—One day, at the parade of his guard, the Emperor Paul I. of Russia was excessively indignant with one of his officers who was not a good horseman. "Cashier him, and send him to his estate," said the commanding general. "Pardon me, sire," answered the latter, "he is a poor man, and has no estate!" "Then give him one!" exclaimed the Emperor, as he rode away. This answer was not only original but imperial, for having been once uttered, the Emperor must keep his promise. The officer, therefore, was made possessor of an estate, in order to live in banishment upon it.

EFFECTS OF ALCOHOL.—The effects of alcohol have recently been tested in London by experiments upon a healthy soldier. The course of treatment was as follows: For the first six days no alcohol was given; for the next six days from one to eight ounces of alcohol were given in divided doses; for the next six days water alone; and then for three days twelve ounces of brandy, containing forty-eight per cent. of alcohol. The results are reported to be as follows: No appreciable difference was perceived in the weight during the course of the experiments, but the temperature of the body was slightly raised. The pulse was materially affected, rising from 77. 5 beats per minute before taking the alcohol to 94. 7 after the largest doses.

Estimating the normal daily work of the ventricles of the heart as equivalent to the lifting of 122 tons a foot, it was found that during the alcoholic period the heart was compelled to lift an excess of 15. 3 tons, and during the last two days, of 24 tons. The conclusion arrived at was, that alcohol is utterly useless in health, and positively injurious in larger quantities than two ounces daily. There however seemed to be indictated an advantage in its use if employed in rousing a feeble appetite or exciting a feeble heart.—*Harper's Mag. for July.*

AMERICAN & FOREIGN PATENTS.

R. H. EDDY, SOLICITOR OF PATENTS,

For Inventions, Trade Marks or Designs,

NO. 76 STATE ST., OPPOSITE KILBY ST., BOSTON,

After an extensive practice of upwards of thirty years, continues to secure patents in the United States; also in Great Britain, France and other foreign countries. Caveats, Specifications, Assignments, and all papers for Patents, executed on reasonable terms with dispatch. Researches made to determine the validity and utility of Patents of inventions, and legal and other advice rendered in all matters touching the same. Copies of the claims of any patent furnished, by remitting one dollar. Assignments recorded in Washington.

No Agency in the United States possesses superior facilities for obtaining Patents or ascertaining the patentability of inventions.

All necessity of a journey to Washington to procure a Patent and the usual great delay there, are here saved inventors.

TESTIMONIALS.

"I regard Mr. Eddy as one of the most *capable and successful* practitioners with whom I have official intercourse. CHARLES MASON, Commissioner of Patents."

"I have no hesitation in assuring inventors that they cannot employ a man *more competent and trustworthy* and more capable of putting their applications in a form to secure for them an early and favorable consideration at the Patent Office. EDMUND BURKE, Late Commissioner of Patents."

"MR. R. H. EDDY has made for me over THIRTY applications for Patents, having been successful in almost every case. Such unmistakable proof of great talent and ability on his part leads me to recommend ALL inventors to apply to him to procure their Patents, as they may be sure of having the most faithful attention bestowed on their cases, and at very reasonable charges. JOHN TAGGART."

PROPOSALS FOR MATERIALS TO BE SUPPLIED TO THE NAVY YARDS UNDER THE COGNIZANCE OF THE BUREAU OF CONSTRUCTION AND REPAIR.

NAVY DEPARTMENT,
BUREAU OF CONSTRUCTION AND REPAIR,
WASHINGTON, D. C., June 6, 187

SEALED PROPOSALS to furnish Timber and other materials for the Navy for the fiscal year ending June 30, 1872, will be received at this Bureau until 12 o'clock M., of the 30th of June instant, at which time the bids will be opened.

The proposals must be addressed to the Chief of the Bureau of Construction and Repair, Navy Department, Washington, and must be indorsed "Proposals for Timber, &c., for the Navy," that they may be distinguished from ordinary business letters.

To prevent confusion, and facilitate the opening of the bids, parties bidding for supplies at several yards will enclose their bids in separate envelopes, each indorsed with the name of the yard for which the bid is made.

Printed schedules for such classes as parties deal in and intend to bid for, together with instructions to bidders, giving the forms of proposals, of guarantee, and of certificate of guarantors, with printed forms of offer, will be furnished to such persons as desire to bid, on application to the Commandants of the respective Navy Yards, and those of all the yards on application to the Bureau.

The Commandant of each Navy Yard, and the Purchasing Paymaster for each Station, will have a copy of the schedules of the other yards for examination only, in order that persons who intend to bid may judge whether it is desirable to make application for any of the classes of those yards.

The proposals must be for the whole of a class, but the Department reserves the right to reduce the whole class, should the interest of the Government require it, before the execution of the contract. All applications for information, or for the examination of samples, must be made to the Commandants of the respective yards.

The proposal must be accompanied by a certificate from the Collector of Internal Revenue for the district in which the bidder resides, that he has a license to deal in the articles for which he proposes; *and, by direction of the Department, bids or offers will be received only from parties who are bona fide dealers in, or manufacturers of, the articles they offer to furnish.* The guarantors must be certified by the Assessor of Internal Revenue for the district in which they reside.

The contract will be awarded to the person who makes the lowest bid and gives the guarantee required by law, the Navy Department, however, reserving the right to reject the lowest bid, or any which it may deem exorbitant.

Sureties in the full amount will be required to sign the contract, and their responsibility must be certified to the satisfaction of the Navy Department.

An additional security twenty per centum will be withheld from the amount of the bills until the contract shall have been completed, and eighty per centum of the amount of each bill, approved in triplicate by the Commandants of the respective yards, will be paid by the Paymaster of the station designated in the contract, or, if none is specified, by the Paymaster of the station nearest the yard where the goods are delivered, within ten days after the warrant for the same shall have been passed by the Secretary of the Treasury.

The classes of this Bureau are numbered and designated as follows:—

No. 1, White Oak Logs; No. 2, White Oak Keel Pieces; No. 3, White Oak Curved Timber; No. 7, Yellow Pine Logs; No. 8, Yellow Pine Beams—Oregon Pine Beams at Mare Island yard; No. 9, Yellow Pine Mast Timber—Oregon Pine Mast Timber at Mare Island yard; No. 11, White Pine Logs; No. 12, White Pine Mast Timber; No. 13, White Pine Plank, Boards—Sugar Pine Boards at Mare Island yard; No. 15, White Ash, Elm, Beech—White Ash, Redwood at Mare Island yard; No. 16, White Ash Oars; No. 18, Black Walnut, Mahogany, Maple, Cherry; No. 22. CARD.

Having become satisfied after thorough investigations that Elastic Sponge, as now and lately manufactured, is one of the best of all substitutes for curled hair, for many if not most uses in upholstery, we have accepted the Agency for it, and intend to make it hereafter a speciality in our business. The objections which been made to it and which it is well known we ourselves have thought were well founded, we have found to cannot be urged against the article as now perfected. The process of manufacture has been entirely remodeled under the advice and superintendence of one of the most eminent chemists of New England. New chemical and mechanical appliances have been introduced in cleansing crude Sponge, and in charging it with glycerine with such entire success, that Elastic Sponge may now be said to be chemically pure. There is absolutely nothing in it but the clean fibre of Sponge and chemically pure glycerine.

The objections to Elastic Sponge being thus removed there remain its undisputed merits which certainly entitles it to be considered one of the most valuable, as it is one of the most recent and interesting of late discoveries. Chief among these merits is, that it is proof against moths—the great scourge of the business,—against all other insects. Then its elasticity is permanent, based as it is upon the non-evaporable property of glycerine and the indestructibility of sponge fibre. We have always been satisfied upon these two points which are the essential requisites in such materials. The evidence is now equally clear that it is wholesome and sweet. It is very light and soft, easy to manipulate, and cheap enough for all except the lowest class of goods. For the cushioning of Churches, Theatres, Public Halls, Railway Stations, Omnibuses, Carriages, Steam and Horse Cars and the like, it will probably be found, everything considered, the best article in use. For all uses, and especially for Bedding, we are now prepared to recommend the public to give it a fair trial as we ourselves intend to do. We are are ready also to answer inquiries, make estimates and take orders for every description of work in Sponge as well as to supply the trade the article in bales.

MONDAY, JUNE 19, 1871.

Editorial Correspondence.

CONCORD, June 16.

The Democracy, just on the verge of obtaining complete control of the State for years, find their unwilling hands irresistibly bound by the action of Senator Smith of the 10th District, and to Senator Smith belong the laurels of saving the State to the Republicans. It was a part of the bargain between the Democrats and Labor Reformers that in consideration of the Labor Reform votes which were to elect Marcy in the 1st Senatorial District, the Democrats were to help elect Smith in the 10th. The Labor Reformers were true to their bond and the Democratic leaders proved treacherous, but the Labor Reformers were forearmed. When Bingham arose to violate the agreement and desired a committee to investigate matters and report the names of the two constitutional candidates for the office of Senator in the 10th District, the plot was revealed. Then it was that the regular Republican candidate was to have been withdrawn, by his own consent, and the Republicans and Labor Reformers were prepared to choose Judge Smith. Bingham saw his error and withdrew his motion. The Republicans voted for their regular candidate and Judge Smith was elected by the combined opposition. The Democrats had shown their willingness to break faith when they dared, and from that time the coalition has been in great danger of going to pieces.

Judge Smith publicly announces that he will support the Republican party in the Senate, as all who knew the man were confident he would do. He was offered a bribe to vote with the Democrats, but indignantly spurned it, saying he preferred not to be elected by their votes. Judge Smith has been a member of the Republican party from its first inception, has held several important offices under its administration and is every way identified with its interests. He declares himself still a Republican and is eager to serve the party by preventing as he can do the passage of bills for reorganizing the judiciary, reconstructing the Senate, and redistricting the wards of the cities. These were pet projects of the Democracy, who were bent on binding the Republican party hand and foot, powerless to help themselves except by most desperate efforts. Bingham's great object is to be elected U. S. Senator next year, and the gentleman with his forehead rubbed back now finds the prize, apparently so near, slipping from his grasp. In untieing the 16 years' Gordian knot, the Democracy seem to have made a slip-noose of it.

More troubles are in view for the Democracy. The coming railroad fight will split them in twain. Two of their men have sickened while the two absent Republicans are recovering from their illness. The tie that binds Democracy and Labor Reform together is weakening. The leaders of the former seem possessed with a species of madness bordering on insanity, and are desirous of expelling a number of Republicans from the House. The Labor Reformers sniff danger in the distance. If the Democratic managers succeed in their plot, the Labor Reformers will lose the nice little balance of power they now hold, for the Democratic scheme includes the expulsion of a sufficient number of Republicans to give them a majority over the Republicans and Labor Reformers. Succeeding in this they propose to kick over the ladder on which they have mounted, and the little knot of Labor Reformers, who have thus far managed matters very shrewdly, will go to the wall, having been abundantly squeezed. The latter are aware of the little plot in store for them, and they look beyond the present year to the next political campaign and can see under such a state of affairs no other prospect than to be trampled under foot and made a laughing stock for their present allies.

"Politics is peculiar." Things change with time. The Republicans are jubilant over the tie in the Senate, and are quietly enjoying the squabble among "the unterrified" for the few offices now within the gift of the Democracy.

WOODHULL & CLAFLIN have sued the Christian Union for libel. Damages $250,000.

THE Concord Statesman calls the Labor Reformers the "Assistant Democracy."

JOHN V. L. MCMAHON, a prominent Maryland lawyer, died at Cumberland in that State, June 15, aged 71. His sister was the wife of C. L. Vallandigham.

THE DIGNITY OF OFFICE.—While the votes were being counted for Governor, &c., in the Legislature, a large number of the faithful crowded around the Speaker's desk, to the great annoyance of the Speaker and the tellers. A vote was passed in the convention that the desk be cleared, and a few left. The member of Congress from this District was, however, as impervious to the hint as to a just sense of the propriety of the occasion, and continued to hang around the desk with others of the party workers.

Mr. Hibbard, as he matures in office, will doubtless learn that the dignity of the unusual position in which he was so unexpectedly placed, is to be preserved not by doing the dirty work of his party, such as signing remonstrances at the instigation of the lobby, who desire to defeat the Dover Railroad project by disfranchising our city in the Legislature, and other public acts of the kind, but by being large enough to have some proxy for this uncongenial labor, while he, like a good General, remain, in the rear to direct rather than execute such details.

CLEMENT L. VALLANDIGHAM accidently shot himself with a pistol on the night of June 16, at Lebanon, Ohio. He was engaged as counsel for the defence of one McGeban, now on trial for the murder of a Mr. Myers, and was showing his associate in the defence, Lieut.-Gov. McBurney, how Myers might have killed himself accidentally. McBurney expressed some doubt as to the theory that Myers shot himself, and Vallandigham picked up the pistol from the table, saying that he would show him in half a second. Two pistols were on the table, one unloaded, and he by mistake took up the loaded one and put it in his pocket and withdrew it, keeping the muzzle next his body. Just as it was leaving his pocket it was discharged, it is reported, at nearly the part of the body where Myers was shot. He at once ejaculated: "Oh, murder!" and said he had taken the wrong pistol. While the examination was going on he watched the surgeons with eager eyes, and even assisted them in searching for the ball, which appears to have taken a downward course, in direction of the bladder, and has not been found. He rapidly sank until 9.45 A. M. on the 17th, when he expired. He was in the 50th year of his age.

A DIG IN REPUBLICAN RIBS.—The Prohibition Herald takes a back at Hackett, Portsmouth and the moral idea party, as follows:—

Mr. Hackett of Portsmouth, Republican, from a rum city, a rum corner of the State, and from the rum wing of the party, with a very noticeable haste gave notice of a bill to repeal so much of the prohibitory law as makes owners of buildings responsible for the liquor sold. Last year these New Hampshire Republicans passed, unsolicited by the Temperance party, this very provision to "conciliate or disarm the Temperance party," and now they hasten to repeal it to conciliate or disarm the rum party. So the people pray, who know not into whose hands they may fall, "Good Lord, and good devil!"—*Patriot.*

The difference between the Republican party and its opponents is clearly seen from the above. If a Democrat wanted to introduce a measure to the Legislature, he would be obliged to submit it to King Bingham and obtain permission of the caucus before daring to offer it. Mr. Hackett is one of those Republicans who does not believe that the temperance reform can be consummated by legislation any more than that the Republican party should shoulder every hobby that any of its members may see fit to thrust upon it.

Mr. Hackett, as we have reason to know, in obedience to the request of several large real estate owners, gave notice of the bill which causes so much fluttering among the Democrats. The sentiment in Portsmouth is decidedly against such enactments as were passed last year, and against which several of our last year's delegates voted. Of course the fact that the Democrats endeavored to assess all the liquor dealers and hotel proprietors here to swell the Democratic fund, on a promise to repeal the law, can have no connection with the Patriot's "hack."

WESTON has at last accomplished "a walk;" he has travelled 400 miles in five days, and had 18 minutes to spare.

THE Rutherford (N. C.) Star has been mobbed, the office destroyed, and the editor taken from his bed and brutally whipped. Cause, republican political faith.

THE celebration at Charlestown, Mass., of the anniversary of the battle of Bunker Hill, June 17, was an extensive affair. Open air concerts, processions, a yacht club review, decorations and illuminations, were the principal features. Rev. Col. James Fisk and the Ninth Regiment of New York Saints took part.

THE allied squadron which went to the Corea to call the natives to account for past outrages on shipwrecked seamen (including the murder of the General Sherman's crew), and to prevent such outrages in the future, has found some work to do. Admiral Rodgers, commanding the Asiatic fleet, forwards from Boten Island, the following account of his reception by the Coreans, to whom he had gone for the purpose of negotiating a treaty for the protection of shipwrecked sailors of civilized nations, who have hitherto suffered death, slavery or other cruel treatment at the hands of the natives. The Monocacy, Palos and four steam launches, under Commander Blake, were sent to examine the river Sable at a point called "Difficulty Passage" on the French chart. At a point where navigation is most perilous, masked batteries, manned by several thousand Coreans, unmasked and opened a heavy fire without warning upon our people. The French ship in advance fought gallantly, and our vessels bearing up drove the enemy from their works. The tide swept all the ships past the batteries, and they achored and threw shells among the enemy—eight-inch shells, which evidently were not expected. The Monocacy was slightly injured by knocking upon a sunken rock, but is now temporarily repaired. The vessels in returning received no fire, the enemy having been driven from the forts. Our people displayed great gallantry and only two were wounded. A communication was received which may open negotiations; otherwise, since the Coreans have met peaceful overtures with unprovoked war, our forces will land, and, destroying the forts, will take such other measures as the interests of civilization require.

SECRETARY BOUTWELL has decided not to hear the appeal of the New York Central Railroad Company in the scrip dividend case. Good, so.

BUSINESS NOTICES.

Tooth ache proceeds from ague in the face, operating upon the exposed nerve of a decayed tooth. Rub the gum thoroughly with the finger, wet with *Johnson's Anodyne Liniment* heat the face well, and lap a flannel wet with the liniment on the face, also put a little of the liniment into the cavity of the tooth on cotton.

The system frequently gets out of order and should be at once regulated, else other troubles will ensue; when physic is needed take *Parson's Purgative Pills*; they are a safe, wholesome, and natural medicine.

SPECIAL NOTICES.

Valuable Hints.

A regular habit of body is absolutely essential to physical health and clearness of intellect. Nor is this all. Beauty of person cannot co-exist with an unnatural condition of the bowels. A free passage of the refuse matter of the system through these natural waste pipes, is as necessary to the purity of the body as the free passage of the offal of a city through its sewers is necessary to the health of its inhabitants.

Indigestion is the primary cause of most of the diseases of the discharging organs, and one of its most common results is constipation. This complaint, besides being dangerous in itself, has many disagreeable concomitants—such as an unpleasant breath, a sallow skin, contaminating blood and bile, hemorrhoids, headache, loss of memory and general debility.

Hostetter's Stomach Bitters remove all these evils by removing their immediate cause in the digestive organs, and regulating the action of the intestines. The combination of properties in this celebrated preparation is one of its chief merits. It is not merely a stimulant or a tonic, or an antibilious agent, or a nervine, or a blood depurent, or a cathartic, but all these curative elements join lovily blended in one powerful restorative. It lends activity and vigor to the inert and enervated stomach relieves the alimentary canal of its obstructions, and gives tone to the membranes which lines it, gently stimulates the liver, braces the nerves, and cheers the animal spirits. No other remedy possesses such a variety of hygienic virtues. It is to these characteristics that it owes its prestige as a household medicine. Experience has proved that it is as harmless as it is efficacious, and hence it is as popular with the weaker sex as with the stronger.

HOSTETTER'S STOMACH BITTERS are sold in bottles only, and the trade-mark blown in the glass and engraved on the label, is the test of genuineness. Beawre of counterfeits.

It is now said that the base ball match between the Bowdoin and Dartmouth College nines will come off in this city next Thursday.

There appears to be no hope that the Portsmouth & Dover Railroad will be built as long as the Eastern and Boston & Maine corporations choose to give it the cold shoulder. There is some doubt as to the probabilities of passing the bill now before the legislature. A hearing is to be held before the House Committee on Railroads, next Wednesday.

An old land mark has this week been removed from Lincoln Hill, on South Road. The one story house long known as the Johnny Floyd house, has been torn down by Mr. Miller, to make way for better buildings on this eligible site. The structure was probably nearly one hundred and fifty years old. It was formerly known as the red house, and fifty years ago a very popular malt beer was brewed, sold and drank therein.

Real Estate Sales.—Major Hackett sold at auction on Saturday, the wood yard, &c., of estate of the late Geo. H. Rogers, for $1550; also the Sherburne wharf and other property, of same estate, for $5 above the encumbrances, to Mr. F. W. Rogers. The same Auctioneer sold the land formerly of the late Maj. Alexander Rice, on Market Street, with the buildings, &c., for $1040. Wm. D. Fernald, Esq., was the purchaser.

Trowbridge & Bloodgood, at their entertainment on Friday evening, will be assisted by their whole troupe of 22 performers, including many old favorites, most of whom are steadily engaged in Boston for nine months in the year. Messrs. Trowbridge and Bloodgood, Tommy and Willie Daley, the youthful dancers, and the Freeman Sisters are well known here, and have always drawn well. Their programme is a good one.

Stone & Murray's circus exhibits here to-morrow, June 20th. This circus is one of the best that visits our city, and has always given good satisfaction to those attending. A grand free show is given prior to the afternoon performance, consisting of a balloon ascension by an intrepid aeronaut and a walk up a wire rope by a famous female funambulist. For particulars, see advertisement, or any of the billboards 'round town.

Let it be a Good One.—*Messrs. Editors*, we are glad to hear that it is proposed to give Messrs. Peirce, of the Rockingham House, a complimentary supper, Wednesday evening, the 21st inst.; and we hope all who can will assist in making the benefit a rouser. The gentlemen are eminently deserving and their every effort has always been in favor of Portsmouth. We understand that Mr. J. C. Butler has the tickets especially in charge. Let them be all taken up. Citizens.

At the first quarterly meeting of the officers of the Young People's Union, it was decided to close the rooms during the warm weather from the 5th of July to the 5th of September. The Library will be open on Saturday evenings as usual from 8 o'clock to 9, for the benefit of members who desire to take out books. Since its organization in March the Union has received a membership numbering nearly three hundred, while the efforts put forth for the interest and benefit of the young have met with gratifying results.

Portsmouth Republicans point with pride to the fact that no votes were lost from their delegation to the legislature from this city, during the recent contests at Concord. On every yea and nay vote, the names of Horton D. Walker, John H. Hutchinson, Geo. W. Pendexter, John Pender, Charles H. Sides, Francis W. Ham, John H. Flagg and William H. Hackett were recorded. While Dover was minus three Republican votes because of divisions, Concord one for the same reason, Manchester three, and the absence of one member from Nashua resulted in the defeat of the Republican candidate for Clerk of the House, the Portsmouth Republican members presented a united front, and by their side as surely as their names were called were found Origen S. Caswell of Gosport and Nathaniel P. Campbell of Newcastle, who proudly claim a clean record among the 162 members who were relied upon and never found wanting.

The annexation of Newcastle is strongly opposed by several citizens, and it is said the Portsmouth delegation are not inclined to urge it in the legislature.

The Ticonderoga has not yet sailed from the lower harbor; it is said she has her sailing orders, but the paymaster's funds are not yet sent aboard by the department.

In our advertising columns this morning may be found a caution by J. N. Richardson, Sons & Owden, of Belfast, Ireland, against the purchase of linens professing to be "Richardson's Irish," unless duly marked with the seal of the firm—the name in full. Richardson's Irish Linens have given such general satisfaction in the past that other and inferior goods are often made up to imitate them in fold and general appearance—a proceeding which, tho' flattering to the Irish manufacturers, is far from pleasing to them, tending as it does to injure the well earned reputation of their goods.

A fuller explanation of the circumstances attending the death of the seaman Seymour, late of U. S. S. Ticonderoga, by one of her officers, satisfies us that landing the sick man at a distance from the Hospital and the lack of means to transport him thither, resulted from a series of accidents for which the surgeon (or others) should not be blamed; and we are assured that the man had been on the sick list for some time, and would have been taken to the Hospital some days before he was, but for the weather. We are pleased to make this correction, as it would not be pleasant to believe that a naval surgeon could be so heartless to a dying man as our first information seemed to show.

Mr. James A. Bark, keeper of Whale's Back Lighthouse, was drowned about 5 o'clock Sunday afternoon, by being in some manner thrown from a small boat in which he was alone, while engaged in drawing a lobster pot. A little daughter of deceased saw him in the water, from the lighthouse, and gave the alarm to the other occupants, one of whom broke the bell rope in the endeavor to attract attention from the shore. A shawl was then hoisted as a signal of distress, and Mr. James Anderson, watchman at the U. S. hospital on Wood Island, and Mr. Albion Wallace, a fisherman, went off to the lighthouse, but too late to render aid to Mr. Barr. Mr. Wallace afterwards pulled up to the city in the driving rain to report the accident, and says the sea was running very high at the time Mr. Barr was thrown from his boat. We are informed that deceased was about 30 years of age, and leaves a large family.

Capt. William Amazeen, who died in Farmington, May 18, at the age of 86, was the last survivor of a very large family. He was born in Newcastle, where he resided sixty years. For many years he was connected with the late Capts. Oliver and Tarlton in the fish business. He commanded the respect and confidence of his townsmen, and his integrity and uprightness of character often placed him in positions of trust. He took great interest in all movements to promote the welfare of his town, and aided greatly both by his influence and money in building and sustaining places of public worship, and in the education of the young. In all things he was thorough temperance man, and his motto was "early to bed and early to rise"—all which aided and sustained him through his long life. His last was his first sickness; he lived the last eleven days without food. His dying advice to his family was "live honest and upright before God and men, and when you come to die you will find that peace and consolation which those who do not so live fail to enjoy." S.

THE NEW ORLEANS, MOBILE & TEXAS RAILROAD COMPANY

Are building a trunk line, connecting New Orleans with Mobile on the east, and giving

THE ONLY RAILROAD CONNECTION

between the former city and the great and most productive State of Texas of the west, the total distance from Mobile to Houston being 475 miles.

The Company is composed of strong Northern capitalists, who have already expended nearly **TEN MILLION DOLLARS** of their own funds in the construction of the line. They have built about 225 miles from Mobile westward, and secured by purchase of securities and made provision for the thorough repair and equipment of the 106 miles of the Texas division; leaving but 140 miles to be built

To Complete the Entire Road.

It is believed that no other railroad corporation in the country has ever made so large an expenditure from its own means before offering any of its securities to the public.

The Company now offer for sale the

Eight Per Cent. Mortgage Bonds

upon the Louisiana division of 226¾ miles from New Orleans to the Sabine River. This will probably be the most valuable portion of the whole line, as it will be the only rail communication by which the enormous productions of Texas can reach the Southern metropolis.

So important is this road considered to Louisiana, that the State has made very liberal grants in aid of the enterprise, by direct donations, by endorsement of its bonds, and by subscriptions to the stock of the Company, amounting in all to over eight million dollars.

The Bonds now offered are of two classes:

FIRST MORTGAGE BONDS,

to the amount of $12,500 per mile, and

SECOND MORTGAGE BONDS,

to an equal amount, both principal and interest guaranteed by the State of Louisiana. The price of the two classes is the same, and subscribers can take their choice.

The Bonds are only in the denomination of $1,000, or £200 each, interest payable January and July, at the rate of eight per cent. currency in New York, or seven per cent. gold in London, at the option of the holder, at the time each coupon is due. Bonds can be registered, if desired.

No better security has been offered to investors. The Bonds are largely profitable, as well as entirely safe. One thousand dollars invested in these eight per cent. bonds will give the purchaser *more than seventy-seven per cent.* greater annual interest than the same amount invested in the new Government Five Per Cents.

At the same price, an 8 per cent. currency long bond is far cheaper than a 7 per cent. gold one. Calculating a return to specie payment in three years, and taking the time that the bonds of the New Orleans, Mobile and Texas Railroad have to run—35 years—we find that by compounding the interest of each, every six months, at 7 per cent. **an 8 per cent currency bond at 90 will give a return of $2,614.18 MORE than a 7 per cent. gold bond, at the same price, or nearly three times the amount of the original investment.**

The Bonds are dated May 1, 1871. The first coupon will, therefore, be a fractional one, running from May 1 to July 1. The price is 90, and accrued interest at 8 per cent. currency from May 1st to date of remittance.

Subscriptions will be received in Portsmouth by

First National Bank.

Information concerning the Company and the Road, and pamphlets containing map and full details of the enterprise, can be obtained of the undersigned or any of the Company's advertised agents.

Consumption,

ITS CURE AND ITS PREVENTIVE.

By J. H. SCHENCK, M. D.

Many a human being has passed away, for whose death there was no other reason than the neglect of known and indisputably proved means of cure. Those near and dear to family and friends, sleeping the dreamless slumber into which, had they calmly adopted

Dr. JOSEPH H. SCHENCK'S SIMPLE TREATMENT,

and availed themselves of his wonderfully efficacious medicines, they would not have fallen.

Dr. Schenck has in his own case proven that wherever sufficient vitality remains, that vitality, by his medicines and his directions for their use, is quickened into healthful vigor.

In this statement there is nothing presumptuous. To the faith of the invalid is made no representation that is not a thousand times substantiated by living and visible works. The theory of the cure by Dr. Schenck's medicines is as simple as it is unfailing. Its philosophy requires no argument. It is self evidencing, self-convincing.

The Seaweed Tonic and Mandrake Pills are the destructive weapons with which the citadel of this calamity is assailed. Two-thirds of the cases of consumption originate in dyspepsia and a functionally disordered liver. With this condition the bronchial tubes "sympathize" with the stomach. They respond to the morbific action of the liver. Here, then, comes the culminating result, and the setting in, with all its distressing symptoms, of

CONSUMPTION.

The Mandrake Pills are composed of one of Nature's noblest gifts—the Podophillum Peltatum. They possess all the blood-searching, alterative properties of calomel, but unlike calomel, they

"LEAVE NO STING BEHIND."

The work of cure is now beginning. The vitiated and mucous deposits in the bowels and in the alimentary canal are ejected. The liver, like a clock, is wound up. It arouses from its torpidity. The stomach acts responsively, and the patient begins to feel that he is getting, at last,

A SUPPLY OF GOOD BLOOD.

The Seaweed Tonic, in conjunction with the Pills, permeates and assimilates with the food. Digestion is now progressing without its previous tortures. Digestion becomes painless, and the cure is seen to be at hand. Then it is that Dr. Schenck's Pulmonic Syrup comes in to perform its functions and to hasten and complete the cure. It enters at once upon its work. Nature cannot be cheated. It collects and ripens the impaired and diseased portions of the lungs. In the form of gatherings it prepares them for expectoration, and lo! in a very short time the malady is vanquished, the rotten tissue that is occupied is removed and made new, and the patient, in all the dignity of regained vigor, steps forth to enjoy the manhood or womanhood that was

GIVEN UP AS LOST.

The second thing is, the patients must stay in a warm room, until they get well; it is almost impossible to prevent taking cold when the lungs are diseased, but it must be avoided, or cure will not be effected. Fresh air and riding out, especially in this section of the country during the fall and winter season, are all wrong. Physicians who recommend that course lose their patients, if their lungs are badly diseased; and yet, nevertheless, are the physicians they must not sit down quiet: they must walk about the room as much and as fast as the strength will bear, to get the lungs to circulate the blood. The patients must keep in good spirits—be determined to get well. This is a great deal to do with the appetite, and is the great point to gain.

To despair of cure after such evidence of its possibility in the worst cases, and with such certainty in all others, is sinful. Dr. Schenck's personal statement to the Faculty of his own cure was in these modest words:

"Many years ago I was in the last stages of consumption: confined to my bed, and at one time my physicians thought that I could not live a week; then like a drowning man catching at straws, I heard of, and obtained the preparations which I now offer to the public, and they made a perfect cure of me. It seemed to me that I could feel them penetrate my whole system. They soon ripened the matter in my lungs, and I would spit up more than a pint of offensive matter in a morning, raising for long time. As soon as that began to subside, my cough, fever, pains and night sweats all began to leave me, and my appetite so improved that it was with difficulty that I could keep from eating too much. I soon gained my strength, and have gained in flesh ever since.

"I was weighed shortly after my recovery," added the Doctor, "then looking like a mere skeleton; my weight was only ninety-seven pounds; my present weight is two hundred and twenty-five (225) pounds, and for years I have enjoyed robust health in consequence."

Dr. Schenck has discontinued his professional visits to New York and Boston. He or his son, Dr. J. H. Schenck, Jr., still continue to see patients at their office, No. 15 North Sixth street, Philadelphia, every Saturday from 9 A. M. to 3 P. M. Those who wish a thorough examination with the Respirometer will be charged $5. The Doctor still declares the exact condition of the lungs, and patients can readily learn whether they are curable or not.

The directions for taking the medicines are adapted to the intelligence even of a child. Follow these directions, and the Doctor will do the rest, excepting that in some cases the Mandrake Pills are to be taken in increased doses; the three medicines need no other accompaniments than the simple instructions that accompany them: First, create appetite. Of returning health hunger is the most welcome symptom. It comes at last. It will come, let the despairing at once be of good cheer. Good blood is the result of good digestion, and that night sweat is abated. In a short time both of these morbid symptoms are gone forever.

Dr. Schenck's medicines are constantly kept in tens of thousands of families. As a laxative or purgative, the Mandrake Pills are unrivalled. As a preparation with the Pulmonic Syrup, as a cure of coughs and colds, may be regarded as a prophylactic against consumption. Prices of the medicines:

Price of the Pulmonic Syrup and Seaweed Tonic $1.50, a bottle, or $7.50 a half dozen. Mandrake Pills, 25 cents a box. For sale by all druggists and dealers.

Health Regulations.

THE BOARD OF HEALTH of the City of Portsmouth call the attention of the public to the following sections of City Ordinances No. 4 and No. 100, and invite all interested in the preservation of health in the City to aid them in the execution of their duty.

ORDINANCE NO. 4.

Sec. 3.—All waste water of houses, yards, cellars, sinks, pumps, &c. shall be conveyed by their owners or occupiers to the common sewers, or to such places as the Health Officers may direct.

Sec. 4. No person shall be allowed to throw any vegetable or dead animal substance, or any other matter capable of producing infection, into any street, lane, alley or dock, or upon any wharf, but shall bury them or throw them into the river below low-water mark.

Sec. 5. The contents of vaults and privies shall not be permitted to rise within one foot of the surface of the earth. And all owners or occupiers of buildings having such vaults or privies as may require it, shall cause them to be emptied within ten days from the promulgation of this ordinance, and in future on or before the first day of May in each year. And any such owner or occupier neglecting so to do, shall forfeit and pay for every such neglect a sum not less than three nor more than twenty dollars, and a like sum for every week's neglect after the time above specified.

Sec. 11. The health officers may give written notice to the owner or occupier of any building, yard or enclosure, to remove or destroy any nuisance or other thing deemed by them, on examination, to be injurious to the public health, within a certain time limited therein; and in case such owner or occupier—the said notice having been given to him, or left at his usual place of abode—shall neglect to comply therewith, the said health officers may, by direction of the mayor and accompanied by the city marshal, forcibly enter such building, yard, or enclosure, and cause the said nuisance or other thing aforesaid to be removed or destroyed.

Sec. 14. The owner or occupier of any building, yard or enclosure shall be liable to pay the expense of the removal or destruction of any such nuisance or other thing, as aforesaid, including fees of the health officers who order or cause the same to be removed; and the same may be recovered by action to be brought in the name of the city.

Sec. 17. Any person or persons who shall violate any rule or regulation, or commit any act forbidden in any section of this ordinance, to which no special penalty is annexed, shall forfeit and pay a sum not less than one dollar nor more than twenty dollars, to be recovered by complaint before the police court of this city.

ORDINANCE NO. 100.

Sec. 1. When any householder shall know that any person within his family is taken sick of the Small Pox, or any other disease dangerous to the public health, he shall immediately give notice thereof to the Health Officers.

Sec. 2. When any physician shall know that any person whom he is called to visit is sick with the Small Pox, or any other disease dangerous to the public health, such physician shall immediately give notice thereof to the Health Officers.

Sec. 3. If any such householder or physician shall refuse or neglect to give the notice required in the preceding sections, he shall for each refusal or neglect, forfeit the sum of twenty dollars, to be recovered by either of the Health Officers in the name of the city.

NEW FIRM!

INSURANCE BUSINESS

The Subscribers having purchased the "Business and Goodwill," of

The Old and Well Established Insurance Company of JOHN S. HARVEY,

have this day formed a co partnership, under the firm name of

MORSE & ILSLEY,

for the purpose of carrying on the Insurance Business in the Town of Rye. They trust, by industry, integrity and good judgment, to merit the approbation of all the old patrons of the office, and to receive a good share of new business.

Mr. HARVEY will still take a lively interest in the Companies for which he has so long and faithfully worked, and he is authorized to receive applications for insurance in said Companies as our Agent.

JOSEPH P. MORSE, WINGATE N. ILSLEY,
Portsmouth, May 1, 1871.

A CARD.

HAVING disposed of my Insurance Business to JOSEPH P. MORSE and WINGATE N. ILSLEY, two gentlemen well known for their integrity and business capacity, I return my thanks to my old and constant patrons and friends, for their many favors, and earnestly recommend my successors, trusting the same generous patronage will be extended to them as to myself. They represent some of the oldest and most reliable Companies in both Fire and Life Insurance in the Country.

NEW HAMPSHIRE ITEMS.

Rev. Dr. Eames of Concord has lately been on a fishing excursion down the lakes on the borders of Maine and Canada. On the Sunday that he was there he held a service and preached, his audience consisting of 75 men engaged in lumbering and logging. They were fine-looking, stalwart men, and paid the utmost attention to the services, doing their part in singing with all the enthusiasm in the world. Some of the men told him they had not attended a religious service of any kind for two years.

At Great Falls the water in the river is very low, and most of the manufactories in town that depend upon the main stream have been obliged to suspend work in order to allow water enough to run the mills of the Great Falls Manufacturing Company. The mills are all running, and can probably continue operations for several weeks.

At the recent meeting of the State Historical Society, it was decided to be represented at the meeting to be held in Philadelphia on the 4th of July next, to initiate arrangements looking to the celebration in that city of the centennial anniversary of American independence in 1876.

THE District of Columbia refuses to permit prize-fights, pugilistic exhibitions or sparring matches.

FOURTEEN persons were drowned in the Frith of Fourth, Scotland, June 16, while boating for pleasure.

"THE tallest school teacher in Maine," and one of the greatest rascals, as well—Dr. Albion Cobb, who recently eloped with Miss Dow, has returned to his family at Casco.

THE Roman Catholics everywhere celebrated the Pope's jubilee Friday—in Washington by a torchlight procession, fireworks and salutes, and by high masses in Philadelphia and New York.

SEVERAL Episcopal bishops advised and recommended Bishop Whitehouse not to pronounce the sentence of degradation upon Rev. Mr. Cheney, before it was pronounced; and one prominent bishop has written Cheney that he will still recognize him (Cheney) as a minister in good standing in the Episcopal Church.

THE triumphal entry of the German army into Berlin was a wonderful spectacle. The city was crowded with spectators and the decorations were magnificent. The procession was one of the finest displays of the century. All the captured cannon and eagles were in the procession. The enthusiasm of the people was immense, and found vent in cheering, embracing the victorious soldiers and crowning them with flowers. The Emperor unveiled the statue of his father amid intense excitement, and after a speech, conferred distinguished honors on the principal commanders. Von Roon is made a count and Von Moltke field marshal of the imperial army. At night the city was a blaze of illuminations.

For sublimity of egotism the following by a French writer in the Siecle is ahead of almost anything we have met with. When we consider the cowardice, cruelty, vandalism and devilry in general which Paris has exhibited within six months past, it is apparent enough where the world would go to if it followed that city, notwithstanding "if Paris should disappear humanity would" be lost!

This city cannot perish, for it is France, and France is indispensable to the world. If Paris should disappear humanity would no longer know whither she must tend, and we should fall back into the darkness of barbarism. But in order that the world of regeneration may be accomplished, peace must be reestablished in our breasts.

—A southern paper relates a laughable incident connected, with the visit of the joint high commission to Harper's Ferry. The presence of the distinguished party attracted a large number of citizens anxious to obtain a peep at the titled visitors, and among them was a pompous old gentleman somewhat noted for his venerable appearance, fluency of speech and strict conservative principles, who was conspicuous in his endeavors to make himself agreeable. Attaching himself specially to a gentleman who was evidently one of the most prominent of the party, he took occasion to remark in oratorical tones: "I am happy to see you gentlemen of England. As an American citizen I came to pay my respects to you; but I want nothing to do with those d—d Yankees with whom you are associated." The gentleman addressed, and those of the visitors within hearing, appeared to enjoy the remark hugely; but the old gentleman himself was intensely disgusted when he was informed that he had been talking with General Schenck.

600,000 ACRES

CHOICE IOWA LANDS,

This Company is now offering for sale about six hundred thousand acres of the finest agricultural lands in the West. The Company sells only to actual settlers, and the prices are exceedingly reasonable, ranging from $5 to $10 per acre—the average being about $8. The greater part of these lands are situated along the line of its railroad between the cities of Des Moines and Council Bluffs, and are in the most accessible and fertile region in the State.

Sales made for cash or on credit long enough to enable any industrious man to pay for the land out of its crops.

These lands are held under a title direct from the General Government, and are not mortgaged or encumbered in any way. Full warranty deeds given to purchasers.

For maps, pamphlets, or any other information respecting them, address EBENEZER COOK, Land Commissioner, Davenport, Iowa.

EXPLORING TICKETS are sold at the Company's ticket offices at Chicago, and all other principal stations on its line, and if the purchaser buys land the amount paid for the ticket is applied on the purchase money.

TARRANT'S SELTZER APERIENT.

SECTS AND CREEDS DIFFER, but there are no dissenters from the general principle that this preparation is a great blessing. We have many of these blessings, but among them all, in the province to which it belongs, no greater than

Tarrant's Effervescent Seltzer Aperient.

A column would not suffice to enumerate the ailments for which it is prescribed by physicians of the highest standing. It does not belong to the class derisively termed patent medicines, but is an article based on scientific analysis, and will stand the test of the sharpest and most rigid medical criticism as a cathartic, a stomachic, an anti-febrile preparation, and an admirable remedy for all bilious complaints.

Let there be no mistake. Secure the genuine article only.

A GREAT MEDICAL DISCOVERY!

DR. WALKER'S CALIFORNIA

VINEGAR BITTERS,

Hundreds of Thousands Bear Testimony to their Wonderful Curative Effects.

WHAT ARE THEY!

THEY ARE NOT A VILE FANCY DRINK,

Made of Poor Rum, Whiskey, Proof Spirits and Refuse Liquors doctored, spiced and sweetened to please the taste, called "Tonics," "Appetizers," "Restorers," &c., that lead the tippler on to drunkenness and ruin, but are a true Medicine, made from the Native Root and Herbs of California, **free from all Alcoholic Stimulants.** They are the GREAT BLOOD PURIFIER and a LIFE-GIVING PRINCIPLE, a perfect Renovator and Invigorator of the system, carrying off all poisonous matter and restoring the blood to a healthy condition. No person can take these Bitters according to direction and remain long unwell, provided the bones are not destroyed by mineral poison or other means, and the vital organs wasted beyond the point of repair.

For Inflammatory and Chronic Rheumatism and Gout, Dyspepsia or Indigestion, Bilious, Remittent and Intermittent Fevers, Diseases of the Blood, Liver, Kidneys and Bladder, these Bitters have been most successful. Such Diseases are caused by Vitiated Blood, which is generally produced by derangement of the Digestive Organs.

DYSPEPSIA OR INDIGESTION, Headache, Pain in the Shoulders, Coughs, Tightness of the Chest, Dizziness, Sour Eructations of the Stomach, Bad taste in the Mouth, Bilious Attacks, Palpitation of the Heart, Inflammation of the Lungs, Pain in the regions of the Kidneys, and a hundred other painful symptoms, are the offspring of Dyspepsia.

They invigorate the stomach and stimulate the torpid liver and bowels, which render them of unequalled efficacy in cleansing the blood of all impurities and imparting new life and vigor to the whole system.

FOR SKIN DISEASES, Eruptions, Tetter, Salt Rheum, Blotches, Spots, Pimples, Pustules, Boils, Carbuncles, Ring-Worms, Scald Head, Sore Eyes, Erysipelas, Itch, Scurfs, Discolorations of the Skin, Humors and Diseases of the Skin, of whatever name or nature, are literally dug up and carried out of the system in a short time by the use of these Bitters. One bottle in such cases will convince the most incredulous of their curative effect.

Cleanse the Vitiated Blood whenever you find its impurities bursting through the skin in Pimples, Eruptions or Sores; cleanse it when you find it obstructed and sluggish in the veins, cleanse it when it is foul, and your feelings will tell you when. Keep the blood pure, and the health of the system will follow.

PIN, TAPE and other WORMS, lurking in the system of so many thousands, are effectually destroyed and removed. For full directions, read carefully the circular around each bottle, printed in four languages—English, German, French and Spanish.

FOR FEMALE COMPLAINTS, whether in young or old, married or single, at the dawn of womanhood or at the time of life, these Tonic Bitters have no equal. ☞ Send for a circular.

They are a Gentle Purgative as well as a Tonic, possessing also, the peculiar merit of acting as a powerful agent in relieving Congestion or Inflammation of the Liver, and all the Visceral Organs. 1yrdawtf&w

—That cyclone out in Illinois ploughed the earth, according to the despatch, to the depth of six inches. Horace Greeley says if it had ploughed it twenty-six inches he would have written a new agricultural essay, recommending farmers to have one of these cyclones on the farm; because, he says, there is nothing like deep ploughing to promote the growth of ground meal and things.

—"The editor of the Ohio State Journal is Postmaster at Columbus, and the Journal is an Administration paper."—*N. Y. Sun.*

The editor of the New York Sun is not Collector of the Port, and the Sun is an anti-Administration paper."—*Ohio State Journal.*

Upon the whole it is just as well to let the Columbus Postmaster alone.—*Cincinnati Commercial.*

—Hark from the Toombs, this doleful sound: "When you can tear the live thunder from its home in the burning ether, and bind it a captive at the footstool of tyranny, then, and not till then, will I accept the situation." We didn't think Toombs had it so bad. But we do hope that no truckling idiot will rush into the "burning ether" to tear the live thunder from its home just to induce Toombs to accept the situation; because we would much prefer Toombs should "accept nothing," than to have the living thunder's home desecrated in that manner! We would, indeed. And we hope the chap who attempts it will get his fingers burnt in the burning ether.—*N. Y. Globe.*

—A lady in Virginia who was subject to jealousy, lately returned home, after a short absence, and took the precaution to reconnoitre through the window before entering her room, when she saw her husband tenderly adjusting a shawl upon the shoulders of a woman. Here was "confirmation strong as holy writ" that all had not been right in her absence. She procured a shot gun from an adjoining room, suddenly opened the door, and lodged the deadly charge in the back of—a dummy, which her husband, who dealt in dry goods, had brought home in order to put in repair during the lonely hours of his wife's absence. After this incident, it was still more in need of repair, but the woman's mind was in a more healthy condition than before.

THE RULER OF NEW YORK.—George Alfred Townsend, in the Washington Capital, writes as follows of "the boss":

I have known Tweed for everso many years. He is a man without shame, and very nearly without fear. A newspaper attack will make Dick Connolly think that a vigilance committee is going to hang him straightway, and he will cringe and writhe in pitiable terror, for he is really nothing but a "Fence," like Dickens' Fagan, and when he dies, even if he dies in his bed, he will go through the same contortions. Sweeney feels a newspaper attack like a man of education and worldly wisdom, who has lived long enough to feel that the good opinion of the world is the highest felicity; but, unwilling to give up his bad power, he can only sit and mope and have a mental spell of sickness every time he is admonished that no one respects him.

But Bill Tweed, or "Tweedy," as they call him, is perfectly callous; nothing impresses him; he has bits of good nature, spells of licentiousness, a good deal of gluttony, and most of the lower tastes well kept in check; but for all, he is a powerful business man, always at work, never wearied out, never thoughtful, stirring from morn till midnight, doing a good part of his work himself, a fair judge of agents, a big brute nature, equal to the most brutal work and animated with the same spirit which drives a mill or runs Stewart's dry goods house—confidence, economy, energy, enterprise. He is a man of big build, brown complexion, square shoulders, big limbs and feet, gray eyes, and a quick, prompt manner, without a particle of suavity or sentimentality in him.

If you were to go over and see him now, and say: "I have come here to write a sketch of you exactly as you are, and I want the points." Tweed would reply: "I would give them, my son, to you, if it could be done in a minute, but there is a thousand things just now on my hands. I am on the make; you put that down sure. I keep my eyes wide open for whatever comes along, stick my arm down as far as it will go, and pull my hand out as full as I can. Stick to my friends, that's me! If that will do you any good, you go and print it." The audacity of this man takes well with the lower classes, whom he occasionally descends to. It fills Connolly with terror and admiration; and it makes the logical Sweeney acknowledge Tweed's superior abilities. Tweed used to be a chairmaker, with business habits, and getting into politics out of a naturally bustling, busy rowdyism, he read law a little, learned to make a rude sort of speech, and has gone from grade to grade until he rules New York.

AMERICAN & FOREIGN PATENTS.

R. H. EDDY, SOLICITOR OF PATENTS, *For Inventions, Trade Marks or Designs,*

No. 76 STATE ST., OPPOSITE KILBY ST., BOSTON,

After an extensive practice of upwards of thirty years, continues to secure patents in the United States; also in Great Britain, France and other foreign countries. Caveats, Specifications, Assignments, and all papers for Patents, executed on reasonable terms with dispatch. Researches made to determine the validity and utility of Patents of inventions, and legal and other advice rendered in all matters touching the same. Copies of the claims of any patent furnished, by remitting one dollar. Assignments recorded in Washington.

No Agency in the United States possesses superior facilities for obtaining Patents or ascertaining the patentability of inventions.

All necessity of a journey to Washington to procure a Patent and the usual great delay there, are here saved inventors.

TESTIMONIALS.

"I regard Mr. Eddy as one of the most *capable and successful* practitioners with whom I have had official intercourse. CHARLES MASON, Commissioner of Patents."

"I have no hesitation in assuring inventors that they cannot employ a man *more competent and trustworthy* and more capable of putting their applications in a form to secure for them an early and favorable consideration at the Patent Office. EDMUND BURKE, Late Commissioner of Patents.

"MR. R. H. EDDY has made for me over THIRTY applications for Patents, having been successful in almost every case. Such unmistakable proof of great talent and ability on his part leads me to recommend ALL inventors to apply to him to procure their Patents, as they may be sure of having the most faithful attention bestowed on their cases, and at very reasonable charges. JOHN TAGGART."

ARE YOU GOING TO PAINT? —IF SO, USE THE—

AVERILL CHEMICAL PAINT.

It is Cheaper, Handsomer and more durable than the best of other Paints. One Thousand Gallons of it were sold in this City, in the year 1870, and not one complaint has come from those who have used it; but all speak in its favor; it is mixed ready for application, and is much easier put on than any other Paint, making a smooth, glossy surface for years, that can be cleaned with hot suds without injuring it. It is excellent for walls inside, in the place of paper.

I shall keep this season a large stock of Chemical Paints of all shades on hand, to accommodate customers with any amount, without delay in ordering it. Those who want to use the Chemical Paints and have had their misrepresented by those who deal in Lead and Oil, are invited to call and examine my Paints that have been on Buildings two years, and you will find them as fresh as if laid but one month.

I am prepared to do Painting by Contract, or by the day, using the Chemical Paint, or furnishing good experienced workmen by the day at very low wages. S. NORTON, only Agent for selling the

CARD.

Having become satisfied after thorough investigations that Elastic Sponge, as now and lately manufactured, is one of the best of all substitutes for curled hair, for many if not most uses in upholstery, we have accepted the Agency for it, and intend to make it hereafter a speciality in our business. The objections which been made to it and which it is well known we ourselves have thought were well founded, we have ascertained cannot be urged against the article as now perfected. The process of manufacture has been entirely remodeled under the advice and superintendence of one of the most eminent chemists of New England. New chemical and mechanical appliances have been introduced in cleansing crude Sponge, and in charging it with glycerine with such entire success, that Elastic Sponge may now be said to be chemically pure. There is absolutely nothing in it but the clean fibre of Sponge and chemically pure glycerine.

The objections to Elastic Sponge being thus removed there remain its undisputed merits which certainly entitles it to be considered one of the most valuable, as it is one of the most curious and interesting of late discoveries. Chief among these merits is, that it is proof against moths—the great scourge of the business,—against all other insects. Then its elasticity is permanent, based as it is upon the non-evaporable property of glycerine and the indestructibility of sponge fibre. We have always been satisfied upon these two points which are the essential requisites in such materials. The evidence is now equally clear that it is wholesome and sweet. It is very light and soft, easy to manipulate, and cheap enough for all except the lowest class of goods. For the cushioning of Churches, Theatres, Public Halls, Railway Stations, Omnibuses, Carriages, Steam and Horse Cars and the like, it will probably be found, everything considered, the best article in use. For all uses, and especially for Bedding, we are now prepared to recommend the public to give it a fair trial as we ourselves intend to do. We are are ready also to answer inquiries, make estimates and take orders for every description of work in Sponge as well as to supply the trade the article in Bales.

Femininities.—Of eighty-three ladies who left a popular restaurant at Boston, one day last week, only nine came out of the door looking in the direction they meant to pursue; the rest all took half a dozen paces while they were looking the contrary way. A person paid to take notes so reported, and a heavy wager was won on it.

There is a little three-year old colored girl at Horn Lake, Miss., who has gray hairs in her head, and who presents the appearance of an old woman. She possesses a wonderful memory. Without knowing a single letter in the book, she can spell correctly any word in the English language that has ever been spelled in her hearing, and even words that she never has heard before. She spells phonetically, leaving out no letter that is not silent when the word is pronounced.

Nilsson is a billiardess.

—An envious Chicago paper says that Bret Harte is about to publish a new poem called "The Outlaw of Chola Gulch." It will relate how the outlaw, a rude but benevolent man, poisoned his benefactor, and carried off his two daughters for wives; how he smote one of those wives with a stick until she inconsiderately died, and then expended for whisky the money she had left for a coffin; how he disposed of the other one to the Pigans for a pumpkin-colored horse; how he extinguished that horse's eyes with a hot poker because it got beaten in a race; and how he was finally caught up by an angel one Saturday afternoon and translated to Heaven, where he received a crown of glory.

—An Indianapolis man has got a nose which he can put out of joint and swing it around on the side of his face like a gate. He don't do anything for a living but fall down on dilapidated sidewalks and sue the city for breaking his nose, and when he gets his money he straightens his nose and sets it for another locality. Some say he is a fraud.

If all the varied medicines,
Which doctors often give
Were sunk remorselessly unto
The bottom of the sea,
'Twould all the better for mankind,
And—worse for fishes be.

—Dusting the "Great Organ" in Boston cost $183.

Bingham meets his match.—The House of Representatives was kept in a constant state of merriment for half an hour near midnight during the late all night session, over the remarks of Mr. Baker of Dover, who cornered Bingham, and retorted in Bingham's own style, completely upsetting that gentleman's equanimity. We copy the following account of the matter from the Nashua Telegraph:

One of those who did not wish to vote on the question of sustaining the speaker was Mr. Baker of Dover, a gentleman with a very long and a very sober face.—Mr. Bingham insisted on his speaking louder, as he proceeded with his excuse, and advancing toward him with his hand behind his ear, *a la* Sinclair, he shouted "louder! louder!" The gentleman from Dover cleared his throat and with undisturbed countenance concluded his excuse. It was not long before Mr. Bingham rose to explain. As he did so the Dover wag left his seat and struck the attitude of a very hard listener. "Louder! Louder!" shouted a sepulchral voice, and again and again were the words repeated. The House was convulsed with laughter, and in evident confusion Mr. Bingham sank into his seat. Again, when Mr. Bingham essayed to speak, he was called to order by the imperturbable gentleman from Dover, and the point of order being stated, it proved to be "irrelevant words spoken in debate by the gentleman from Bingham, Mr. Littleton." Again the House roared, and again "the gentleman from Bingham" subsided.

William Oakley, of Rochester, N. Y., was killed on the draw of the Charlestown (Mass.) bridge, June 19. In turning off the draw an obstruction was felt, and on examination Oakley was found lying between two of the rails upon which the wheels of the draw run, which are about fourteen inches apart, with one arm extending over each rail. His left arm was torn from its socket, and his right nearly severed at the elbow, besides which his lower jaw was broken and he was badly bruised about the head and chest. He died in about two hours. He leaves a wife and two children. Rum!

William Patterson, owner and occupant of the house in which President Lincoln died, was found in Washington Friday night, insensible, and with a vial libelled "laudanum" lying near him. When he recovered from the stupor he said he always took narcotics when ending a spree. He was removed to the station-house, where he died during the night.

In New York, June 18, Dr. James Connolly, while laboring under an attack of delirium tremens, murdered his two children, aged respective three years and seven months, cutting their throats with a bread knife. He then committed suicide by cutting his own throat. He had once been an inmate of an inebriate asylum. He leaves a wife.

At the coming State election in Kentucky the negroes vote for the first time. Their full vote is estimated at 40,000, nearly all of which will be given to the Republican candidates. It is said the Republicans are making a most energetic and determined canvass, and are hopeful of carrying the State.

Mrs. Vallandigham had only the day before her husband's death started for Baltimore to see a dying brother. Before her arrival at Baltimore her brother was dead, and the news of her husband's death followed soon after. The unhappy lady is well nigh distracted by the double afflictions.

The Methodists, at their camp-meeting at Salt Lake City, are boldly preaching against polygamy. The Mormons dont like it, as such preaching, being aimed at their national crime, is decidedly "political."

Fisk's New York 9th regiment did not contrast well in company with the Charlestown military and fire companies on the 17th. Fisk's staff is composed of fine looking men, but Fisk's regiment isn't.

The anniversary of the battle of Bunker Hill was celebrated with much spirit in San Francisco on Saturday. The Russian war steamer Bavarian fired a salute in honor of the day.

Governor Lindsay of Alabama, in testifying before the Congressional investigating committee says the State has never been so quiet and orderly as at present. Hope it's so.

Mexico is still disturbed by the rivalries of opposing patriots in their struggles to reach the treasury. Nobody can tell which party is most honest.

The State department issues on an average sixty passports daily, many of them to Frenchmen and Germans returning to their native countries.

Gov. Weston has "transparent honesty," according to the Newark Journal.

Wendell Phillips ridicules Horace Greeley's Presidential aspirations.

BUSINESS NOTICES.

Tooth ache proceeds from ague in the face, operating upon the exposed nerve of a decayed tooth. Rub the gum thoroughly with the finger, wet with *Johnson's Anodyne Liniment*, heat the face well, and lay a flannel wet with the liniment on the face, also put a little of the liniment into the cavity of the tooth on cotton.

The system frequently gets out of order and should be at once regulated, else other troubles will ensue; when physic is needed take *Parson's Purgative Pills*; they are a safe, wholesome, and natural medicine.

SPECIAL NOTICES.

Valuable Hints.

A regular habit of body is absolutely essential to physical health and clearness of intellect. Nor is this all. Beauty of person cannot co-exist with an unnatural condition of the bowels. A free passage of the refuse matter of the system through these natural waste pipes, is as necessary to the purity of the body as the free passage of the offal of a city through its sewers is necessary to the health of its inhabitants.

Indigestion is the primary cause of most of the diseases of the discharging organs, and one of its most common results is constipation. This complaint, besides being dangerous in itself, has many disagreeable concomitants—such as an unpleasant breath, a sallow skin, contaminating blood and bile, hemorrhoids, headache, loss of memory and general debility.

Hostetter's Stomach Bitters remove all these evils by removing their immediate cause in the digestive organs, and regulating the action of the intestines. The combination of properties in this celebrated preparation is one of its chief merits. It is not merely a stimulant or a tonic, or an antibilious agent, or a nervine, or a blood depurent, or a cathartic, but all these curative elements judiciously blended in one powerful restorative. It lends activity and vigor to the inert and enervate i stomach relieves the alimentary canal of its obstructions, and gives tone to the membrane which lines it, gently stimulates the liver, braces the nerves, and cheers the animal spirits. No other remedy possesses such a variety of hygienic virtues. It is to these characteristics that it owes its prestige as a household medicine. Experience has proved that it is as harmless as it is efficacious, and hence it is as popular with the weaker sex as with the stronger.

HOSTETTER'S STOMACH BITTERS are sold in bottles only, and the trade-mark blown in the glass and engraved on the label, is the test of genuineness. Beawre of counterfeits.

CHIEF ENGINEER EDWARD PALMER, U. S. N., reported for duty on board the Ticonderoga, Monday.

B. P. SHILLABER has joined the editorial corps of Every Saturday—a valuable acquisition to that popular weekly.

REV. D. A. MACK, agent of the New Hampshire Orphan's Home presented the claims of that institution in the North Church last Sabbath morning, and obtained in subscriptions and contributions $437 which sum has since been increased to $535, with encouraging promise of still further enlargement.

SOME of the many friends of a well known and popular former editor of the CHRONICLE, on Monday evening testified to their esteem and the earnestness of their wishes for the future happiness of himself and his young bride, by serenading the happy couple at the Rockingham House, the Marine Band being engaged for the occasion. The affair was a pleasant surprise for the recipients of the attention, and those who projected and carried it out received equal pleasure from the opportunity afforded of expressing their good will towards one of the best fellows to be found and the blooming partner of his future joys—for he won't let her share his sorrows (should such come) or we much mistake the man.

WE have two weekly exchanges that we read at home (when we can get them) for recreation — the Boston "Commonwealth" and the "Golden Age." Now if the gentleman who manages to steal them both right along will only lend us one or the other occasionally, so we can have a read, he will do much towards keeping our temper sweet and lovely. We are not so unreasonable as to expect him to altogether abstain from stealing them, but would like to work on his feelings of benevolence so much that he would let us have a look at one of them once in a while, say about once a month.—And if the same individual has got our umbrella, and regards his continued possession of the same as being essential to his peace of mind in this world and his happiness in the next, (though we don't think he'll need it there, as we never heard of rain falling in the place whither his footsteps are tending,) he might at least return us the quarter we expended on it the other day, in procuring a new handle. Why didn't he steal it before we got it fixed, if he calls himself a decent man?

WE have always suspected that the late census of Portsmouth was but partially taken, and that the population is larger than returned. The City Council should appoint a man to take the census correctly, as it is evident that Mayor Adams was suffering from illness at the time he took the census.

The population as returned is less than it was ten years ago, yet the much smaller number of people reported find it hard work to procure tenements, though but few houses have been burnt or torn down—and a great many have been built since the previous census was taken. If the population is less now than then, there should be houses in plenty for all.

And the vote of the city is also larger now than it was ten years ago. In 1859 the total Governor vote was 1694; in 1860 it was 1490; in 1869 it reached 1980, and in 1870 the total was 1782. The full vote was probably thrown in '59, as our ever-popular Ex-Gov. Goodwin was that year a candidate (and elected) for the first time; his re-election being a matter of course, the vote fell off the next year. So in '69, the warm contest resulting in Ex-Gov. Stearns' first election drew out a full vote, 1870 showing a falling off, owing to the comparative apathy of both political parties. But the comparative vote shows that there resided in this city in 1869 and '70, nearly 300 more voters than in 1859 and '60. Three hundred is a goodly increase in a total of less than 2,000, and it is not credible that our total population can have decreased while the voting population ha increased nearly seven per cent.

SUNDAY was the longest day of the year—15 hours and 16 minutes.

THE Appledore steamer commences her regular trips to the Shoals to-day, the Island Ledge House at Wells Beach opens with a grand banquet, and Mr. Caswell's new Gosport House at the Shoals and the Marshall House at York Beach also go into public operation. The Ocean House at Rye Beach and the Boar's Head Hotel at Hampton also have their advertisements in our columns; and lovers of almost any kind of beach or ocean scenery can find views to their taste and good accommodation at one or the other of the various hoteleries named We understand that the steamer Hoffman also commences to run between this port and York Harbor to-day.

STONE & MURRAY'S CIRCUS comes today. Our exchanges are filled with the highest praise of the performances, and we are ready to believe every word of commendation bestowed upon this popular and well known circus. Whatever the attractions of former years may have been and however much they pleased, we are told that Messrs. Stone & Murray eclipse all their previous efforts. They come before the people on their merit and ask for their patronage on that alone. Prior to the afternoon exhibition a balloon ascension is promised, by a daring æronaut, and a promenade on a slender cord, from the ground to the top of the center pole and return by a celebrated lady funambulist.

ROCKINGHAM CONGREGATIONAL CONFERENCE. — There are 30 Congregational churches in this county and three Presbyterian. These are united in a conference, which holds an annual session in June. In reckoning 30 churches, Nottingham is included, although it has but a nominal existence. It has had no meetings for several years and at the last returns had but two male and three female members.

The conference this year was at Deerfield, June 14th and 15th. Rev. E. D. Eldridge of Kensington was chosen Moderator; Rev. E. Robie of Greenland is standing Clerk. The annual sermon was preached by Rev. T. V. Harris of North Hampton. The afternoon of the first day was devoted to reports from the several churches. The largest additions had been made to the churches at Deerfield and the North church in this city, about thirty to each. The North church is the largest in the conference, having about 400 members. Stratham and South Newmarket have each 10 or 12 male members, yet some of these are good members, as are a good number of females, and the operations are carried forward with energy. All the meetings of this session were interesting. Refreshments were provided in the Town Hall in great abundance.

CENTENNIAL CELEBRATIONS.—It is eminently fit for towns at the completion of a hundred years of their existence, to have a celebration of the event. Many do so. The celebration may be at the end of a hundred years from the first settlement, when the time is definitely known, or a hundred years from the incorporation. Country towns especially, in which there was nothing particularly marked as to the first settlements, usually celebrate the latter.

In our county, Rockingham, the oldest town is Portsmouth. It celebrated its second centennial in 1823. Two hundred years had then passed from the first settlement. Hampton and Exeter ended their second centuries in 1832. Both had celebrations. Danville, completed a century from its incorporation in 1860, and had a celebration. Raymond celebrated in 1864. Londonderry ended a century and a half in 1869, and celebrated its bi-centennial. These are all in the county that have thus celebrated, so far as we know.

The following within a few years have let their centennials pass without celebrating. Candia and Seabrook, 1863; Fremont and Newington, 1864; Deerfield, 1866; and Atkinson, 1867. We think these towns, although late by from 4 to 8 years, should have celebrations now. If not, they must wait nearly half or nearly a whole century before they can well celebrate.

Portsmouth will be 250 years old in 1873. It can that year have a bi-centennial celebration. We trust it will. By next year it will be time to decide, and if in favor, to commence preparations. The special propriety of these celebrations is, that what is interesting and valuable in the history of the towns is brought out. The history of men and things is collected. Former deprivations and sufferings, when the places were new, and old manners and customs, are all related; and much of the past history is thus saved from being forever lost. J.

MR. ORIGEN S. CASWELL has just opened a new hotel, the "Gosport House," on Star Island, Isles of Shoals, and proposes to leave nothing undone which it is in his power to do, to render pleasant the stay of any guests who may favor him with their patronage.

THE lightkeeper at Whale's Back, who lost his life on Sunday, was Mr. Ferdinand Barr, and not James A. Barr as first given. He leaves three children.

Mr. Barr was a member of Co. K., 13th N. H. Regiment, and was inall its battles, having a fine record as a soldier.

SPARE THOSE TREES.—*Dear Chronicle:*—In the name of many citizens, I desire through your columns to express the hope that when Richards Avenue shall come to be fixed and the new Cutts Avenue constructed, the row of willows on the eastern centre may not be removed. To be sure, they are old and somewhat scraggy; but they can be pruned and trimmed up, and they form a beautiful shade, and are more grateful than anything that can be substituted for them in twenty years. Do spare the old willow screen from wind and sun and storm. IMPROVEMENT.

JOB AND CARD PRINTING.—We have made great additions to our jobbing facilities—a mammoth Hand Press (the largest in Portsmouth,) new Bugbay Type, Borders of various styles, &c. —and are prepared to execute with neatness and dispatch, all orders for FULL SHEET POSTERS, DATE SLIPS, PAMPHLETS, SERMONS, ADDRESSES, AUCTION BILLS, CONSTITUTIONS, BY LAWS, PROGRAMMES, HANDBILLS, CIRCULARS, ORDERS DANCES, BLANKS, BILL HEADS, RECEIPTS, TICKETS, BUSINESS, MARRIAGE, ADDRESS AND VISITING CARDS, LABELS, TAGS, and in fact PRINTING OF ANY DESCRIPTION, AT SATISFACTORY PRICES. Orders received by mail, express, or at the CHRONICLE OFFICE will be *promptly filled.*

THE NEW ORLEANS, MOBILE & TEXAS **RAILROAD COMPANY**

Are building a trunk line, connecting New Orleans with Mobile on the east, and giving

THE ONLY RAILROAD CONNECTION

between the former city and the great and most productive State of Texas of the west, the total distance from Mobile to Houston being 475 miles.

The Company is composed of strong Northern capitalists, who have already expended nearly **TEN MILLION DOLLARS** of their own funds in the construction of the line. They have built about 225 miles from Mobile westward, and secured by purchase of securities and made provision for the thorough repair and equipment of the 108 miles of the Texas division; leaving but 140 miles to be built

To Complete the Entire Road.

It is believed that no other railroad corporation in the country has ever made so large an expenditure from its own means before offering any of its securities to the public.

The Company now offer for sale the

Eight Per Cent. Mortgage Bonds

upon the Louisiana division of 226½ miles from New Orleans to the Sabine River. This will probably be the most valuable portion of the whole line, as it will be the only rail communication by which the enormous productions of Texas can reach the Southern metropolis.

So important is this road considered to Louisiana, that the State has made very liberal grants in aid of the enterprise, by direct donations, by endorsement of its bonds, and by subscriptions to the stock of the Company, amounting in all to over eight million dollars.

The Bonds now offered are of two classes:

FIRST MORTGAGE BONDS,

to the amount of $12,500 per mile, and

SECOND MORTGAGE BONDS,

to an equal amount, both principal and interest guaranteed by the State of Louisiana. The price of the two classes is the same, and subscribers can take their choice.

The Bonds are only in the denomination of $1,000, or £200 each, interest payable January and July, at the rate of eight per cent. currency in New York, or seven per cent. gold in London, at the option of the holder, at the time each coupon is due. Bonds can be registered, if desired.

No better security has been offered to investors. The Bonds are largely profitable, as well as entirely safe. One thousand dollars invested in these eight per cent. bonds will give the purchaser *more than seventy-seven per cent.* greater annual interest than the same amount invested in the new Government Five Per Cents.

At the same price, an 8 per cent. currency long bond is far cheaper than a 7 per cent. gold one. Calculating a return to specie payment in three years, and taking the time that the bonds of the New Orleans, Mobile and Texas Railroad have to run—45 years—we find that by compounding the interest of each, every six months, at 7 per cent. **an 8 per cent currency bond at 90 will give a return of $2,614.18 MORE than a 7 per cent. gold bond, at the same price, or nearly three times the amount of the original investment.**

The Bonds are dated May 1, 1871. The first coupon will, therefore, be a fractional one, running from May 1 to July 1. The price is 90, and accrued interest at 8 per cent. currency from May 1st to date of remittance.

Subscriptions will be received in Portsmouth by

First National Bank.

Information concerning the Company and the Road, and pamphlets containing map and full details of the enterprise, can be obtained of the undersigned or any of the Company's advertised agents.

NEW PUBLICATIONS RECEIVED.

Godey's Lady's Book for July, has for a frontispiece "The Music Lesson"—also the extension sheet with its large number of late fashions in dress and lingerie articles; a page of children's fashions; an interesting wood engraving of "The Peddler." Godey has presented his patrons this month, the commencement of his forty-second year, with a novel slipper pattern.

The Lady's Friend for July has a very seasonable picture, "Alpine Tourists." The Colored Fashions are graceful and stylish as usual; and there is a pleasant shore scene. The illustrations of dress and fancy work are profuse and very inviting. Amanda M. Douglas commences one of her popular serials—"A Little Money;" there is an interesting Spanish sketch by Madame Guizot, and spirited stories by Nora Perry, Ella Wheeler, and others. $2.50 a year (which also includes a large steel engraving). Published by Deacon & Peterson, Philadelphia.

The Monthly Novelette for July, in a new form, and one that will please. It now makes a magazine of 128 pages, and is filled with the most entertaining stories, such as The Baronet's Daughter; A Dream Verified; The Maniac Editor; Three Offerings; A Rocky Mountain Adventure; Heppy's Confession; My Sister's Choice; The Voyage of the Panorama; A Year of Waiting; That Pup; A False Step, or, The Fortunes and Misfortunes of Fred Wilder; Our School-master's Revenge, &c. Thomes & Talbot, 63 Congress Street, Boston. $2 per year, 20 cts. per number.

The Galaxy for July, opens with a liberal instalment of Justin McCarthy's story, "Lady Judith," and there are four chapters of Mrs. Edward's story, "Ought We to Visit Her." "Overland" is concluded, and a portrait of its author, J. W. Deforest, makes the frontispiece to this number. Justin McCarthy writes of "Republicanism in England," indicating that it is a growing force worth taking into account. Edward Crosby describes the way "Faro-gambling" is carried on in New York. Albert Rhodes gives a picture of "The Dutch at Home." In another article, "Edinburgh and Its Surroundings" are sketched by M. E. W. S. There are some more "Recollections of an Old Woman" by E. deM., which are not so remarkable for reminiscences as for comments on present manners.

Harper's Magazine for July; contents, The Mount Cenis Railway and Tunnel, illustrated; Poet and Painter; The United States Naval Academy, illustrated; Along the Florida Reef, (concluded,) illustrated; The Recovery of Jerusalem, illustrated; Put-in-Bay, illustrated; Anteros; Music in the Night; The American Baron; When this Old Flag was New, illustrated,—and many other articles. This magazine is an "established institution," and the present number will keep up its reputation.

The Phrenological Journal for July is unusually good. Conspicuous among its contents are—Audubonians, or Reminiscences of the great Naturalis', with portrait; Man's place in Nature; The Last of the Tasmanians, Illustrated; Goodness and Greatness, a contrast; "Woman vs. Woman's Rights," Reviewed; Leaders in the Mormon Reform Movement, with portraits; The Beard, Should it be Worn? The treaty; Medicine a Science? This July number begins a new volume. Price $3 a year, S. R. Wells, Publisher, 389 Broadway, N. Y.

The People's Magazine for July contains papers by President White of Cornell University, Professor Gilman of Yale College, President Steele of Lawrence University, Professor White of Dartmouth College, President Fiske of St. Lawrence University, Professor W. Everett of Harrard University, President Hosmer of Antioch College, Professor Allen of University of Wisconsin, President Frieze of University of Michigan, Professor Orton of Vassar College, President Angell of the University of Vermont, Professor Appleton of Brown University, a paper never before published, by Edward Everett, and the first chapter of "Ups and Downs," a Story of Commencement, by Edward E. Hale. Roberts Brothers, Publishers.

—The best bit at creeds we have seen is in the saying of a little girl, who declared it was easy enough to pray and read good books, but pretty hard to obey grandmother.

—A Prussian engineer has invented a machine which will manufacture ice without chemicals, merely by the compression and expulsion of air. The specimen machine, now at New York, can turn out two tons of ice a day, and the capacity can be increased to twenty-five tons or more.

600,000 ACRES
CHOICE IOWA LANDS.

This Company is now offering for sale about six hundred thousand acres of the finest agricultural lands in the West. The Company sells only to actual settlers, and the prices are exceedingly reasonable, ranging from $10 to $15 per acre—the average being about $8. The greater part of these lands are situated along the line of its railroad between the cities of Des Moines and Council Bluffs, and are in the most accessible and fertile region in the State.

Sales made for cash or on credit long enough to enable any industrious man to pay for the land out of its crops.

These lands are held under a title direct from the General Government, and are not mortgaged or encumbered in any way. Full warranty deeds given to purchasers.

For maps, pamphlets, or any other information respecting them, address EBENEZER COOK, Land Commissioner, Davenport, Iowa.

EXPLORING TICKETS are sold at the Company's ticket offices in Chicago, and all other principal stations on its line, and if the purchaser buys land the amount paid for the ticket is applied on the purchase money.

TARRANT'S SELTZER APERIENT.

SECTS AND CREEDS DIFFER, but there are no dissenters from the general principle, that health is a blessing and sickness a blessing. We have many of these blessings, but among them all, in the province to which it belongs, no greater than

Tarrant's Effervescent Seltzer Aperient.

A column would not suffice to enumerate the allments for which it is recommended by physicians of the highest standing. It does not belong to the class derisively termed patent medicines, but is an article based on scientific analysis, and will stand the test of the sharpest and most rigid medical criticism as a cathartic, a stomachic, an anti-febrile preparation, and an admirable remedy for all bilious complaints.

Let there be no mistake. Secure the genuine article only.

Consumption,
ITS CURE AND ITS PREVENTIVE,
By J. H. SCHENCK, M. D.

Many a human being has passed away, for whose death there was no other reason than the neglect of known and indisputably proved means of cure. These near and dear to family and friends are sleeping the unconscious slumber into which, had they calmly adopted

Dr. JOSEPH H. SCHENCK'S SIMPLE TREATMENT,

and availed themselves of his wonderfully efficacious medicines, they would not have fallen.

Dr. Schenck has in his own case proven that wherever sufficient vitality remains, that vitality, by his medicines and his directions for their use, is quickened into healthful vigor.

In this statement there is nothing presumptuous. To the faith of the invalid it is made no improvement that is not a thousand times substantiated by living and visible proofs. The theory of the cure by Dr. Schenck's medicines is as simple as it is unfailing. Its philosophy requires no argument. It is self asserting, self-evident.

The Seaweed Tonic and Mandrake Pills are the first two to make their way into the citadel of the malady is assailed. Two-thirds of the cases of consumption originate in dyspepsia and a functionally disordered liver. With this combination the bowels take "sympathize" with the stomach. They respond to the morbific action of the liver. Here, then comes the exhibition of the Pulmonic Syrup, with all its distressing symptoms, of

CONSUMPTION.

The Mandrake Pills are composed of one of Nature's robust gifts—the Podophillum Peltatum. They possess all the blood-searching, alterative properties of calomel, but unlike calomel, they

"LEAVE NO STING BEHIND."

The work of cure is now beginning. The vitiated and unsound secretions in the bowels and in the alimentary canal are ejected. The liver, like a clock, is wound up. It arouses from its torpidity. The stomach acts vigorously, and the patient begins to feel that he is getting, at last,

A SUPPLY OF GOOD BLOOD.

The Seaweed Tonic, in conjunction with the Pills, permeates and assimilates with the food. Chylification is now progressing healthfully

A HORSE ADVERTISEMENT.—A man in Wisconsin advertises a horse for sale, and thus discourses:

Thou canst trust thy labor to him, for his strength is great.

Thou canst hedge him with his hand in the furrow; he will harrow the valleys after thee.

He will gather thy seed in the barn. His strength is terrible, for which he rejoiceth.

He paweth the valley, and waxeth proud in his speed. He mocketh at fear, neither turneth his back from the hobgoblin.

Lo! how his myoth his tail like a cedar; his sinews are as cables.

His bones are like strong pieces of brass, yea, like bars of iron.

He cateth grass like an ox; behold, he drinketh up a river, and trusteth that he can draw up Jordan in his mouth.

Who can open the door of his face? Yet thou canst approach him with a bridle. His teeth are terrible round about.

I will not conceal his parts, nor his comely proportions.

He is gentle. He is kind.

And his tail sticks out behind

I want to sell him for something I can pay my debts with.

—We have waited patiently for Mr. John Hay to record what became of that "nigger" who was "squatted the safety-valve" of the boiler of the Prairie Belle "that night she went 'resein' along" and perished, through the foolhardiness of Jim Blodso. To be sure, the poet says "Jiminy! he got off" and that Jim's "ghost went up in steam" but it would seem that the interest of poetic justice, that special mainspring, should be made of a little finer material than to place on the safety-valve, by mass, a sneaking hero as white Jim, and the Tribune ought to have seen to it that he received the just meed of praise. We are inclined to think from the silence of the Tribune and its poet on this point, that Cuffy was the first man ashore. This is mere conjecture, however, on a most important matter.—*N. O. Picayune Globe.*

—The Newport, R. I., News says: Recently a white-headed veteran came into our office to advertise his wife. He wished it distinctly understood that, as his wife had left his "bed and board without just provocation," no one was to trust her on *his* account. The advertisement was written and ready for insertion, but when informed that it would require one dollar a diligent search *seven cents* were found, and the would-be advertiser wished us to lay the notice one side and he would hunt up the remaining amount. The supposition is that he is yet hunting, as the notice is still laid aside, and all the world still have the privilege of trusting the wife on the husband's account.

—The New York Commercial Advertiser of Wednesday says: "There were only three murders in this vicinity yesterday, and hence we flatter ourselves that we are becoming quite virtuous. Among nearly two millions of souls, it is perhaps not so shocking, that upon an average, three should take their flight every twenty-four hours, without the weary process of death from natural causes. It is a very small number indeed, and we can't be blamed for feeling a little conceited about it."

—They say that "Boucicault opened with a dramatic season in Exeter, England, last month, and on the third night thereof found one man in the auditorium at the hour for the curtain to rise. Boucicault viewed him critically, and decided that he could scarcely be called a large and enthusiastic audience, and sent him out one by one. This Exeter ordinary run of patronage run Boucicault out of town." Exit Boucicault.

—A Methodist paper states that since the establishment of a Baptist church in their neighborhood, the citizens of a Delaware town refuse to eat fish taken from a stream in which the converts are baptized, for fear the evil spirits which they suppose to be removed from the baptized persons have entered the fish and they will thus become possessed of them.

—That well-known old lady of ninety-six, who walks ten miles a day, and knits stockings in a dozen different languages, is now living, we are told, in Haddam, Conn. But with profanity entirely remote from our thoughts, we are strongly inclined to pronounce the statement Haddam story.

—The boy who "stood on the burning deck, with his baggage checked for Troy," can travel that far from New York just at present for nothing. The competing steamboat lines are making it lively for each other on the river, and the travelling public gratefully appreciate the situation.

CARD.

Having become satisfied after thorough investigations that Elastic Sponge, as now and lately manufactured, is one of the best of all substitutes for curled hair, for many if not most uses in upholstery, we have accepted the Agency for it, and intend to make it hereafter a speciality in our business. The objections which been made to it and which it is well known we ourselves have thought were well founded, we have ascertained cannot be urged against the article as now perfected. The process of manufacture has been entirely remodeled under the advice and superintendence of one of the most eminent chemists of New England. New chemical and mechanical appliances have been introduced in cleansing crude sponge, and in giving it the elasticity with such entire success, that Elastic Sponge may now be said to be chemically pure. There is absolutely nothing in it but the clean fibre of sponge and chemically pure glycerine.

The objections to Elastic Sponge being thus removed there remain its undisputed merits which certainly entitles it to be considered one of the most valuable, as it is one of the most curious and interesting of late discoveries. Chief among these merits is, that it is proof against moths—the great scourge of the business,—against all other insects. Then its elasticity is permanent, based as it is upon the non-evaporable property of glycerine and the indestructibility of sponge fibre. We have always been satisfied upon these two points which are the essential requisites in such materials. The evidence is now equally clear that its wholesome and sweet. It is very light and soft, easy to manipulate, and cheap in price, and is filled with glycerine throughout. For the cushioning of Churches, Theatres, Public Halls, Railway Stations, Omnibuses, Carriages, Steam and Horse Cars and the like, it will probably be found, if properly introduced, the best article in use. For all uses, and especially for Bedding, we are now prepared to recommend the public to give it a fair trial, for we intend to do. We are are ready also to answer inquiries, make estimates and take orders for every description of work in Sponge as well as to supply the trade the article in Bales.

Portsmouth, N. H.

WEDNESDAY, JUNE 21, 1871.

THE LEGISLATURE.

In the House, Tuesday morning, the Committee on Elections, by a vote of six to four, reported that Nathan Whipple (Republican) of Lisbon is not entitled to a membership, and that his seat be vacated.

Mr. Ramsdell of Nashua said that he considered the cases of Mr. Whipple of Lisbon (Republican) and Mr. Page (Democrat) of Concord as very similar, and he therefore desired that both cases be further investigated. He moved that the report lie on the table. The yeas and nays were called and the motion was defeated by a vote of 151 to 159.

On motion the report of the Committee was then adopted without a division, and Mr. Whipple from Lisbon was unseated.

The grounds on which Mr. Whipple was unseated were that there was a mistake in counting the ballots, and that he lacked five of having a majority of the votes cast.

The House passed a bill for the extension of the Portsmouth, Great Falls and Conway Railroad.

Among the bills introduced was one changing the law in relation to the penalty for murder in the first degree, substituting imprisonment for hanging; There was little opposition to the reading of the bill.

A bill was passed consolidating the charters of the Nashua and Epping and the Rochester and Epping railroad, and constituting the Nashua and Rochester railroad. The number of directors is increased from nine to fifteen and the capital stock is increased from one million to one and one half million of dollars.

POLITICAL.—The Cincinnati Commercial, in speaking of General Noyes as a candidate for governor in Ohio, says: "There are several things in favor of General Noyes. In the first place, he hasn't a wooden head; and, in the second place, he has a wooden leg, having lost a member on the Fourth of July, at a celebration in Georgia, the fireworks being conducted by generals Sherman and Johnson."

The old line Whigs in Georgia, Maryland and other Southern States, who have adhered to the Democrats because of their opposition to the fourteenth and fifteenth amendments, find themselves absolved from further allegiance by the new departure. They now find the Democrats and the Republicans on an equal footing, so far as the results of the war are concerned, while their old Whig hatred of repudiation will incline them toward the Republicans, and may change the political situation.

THE Boston Advertiser's Washington dispatch says Senator Cragin is in that city and reports that although the democrats of this State have succeeded, by the aid of the labor reformers, in organizing the legislature, they are entirely helpless by reason of the tie in the senate to pass any laws to redistrict the State in the party interest or to meddle with the judiciary, as they desired. The republican senator who was elected by the democrats will stick to his own party, he himself declares, and his profession may be trusted. The labor reformers have gone as far with the democrats, in peculiarly democratic paths, as they are willing to go. These accounts convince politicians that New Hampshire will redeem herself in the next election.

—"Corner loafing," with the use of abusive, indecent, or insulting language, whether addressed to any person passing upon any highway, to any other person, or to no person in particular, has been made a statutory offence in Connecticut, punishable by a fine not exceeding seven dollars.—*Exchange.*

We commend the above to our legislators, if there is no similar law on the statute books of New Hampshire.

OFFICIAL reports from Louisiana represent that much damage has been done there recently by the heavy rains, that the crops are nearly all spoiled, and all were in constant fear of violence from outlaws.

SENATOR CRAGIN contemplates building a house on Capitol Hill, Washington.

—In Ohio they make monogram doughnuts.

—No less than two hundred and twenty-four life insurance companies have been wound up in Great Britain within the last twenty-six years. This is twice as many as now exist there.

—Byrd of Alexandria loved too well, and is now a jail Byrd.

THE NEW ORLEANS, MOBILE AND TEXAS LINE.—The New Orleans, Mobile and Texas Railroad, which some of the strongest capitalists and best known business men of the north are building from Mobile through New Orleans to Houston, is receiving unusual notice as an enterprise not only much needed but containing more than ordinary conditions of success and security. The road is to be the only rail connecting between New Orleans and the great and most productive State of Texas, of which State Horace Greeley writes as follows:

"Texas is as large as France, with a more genial climate and far richer soil. She has more and better timber, and more cattle and horses than France. Slavery being dead, lands are in request and have a value, which rail roads are rapidly doubling and quadrupling. Railroads are bringing markets and comforts to every man's door. The work of providing this people with necessary railway communication is barely well begun; but that's half the battle. At last nearly every line seems to be in the hands of solvent, capable, upright men who are backed by ample capital, and is pushed with vigor and clear sighted resolution. The New Orleans, Mobile and Texas Railroad is now pushing due westward through Louisiana, and expects to reach Houston before this time next year."

The New York Evening Post says in its financial review of June 10th:

"The road is one of the most important in the south, and its stock is largely owned by such capitalists as Messrs. E. D. Morgan & Co., Morton Bliss & Co., J. & W. Seligman & Co., L. Von Hoffman & Co., and Hon. John A. Griswold, whose names are of themselves a guarantee that the enterprise is a good one."

The New York World of June 12th, says in its financial article:

"The Company has expended already nearly $10,000,000, and two thirds of its entire road is built. The Board of Directors consists of some of our wealthiest and most influential citizens."

The New York Express of the same day says, in its report of the money market:

"The road is one of the great southern trunk lines destined to open up a rich and productive section of country heretofore devoid of railway facilities."

Some interesting statements concerning the securities of the enterprise so highly commended, will be found in our advertising columns.

NEW HAMPSHIRE ITEMS.

A Keene Democrat, who is spending a limited time in the jail at that place, celebrated the victory of his party by illuminating the jail window on Saturday and Monday evenings.

A hen owned by Mr. J. S. Dutton of Jaffrey got shut in behind some farming tools and remained there twenty-seven days, says the Cheshire Republican, till she shrunk so from lack of food and water that she was able to come out.

The Gazette says the President of the Dover "Fat Men's Club" was measured for a linen suit last week, which required twenty one yards, nine of which go for pants.

THE most influential and prominent Democratic lawyers in New Hampshire assembled in secret conclave at Concord, Monday evening, to consider the question of the expediency of the remodeling by the Legislature of the Supreme Judicial Court, and the appointment of a new set of Judges.

THE number of daily arrivals in Paris increases rather than diminishes. Twenty-five hundred women, convicted of setting fire or attempting to set fire to buildings in Paris, have been sentenced to transportation to New Caledonia. Gambetta will soon return to France. The imperial guard is reorganizing under the name of republican guards.

SENATOR Holbrook of the Manchester District is now in Concord, and although not fully recovered, is able to attend to his official duties. The Democrats are feeling badly because Samuel B. Page, one of their ablest representatives, is still confined to his house and considered to be seriously ill.

FISK is now known as "James, the Baptist."

☞ THE NEW HAMPSHIRE GAZETTE for this week, is now ready for delivery, at the Chronicle Office. Each number contains all the reading matter of the week's Dailies. Price $2 a year; single copies 5 cents,—in wrappers for mailing, if desired. Six copies for $10 per year, to Clubs—per mail or city carrier.

MARRIAGES.

In Manchester, June 18th, by Rev. Mr. Rowell, Mr. MERCER GOODRICH of Portsmouth, and Miss LUCIA ELLA FOSTER, eldest daughter of J. L. Foster.

We extend our congratulations and best wishes to all the parties concerned. The young bride was our neighbor in her girlhood, and we venture the opinion that she will prove a model wife. The bridegroom is the son of Moses H. Goodrich, Esq., and is a highly respectable and promising young man. Mrs. Goodrich (how does that sound, Ella?) was complimented, on the occasion of her marriage, with a silver tea service, worth $200, contributed by her friends in Portsmouth, among whom she makes her future home.—*Manchester Union.*

We join in mutual congratulation.

BUSINESS NOTICES.

Tooth ache proceeds from wiping in the face, operating upon the exposed nerve of a decayed tooth. Rub the gum thoroughly with the finger, wet with *Johnson's Anodyne Liniment*, heat the face well, and lay a flannel wet with the liniment on the face, also put a little of the liniment into the cavity of the tooth on cotton.

The system frequently gets out of order and should be at once regulated, else other troubles will ensue; when physic is needed take *Parson's Purgative Pills*; they are a safe, wholesome, and natural medicine.

SPECIAL NOTICES.

Valuable Hints.

A regular habit of body is absolutely essential to physical health and clearness of intellect. Nor is this all. Beauty of person cannot co-exist with an unnatural condition of the bowels. A free passage of the refuse matter of the system through these natural waste pipes, is as necessary to the purity of the body as the free passage of the offal of a city through its sewers is necessary to the health of its inhabitants.

Indigestion is the primary cause of most of the diseases of the discharging organs, and one of its most common results is constipation. This complaint, besides being dangerous in itself, has many disagreeable concomitants—such as an unpleasant breath, a sallow skin, contaminating blood and bile, hemorrhoids, headache, loss of memory and general debility.

Hostetter's Stomach Bitters remove all these evils by removing their immediate cause in the digestive organs, and regulating the action of the intestines. The combination of properties in this celebrated preparation is one of the chief merits. It is not merely a stimulant or a tonic, or an antibilious agent, or a nervine, or a blood depurent, or a cathartic, but all these curative elements judiciously blended in one powerful restorative. It lends activity and vigor to the inert and enervated stomach, relieves the alimentary canal of its obstructions, and gives tone to the membrane which lines it, gently stimulates the liver, braces the nerves, and cheers the animal spirits. No other remedy possesses such a variety of hygienic virtues. It is to these characteristics that it owes its prestige as a household medicine. Experience has proved that it is as harmless as it is efficacious, and hence it is as popular with the weaker sex as with the stronger.

HOSTETTER'S STOMACH BITTERS are sold in bottles only, and the trade-mark blown in the glass and engraved on the label, is the test of genuineness. Beware of counterfeits.

THE BUCKEYE MOWER;

FOR SALE BY THE SUBSCRIBER.

TEN YEARS' EXPERIENCE has proved that the most economical machine for the farmer to purchase is one of wood and iron combined, and the one that has the largest proportion of wrought iron in its composition.

Almost every machine now offered to the farmer will cut the grass satisfactorily, but the question now is which is the easiest draft, the most easy to manage, and the most economical for a term of years. The last is a very important question. All of these desirable qualities are found in the Buckeye. The subscriber has the Kniffin Mower for sale, and a variety of second-hand machines.

Also the Ballard Improved Hay Tedder, which is the only satisfactory Tedder offered to the farmer. This is easy of draft, and can be perfectly managed by a girl of 12 years of age, does the work thoroughly, and is durable.

All the above will be cheerfully shown and prices made satisfactory. E. S. PHILBRICK

THE return game between the Athletic base ball club of this city and the Mutuals of Newburyport, will be played in that city this (Wednesday) afternoon.

A match game of Base Ball was played at the Plains last Saturday between the Resolute and Excelsior base ball clubs, the former being victorious by 16 runs. Score 41 to 57.

TERHUNE & BERRY, at their new store in the Franklin House, have added to their stock of hats, caps and furnishing goods, and ask the public to call and examine. They believe in quick sales and small profits.

JAMES T. FIELDS, Esq., of Boston, has sold 25 tickets for the benefit supper for Messrs. Jas. S. & Geo. W. Peirce, which comes off this evening at the Rockingham House. We hope our own citizens will do as well proportionately.

THE wide-awake ladies of the Universalist Society are to hold a Strawberry Festival at Congress Hall on Friday evening for the benefit of the Sunday School. See advertisement, remember the time, go in and see the handsome attendants and partake of the bountiful supply of Strawberries and cream. The chromos to be competed for are on exhibition in the window of Foster Shores & Co., Congress Block.

A correspondent of the New York Mail writes in praise of the Appledore House, Isles of Shoals:—"I spent the greater portion of the past two summers there, and can assure the pleasure-seekers that he will find all that he asks for at that 'beautiful-isle of the sea,' Appledore. Fish for breakfast, dinner and supper; half a dozen fine yachts for sailing, and any number of boats for rowing. Splendid fishing, and an atmosphere that will make him feel that every breath he draws is like an elixir, or a Rosicrucian draught. He will find there no extravagance of fashion, though he will find perfect gentility, and he can go to his meals if he chooses in his flannel sailing suit without attracting special attention."

STONE & MURRAY'S Circus came, gave a good show outside and in—and went. Of course they had a big crowd in the evening, circuses always do in Portsmouth—and this was the first circus of the season. Thousands of sight seers travelled up Middle Road to see M'lle Ellsler walk the wire. Near the junction of Cass and Middle streets the carriages choked the road. We give credit to M'lle Ellsler for being as prompt as any woman we ever saw—it wasn't three minutes past the advertised time, when she strolled to the tent-pole with a balance-pole in her grasp and returned in safety. Then the good naturned crowd waited until 25 minutes of 2 o'clock for the balloon to fill. Suddenly it popped into the air and struck an easterly course, the wind blowing fresh. The solitary passenger in the basket, dressed in an old blue shirt and dirty pants, was Prof. John W. Hayden. The Professor is quite a young man and wasn't at all "skeered." Up he mounted rapidly and was followed along Middle Street by horses and carriages and bipeds and quadrupeds afoot. The latter cut across lots and the former went at their greatest speed. In a minute after the start the balloon had crossed Richards Avenue rapidly descending till it struck in an elm tree on the land of John Elwyn, Esq. The branches poked holes in the air-ship and a dense cloud of smoke burst forth. The balloon was punctured in many places and flattened out against the tree, the basket hanging about 20 feet from *terra firma*. Nobody was hurt and that was all of it. The clouds were not so conveniently low as to allow the balloonist an opportunity to reach them, and the balloon was not sufficiently full of rarified air to carry it to Newcastle. Young America has for once seen a successful balloon ascension in Portsmouth, and Young America now goes about the streets with eyes wide open telling other Young Americans, (less fortunate) "how the old thing works."

The Circus brought many strangers to town and there were quite a number of tired people who had been struggling with "bittah beah" and other liquids, to keep out the hot weather. They had come to see the show, saw it and then had shows of their own, perfectly content in letting "the wide world wag as it will"—they'd still be "gay and happy."

NEW ENGLAND SAVAGES.

One Man's Work.

A few years ago there was a settlement in Seabrook, the inhabitants of which were known in this vicinity as Algerines. Although but five miles from Newburyport, this people living off from the main road by themselves, were but a little above the condition of savages. They had no schools, no church, no morals, no culture. They gained their subsistence by fishing in summer and shoe making in winter, and their fuel for the latter season they got by hook and by crook—generally they hooked it. The money earned more than was needed except for the poorest and most meagre subsistence, was spent in this city for rum, and the people were a by-word of ignorance and degradation in this whole region. Many amusing stories are told of the language and habits of this people, who were as distinct from the general population of New England as are the inhabitants of Algiers from whose pirates this community received its nickname. They had intermarried so that all their native trait had become intensified in the course of a few generations and nearly one half the whole population was named Eaton. They were not looked upon with much respect, it can be imagined, by their neighbors, and the boys and the ruder portion of our folks, were in the habit of taunting the Algerines for the purpose of hearing their uncouth replies and the curious dialect which they used. The way to their settlement, is, as we said, not on the line of travel, but on a by-road leading to the marshes and the seashore where there is no thoroughfare, so that probably there are not one hundred persons in this city who have visited this curious settlement of Byfield. It is three miles from the main village of Seabrook and about the same distance from Salisbury, and they knew even less of this people than we did here, since Newburyport was the place where they come to trade and where they bought ten dollars' worth of rum to one of any other kind of provisions. The dialect, habits, manners and whole life of this people was worthy of the pen of Dickens, but a sad blot on New England civilization. Rum, interbreeding, and being cut off from association with the outside world, even through the medium of books and papers, had developed a wonderfully barbarous state of society in the midst of civilization.

Four years ago, a young man of a good deal of pluck and energy was studying for the ministry, and while pursuing his studies, it was suggested to him that a man of his qualities could do a good work among the Algerines. It would require courage and tact, just the qualities which Rev. Wm. A. Rand possessed. He went to Byfield, and in these four years he has accomplished a work such as is in the power of few missionaries to perform in the course of a long life. He has brought about a complete revolution in that part of the town. He found it without a church or a school, and still worse without any desire for either. He went to work among this people and created a demand for instruction where there was none. He has induced them to assist in building a church costing $6,000, and has a regular Sunday school in which are about one hundred and twenty-five pupils, of whom fifty bear the name of Eaton. This church and school have accomplished wonders, especially in the manners and morals of the young.

When Mr. Rand first went among them it was not an uncommon occurrence for the members of his congregation during divine service to denounce his preaching as false, himself as a meddler, and no respect for him would sufficiently deter them from any such rudeness, even if they had not learned, as they have, that decency which respects a clergyman in the exercise of his office. Indeed, in this population of five or six hundred, he has made a complete change not only in the moral and religious character of the people, but in their physical well being. When he went among them there was hardly anything in the shape of a dwelling house, other than ten feet shanties, such as would serve for the temporary dwellings of railroad hands, and under his influence most of the people have now comfortable residences. The money formerly spent for rum is now devoted to the comforts and conveniences for the families, or saved for their support in sickness and old age.

Not only does Mr. Rand exercise the pastoral office, but he has a commission as a magistrate, and has borne the sword not in vain. He has constables appointed for his district, and quells all disturbances of the peace, although there is much less need of his interference in this capacity than there was before he had indoctrinated the people there with the blessings of temperance and decency. The missionaries to Borrioboola Gha might work for a life time without seeing the fruits of their labors as this young man has in the four short years in which he has been engaged in them. He does not propose to stop in the good work, but will continue his labors, which would not be over paid with the largest salary given to any clergyman in the country, although he receives from the Home Missionary Society but three hundred and fifty dollars a year, with what his people contribute, which at first was little or nothing.—*Newburyport Herald.*

Rev. William A. Rand is a Portsmouth boy, whose pluck and energy were often shown before he commenced studying for the ministry. He has already achieved great success in his field of labor and seems to live to do good.

The early records of York county have all been recopied and bound up in good style. Many of them date back to 1653.

THE NEW ORLEANS, MOBILE & TEXAS RAILROAD COMPANY

Are building a trunk line, connecting New Orleans with Mobile on the east, and giving

THE ONLY RAILROAD CONNECTION

between the former city and the great and most productive State of Texas of the west, the total distance from Mobile to Houston being 475 miles.

The Company is composed of strong Northern capitalists, who have already expended nearly **TEN MILLION DOLLARS** of their own funds in the construction of the line. They have built about 225 miles from Mobile westward, and secured by purchase of securities and made provision for the thorough repair and equipment of the 108 miles of the Texas division; leaving but 140 miles to be built

To Complete the Entire Road.

It is believed that no other railroad corporation in the country has ever made so large an expenditure from its own means before offering any of its securities to the public.

The Company now offer for sale the

Eight Per Cent. Mortgage Bonds

upon the Louisiana division of 226½ miles from New Orleans to the Sabine River. This will probably be the most valuable portion of the whole line, as it will be the only rail communication by which the enormous productions of Texas can reach the Southern metropolis.

So important is this road considered to Louisiana, that the State has made very liberal grants in aid of the enterprise, by direct donations, by endorsement of its bonds, and by subscriptions to the stock of the Company, amounting in all to over eight million dollars.

The Bonds now offered are of two classes:

FIRST MORTGAGE BONDS,

to the amount of $12,500 per mile, and

SECOND MORTGAGE BONDS,

to an equal amount, both principal and interest guaranteed by the State of Louisiana. The price of the two classes is the same, and subscribers can take their choice.

The Bonds are only in the denomination of $1,000, or £200 each, interest payable January and July, at the rate of eight per cent. currency in New York, or seven per cent. gold in London, at the option of the holder, at the time each coupon is due. Bonds can be registered, if desired.

No better security has been offered to investors. The Bonds are largely profitable, as well as entirely safe. One thousand dollars invested in these eight per cent. bonds will give the purchaser *more than seventy-seven per cent.* greater annual interest than the same amount invested in the new Government Five Per Cents.

At the same price, an 8 per cent. currency long bond is far cheaper than a 7 per cent. gold one. Calculating a return to specie payment in three years, and taking the time that the bonds of the New Orleans, Mobile and Texas Railroad have to run—45 years—we find that by compounding the interest of each, every six months, at 7 per cent. **an 8 per cent currency bond at 90 will give a return of $2,614.18 MORE than a 7 per cent. gold bond, at the same price, or nearly three times the amount of the original investment.**

The Bonds are dated May 1, 1871. The first coupon will, therefore, be a fractional one, running from May 1 to July 1. The price is 90, and accrued interest at 8 per cent. currency from May 1st to date of remittance.

Subscriptions will be received in Portsmouth by

First National Bank.

Information concerning the Company and the Road, and pamphlets containing map and full details of the enterprise, can be obtained of the undersigned or any of the Company's advertised agents.

FIRST MORTGAGE

7 PER CENT. GOLD BONDS,

At 90 and Accrued Interest in Currency.

ON A COMPLETED ROAD,

FREE OF U. S. TAX.

This road is now in the dullest season of the year earning more than 12 per cent. net on the amount of its mortgage obligations.

Its 7 per cent gold bonds are equal for security to Government or any Railroad issue. They command a ready market, and we are prepared to buy and sell them at all times. No investment in the market possessing equal guarantees of safety, returns an equal percentage of interest. The Chicago, Burlington and Quincy has given a traffic guarantee and obligates itself to invest in these bonds 50 per cent. of the gross earnings derived from all business from this road. This is sufficient indication of the estimate of this enterprise by the largest and most far-sighted Corporation in the West. A limited quantity still for sale by

NEW FIRM!
INSURANCE BUSINESS
The Subscribers having purchased the "Business and Good-will" of
The Old and Well Established Insurance Company of JOHN S HARVEY,
have this day formed a co partnership, under the firm name of
MORSE & ILSLEY,
for the purpose of carrying on the Insurance Business in all its branches. They trust, by industry, integrity and good judgment, to merit the approbation of all the old patrons of the office, and to receive a share of public business.
MR. HARVEY will still take a lively interest in the Companies for which he has so long and faithfully worked, and he is authorized to receive applications for Insurance in said Companies as our Agent.
JOSEPH P. MORSE,
WINGATE N. ILSLEY.
Portsmouth, May 1, 1871.

A CARD.
HAVING disposed of my Insurance Business to JOSEPH P. MORSE and WINGATE N. ILSLEY, two gentlemen well known for their integrity and business capacity, I return my thanks to my old and constant patrons and friends, for their many favors, and earnestly recommend my successors, trusting the same generous patronage will be extended to them as to myself. They represent some of the oldest and most reliable Companies in both Fire and Life Insurance in the Country.

NEW PUBLICATIONS RECEIVED.

The July number of the *Overland Monthly Magazine* has two new stories, "Rivonac and Battle," by Bret Harte; "The Smuggles of a Soldier," by Calvin Optic; and "The Sophomores of Rutedge, Or, The Boston Friends of James Traitor," by Elijah Kellogg. Oliver Optic has an illustrated article on "Yacht and Yachting." Published by Lee & Shepard, 149 Washington Street, Boston, at $2.50 per annum.

La France Elegante, another of S. T. Taylor's imported monthly fashion Magazines, published (reprint) at 391 Canal Street, for $6 a year.

Communicated.

Messrs. Editors: — Rev. George Trask lectured in city on the 11th on his anti-tobacco mission. He addressed our Sabbath schools, and I hope young America will be much benefitted by his philanthropic efforts. He preached for our Methodist friends in the afternoon and showed pretty clearly from the text, "That which is highly esteemed among men, is an abomination in the sight of God," that whilst men worshipped tobacco our Maker abhors its use; that it leads more of our young men into drunkenness, delirium tremens, insanity and untimely death, than any other useless habit mankind is addicted to.

Mr. Trask addressed a large audience in the evening in the North Church, and dwelt on the social, physical and moral effects of tobacco on all who use it. I understand he is supported by no organization whatever, but battles this insidious foe to the health, happiness and morals of mankind, on his own hook; success to him, he has given out several thousand pages of his anti-tobacco and anti-rum tracts in our city, all of which he has not asked one cent for; and I verily believe that we the tax payers of Portsmouth can well afford to pay him a handsome sum two or three times a year to come and lecture in our city, and thereby help save us the trouble and expense of paying out so much money for the support of paupers, insane persons and criminals. Now, Messrs. Editors, I am authorized to say by my friend Trask, that he feels very thankful to you for advertising him to lecture here, without charge. Believe me, ever faithfully your friend in behalf of the temperance cause,

ANSEL H. HARLOW.

A letter from Buenos Ayres, May 7, states that the fever scourge is abating, the average number of deaths then being about 20 daily. United States Consul Clapp believes the total number of deaths to be over 30,000, but the native papers claim the total loss to be less than 15,000. The mortality among Americans and residents has been very small because most of them left the city, and those attacked received the best of care. Among the Americans who have died were:—

Edward Spring, a son of S. E. Spring of Portland, Me.

John Bean, a native of Maine, aged 22 years.

Stewart Charles of Fryeburg, Maine, merchant, aged 28 years.

Miss Fanny S. Wood of Boston, Mass.

Miss Dora Ayer and mother of Massachusetts.

Two pilots, named G. Sheriff and G. King.

Miss Wood of Boston went to Buenos Ayers eighteen months since to take charge of some schools in the province of San Juan. Her arrangement with the provincial authorities fell through, and shortly afterwards she was employed by the general government as a directress of the national schools. Miss Wood and Mr. Spring offered their lives in the sacred duty of attending the sick, and fell victims to their own humane and heroic impulses. Both were at one time in perfect security, and could have avoided any contact whatever with the dread disease, but they chose to work for the salvation of others as visiting nurses from house to house, and at last, alas! themselves. Consul Clapp was twice attacked, but survived both assaults, and in the intervals of his illness was a diligent attendant upon his countrymen. Rev. Henry K. Jackson, pastor of the American church, was a severe sufferer also, but recovered and proved to be an angel of mercy to the score of the sick, dying and starving. Dr. James Ayers of Farmington, Me., was also a successful and diligent minister to the afflicted both before and after his own attack.

There was a severe shock of an earthquake on the northern shore of Long Island, in Brooklyn and Staten Island, about five minutes past 10 o'clock on Sunday night. These reports indicate a wave, the centre of which was probably further east somewhere in New England.

THIRTY THOUSAND DOLLARS PAID. — The Travelers Life and Accident Insurance Company of Hartford, Conn., recently paid $30,000 on W. H. Furbush and Wm. C. Gray, killed on the Nashua & Lowell railroad; $5,000 on Isaiah Jas. H. Blake, mayor of Worcester, Mass., and $5,000 on the late S. M. Lewis, Esq., of St. Albans, Vt. All these accidents occurred, and the insurance was paid, within three months—each claim being paid about sixty days before it was due by the terms of the policy. The Travelers has paid SEVENHUNDRED DOLLARS A DAY in benefits to its policy holders, for deaths or injury by accident, for every working day during the past seven years.

The Travelers Life and Accident Insurance Company, of Hartford, Conn., grants all the usual forms of LIFE and ENDOWMENT Policies, on exceedingly favorable terms. Ample Security and Low Rates.

600,000 ACRES

CHOICE IOWA LANDS.

This Company is now offering for sale about six hundred thousand acres of the finest agricultural lands in the West. The Company sells only actual settlers, and the prices are exceedingly reasonable, ranging from $5 to $15 per acre—the average being about $8. The greater part of these lands are within the limits of the land grant of the railroad between the cities of Des Moines and Council Bluffs, and are in the most accessible and fertile region in the State.

In order to make it easy for an or credit long enough to enable any industrious man to pay for the land out of its crops.

Patents for these lands are held under a title direct from the General Government, and are not mortgaged or encumbered in any way. Full warranty deeds given to purchasers.

For maps, pamphlets, or any other information respecting them, address EBENEZER COOK, Land Commissioner, Davenport, Iowa.

EXTENSIVE TOURS to examine the lands at the Company's ticket offices at Chicago, and all other principal stations on its line, and if the purchaser buys land the amount paid for the ticket is applied on the purchase money.

TARRANT'S SELTZER APERIENT.

SECTS AND CREEDS DIFFER, but there are no dissenters from the general principle, that a great medicine is a great blessing. We have many of these blessings; but among them all, none more so than that which belongs, no greater than

Tarrant's Effervescent Seltzer Aperient.

A column would not suffice to enumerate the ailments for which it is prescribed by physicians of the highest standing. It does not belong to the class derisively termed patent medicines, but is an article based on scientific analysis, and will stand the test of the sharpest and most rigid medical criticism as a cathartic, a stomachic, an anti-febrile, and in fact, as an admirable remedy for all billious complaints.

Let there be no mistake. Secure the genuine article only.

TO BE CONTENT.

"And I have said, and I say it ever,
As the years go on and the world goes over,
'Twere better to be content and clever
In tending of cattle and tossing clover,
In the grassing of cattle and the growing of grain
Than a strong man striving for fame or gain;
Be even as kine in the red-tipped clover;
For they lie down and their rests are rests,
And the days are theirs, come sun, come rain,
To lie, rise up, and repose again.

Be even as clover with its crown of blossoms,
Even as blossoms ere the bloom is shed,
Kissed by kine and the brown, sweet bee,
For these have the sun, and moon, and air,
And never a bit of the burden of care;
And with all of our caring what more have we?
I would court content like a lover lonely,
I would woo her, win her, and wear her only,
And never go over this white sea wall
For gold, or glory, or for aught at all."

—*M. Jaquin Miller.*

SCENE AT DEPOT.—Time, Wednesday forenoon. Extra train just arrived, conveying the unterrified to Concord, to witness 'Lection Day festivities.

A carrotty head appears at one of the windows. Its owner, out for a pilgrimage to his Mecca, is bound to give an exhibition of his wit.

"I say, yew feller on the platform—they dew say that Republicans are selling dre'ful cheap 'bout here."

"Well, then, you'd better buy a lot and fill up your empty cars."

Carrot withdrew, manifesting a disposition to carry the conversation no further.—*Lake Village Times.*

—This is the best boy's composition ever written: "Dogs is usefuller than cats. Mice is afeard of cats they bite em. Dogs follows boys and catches a hog by the ear. Hog's rarely bite. Sheeps bite people. Peoples eat hogs and not the Jews as they and other animals that doesn't chew their cud isn't clean ones. Dogs sometimes get hit with boot jacks for barking at night. Sleepy people gits mad and throws at em. Dogs is the best animal for man than ground hogs or koons or gotes. Gotes smell. THE END."

—A western menagerie company recently purchased in Africa a baby elephant, 47 inches high, and had him shipped by steamer to New York and thence by express to headquarters. On the way the propensity for mischief showed itself in the animal. He broke open the mail-bags, abstracted a letter therefrom, broke it open and took out a draft for over $3000, destroyed the letter and envelope, and when discovered by the keeper had the draft safe in his trunk, it not even being torn.

—An exchange says that it knows of a boy who accidentally swallowed a silver half-dollar. They gave him warm water and tarter emetic, and antimonial wine, and poked their fingers down his throat until the boy thought he would throw up his toe-nails. After a while a doctor came along who understood such cases. He administered a small dose of patent medicine, and in less than ten minutes the boy threw up the half-dollar in five-cent pieces. Science is a great thing.

—An ebony citizen of Evansville fell head-foremost fifteen feet into an ice cellar, and pulverized a two hundred pound iceberg. Looking at the scattered fragments, as he turned himself right end uppermost, he exclaimed in accents of contrition, "Fo' de Lord, boss, I'se sorry I broke that ice, I is, sartin."

AMERICAN & FOREIGN PATENTS.

R. H. EDDY, SOLICITOR OF PATENTS, *For Inventions, Trade Marks or Designs,* No. 76 STATE ST., OPPOSITE KILBY ST., BOSTON, After an extensive practice of upwards of thirty years, continues to secure patents in the United States; also in Great Britain, France and other foreign countries. Caveats, Specifications, Assignments, and all papers for Patents, executed on reasonable terms with dispatch. Researches made to determine the validity and utility of Patents of inventions, and legal and other advice rendered in all matters touching the same. Copies of the claims of any patent furnished, by remitting one dollar. Assignments recorded in Washington.

No Agency in the United States possesses superior facilities for obtaining Patents or ascertaining the patentability of inventions.

All necessity of a journey to Washington to procure a Patent and the usual great delay there, are here saved inventors.

TESTIMONIALS.

"I regard Mr. Eddy as one of the most *capable* and *successful* practitioners with whom I have had official intercourse. CHARLES MASON, Commissioner of Patents."

"I have no hesitation in assuring inventors that they cannot employ a man *more competent and trustworthy* and more capable of putting their applications in a form to secure for them an early and favorable consideration at the Patent Office. EDMUND BURKE, Late Commissioner of Patents.

"MR. R. H. EDDY has made for me over THIRTY applications for Patents, having been successful in almost every case. Such unmistakable proof of great talent and ability on his part leads me to recommend ALL inventors to apply to him to procure their Patents, as they may be sure of having the most faithful attention bestowed on their cases, and at very reasonable charges. JOHN TAGGART."

IS A SOUTH AMERICAN PLANT that has been used for many years by the medical faculty of those countries with wonderful results, and is offered as a Sure and Perfect Remedy for all Diseases of the

LIVER AND SPLEEN, ENLARGEMENT OR OBSTRUCTION OF INTESTINES, URINARY, UTERINE OR ABDOMINAL ORGANS, POVERTY OR A WANT OF BLOOD, INTERMITTENT OR REMITTENT FEVERS, INFLAMMATION OF THE LIVER, DROPSY, SLUGGISH CIRCULATION OF THE BLOOD, ABSCESSES, TUMORS, JAUNDICE, SCROFULA, DYSPEPSIA, AGUE AND FEVER, OR THEIR CONCOMITANTS.

Dr. Wells' Extract of Jurubeba is a most perfect alterative, and is offered to the public as a great invigorator and remedy for all impurities of the blood, or for organic weakness with their attendant evils. For the foregoing complaints

Dr. Wells' Extract of Jurubeba

is confidently recommended to every family as a household remedy, and should be freely taken in all derangements of the system.

It is NOT A PHYSIC—It is NOT what is popularly called a BITTERS, nor is it intended as such; but is simply a powerful alterative giving health, vigor and tone to all the vital forces, and animates and fortifies all weak and lymphatic temperaments. 4wje20

CARD.

Having become satisfied after thorough investigations that Elastic Sponge, as now and lately manufactured, is one of the best of all substitutes for curled hair, for many if not most uses in upholstery, we have accepted the Agency for it, and intend to make it hereafter a specialty in our business. The objections which been made to it and which it is well known we ourselves have thought were well founded, we have ascertained cannot be urged against the article as now perfected. The process of manufacture has been entirely remodeled under the advice and superintendence of one of the most eminent chemists of New England. New chemical and mechanical appliances have been introduced in cleansing crude Sponge, and in charging it with glycerine with such entire success, that Elastic Sponge may now be said to be chemically pure. There is absolutely nothing in it but the clean fibre of Sponge and chemically pure glycerine.

The objections to Elastic Sponge being thus removed there remain its undisputed merits which certainly entitles it to be considered one of the most valuable, as it is one of the most curious and interesting of late discoveries. Chief among these merits is, that it is proof against moths—the great scourge of the business,—against all other insects. Then its elasticity is permanent, based as it is upon the non-evaporable property of glycerine and the indestructibility of sponge fibre. We have always been satisfied upon these two points which are the essential requisites in such materials. The evidence is now equally clear that it is wholesome and sweet. It is very light and soft, easy to manipulate, and cheap enough for all except the lowest class of goods. For the cushioning of Churches, Theatres, Public Halls, Railway Stations, Omnibuses, Carriages, Steam and Horse Cars and the like, it will probably be found, everything considered, the best article in use. For all uses, and especially for Bedding, we are now prepared to recommend the public to give it a fair trial as we ourselves intend to do. We are also ready and also to answer inquiries, make estimates and take orders for every description of work in Sponge as well as to supply the trade the article in Bales.

THURSDAY, JUNE 22, 1871.

THE LEGISLATURE.

The bill relative to the sale of medicines and poisons requires recipes to be written in English.

The standing committee on the State Normal School in the House consists of Messrs. Page of Concord, Weeks of Woodstock, Adams of Manchester, Burrows of Plymouth, Eastman of Littleton, Orcutt of Lebanon, Coggswell of Gilmanton, Sprague of Swanzy, Hill of Sandwich, and Jenness of Rye.

In the House, on the 21st, the Committee on Judiciary reported that they had examined the bill commuting the penalty of murder in the first degree from hanging to imprisonment, and were of opinion that legislation in that direction was not needed. The bill was laid on the table for discussion if desired.

A bill introduced in relation to money at interest stipulates that the rate of interest may be agreed upon by the parties by the transaction, but when no interest is stated six per cent. shall be understood.

Notices of bills to be introduced for the appointment of county auditors, relating to fire insurance, regulating the sale of liquors, incorporating the Portsmouth Trust and Guaranty Company, regulating fares on railroads, repealing a section of the act regulating the sale of liquors, making drunkenness a criminal offence, and exempting disabled soldiers from paying a poll tax, were given.

A majority of the Committee on Elections reported that Converse Gage (Republican) of Sutton is not entitled to a seat in the House, and should be returned home. The grounds for this action were that the selectmen of Sutton allowed men to vote at the town meeting who were not legally entitled to that privilege. Mr. Ramsdell presented the report of the minority of the Committee on Elections, who communicated to the House their opinion that Mr. Gage was legally entitled to a seat in the Legislature, and, therefore, should not be expelled. Mr. Ramsdell moved that a minority report be substituted for the resolution of the majority, and in support of that motion the gentleman addressed the House at length.

In the House of Representatives there are five Democratic Catholic members, who by the Constitution of the State are not eligible to seats.

NEW HAMPSHIRE ITEMS.

The first passenger train over the Portsmouth, Great Falls and Conway extension, passed to Wakefield Station, six miles beyond Union, on the 19th. On July 19 cars will be running to West Ossipee.

Mrs. Governor Weston is quite ill at her father's residence in Concord.

About two weeks ago a gentleman called at the residence of the widow of a Dover merchant long since deceased, and making himself known, said he was, when a boy, clerk for her husband, and had come to make restitution for small sums of money which he had purloined from the drawer from time to time. He had kept an account of the various amounts, and with the interest they amounted to $1000, which he came prepared to pay, and thus ease his conscience of what had so long troubled it. He then took out two five hundred dollar bills and gave one to her and one to her son, and immediately departed.

The large tenement block of Messrs. Hallard & Elliott, at Manchester, was partially burned on the 19th. Loss about $3000.

The Democrats are settling on Chas. P. Kimball, Esq., of Portland, for their candidate for Governor. "Sidney" of the Boston Journal writes that "the friends of Hon. W. L. Putnam are in hopes that the golden moment for his success may soon arrive. They do not, however, press his name at this time."

Mr. Putnam is one of Portland's Ex-Mayors and is 'way ahead of Mr. Kimball in ability and popularity. His only fault is that he still supports the Democracy when he should be a Republican.

A Somerset strawberry, which has been shown to the editor of the Fall River News, measures seven and a half inches in circumference.

The steamship Collingwood, from Liverpool to Bombay, is believed to have foundered at sea with all on board, 30 in number.

Norwalk, Conn., has elected the Republican city ticket by 150 majority.

Portland, Oregon, elected the Republican city ticket in full. Correct.

The Boston News thinks the Prohibitionists didn't defeat the Republicans in this State. In Dover alone they defeated the election of three Republican Representatives by running a Temperance ticket. Had these three Republican candidates been elected, the House would have had one Republican majority at its organization and with the two sick members present, a majority of three. In the 1st Senatorial District they defeated the election of William R. Martin, the Republican Senatorial candidate. Had the three Republican candidates for Representatives in Dover been elected, the State Senate would now consist of seven Republicans and five Democrats. It is amusing to see how the Temperance factionists try to evade the responsibility of the defeat, but will be more ludicrous should the repeal of the prohibitory liquor law be one of the ultimate results of their action.

The new departure comes about this-a-way. The Republican party dragged the Democracy stern foremost, the latter bearing a striking resemblance to refractory mules in a wagon train, until utterly exhausted and too weak to resist, the Demmies find themselves on solid ground already trodden smooth by the Republicans—smooth enough certainly to be slippery for the new comers.

The German war cost France three milliards of francs. Corpses are daily discovered in the ruins of the houses of Paris. The exploration of the sewers has been completed. Many bodies were found in them in a horribly mutilated condition, and were buried at night in the cemetery at Montmartre.

Louisville has a mysterious burglar, who enters the houses, cuts off the hair of sleeping women, throws the contents of bureau-drawers about the rooms and then departs, carrying off nothing.

Previously to the prorogation of the Hungarian delegation, the naturalization convention between Austria, Hungary and the United States was approved by both houses, and signed by the Emperor.

Alexander H. Stephens has connected himself with the Atlanta Daily Sun as political editor. The Sun is one of the most flourishing papers in the South.

Southwestern Kansas was visited by a terrific tornado recently, which in a single town tore down 100 houses, and in many places did great damage to the crops.

—The Baltimore Gazette says the policy of the Democratic party is to get in. But this is not true. A great porportion of the party are trying to get out, but cannot until their terms expire or their fines are paid.—*Chicago Post.*

—Which was right? Here are two accounts of the destruction of the Column Vendome. One says it was broken into three pieces—the other that it was shattered into ten thousand fragments. That's a little discrepancy of 9997, that's all.

—A Boston paper asserts that they used to have a habit down on Cape Cod of sending town paupers to the Legislature, that the Commonwealth might relieve them from the expense of paying their board during the winter.

—If Mr. Toombs doesn't like the "new departure," why the deuce doesn't he get up one of his own? Ten cents' worth of strychnine would be amply sufficient for the purpose.—*Louisville Cour.-Jour.*

—A portion of Clinton mountain, in Arkansas, including about one hundred acres, has sunk, carrying tall trees entirely out of sight, and the space is continually enlarging.

—The Season, a dramatic paper, nominates Peter Cooper, "the friend of man," for President, and Henry Bergh, "the friend of the brute," for Vice President.

—Heroism is not so rare as some people think. Maggie Gregory, of Long Island, lost her life on Thursday while trying to save a friend from drowning.

—Noah Perry describes the average anniversary attendant at Boston as "given to lankness, slinkiness, and an ironed down-in-the-back expression."

—The agent of a Pennsylvania marble worker persuaded a widow to buy a stone for the grave of her dead husband by promising to marry her.

—A San Franciscan who purchased a box of powder for blacking, and put it on the stove to heat, found ample time to think it over in bed.

—"Salt" is the subject of the schoolboy's latest composition: "The salt is a spice which spoils the potatoes, if you forget to put it on."

—The Journal of Commerce figures that only five business men out of a hundred avoid an entire collapse of their first effort.

—Lewiston's valuation this year will reach nearly $10,000,000.

—Spinner is better; but there is no hope for his signature.

NEW PUBLICATIONS RECEIVED.

The July number of that best of all children's magazines, *The Nursery*, is now ready and seems to be more than usually full of pleasing pictures, while the reading matter is of that happy adaptation to the capacity of the child-intelligence which has made it a prime favorite in every home to which it comes.

Political.—Hon. John Wentworth is talked of as the Democratic candidate for Mayor of Chicago. Ex-Mayor Rice will probably be the Republican nominee.

Jeff Davis, says the Cincinnati Commercial, has done his part to help the Republican party out of its troubles. His speech was beautifully timed for the all important Ohio campaign.

The La Crosse Democrat lifts its bruised head and bites the heel of the New Departure:

It is hard for us to ascertain what the Democracy and dissatisfied Republicans are to gain by voting for Radical principles under the name of "New Departure Democracy." If Radicalism is right, let the party that invented it administer it, say we. The office-seeking Democracy of Ohio have entered into an arrangement by which that State is to be given to the Republicans this Fall by a large majority. The real Democracy may wake up in time for the campaign of 1872.

Westport, Conn., boasts of a man who has a crop of strawberries which it is estimated will yield him $7000.

☞ The New Hampshire Gazette for this week, is now ready for delivery, at the Chronicle Office. Each number contains all the reading matter of the week's Dailies. Price $2 a year; single copies 5 cents,—in wrappers for mailing, if desired. Six copies for $10 per year, to Clubs—per mail or city carrier.

BUSINESS NOTICES.

Tooth ache proceeds from ague in the face, operating upon the exposed nerve of a decayed tooth. Rub the gum thoroughly with the finger, wet with *Johnson's Anodyne Liniment*, heat the face well, and lap a flannel wet with the liniment on the face, also put a little of the liniment into the cavity of the tooth on cotton.

The system frequently gets out of order and should be at once regulated, else other troubles will ensue; when physic is needed take *Parson's Purgative Pills*; they are a safe, wholesome, and natural medicine.

SPECIAL NOTICES.

Valuable Hints.

A regular habit of body is absolutely essential to physical health and clearness of intellect. Nor is this all. Beauty of person cannot co-exist with an unnatural condition of the bowels. A free passage of the refuse matter of the system through these natural waste pipes, is as necessary to the purity of the body as the free passage of the offal of a city through its sewers is necessary to the health of its inhabitants.

Indigestion is the primary cause of most of the diseases of the discharging organs, and one of its most common results is constipation. This complaint, besides being dangerous in itself, has many disagreeable concomitants—such as an unpleasant breath, a sallow skin, contaminating blood and bile, hemorrhoids, headache, loss of memory and general debility.

Hostetter's Stomach Bitters remove all these evils by removing their immediate cause in the digestive organs, and regulating the action of the intestines. The combination of properties in this celebrated preparation is one of its chief merits. It is not merely a stimulant or a tonic, or an anti-bilious agent, or a narcotic, or a blood depurent, or a cathartic, but all these curative elements judiciously blended in one powerful restorative. It lends activity and vigor to the inert and enervated stomach relieves the alimentary canal of its obstructions, and gives tone to the membrane which lines it, gently stimulates the liver, braces the nerves, and cheers the animal spirits. No other remedy possesses such a variety of hygienic virtues. It is to these characteristics that it owes its prestige as a household medicine. Experience has proved that it is as harmless as it is efficacious, and hence it is as popular with the weaker sex as with the stronger.

HOSTETTER'S STOMACH BITTERS are sold in bottles only, and the trade-mark blown in the glass and engraved on the label, is the test of genuineness. Beawre of counterfeits.

STRAWBERRY FESTIVAL of the Young Men's Christian Association at Congress Hall, this evening.

IS NATURAL HISTORY AT FAULT?—Some of the Canaries sold here at Auction on Monday as male birds have commenced laying eggs.

AT a meeting of St. John's parish, Wednesday, the resignation of Rev. Rufus W. Clark, Jr., was accepted. Mr. Clark leaves on the 24th of July.

IF Dame Rumor reports truly there will be a fine base-ball match at the Plains to-day between the Bowdoin and Dartmouth nines—but "you can't most always tell."

THE LYRE has an article declaring that there are not ratable polls sufficient in Wards One and Two to entitle each Ward to four Representatives, which is a tissue of lies from beginning to end.

TROWBRIDGE & BLOODGOOD'S combination company give one of their unique entertainments to-morrow evening. There's fun ahead for fun-lovers. Trowbridge & Bloodgood never know how to give a poor show.

LOVERS of floral beauties can now see the tulip tree in full bloom, a rarity in this city. There is one in front of the residence of Rev. George M. Adams and another in the garden of Col. C. G. Pickering on Pleasant Street.

—At 8:42 P. M. yesterday a brilliant yellow meteor shot northeast, 25 degrees from a point 12 degrees north of Alpha, in the constellation of the Lyre. *N. Y. Tribune.*

What did you do with it, William, and what explanation has Alpha for its going north of him a dozen degrees—was it a "yellow-boy" escaped from Concord?

THE poll tax this year is $3.43, just half what it formerly cost to get drunk and appear before the Police Justice, as many old veterans at the bar will remember. The rum tax, now increased to $8.76, will be paid more readily, however, and with less complaint than the poll tax, notwithstanding a discount of 6 per cent. is made to all who pay their poll tax within 30 days of July 1st.

E. A. HIBBARD, member of Congress from the first district, has signed a petition to the House of Representatives to have the seats of eight Portsmouth republicans declared vacant. It is supposed to be the result of a wicked sell by some wag who knew the Portsmouth members could not be removed, but wanted to see if the unsophisticated member would be caught with a small bait.—*Boston Advertiser.*

—We are sorry to read that the office of the "organ" of the party of great moral ideas, is infested with thieves. Strange, but true, unless said organ makes another "mistake." It complains that papers, umbrellas, pipes, etc., are stolen by "gentlemen" who visit them.—*Daily Evening Lyre.*

The umbrella we spoke of came back at last, but it was borrowed by one of your people, Mr. Thayer; the evidence we obtained fully satisfied us that the pipe was stolen by a "gentleman" who was, at the time of the theft, an employe on your paper; and a National metallic-cartridge revolver which was stolen from our office, some time before the pipe was taken, was returned to us by a policeman who found it in the possession of another employe in your establishment, who had pilfered it. That "the office of the 'organ' of the party of great moral ideas is infested with thieves" is indeed cause for sorrow.

A MYSTERY.—Twice during this season rockets have been sent up from a vessel about three miles from Whale's back lighthouse, and have been answered shortly after by a flash-light from the shore. The curiosity of some fishermen were excited and they endeavored to unmask the mystification. As soon as the signal of the vessel was answered she sailed within a half mile of the shore, and soon after boats with muffled oars were heard plying between the land and vessel. Our informants rowed to within a short distance of the vessel, when by some accident they were heard and a strike on a gong from the vessel gave notice of danger. They could discern through the darkness a boat, and gave chase to it, the darkness of the night and the many coves favoring the escape of the party. They were supposed to be smugglers, as our coast is favorable for adventurers in that business.

CLAMS, as they bake them at the Island Ledge House, Wells Beach, are good. We have tried them twice, and know. Acting on an invitation from Messrs. Davis, Wooster & Co., the enterprising proprietors of the splendid and splendidly located hotel above named, we made one to assist at the finale—which means the devouring—of the grand clam-bake with which the opening of the house was signalized on Tuesday, June 20. Leaving the train at Wells depot we were whisked down to the beach in a team driven by one of the hosts, and there found Messrs. Noyes of the Saco Independent, Metcalf of the Boston News, Ed. Fernald of the Great Falls Journal, "Propeller Davis" of Boston, the Mayor, City Marshal and City Solicitor of Saco (wonder how the rogues got on in their absence), vice-president Bickford of the B. & M. Railroad, and some 300 other invited guests and boarders at the hotel—for the summer company has already commenced to arrive in goodly numbers. The house we described in a former issue of this paper, and will only add that it has been furnished in a style befitting the building and the class of patronage that may reasonably be expected at so fine a resort, and that the cuisine is first class. The clam-bake was a perfect success—and unless Bro. Metcalf of the News was in special appetite on this occasion, we'll back him to eat clams against any representative of the press (of his size) in New England, though Propeller Davis can beat him easy, with clams thrown in—but then Propeller is much the biggest man. As the press gang had to get back to their several tread-mills, a team left the hotel in season to reach the depot and ship them on board the last regular train—while waiting for which, the time was very profitably spent in discussing cool pop beer in Getchell's store, near Wells depot, for which the proprietor, with a due sense of impecuniosity of editors in general, declined to accept payment.

The Island Ledge House is destined to become a popular resort for beach visitors. Nothing seems to have been forgotten to minister to the wants and amusements of patrons; the clerk, Mr. Lamos, thoroughly understands his business, and the proprietors are gentlemen of energy and enterprise; a line of commodious coaches is run between the hotel and Wells depot by Mr. Eaton, connecting with the morning and afternoon trains from Boston, and taking passengers over the new road now finished, in about an hour—with good horses and steady, competent drivers; and the beach is one of the best along the New England coast, and well known to thousands of tourists who have visited in times past. Many rooms and suites of rooms have been engaged for the season, and quite a number are already occupied; and from present indications we fancy that a good percentage of the large outlay on the hotel will be returned to the proprietors before "the season" closes,—which we hope will be the case.

COLONEL CHARLES H. BELL, President of the New Hampshire Historical Society, has a well-preserved copy of the first book printed and published in the State. It is entitled "Good News from a Far Country, in Seven Discourses; Delivered in the Presbyterian Church in Newbury by Jonathan Pancy, A. M., and Minister of the Gospel there, and now Published at the Desire of Many of the Hearers and Others." "Printed in Portsmouth by Daniel Fowle, 1756." The book, with a modern binding, is in excellent condition, and is printed upon clear type and good paper, and is easily read.

SOME demon or demons from the infernal or other regions, where devils incarnate are supposed to exist, on Thursday afternoon placed on the rails of the P. S. & P. R. R., about three miles this side of Cape Elizabeth, a sleeper on one side, and a stick of wood on the opposite. The obstructions were seen barely in time to stop the train, and remove them, when the 3:30 train from Portland had passed this spot but a half hour before, and it seemed evident that the rascals had arranged a benefit for the 2.30 train from this city.

FATAL RUNAWAY ACCIDENT.—On Monday, the 19th, Mr. Samuel Haven Randall of Meredith Village was thrown from his wagon by his horse, which had become alarmed and run away. In the fall Mr. Randall hit his head against a stone and the wheel struck it, crushing in the skull. He lingered some hours in an insensible state, but died by midnight. He was about fifty years of age, and leaves a wife, but no children. He was a brother of Mrs. Tobias Ham of this city.

Hackett and Manning Emery a body politic for the purpose of receiving money on trust for safe keeping, guaranteeing sureties on official and other bonds, receiving securities on deposits and for safe keeping and granting annuities, &c., with a capital of $200,000.

OUR sleepy neighbor of the Lyre, who is Assistant Clerk of the New Hampshire Senate, publishes Monday morning's legislative news in his Wednesday evening edition. He is "enterprising" you know, so enterprising in fact that he minds other people's business in preference to his own.

THE
NEW ORLEANS, MOBILE & TEXAS
RAILROAD COMPANY
Are building a trunk line, connecting New Orleans with Mobile on the east, and giving
THE ONLY RAILROAD CONNECTION
between the former city and the great and most productive State of Texas of the west, the total distance from Mobile to Houston being 475 miles.
The Company is composed of strong Northern capitalists, who have already expended nearly **TEN MILLION DOLLARS** of their own funds in the construction of the line. They have built about 225 miles from Mobile westward, and secured by purchase of securities and made provision for the thorough repair and equipment of the 105 miles of the Texas division; leaving but 140 miles to be built
To Complete the Entire Road.
It is believed that no other railroad corporation in the country has ever made so large an expenditure from its own means before offering any of its securities to the public.
The Company now offer for sale the
Eight Per Cent. Mortgage Bonds
upon the Louisiana division of 226¾ miles from New Orleans to the Sabine River. This will probably be the most valuable portion of the whole line, as it will be the only rail communication by which the enormous productions of Texas can reach the Southern metropolis.
So important is this road considered to Louisiana, that the State has made very liberal grants in aid of the enterprise, by direct donations, by endorsement of its bonds, and by subscriptions to the stock of the Company, amounting in all to over eight million dollars.
The Bonds now offered are of two classes:
FIRST MORTGAGE BONDS,
to the amount of $12,500 per mile, and
SECOND MORTGAGE BONDS,
to an equal amount, both principal and interest guaranteed by the State of Louisiana. The price of the two classes is the same, and subscribers can take their choice.
The Bonds are only in the denomination of $1,000, or £200 each, interest payable January and July, at the rate of eight per cent. currency in New York, or seven per cent. gold in London, at the option of the holder, at the same each coupon is due. Bonds can be registered, if desired.
No better security has been offered
to investors. The Bonds are largely profitable, as well as entirely safe. One thousand dollars invested in these eight per cent. bonds will give the purchaser *more than seventy-seven per cent.* greater annual interest than the same amount invested in the new Government Five Per Cents.
At the same price, an 8 per cent. currency long bond is far cheaper than a 7 per cent. gold one. Calculating a return to specie payment in three years, and taking the time that the bonds of the New Orleans, Mobile and Texas Railroad have to run—45 years—we find that by compounding the interest of each, every six months, at 7 per cent. **an 8 per cent currency bond at 90 will give a return of $2,614.18 MORE than a 7 per cent. gold bond, at the same price, or nearly three times the amount of the original investment.**
The Bonds are dated May 1, 1871. The first coupon will, therefore, be a fractional one, running from May 1 to July 1. The price is 90, and accrued interest at 8 per cent. currency from May 1st to date of remittance.
Subscriptions will be received in Portsmouth by
First National Bank.
Information concerning the Company and the Road, and pamphlets containing map and full details of the enterprise, can be obtained of the undersigned or any of the Company's advertised agents.

FIRST MORTGAGE
7 PER CENT. GOLD BONDS,
At 90 and Accrued Interest in Currency,
ON A COMPLETED ROAD,
FREE OF U. S. TAX,
This road is now in the dullest season of the year earning more than 12 per cent. net on the amount of its mortgage obligations.
Its 7 per cent. gold bonds are equal for security to Government or any Railroad issue. They command a ready market and we are prepared to buy and sell them at all times. No investment in the market possessing equal guarantees of safety, returns an equal percentage of interest. The Chicago, Burlington and Quincy has given a traffic guarantee and obligates itself to invest in these bonds 50 per cent. of the gross earnings derived from all business from this road. This is sufficient indication of the estimate of this enterprise by the largest and most far-sighted Corporation in the West. A limited quantity still for sale by

Morning Chronicle.

THE NEW CANCER SPECIFIC.—It has already been announced that a vegetable production of Ecuador, called cundurango, has wonderful virtue in curing cancers and allied diseases. A pamphlet has been published by the State Department at Washington, which sets forth its properties in detail. Eleven pounds of the stuff was sent to the Department, and was analyzed, but investigation showed nothing which could account for the remarkable qualities attributed to it. This, however, is no proof that they do not exist, as the same thing is true of other vegetable remedies.

Mr. Wing our Minister to Ecuador, writes to Secretary Fish:

The remedy in question is the wood of a tree called the "cundurango," existing chiefly in the southernmost provinces of Ecuador (Loja), and its peculiar virtues were discovered, it is said, by one of these trivial incidents which evince oftentimes how humble are the means used by Providence to make known the mysteries of nature and the wonders of science.

The ignorant wife of a common Indian laborer, who had for some time suffered most fearfully from an internal cancer, concluded finally to administer eternal relief to him by the simple process of mixing poison in his food. The woman, it would seem, acted in perfect good faith and honesty of purpose and without sinister or malevolent design.

She wished really to save her husband from his agony; and feeling that his cure was absolutely impossible, she determined to administer a decoction of the leaves of the cundurango, which are said to be an active poison. Not finding the leaves at hand, she administered a decoction of the wood itself. To her surprise the man at once began to rally, and as her first attempt had failed she continued to dose him with the lotion from day to day in increasing quantities. As a result the man entirely recovered, and the matter becoming public further tests have established the powers of the wood as a remedial agency. Only last night I was informed from the most eminent sources in the land that some of the cures effected by it were truly miraculous.

I give the report in regard to the manner in which these properties were manifested, as common rumor has it. Its efficacy in cancerous diseases has been already approved, and I judge by analogy that it would likewise prove beneficial in scrofulous and ulcerious affections of different types.

The condition of the inland roads and the difficulty of transportation to the coast will for a time interfere with its exportation in large quantities, but the energy of President Morena will eventually open it up to the commerce of the world and the relief of the afflicted. In this connection I may add that this month the President of Ecuador will forward to the State Department at Washington one bushel of the cundurango for experiment and distribution.

In a subsequent letter, Mr. Wing says: "I desire to correct a slight error into which I had fallen, as I learn from conversations with President Morena and Minister Leon. The accidental manner of the discovery of the remarkable qualities of the cundurango, as detailed in the dispatch referred to, is entirely correct, with the single exception that the fruit, and not the leaves, is poisonous, and it was in the absence of the fruit that the woman used the wood, supposing, as she did, that it must contain the same destructive properties."

A decoction of the cundurango is made out of a small piece of the wood beaten out flat, and half an ounce of which is boiled in three teacupfuls of water. Of this decoction one teacupful must be taken in the morning and another at night. If the patient has ulcers, they should be kept very clean by the use of aromatic wine or simple ointment, according to the degree of inflammation. The decoction is only to be used for fifteen days consecutively. An interval of fifteen days must then elapse, when the remedy may again be resumed for the same length of time.

Great attention must be given in order to keep the digestive organs in the best possible condition. With regard to any other counsel, the general aspect of the patient must serve as guide.

In this country (Ecuador) the cundurango has proven itself to be a powerful restorative, and must eventually work a complete revolution in the treatment of cancerous, venerial, and ulcerous diseases. DR. CASARES.

CHOICE IOWA LANDS.

This Company is now offering for sale about six hundred thousand acres of the finest agricultural lands in the West. The Company sells only to actual settlers, and the prices are exceedingly reasonable, ranging from $3 to $15 per acre—the average being about $6. The greater part of these lands are situated along the line of its railroad between the cities of Des Moines and Council Bluffs, and are in the most accessible and fertile region in the State.

Sales made for cash or on credit long enough to enable any industrious man to pay for the land out of its crops.

These lands are held under a title direct from the General Government, and are not mortgaged or encumbered in any way. Full warranty deeds given to purchasers.

For maps, pamphlets, or any other information respecting lands, address HENEZER COOK, Land Commissioner, Davenport, Iowa.

EXPLORING TICKETS are sold at the Company's ticket offices at Chicago, and at other principal stations on its line, and if the purchaser buys land the amount paid for the ticket is applied on the purchase money.

Consumption,

ITS CURE AND ITS PREVENTIVE,

By J. H. SCHENCK, M. D,

Many a human being has passed away, for whose death there was no other reason than the neglect of known and indisputable, proved means of cure. These near and dear to family and friends are sleeping the dreamless slumber into which, had they calmly adopted

Dr. JOSEPH H. SCHENCK'S SIMPLE TREATMENT,

and availed themselves of his wonderfully efficacious medicines, they would not have fallen.

Dr. Schenck has by his own counsel that wherever sufficient vitality remains, that vitality, by his medicines, and directions for their use, is quickened into healthful vigor.

In this statement there is nothing presumptious. To the faith of the invalid is made no requisition that is not a thousand times substantiated by living and visible works. The theory of the cure by Dr. Schenck's medicines is as simple as it is unfailing. Its philosophy requires no argument. It is self assuring, self-convincing.

The Seaweed Tonic and Mandrake Pills are the first two weapons with which the citadel of the malady is assailed. Two-thirds of the cases of consumption originate in dyspepsia and a functionally disordered liver. With this condition the bronchial tubes "sympathize" with the stomach. They respond to the morbific action of the liver. Here, then comes the culminating result, and the setting in, with all its distressing symptoms, of

CONSUMPTION.

The Mandrake Pills are composed of one of Nature's noblest gifts—the Pedophillum Peltatum. They possess all the blood-searching, alterative properties of calomel, but unlike calomel, they

"LEAVE NO STING BEHIND."

The work of cure is now beginning. The vitiated and mucous deposits in the bowels and in the alimentary canal are expelled. The liver, like a clock, is wound up. It arouses from its torpidity. The stomach acts responsively, and the patient begins to feel that he is getting well.

A SUPPLY OF GOOD BLOOD.

The Seaweed Tonic, in conjunction with the Pills, permeates and assimilates with the food. Chylification is now progressing, without its previous torpiors. Dyspeptic symptoms, indeed, are the cure is seen to be at hand. There is no more flatulence, nauseating eructations of the stomach. An appetite sets in.

Now comes the greatest blood purifier ever yet given by an indulgent father to suffering man. Schenck's Pulmonic Syrup comes to the partnership of functions and to hasten and complete the cure. It enters at once upon its work. Nature cannot be cheated. It knows what organs the healing balm of diseased portions of the lungs. In its form of gathering it proceeds to expectoration. Behold, lo! In a very short time the malady is vanquished, the rotten throne that it occupied is renovated and made sound and healthy. At all the doubting of regained vigor, steps forth to enjoy the manhood or womanhood that was

GIVEN UP AS LOST.

The second thing is, the patients must stay in a warm room, until they get well; it is almost impossible to prevent taking cold when the lungs are diseased, but it must be prevented or a cure cannot be effected. Fresh air and riding are especially in this section of the country in the fall and winter months, are all wrong. The physicians who recommend that course lose their patients, if their lungs are badly diseased; and yet, because they are in the house they must not sit down quiet; they must walk about the room as much and as fast as the strength will bear, to get up a good circulation of blood. The patient must be quiet; they must walk about the room as much and as fast as the strength will bear, to get up a good circulation of blood. The patient must be quiet; they must be determined to get well. This has a great deal to do with the cure, and it is the great point to cure.

To despair of cure after such evidence of its possibility in the worst cases, and moral certainty in all others, is sinful. Dr. Schenck's personal attention to the Faculty of his own cure was in these modest words:

"Many years ago I was in the last stages of consumption: confined to my bed, and at one time my physicians thought that I could not live a week. I then like a drowning man catching at straws, I heard of, and obtained the preparations which I now offer to the public, and they made a perfect cure of me. It seemed to me that I could feel them penetrate my whole system. They soon ripened the matter in my lungs, and I would spit more than a pint of offensive yellow matter every morning for a long period. As soon as that broke loose, side, my cough, fever, pains and night sweats all began to leave me, and my appetite became so great that it was with difficulty that I could keep from eating too much. I soon gained my strength, and have grown in health ever since."

"I was weighed shortly after my recovery," added the Doctor, "then looking like a mere skeleton; my weight was only sixty-seven pounds; my present weight is two hundred and twenty-five (225) pounds, and for years I have enjoyed unbroken health."

Dr. Schenck has discontinued his professional visits to New York and Boston. He will meet at No. 1 Dr. J. H. Schenck, Jr., still continue to see patients at their office, No. 15 North Sixth street, Philadelphia, every Saturday, from 9 A. M. to 3 P. M. Those who wish a thorough examination with the Respirometer will be charged $5. The Respirometer declares the condition of the lungs, and patients can readily learn whether they are curable or not.

The directions for taking the medicines are adapted to the intelligence even of a child. Follow these directions, and kind Nature will do the rest, excepting that in some cases the Mandrake Pills are to be taken in increased doses; the three medicines need no other accompaniments than the simple instructions that accompany them: the invalid's appetite. Of returning health hunger is the most welcome symptom. When this comes, as it will come, let the despairing at once be of good cheer. Good blood at once follows, the cough loosens, the night sweats disappear. In a short time both of these morbid symptoms are gone forever.

Dr. Schenck's medicines are constantly kept in tens of thousands of families. As a laxative or purgative, the Mandrake Pills are a standard preparation: while that accompany them: the invalid's appetite. Of returning health hunger is the most welcome symptom. When this comes, as it will come, let the despairing at once be of good cheer. Good blood at once follows, the cough loosens, the night sweats disappear. In a short time both of these morbid symptoms are gone forever.

FRIDAY was a day of panic among the stock gamblers on Wall Street. A clique was attempting to put up Rock Island stock, but failed, and it tumbled from 130 1-2 to 110. JOSEPH VERRILL of Rockland, Me., was shot at and wounded and afterwards severely beaten about the head by George B. Barstow, at the house of the latter, on Tuesday night, June 20. The occasion of the attack was Barstow's coming home unexpectedly and finding Verrill in company with his wife. Verrill was shot in the left side, above the hip, the ball striking a rib and passing around to the front, where it lodged under the skin, occasioning only a flesh wound which is not of a dangerous character. Barstow was arrested.

TAKING DEFEAT PHILOSOPHICALLY. The laughing philosopher who does the New London news for the Norwich Advertiser, hangs a rooster heels up, over his remarks on the Democratic defeat at the New London city election on Monday week, and thus philosophizes:

Bring out the big gun and then softly wheel her back again.

We haven't won the race but we came in second best.

Glory enough for one day, but rather scant for two.

If at first you don't succeed, then set 'em up again.

Our defeat is due to the drouth, or the supply of pure water; we don't know which.

CARD.

Having become satisfied after thorough investigations that Elastic Sponge, as now and lately manufactured, is one of the best of all substitutes for curled hair, for many if not most uses in upholstery, we have accepted the Agency for it, and intend to make it hereafter a speciality in our business. The objections which been made to it and which it is well known we ourselves have thought were well founded, we have ascertained cannot be urged against the article as now perfected. The process of manufacture has been entirely remodeled under the advice and superintendence of one of the most eminent chemists of New England. New chemical and mechanical appliances have been introduced in cleansing crude Sponge, and in charging it with glycerine with such entire success, that Elastic Sponge may now be said to be chemically pure. There is absolutely nothing in it but the clean fibre of Sponge and chemically pure glycerine.

The objections to Elastic Sponge being thus removed there remain its undisputed merits which certainly entitles it to be considered one of the most valuable, as it is one of the most curious and interesting of late discoveries. Chief among these merits is, that it is proof against moths—the great scourge of the business,—against all other insects. Then its elasticity is permanent, based as it is upon the non-evaporable property of glycerine and the indestructibility of sponge fibre. We have always been satisfied upon these two points which are the essential requisites in such materials. The evidence is now equally clear that it is wholesome and sweet. It is very light and soft, easy to manipulate, and cheap enough for all except the lowest class of goods. For the cushioning of Churches, Theatres, Public Halls, Railway Stations, Omnibuses, Carriage Room and Horse Cars and the like, it will probably be found, everything considered, the best article in use. For all uses, and especially for Bedding, we are now prepared to recommend the public to give it a fair trial as we ourselves intend to do. We are are ready also to answer inquiries, make estimates and take orders for every description of work in Sponge as well as to supply the trade the article in Bales.

FRIDAY, JUNE 23, 1871.

THE LEGISLATURE.

In the Senate on the 21st a bill was reported back from the judiciary committee repealing the present statute on naturalization, and making the police court a court of record, with power to grant naturalization papers, which is now denied them. The question being on the third reading of the bill, an animated discussion was indulged in by several senators, and on the question the senate stood six to six. By mutual consent the bill was recommitted, Senator Smith acting with the Republicans on the first test of votes in that body. The Nashua Gazette, Democratic, says:

Those who know Mr. Smith say that he'is an honest man and will do precisely as he agrees to.

Will the Gazette continue to think so?

There seems to be a hitch between the Democrats and Labor Reformers. After the contested election case of Converse Gage (Republican) of Sutton had been debated until 6 o'clock, the Democrats eagerly pressing it and being determined to vote out Mr. Gage before adjournment, the subject was laid on the table on motion of Mr. Tucker, a Pittsfield Labor Reformer. The same evening the Republicans and Labor Reformers nominated Leander W. Cogswell, the Labor Reform Representative from Henniker, for State Treasurer.

During the discussion of the Sutton case Mr. Wadleigh caused great sensation by saying that if the Reformer is kept on helping the Democrats to unseat Republicans it would not be long before the Democrats would be sufficiently strong to get along without the Reformers.

In the House on the 22d, the bill chartering the Portsmouth and Dover Railroad was ordered to a third reading; the bill chartering the Concord, Manchester and Nashua Railroad was read once and laid on the table for printing.

Among other bills which had a second reading was one in relation to railroad fares, which stipulates that all railroads in this State which pay a dividend of eight per cent, or over shall not, for any distance of twenty miles or more, charge over two cents a mile for carrying passengers; for distances under twenty miles the charge shall not be over two and one half cents a mile; and no ticket need be issued for less than fifteen cents. This bill, if made a law, to take effect on the first of September next.

Notices were given of bills abolishing the present judiciary system and establishing a new one; in relation to Senatorial districts; and amending the charter of the city of Portsmouth.

Henry Crowell, of Londonderry (Rep.), was unseated.

Of the 329 members of the House at the present session of the legislature, 83 are registered at the hotels in Concord, 14 at home, 2 are invalids and not in attendance, and 230 are at private residences in the city.

THE Iowa State Republican convention was held June 21, at Des Moines. The convention nominated C. C. Carpenter for governor, by acclamation, H. E. Butler for lieutenant-governor, James D. Gray for judge of the supreme court, and Colonel Anson Abernethy for superintendent of public instruction. Resolutions were adopted congratulating the country upon the adjustment of the difficulties with great Britain, favoring protection on the basis of a revenue tariff and a uniform system of taxation, the state control of of railroads by the legislatures, the annexation of San Domingo when the people of that Island desire, indorsing and approving Grant's administration, favoring the encouragement of the agricultural interests of the State, a modification of the revenue system to mitigate the burthens of taxation and opposing subsidies and indorsing the State administration.

THE Republican State convention of Ohio met in Columbus, June 21, and nominated General Edward E. Noyes of Cincinnati for governor, by acclamation: Jacob Mueller of Cuyahoga, for lieutenant-governor; William H. West of Logan, Judge of the supreme court; and Isaac R. Welsh, state treasurer. Resolutions endorsing the Administration were adopted, and the convention broke up in harmony.

Gen. Noyes, the candidate for governor, is a native of Dover, in this State, —is a printer, and lost a leg during the rebellion. That record ought to satisfy the most exacting.

GOV. HAIGHT of California has been nominated for re-election by the Democrats.

POLITICAL.—One Ohio organ of the pure Democracy doesn't take kindly to new departure; in fact, it calls it "self-stultification and dishonor," and adds:

As well may we hurl pebbles at the sun in the hope of blotting it from the heavens. Will eating dirt be any the sweeter now that these infamies are endorsed by Mr. Vallandigham, and the lackeys who bellowed for him in the convention.

This paper is the Ashland States & Union, and its writhings lead the Cleveland Herald to liken it to the melancholy publican during a temperance revival: "The world is going to the dence, Sammy. Put up the shutters and let's get drunk."

The New York Day Book, red-hot Democratic, calls the Vallandigham platform "the great crab movement of the Democratic party," and says that it is an attempt "to crawl backward out of sight of every principle always held sacred by the party."

THE Germans in Chicago having succeeded in obtaining from the city government "Free Sabbaths," or the privilege of doing as they please on Sundays, the Chicago paperr are somewhat satirical in their remarks. The Times discourses as follows:—

If a Yankee should go to Germany it would be perfectly proper that he should at once remodel all Germany to suit his notions. Why not? The same right is claimed by every man who comes to the United States as to American institutions.

Our German fellow-citizens had a grand procession in honor of their victory over France. Shall we not have a grander one, now in honor of their victory over the Sabbath?

The latest despatch from Kaiser Wilhelm is as follows:—

"*Beloved Augusta*:—We have captured Chicago. God be praised for His goodness. WILHELM."

Our German fellow-citizens are great undertakers, in that they have brought all Chicago to their bier.

THE Coos Republican is very severe in its comments on the course pursued by James Legro, a Republican representative from Lancaster, who has thus far uniformly voted with the coalition party in the House. As the Republican is published at the home of Legro, it may be supposed to know whereof it speaks. That paper says that "the treason of Mr. Legro to the Republican party and its principles is full and complete. He has put on Harry Bingham's collar, had the mark of his treachery stamped upon his forehead and numbered upon his ballot, and is now as completely the property of the Democratic party as though he was a bale of merchandise sold and delivered. When he records his vote it is not the expression of his will, but of those who have bought him and paid for him."

THE Lewiston Journal says much excitement has been rife in the streets of Bethel for the two days past. A young married couple had been serenaded on successive nights by a crowd of boys, without receiving any attention from them. The boys finally made an assault upon the couple in the evening, as they were walking in the street. The bridegroom defended himself as well as he could, when one of them threw a stone which struck the bride over the eye, knocking her down. She was taken up in a senseless condition and carried to a neighbor's house. Four of them were arrested and fined for assault and battery. It is to be hoped the next man who receives such treatment in Bethel will shoot somebody.

THEY tell of a real hero out in Michigan. John Olvany was in a fishing boat with three others, when it was capsized, and it was found that the overturned craft would not bear the four men who clung to it. With the remark that the others were men of family, and that he would give them a chance for rescue, he cast off and endeavored to swim ashore on a board, but was drowned in the attempt.

CHICAGO enjoyed last Sunday so much that a thief shot his two captors and was himself shot; a boat-load of men was capsized in the lake and one drowned, and a man committed suicide by jumping into the lake.

THE census of England, Wales and Ireland is completed. The population of England and Wales is about 22,700,000 and of Ireland about 5,400,000.

A terrible hurricane recently visited the district of Surat, India, destroying the cotton crop and causing damage to the extent of over £500,000.

A bay horse, hitched to a tree and starved to death, was found in the woods at Douglass, Mass., recently.

EARL DE GREY has been officially gazetted as Marquis of Ripon, for his services as a High Joint.

NEW HAMPSHIRE ITEMS.

Harvey Fookes, an employe in Palmer's spring factory, at Concord, was drowned, in Long Pond, June 21, being thrown out of a sail-boat. He was about twenty years of age and unmarried.

The trains of the North Weare Railroad resumed their regular running into Manchester on the 22d, a temporary trestle-bridge having been constructed on the site of the bridge across the Merrimack, recently destroyed by fire.

The Boston stockholders and officers of the New Hampshire Granite Company made their annual visit to the quarries, near Concord, June 21. The party was joined by governor Weston, Mayor Jones of Concord and others. Mayor Gaston of Boston accompanied the party.

FURTHER details of the burning of ship Dolores Ugartes, off the coast of China, given in the Anglo-Chinese journals, show that no means of a possible escape had been provided. No attempt at rescue was made, and the coolies were liberated from the hold of the burning ship by a humane sailor only to perish in one writhing mass.

THE enterprising and efficient Democratic ward politician of New York, Reddy the blacksmith, is now in jail, committed without bail.

—New-Berne, North Carolina, boys tie ropes across the sidewalks to trip up passers. New-Berne boys should be larruped.

JOB AND CARD PRINTING.—We have made great additions to our jobbing facilities—a mammoth Hand Press (the largest in Portsmouth,) new Display Type, Borders of various styles, &c. —and are prepared to execute with neatness and dispatch, all orders for FULL SHEET POSTERS, DATE SLIPS, PAMPHLETS, SERMONS, ADDRESSES, AUCTION BILLS, CONSTITUTIONS, BY LAWS, PROGRAMMES, HANDBILLS, CIRCULARS, ORDERS DANCES, BLANKS, BILL HEADS, RECEIPTS, TICKETS, BUSINESS, MARRIAGE, ADDRESS AND VISITING CARDS, LABELS, TAGS, and in fact PRINTING OF ANY DESCRIPTION, at SATISFACTORY PRICES. Orders received by mail, express, or at the CHRONICLE OFFICE will be *promptly filled.*

BUSINESS NOTICES.

Tooth ache proceeds from ague in the face, operating upon the exposed nerve of a decayed tooth. Rub the gum thoroughly with the finger, wet with *Johnson's Anodyne Liniment*, heat the face well, and lap a flannel wet with the liniment on the face, also put a little of the liniment into the cavity of the tooth on cotton.

The system frequently gets out of order and should be at once regulated, else other troubles will ensue; when physic is needed take *Parson's Purgative Pills*; they are a safe, wholesome, and natural medicine.

SPECIAL NOTICES.

Valuable Hints.

A regular habit of body is absolutely essential to physical health and clearness of intellect. Nor is this all. Beauty of person cannot co-exist with an unnatural condition of the bowels. A free passage of the refuse matter of the system through these natural waste pipes, is as necessary to the purity of the body as the free passage of the offal of a city through its sewers is necessary to the health of its inhabitants.

Indigestion is the primary cause of most of the diseases of the discharging organs, and one of its most common results is constipation. This complaint, besides being dangerous in itself, has many disagreeable concomitants—such as an unpleasant breath, a sallow skin, contaminating blood and bile, hemorrhoids, headache, loss of memory and general debility.

Hostetter's Stomach Bitters remove all these evils by removing their immediate cause in the digestive organs, and regulating the action of the intestines. The combination of properties in this celebrated preparation is one of its chief merits. It is not merely a stimulant or a tonic, or an anti-bilious agent, or a nervine, or a blood depurent, or a cathartic, but all these curative elements judiciously blended in one powerful, restorative. It lends activity and vigor to the inert, and enervated stomach relieves the alimentary canal of its obstructions, and gives tone to the membrane which lines it, gently stimulates the liver, braces the nerves, and cheers the animal spirits. No other remedy possesses such a variety of hygienic virtues. It is to these characteristics that it owes its prestige as a household medicine. Experience has proved that it is as harmless as it is efficacious, and hence it is as popular with the weaker sex as with the stronger.

BATTLE AND THE VICTORY.

The fight is over. Competition is at an end. The humbugs who have disfigured so many heads and endangered so many lives, are "whipped out," and

Cristadoro's Excelsior Hair Dye

remains master of the field, and is acknowledged to be the Standard Hair Dye of America. A LIST OF THE KILLED AND WOUNDED would show scores of charlatans stretched on their backs. Endorsed by Professor CHILTON as pure and harmless, and accepted by the public as matchless in its operation, the Excelsior Dye laughs all others to scorn. As an exquisite dressing after dyeing, use

ARE YOU GOING TO PAINT?

—IF SO, USE THE—

AVERILL CHEMICAL PAINT.

It is Cheaper, Handsomer and more durable than the best of other Paints. One Thousand Gallons of it were sold in this City, in the year 1870, and not one complaint has come from those who have used it; but all speak in its favor; it is mixed ready for application, and is much easier put on than any other Paint, making a smooth, glossy surface for years, that can be cleaned with hot suds without injuring it. It is excellent for walls inside, in the place of paper.

I shall keep this season a large stock of Chemical Paints of all shades on hand, to accommodate customers with any amount, without delay in ordering it. Those who want to use the Chemical Paints and have had them misrepresented by those who deal in Lead and Oil, are invited to call and examine my Paints that have been on Buildings two years, and you will find them as fresh as if laid but one month.

I am prepared to do Painting by Contract, or by the day, using the Chemical Paint, or furnishing good experienced workmen by the day at very low wages. B. NORTON, only Agent for selling the

This road is now in the dullest season of the year earning more than 12 per cent. net on the amount of its mortgage obligations.

The 7 per cent gold bonds are equal for security to Government or any Railroad issue. They command a ready market and we are prepared to buy and sell them at all times. No investment in the market possessing equal guarantees of safety, returns an equal percentage of interest. The Chicago, Burlington and Quincy has given a traffic guarantee and obligates itself to invest in these bonds 50 per cent. of the gross earnings derived from all business from this road. U. S. Steamer Tallapoosa arrived at this port on Thursday, having as passengers Senator Morrill of Maine and Commander McCauley, U. S. N., and family.

A HORSE attacked to a market wagon took a slide on one of the cross-walks on Pleasant Street, Thursday, and sat down on one of the wagon shafts, which needed repairs afterwards.

THE Dartmouths and Bowdoins didn't come here to play base ball yesterday, but have decided to play the game to-day at the Plains. Don't believe it until you see them, though.

NEWBURYPORT wants a stone crusher. By the way, what has become of Portsmouth's new stone crusher, which was to be in working order again by June 1st? Has anybody swapped it for a jack-knife?

DE WITT CLINTON Commandery, F. & A. M., will leave for Lawrence this afternoon at 4.40 on the Concord train. They will be the guests of Bethany Commandery, and are to return in the train reaching here Saturday evening at 6.40. The Cornet Band will accompany them.

THE Savannah (Ga.) Base Ball Club are to make a New England tour, arriving in Boston next week. They will be accompanied by a band of 40 pieces, and many citizens of Georgia. A proposition for a game to be played at the Fair Grounds in this city by the Savannahs and Lowell of Boston is being discussed.

AT a meeting of S. F. Engine Co. No. 1 on the 21st, it was voted to take part in the Firemen's General Muster to be holden in this city next September. The following officers were appointed a committee to confer with the committees from other companies:—T. Frank Shannon, Foreman; J. S. Whidden, 1st Asst.; and George Price.

HAVE you seen Jos. Muchmore's latest cartoon at Fred Moses' store? It represents an elephant holding a colored "individooal" in his trunk over the gaping mouth of an alligator. A Republican passing by likened the elephant to the Republican party holding the Labor Reform party and ready to drop it into the hungry mouth of the Democracy, Jos. says he didn't build the drawing for any such purpose, as Fred and he belong to the alligator crowd.

THE Strawberry Festival of the ladies interested in the Universalist Sunday School, at Congress Hall this evening, will give every one a chance to enjoy strawberries and *cream*, ices, cake, flowers and pleasant society. An apron table is one of the attractions, and a chance for any lady to learn how it seems to have the suffrage will be given, as two large chromos are to be presented to the High school receiving the most votes. The admission fee is trifling. See adv't.

SECTARIANISM IN SCHOOLS. — A teacher of one of the public schools not many miles from this city, took occasion to announce a Strawberry festival in that place by the joint "evangelical" churches and thought it proper to request all the scholars, other than those belonging to the Unitarian and Universalist churches, to retire to the class room that he might inform them of said Festival. Another peculiarity of this teacher is, that when he deems it necessary to punish a scholar, he requests the boys to vote on the matter. The latter, of course, wishing to see the fun, vote yea. City teachers please N. B.

THE return game of base ball between the Mutuals of Newburyport and the Athletics of this city was played in that place, Wednesday, and resulted in a victory for the Newburyport boys by a score of 34 to 32. The playing of both nines was very sharp. George H. Knowles and Daniel Casey distinguished themselves in playing left field by each catching three very difficult fly balls. Hackett played first base finely, and Lightford did some heavy batting, and scoring six runs and no outs. The Athletics during their nine innings led the game, but the Mutuals did some heavy batting on the 9th, and making ten runs won the game.

THE meanest of all mean editors puts his nose into other people's business until he gets his foot in it, then whimpers because his toes are trodden on. Don't persist in getting in our way, William, as long as your house is of glass; your corns won't hurt half as much if nobody steps on them.

THE benefit supper at the Rockingham House, Wednesday evening, as a testimonial of sympathy with Messrs. Peirce, proprietors of the lately burned Sagamore House, was a gratifying occasion to those gentlemen and their many friends present. A supper, resolutions of sympathy, speeches and other good cheer enlivened the proceedings well into the night, and the music of the Marine Band filled up all interstices.

TROWBRIDGE & BLOODGOOD.—Everybody who is familiar with good minstrel troups, knows Trowbridge, and that his name has for years been the synonym for excellence in the profession, and we have faith that there will be no letting-down in his efforts to amuse the public without pandering to a vitiated taste. His new partner is a fellow of goodblood we will venture to say, for we have Bruce's word—Bruce of Bannockburn, who takes pride in his business and bills a town in as good style as any man on the road. It's worth while to study his decorations, and he avers that all that is "nominated in the bond" shall be performed, if it takes the bottom dollar.—*Portland Press.*

To which we add that Harry Bloodgood is "second to none" in making fun; and as "he's got to come" this evening, the Temple will probably hold a larger audience than usual on such occasions. The Freeman sisters are with the troupe.

DARKNESS was visible in our streets and darkness only, the night Stone & Murray's circus was here. We undertook to escort a lady home from the Rockingham House, about 9 o'clock, and as soon as we lost the aid of the light in front of the hotel we guided our companion to a rough collision with a stone post; and in endeavoring to avoid such an accident afterwards we ourself collided with the side of a house and broke our umbrella—the umbrella we had but just recovered from the democratic "gentleman" who borrowed it. At a later hour, when the circus was over, the streets filled with some 3000 people and the rain coming down in torrents, many were the collisions of pedestrians with each other and with trees and fervent (in some cases) the anthemas. We don't know what the almanacs may say about there being a moon that night, but we do know that there wasn't one anywhere near this city; and we would suggest to the city authorities that somebody or other should have power to order the street lamps lighted, in case another such murky night should come along, even though it might not be one of the regular nights for illuminating.

NEW PUBLICATIONS RECEIVED.

Our Young Folks, for girls and boys, is as brilliant and attractive as ever. It certainly is not exceeded by any similar magazine in the United States. The July number contains three chapters of Trowbridge's story of "Jack Hazzard and his fortunes," and sketches; poems, illustrations, &c., by the best authors and artist.

Blackwood's Magazine (Am. reprint) for June, from Leonard Scott Pub. Co., N. Y. Contents—Charles Dickens; Under the Red Cross: A Narrative of Hospital Life with the Prussians in France, —Part II; Old and New Annalists of Oxford; Fair to See.—Part VI; A Century of Great Poets, No. I, by William Cowper; and Burton's History of Scotland, concluding volumes. $4 per year.

☞ THE NEW HAMPSHIRE GAZETTE for this week, is now ready for delivery, at the Chronicle Office. Each number contains all the reading matter of the week's Dailies. Price $2 a year; single copies 5 cents,—in wrappers for mailing, if desired. Six copies for $10 per year, to Clubs—per mail or city carrier.

THE NEW ORLEANS, MOBILE & TEXAS RAILROAD COMPANY

Are building a trunk line, connecting New Orleans with Mobile on the east, and giving

THE ONLY RAILROAD CONNECTION

between the former city and the great and most productive State of Texas of the west, the total distance from Mobile to Houston being 475 miles.

The Company is composed of strong Northern capitalists, who have already expended nearly **TEN MILLION DOLLARS** of their own funds in the construction of the line. They have built about 225 miles from Mobile westward, and secured by purchase of securities and made provision for the thorough repair and equipment of the 108 miles of the Texas division; leaving but 140 miles to be built

To Complete the Entire Road.

It is believed that no other railroad corporation in the country has ever made so large an expenditure from its own means before offering any of its securities to the public.

The Company now offer for sale the

Eight Per Cent. Mortgage Bonds

upon the Louisiana division of 226½ miles from New Orleans to the Sabine River. This will probably be the most valuable portion of the whole line, as it will be the only rail communication by which the enormous productions of Texas can reach the Southern metropolis.

So important is this road considered to Louisiana, that the State has made very liberal grants in aid of the enterprise, by direct donations, by endorsement of its bonds, and by subscriptions to the stock of the Company, amounting in all to over eight million dollars.

The Bonds now offered are of two classes:

FIRST MORTGAGE BONDS,

to the amount of $12,500 per mile, and

SECOND MORTGAGE BONDS,

to an equal amount, both principal and interest guaranteed by the State of Louisiana. The price of the two classes is the same, and subscribers can take their choice.

The Bonds are only in the denomination of $1,000, or £200 each, interest payable January and July, at the rate of eight per cent. currency in New York, or seven per cent. gold in London, at the option of the holder, at the time each coupon is due. Bonds can be registered, if desired.

No better security has been offered to investors. The Bonds are largely profitable, as well as entirely safe. One thousand dollars invested in these eight per cent. bonds will give the purchaser *more than seventy-seven per cent.* greater annual interest than the same amount invested in the new Government Five Per Cents.

At the same price, an 8 per cent. currency long bond is far cheaper than a 7 per cent. gold one. Calculating a return to specie payment in three years, and taking the time that the bonds of the New Orleans, Mobile and Texas Railroad have to run—45 years—we find that by compounding the interest of each, every six months, at 7 per cent. **an 8 per cent currency bond at 90 will give a return of $2,614.18 MORE than a 7 per cent. gold bond, at the same price, or nearly three times the amount of the original investment.**

The Bonds are dated May 1, 1871. The first coupon will, therefore, be a fractional one, running from May 1 to July 1. The price is 90, and accrued interest at 8 per cent. currency from May 1st to date of remittance.

Subscriptions will be received in Portsmouth by

First National Bank.

Information concerning the Company and the Road, and pamphlets containing map and full details of the enterprise, can be obtained of the undersigned or any of the Company's advertised agents.

Morning Chronicle.

A MORMON LOVE STORY.—A Mormon, whom we will call Brother Nehi Gibbons, took a wife at the blooming age of 25. He was pious and industrious and seemed to be perfectly satisfied with his bride, whose name was unfortunate for a heroine, being plain Mary Ann. She was the best of wives and she sang in the choir, bore Nehi a child and helped to cultivate his vine and fig tree. Their apricots and pear trees grew and flourished, and nothing seemed wanting in this comfortable establishment, which was the envy of every youthful saint. Still, there was a skeleton in the closet. Mary Ann had a secret and a passion. She wanted Nehi to take a second wife! This was not only because he was a good and true man, and devoted and able-bodied, but because she had set her mind upon the other wife he was to take. Mary Ann wanted to provide for her bosom friend, Susan, who was in every way deserving of Nehi's affections, and who loved Nehi as purely and as really as Mary Ann herself! They had conferred together about it. Mary Ann who could not be happy where Susan was not—even at Nehi's side—had broken the subject to Susan, and her clearest suspicions were confirmed by the secret disclosure that both the ladies loved the same saint. Far from feeling indignant at this frank and forward confidence, Nehi's wife received it with delight. She gave her maiden friend every assurance that their mutual choice was worthy of their united ambition, and they set to work to compel Nehi to accept another Mrs. Gibbons. It being unseemly for Susan to do more than put herself as frequently as possible in Mr. Gibbon's way, the plot ripened slowly, and on conferring with one of the bishops of the church, he recommended both ladies to make the consummation a subject of prayer. They lifted up their hearts together that it might be revealed to Nehi what good he was neglecting, but Nehi hardened his heart, and refused to extend his table cloth.

He was as yet ignorant of the new helpmate intended for him, but on the suggestion of Mrs. Gibbons that he was not glorifying his manhood and his family, he said that a pair was enough, and that he had no wish to marry. Under these circumstances, a little extreme diplomacy was adjudged necessary, and Mrs. Gibbons, to compel a marriage, declared that her household work was too onerous, and finally affected to be grievously ill. Nehi Gibbons, unable to resist this description of appeal, obeyed the desire of his wife Mary Ann, but the woman he married—was not Susan! He was too blind to guess the person intended, and he married an entirely different women. Grave complications ensued upon this precipitate action of Nehi Gibbons. The peace of his family was disturbed, and none the less because, after the usual period, the second Mrs. Gibbons had a baby. Mary Ann, redoubling her efforts, met with no other success than that Mr. Gibbons took a third wife, and this time also it failed to be Susan. The third effort was more directly made, and with less diplomacy, Mrs. Gibbons the first suggesting expressly that her choice was her bosom friend, and the power of candor was never so well attested as on this occasion, for Mr. Gibbons answered: "Had I thought Susan would have accepted me, my dear Mary Ann, I should have made her my wife before I proposed to you!" Thus piety and patience were crowned, friendship was rewarded, and Susan and Mary Ann being lovely in life, in wedlock were not divided.—*Geo. Alf. Townsend's Salt Lake Cor.*

—The Portland (Me.) Press say: "The following story, strange as it may appear, is vouched for by witnesses whose testimony is unimpeachable. A short time ago a female Newfoundland dog was in the habit of coming to the house of a lady in this city who would throw to it pieces of cold meat, which the dog would eat, and, having satisfied its hunger, go away again. So confirmed did this habit become, that at a certain hour daily the lady would expect the dog and the animal would put in an appearance. A few days ago, before feeding her, the lady said to her, 'Why don't you bring me one of your puppies?' repeating the question several times as she stood at the window, the dog looking at her in the face with an expression of intelligence, as if it understood every word the lady said. The next day, to the lady's astonishment, at the usual hour, the dog returned and, lo, behold! was accompanied by a little puppy. The lady fed both dogs, and then took up the puppy into the window, when the old dog scampered off and did not return for three days. At the end of that time the dog again appeared, when, after feeding it, the lady said, 'Next time bring all your puppies, I want to see them:' and yesterday morning, sure enough, the dog returned accompanied by three Newfoundland pups. Several of the neighbors saw the whole transaction, and declared that they considered this one of the most wonderful proofs of the sagacity of the dog they have ever known. Where the dog came from and to whom it belongs is not known, but we have the name of the lady and also of those who were eye-witnesses to the occurrences as narrated by us."

—The famed mosquitoes of New Jersey are being eclipsed by the appearance there of a new blood-letter, called the "winged porcupine," which has concealed under its wings a number of fine quills, and shoots them at any one attempting to capture it. These work into the skin, causing a painful irritation.

—Earthquakes are caused by electricity, accordidg to a new theory.

600,000 ACRES

CHOICE IOWA LANDS.

This Company is now offering for sale about six hundred thousand acres of the finest agricultural lands in the West. The Company sells only to actual settlers, and the prices are exceedingly reasonable, ranging from $5 to $15 per acre—the average being about $8. The greater part of these lands are situated along the line of its railroad between the cities of Des Moines and Council Bluffs, and are the most accessible and fertile region in the State.

Sales made for cash or on credit long enough to enable any industrious man to pay for the land out of its crops.

These lands are held under a title direct from the General Government, and are not mortgaged or encumbered in any way. Full warranty deeds given to purchasers.

For maps, pamphlets, or any other information respecting them, address EBENEZER COOK, Land Commissioner, Davenport, Iowa.

EXPLORING TICKETS are sold at the Company's ticket offices at Chicago, and all other principal stations on the line, and if the purchaser buys land the amount paid for the ticket is applied on the purchase money.

TARRANT'S SELTZER APERIENT.

SECTS AND CREEDS DIFFER, but there are no dissenters from the general principle, that a great medicine is a great blessing. We hear many of these blessings, but among them all, in the province to which it belongs, no greater than

Tarrant's Effervescent Seltzer Aperient.

A column would not suffice to enumerate the ailments for which it is prescribed by physicians of the highest standing. It does not belong to the class designated by the term patent medicines, but is an article based on scientific analysis, and will stand the test of the sharpest and most rigid medical criticism as a cathartic, antacid, an anti-febrile preparation, and an admirable remedy for all bilious complaints.

Let there be no mistake. Secure the genuine article only.

AMERICAN & FOREIGN PATENTS.

R. H. EDDY, SOLICITOR OF PATENTS, *For Inventions, Trade Marks or Designs,*

No. 76 STATE ST., OPPOSITE KILBY ST., BOSTON,

After an extensive practice of upwards of thirty years, continues to secure patents in the United States; also in Great Britain, France and other foreign countries. Caveats, Specifications, Assignments, and all papers for Patents, executed on reasonable terms with dispatch. Researches made to determine validity and utility of Patents of inventions, and legal and other advice rendered in all matters touching the same. Copies of the claims of any patent furnished, by remitting one dollar. Assignments recorded in Washington.

No Agency in the United States possesses superior facilities for obtaining Patents or ascertaining the patentability of inventions.

All necessity of a journey to Washington to procure a Patent and the usual great delay there, are here saved inventors.

TESTIMONIALS.

"I regard Mr. Eddy as one of the most *capable and successful* practitioners with whom I have had official intercourse. CHARLES MASON, Commissioner of Patents."

"I have no hesitation in assuring inventors that they cannot employ a man *more competent and trustworthy*, and more capable of putting their applications in a form to secure for them an early and favorable consideration at the Patent Office. EDMUND BURKE, Late Commissioner of Patents.

"MR. R. H. EDDY has made for me over THIRTY applications for Patents, having been successful in almost every case. Such mistakes, proof of great talent and ability on his part leads me to recommend ALL inventors to apply to him to procure their Patents, as they may be sure of having the most faithful attention bestowed on their cases, and at very reasonable charges. A GREAT MEDICAL DISCOVERY!

DR. WALKER'S CALIFORNIA

VINEGAR BITTERS.

Hundreds of Thousands Bear Testimony to their Wonderful Curative Effects.

WHAT ARE THEY!

THEY ARE NOT A VILE FANCY DRINK,

Made of Poor Rum, Whiskey, Proof Spirits and Refuse Liquors doctored, spiced and sweetened to please the taste, called "Tonics," "Appetizers," "Restorers," &c., that lead the tippler on to drunkenness and ruin, but are a true Medicine, made from the Native Root and Herbs of California, **free from all Alcoholic Stimulants.** They are the GREAT BLOOD PURIFIER and a LIFE-GIVING PRINCIPLE, a perfect Renovator and Invigorator of the system, carrying off all poisonous matter and restoring the blood to a healthy condition. No person can take these Bitters according to direction and remain long unwell, provided the bones are not destroyed by mineral poison or other means, and the vital organs wasted beyond the point of repair.

For Inflammatory and Chronic Rheumatism and Gout, Dyspepsia or Indigestion, Bilious, Remittent and Intermittent Fevers, Diseases of the Blood, Liver, Kidneys and Bladder, these Bitters have been most successful. Such Diseases are caused by Vitiated Blood, which is generally produced by derangement of the Digestive Organs.

DYSPEPSIA OR INDIGESTION, Headache, Pain in the Shoulders, Coughs, Tightness of the Chest, Dizziness, Sour Eructations of the Stomach, Bad taste in the Mouth, Bilious Attacks, Palpitation of the Heart, Inflammation of the Lungs, Pain in the regions of the Kidneys, and a hundred other painful symptoms, are the offspring of Dyspepsia.

They invigorate the stomach and stimulate the torpid liver and bowels, which render them of unequalled efficacy in cleansing the blood of all impurities and imparting new life and vigor to the whole system.

FOR SKIN DISEASES, Eruptions, Tetter, Salt Rheum, Blotches, Spots, Pimples, Pustules, Boils, Carbuncles, Ring-Worms, Scald Head, Sore Eyes, Erysipelas, Itch, Scurfs, Discolorations of the Skin, Humors and Diseases of the Skin, of whatever name or nature, are literally dug up and carried out of the system in a short time by the use of these Bitters. One bottle in such cases will convince the most incredulous of their curative effect.

Cleanse the Vitiated Blood whenever you find its impurities bursting through the skin in Pimples, Eruptions or Sores; cleanse it when you find it obstructed and sluggish in the veins, cleanse it when it is foul, and your feelings will tell you when. Keep the blood pure, and the health of the system will follow.

PIN, TAPE and other WORMS, lurking in the system of so many thousands, are effectually destroyed and removed. For full directions, read carefully the circular around each bottle, printed in four languages—English, German, French and Spanish.

FOR FEMALE COMPLAINTS, whether in young or old, married or single, at the dawn of womanhood or at the turn of life, these Tonic Bitters have no equal. ☞ Send for a circular.

They are a Gentle Purgative as well as a Tonic, possessing also, the peculiar merit of acting as a powerful agent in relieving Congestion or Inflammation of the Liver, and all the Visceral Organs. lyrdawfeb16

A LITTLE GOOSE.

The chill November days were done,
The working world home faring;
The wind came roaring through the streets
And set the gas light flaring;
And hopelessly and aimlessly
The scared old leaves were flying;
When mingled with the sighing wind
I heard a small voice crying.

And shivering on the corner stood
A child of four or ever;
No cloak nor hat her small soft arms
And wind-blown curls to cover.
Her dimpled face was stained with tears;
Her round blue eyes ran over;
She cherished in her wee, cold hand
A bunch of faded clover.

And one hand round her treasure, while
She slipped in mine the other;
Half scared, half confidential said—
"Oh, please, I want my mother!"
"Tell me your street and number, pet;
Don't cry, I'll take you to it;"
Sobbing, she answered, "I forget—
The organ made me do it."

"He came and play'd at Milly's steps,
The monkey took the money;
And so I followed down the street,
The monkey was so funny.
I've walked about a hundred hours
From one street to another;
The monkey's gone, I've spoiled my flowers,
Oh! please, I want my mother."

"But what's your mother's name, and what
The street? Now think a minute."
"My mother's name is mamma dear—
The street—I can't begin it."
"But what is strange about the house
Or now, not like the others?"
"I guess you man my trundle bed—
Mine and my little brother's.

Oh, dear! I ought to be at home
To help him say his prayers—
He's such a baby he forgets
And we are both such players—
And there's a bar to keep us both
From pitching on each other,
For Harry rolls when he's asleep—
Oh, dear! I want my mother."

The sky glew stormy; people passed,
All muffled homeward faring;
"You'll have to spend the night with me,"
I said, at last despairing.
I tied a handkerchief round her neck—
"What ribbon's this, my blossom?"
"Why don't you know" she smiling asked,
And drew forth from her bosom

A card with number, street and name;
My eyes astonished met it;
"For," said the little one, "you see
I might sometimes forget it;
And so I wear a little thing
That tells you all about it;
For mother says she's very sure
I would get lost without it."

THE Indians along the frontier are still troublesome, though Gen. Sherman takes a more hopeful view of the case than others do. Much trouble is expected by the engineer corps of the Northern Pacific Railroad in running their line through the up-river country, as the Indians declare they will not tolerate a railroad through their country, and are throwing every obstacle in the way of a preliminary survey of the line. The Indians in the vicinity of Forts Berthold and Buford are still very troublesome. On the 10th instant a herder was attacked a mile from Berthold and badly wounded, receiving three bullets in his thigh. The Indians succeeded in driving off his entire herd of cattle, numbering twenty-five. A band of Sioux attacked a party of soldier and woodchoppers on the 13th, three miles above Fort Stephenson. One soldier was shot fatally. The Indians ran off eight head of cattle belonging to the government agent, McCauly. Troops from Fort Stephenson are now on the trail of the marauding band.

HAPPY THOUGHT. — A gentleman who was on the Southern side during our late little misunderstanding relates the following: "Roe," of our company, used to stammer fearfully, and while having a judicious admixture of prudence in his valor, was still one of the best and pluckiest of all. One of our guns had been captured by the Yankees, and the next morning the order came down to capture it if possible. It was a fearful task, and as we stood drawn up, awaiting the word to move forward at the double quick, we felt instinctively that many of us would stay around the spot where the lost gun was. It scarcely seemed worth the prize we were about to pay, and "Roe" seemed to be more thoroughly impressed with this idea than any one else. Suddenly an idea entered his mind; stepping out of the ranks he stuttered, wildly, as he always did when excited, "I say, kick-kick-captain, l-l-l-let us gig-gig-get up a s-s-s-s-subscription to pip-pip-pay for the cussed old gun."

CHILDREN'S COLDS.—The following is said to be an excellent and safe remedy:—"Take onions, slice thin, and sprinkle loaf sugar thickly over them; put in the oven, and simmer until the juice is thoroughly mixed with the sugar. It makes a thick syrup, very nice. Give a teaspoonful as seems to be needed, four or five times a day.

JURUBEBA

IS A SOUTH AMERICAN PLANT that has been used for many years by the medical faculty of those countries with wonderful efficacy, and is a Sure and Perfect Remedy for all Diseases of the

LIVER AND SPLEEN, ENLARGEMENT OR OBSTRUCTION OF INTESTINES, URINARY, UTERINE OR ABDOMINAL ORGANS, POVERTY OR A WANT OF BLOOD, INTERMITTENT OR REMITTENT FEVERS, INFLAMMATION OF THE LIVER, DROPSY, SLUGGISH CIRCULATION OF THE BLOOD, ABSCESSES, TUMORS, JAUNDICE, SCROFULA, DYSPEPSIA, AGUE AND FEVER, OR THEIR CONCOMITANTS.

Dr. Wells' Extract of Jurubeba

is a most perfect alterative, and is offered to the public as a great invigorator and remedy for all impurities of the blood, or for organic weakness with their attendant evils. For the foregoing complaints

Dr. Wells' Extract of Jurubeba

is confidently recommended to every family as a household remedy, and should be freely taken in all derangements of the system.

IT IS NOT A PHYSIC—it is NOT what is popularly called a BITTERS, nor is it intended as such; but is simply a powerful alterative giving health, vigor and tone to all the vital forces, and animates and fortifies all weak and lymphatic temperaments. 4wje20

CARD.

Having become satisfied after thorough investigations that Elastic Sponge, as now and lately manufactured, is one of the best of all substitutes for curled hair, for many if not most uses in upholstery, we have accepted the Agency for it, and intend to make it hereafter a specialty in our business. The objections which been made to it and which it is well known we ourselves have thought were well founded, we have ascertained cannot be urged against the article as now perfected. The process of manufacture has been entirely remodeled under the advice and superintendence of one of the most eminent chemists of New England. New chemical and mechanical appliances have been introduced in cleansing crude Sponge, and in charging it with glycerine with such entire success, that Elastic Sponge may now be said to be chemically pure. There is absolutely nothing in it but the clean fibre of Sponge and chemically pure glycerine.

The objections to Elastic Sponge being thus removed there remain its undisputed merits which certainly entitles it to be considered one of the most valuable, as it is one of the most curious and interesting of late discoveries. Chief among these merits is, that it is proof against moths—the great scourge of the business,—against all other insects. Then its elasticity is permanent, based as it is upon the non-evaporable property of glycerine and the indestructibility of sponge fibre. We have always been satisfied upon these two points which are the essential requisites in such materials. The evidence is now equally clear that it is wholesome and sweet. It is very light and soft, easy to manipulate, and cheap enough for all except the lowest class of goods. For the cushioning of Churches, Theatres, Public Halls, Railway Stations, Omnibuses, Carriages, Steam and Horse Cars and the like, it will probably be found, everything considered, the best article in use. For all uses, and especially for Bedding, we are now prepared to recommend the public to give it a fair trial as we ourselves intend to do. We are now ready also to answer inquiries, make estimates and take orders for every description of work in Sponge as well as to supply the trade the article in Bales.

The Daily Chronicle.

Portsmouth, N. H.

SATURDAY, JUNE 24, 1871,

THE LEGISLATURE.

On the 21st, the House passed a bill in amendment of chapter 152 of the General Statutes, imposing a fine of $100 upon physicians who do not report cases of small pox and other contagious diseases.

Tobias D. Foss of Strafford was appointed Engrossing Clerk.

A bill exempting from poll tax all persons incapacitated for manual labor by the war, was read twice.

Mr. Jones of Stratham gave notice of a bill to amend the charter of the city of Portsmouth.

The joint resolution requiring that the records of the county courts of Carroll be kept at Ossipee, the county seat, instead of Sandwich was passed.

Mr. Bingham of Littleton offered a resolution that the committee on elections be authorized to send proper officers to compel the attendance of witnesses to answer summons and bring papers. He gave as a reason that the ward clerk of Ward 1 of Portsmouth, Mr. James R. Morrison, had treated a supbœna with contempt, and refused copies of the ward records, and read an affidavit of Calvin Page in relation thereto.

Mr. Walker of Portsmouth replied that the ward clerk and selectmen were ready to appear when properly called on, and he had no objections to the passage of the resolution,—which was passed without opposition.

Mr. Bingham called up a resolution on the table for the removal by address of Hon. Samuel Upton, police justice of Manchester, saying that it was a house resolution and not joint, having satisfied himself by reference to precedents that Judge Upton was not an acceptable judge to either party, and the Republicans of Manchester were convinced of his unfitness, and would vote for the resolve if acting from the impulse of their heart and not under the dictates of their party.

Mr. Holt said that if he referred to him the distinguished gentleman was mistaken. He believed Judge Upton to be an upright, honorable and moral man, a good judge and a good republican. He moved that the resolution be referred to the Manchester delegation. No charges had yet been presented. He wished to know if any existed, and on his motion called the yeas and nays.

Mr. Wilson of Keene was entirely taken by surprise. He knew nothing about the matter, and wanted light.

Mr. Fletcher of Nashua and Mr. Adams of Manchester would disabuse the public mind of the impression that would be left that Judge Upton was obnoxious to all parties. He [Adams] could bear testimony to his high standing in the community, his temperance and morality, and that he was a dyed-in-the-wool republican.

Mr. Wadleigh of Milford said that if the majority would say that the removal was not on political grounds solely, he would favor a direct vote without reference.

He was followed by Mr. Slayter of Manchester in the same strain.

Mr. Bruce of Mount Vernon said it was enough for him to know that Judge Upton was a republican to vote for the resolution.

Messrs. Wilson, Patten, Holt and Bingham each spoke again, when Mr. Roles of Ossipee (democrat) moved that it be referred to a committee of five from Manchester, to be appointed by the speaker, which was accepted by Mr. Wadleigh in behalf of the minority, and the resolution was so referred.

A resolve to remove by address the sheriff of Rockingham county, Caleb Moulton of Hampton, was then presented and on a yea and nay vote was carried, 151 to 129.

Several bills were offered as follows: To allow towns and cities to refund to persons drafted in the late rebellion the amount paid by them for substitutes; by Mr. Fowler of Concord, for the preservation of ballots and providing that ratable polls, not voters, be put on the back of the check-list at the annual meetings.

On the 23d, being the last day for new business, according to the rules, the following bills were read twice; abolishing the S. J. Court and establishing the Court of Judicature; exempting all church property, including parsonages, from taxation; relating to the powers of Mayors of cities for the preservation and attestation of check lists used at town meeting; providing for the careful preservation of ballots cast at the annual elections; abolishing town statements; further protecting the rights of married men, by enacting that no married man shall be liable for the debts of his wife contracted before marriage, and that marriage shall not affect the lien which a creditor may have upon the property of a married woman before coverture.

Resolutions of inquiry were passed, directing the Committee on Railroads to inquire into the expediency of the Portsmouth, Great Falls and Conway Railroad making a union with the Boston and Maine Railroad in the town of Somersworth for the accommodation of the public; instructing the Committee of the Judiciary to inquire into the subject of the removal of office-holders, and to ascertain who ought to be deposed, and to report by bill or otherwise.

The legislature visited Hanover in the afternoon to assist in dedicating the new agricultural college.

[From the N. H. Gazette, Sept. 3, 1773].

DEERFIELD IN YE OLDEN TIME.—Deerfield, August, 2, 1773. — As Mr. John Hawley was a-plowing not far from the mountain called Sugar-loaf, that lies near the ferry that crosses from Sunderland to Deerfield, he saw a number of turkies coming into the field. He got his gun in order to kill the turkies; but before he was ready the turkies made off toward the mountain. Mr. Hawley followed them up the mountain, and as he was advancing up the same, he was surrounded by a number of rattlesnakes, and being of an heroic spirit and man-like, loth to turn his back and run, though surrounded by such spiteful and malicious serpents, (as these serpents are the most spiteful of any serpents that crawl on the ground,) he sat down his gun (as they had none) and took up a stick that lay handy, stands his ground and fights them, kills 34 on the spot, the rest so frightened at the valour and activity of him, that they were glad to quit the field of battle and hide themselves in the holes under the rocks, and leave the victorious hero in possession of the field; and so he obtained a complete victory. He took 33 eggs out of those he had killed, so he destroyed 67 of those at that time.

—Representative Tucker of Pittsfield has a keen eye to the fitness of things. As the House now contains a good many more Democrats than heretofore, it occurs to his quick perception that, for the best reason in the world, not as much writing-paper, pens, ink, &c., will be needed as before. He therefore very properly introduces a resolution to lessen the amount of stationery furnished, which the House very properly passes by a unanimous vote. In offering this resolution, Mr. Tucker, we presume, had two objects in view—one economic, the other æsthetic. He does not want the State treasury to be rendered bankrupt by the squandering of whole quires of paper, and he wishes to save large numbers of the Democratic members from the mortifying sight of an article for which they have no possible use. Thoughtful Tucker! —*Statesman.*

—A Kansas man obtained an "accidental divorce" from his wife by shooting her while pursuing wolves with his little shot-gun. On being questioned he asseverated that he did not hear the gun go off, but they wouldn't believe his report, and took him before a jury. To them he swore likewise, and they respected his oath, and let him go the way of all the earth west of Chicago.

—An intelligent young man, clerk in Ellis' music store at Rochester, N. Y., spent an idle moment in front of a $500 mirror by writing his name across the centre with his diamond ring. If anybody wants a nice young man in a store they can get this one, as he is no longer connected with the establishment of George H. Ellis & Co., of Rochester, N. Y.

—Weston's next pedestrian feat will be an attempt to walk around a copy of The Independent, before breakfast, on an empty stomach. If he succeeds, he will be presented with a stem-winder Waltham watch and a copy of the New Testament.—*N. Y. Globe.*

And yet it would be easier to walk round The Independent than round The Globe.—*Independent.*

—At one of the "labor conventions" held in Washington during the strike, Mr. Green made a speech exhorting his hearers to "work in the interests of harmony and peace." Whereupon an able-bodied striker sprang to his feet with the exclamation: "Yes, sah! dat's what we want; bominy and peas! but we can git wid a dollar 'an a half a day!"

—At Maury, Tennessee, recently, a young man went to bed leaving a burning candle and a pistol on his table. The dripping sperm ignited the table, the table ignited the pistol, the barrels began to explode, and when the young man awoke he was nearly burned, smothered and shot to death. His pillow received the balls and saved his head.

—At a recent wedding in Warsaw, Illinois, among the refreshments served was a bottle of wine and a loaf of cake which was prepared for the wedding of the bride's mother over twenty years ago.

—The Senate is a model body. If the Democratic half steals a march on the other half, they will have to get up earlier than is the custom in Concord.—*Nashua Telegraph.*

—A child was born in Ohio the other day with its right arm and hand perfectly black, while the remainder of its body was strangely white.

—The Chicago Post reports that the Spring style for horses is six legs—fore legs in front and two behind.

—Captain Hall takes with him in his Arctic voyage a thermometer that will register 88 degrees below zero.

NEW HAMPSHIRE ITEMS.

Rev. Dr. Baker, rector of Christ Church at Exeter, has resigned, having accepted a call from Winchester, Mass.

The second annual commencement exercises of the Robinson Female Seminary at Exeter were held on Wednesday last. The exercises consisted of essays and addresses by a class of 17 young ladies, all of whom were graduates and were presented with diplomas at the close. Music was furnished by the Exeter cornet band. The school the past year numbered 279 members and has a corps of ten teachers, including the principal, Eben S. Stearns, and is in a very flourishing condition. There is now a fund of $200,000, after paying for a fine building which stands in the centre of a 16 acre lot, beautifully situated near the station.

WE have received the annual report of the State Treasurer, which is the last, we fear, that Col. Peter Sanborn will issue. The Col. has been honest and prudent and will retire with as good a record as any of his predecessors, we venture to say.

A TERRIBLE ACCIDENT has happened on the Leipsic Railway, by which twenty-three Pomeranian soldiers returning from France were killed and forty-one were wounded.

BUSINESS NOTICES.

Tooth ache proceeds from ague in the face, operating upon the exposed nerve of a decayed tooth. Rub the gum thoroughly with the finger, wet with *Johnson's Anodyne Liniment*, heat the face well, and lap a flannel wet with the liniment on the face, also put a little of the liniment into the cavity of the tooth on cotton.

The system frequently gets out of order and should be at once regulated, else other troubles will ensue; when physic is needed take *Parson's Purgative Pills*; they are a safe, wholesome, and natural medicine.

LEWIS RICE for more than a generation has catered to the public, (a most exacting critic,) as proprietor of the AMERICAN HOUSE, BOSTON. To-day, as ever during that long test, the house of which he is the head, stands at the head of the New England hotels.

TO INSURE HEALTH and proper digestion, you should use *Helmbold's Catawba Grape Pills.* They are composed of Fluid Extract Rhubarb, and Fluid Extract Catawba Grape Juice. They excite digestion, nourish and invigorate the system, and purge out all the humors that grow and rankle in the blood. *Helmbold's Sarsaparilla* makes New, Fresh, and Healthy Blood, and Beautifies the Complexion.

SPECIAL NOTICES.

Valuable Hints.

A regular habit of body is absolutely essential to physical health and clearness of intellect. Nor is this all. Beauty of person cannot co-exist with an unnatural condition of the bowels. A free passage of the refuse matter of the system through these natural waste pipes, is as necessary to the purity of the body as the free passage of the offal of a city through its sewers is necessary to the health of its inhabitants.

Indigestion is the primary cause of most of the diseases of the digestive organs, and one of its most common results is constipation. This complaint, besides being dangerous in itself, has many disagreeable concomitants—such as an unpleasant breath, a sallow skin, contaminating blood and bile, hemorrhoids, headache, loss of memory and general debility.

Hostetter's Stomach Bitters remove all these evils by removing their immediate cause in the digestive organs, and regulating the action of the intestines. The combination of properties in this celebrated preparation is one of its chief merits. It is not merely a stimulant or a tonic, or an anti-bilious agent, or a nervine, or a blood depurent, or a cathartic, but all these curative elements judiciously blended in one powerful restorative. It lends activity and vigor to the inert and enervated stomach, relieves the alimentary canal of its obstructions, and gives tone to the membrane which lines it, gently stimulates the liver, braces the nerves, and cheers the animal spirits. No other remedy possesses such a variety of hygienic virtues. It is to these characteristics that it owes its prestige as a household medicine. Experience has proved that it is as harmless as it is efficacious, and hence it is as popular with the weaker sex as with the stronger.

HOSTETTER'S STOMACH BITTERS are sold in bottles only, and the trade-mark blown in the glass and engraved on the label, is the test of genuineness. Beawre of counterfeits.

LOCAL AFFAIRS.

New Advertisements to-day.

Lost—A Pocket Book.

It is said the census of Portsmouth can be retaken for $100.

Harry Bloodgood gave a big entertainment, Friday evening.

William H. Hackett will sell a horse belonging to C. H. Hayes at auction at noon to-day, on Market Square.

There will be a Union Praise Meeting at the Methodist Church at half past 7 o'clock, Sunday evening.

The summer arrangement of the P. S. & P. Railroad goes into operation on Monday. See the changes in the advertisement in another column.

Mr. Albion T. Wallace informs us that he has thus far been unsuccessfully engaged in grappling for the body of Mr. Ferdinand Barr, who was drowned off Whalesback Light last Sunday. The search is being continued.

It seems that the Lamp Lighter intended to light the gas in the street lamps, Tuesday evening, but was earnestly requested not to do so by two watch men, for the reason that they would be too busy to extinguish them at 11 o'clock! They should have let them burn all night then.

'Twould be hard to convince Portsmouth people that there are such base ball organizations as the Dartmouth and Bowdoin clubs. They have notified persons that they were coming at three different dates—and they haven't appeared either time.

The Portland Advertiser says the game was postponed again at the request of the Dartmouth nine.

Fatal Accident.—George Gray, 9 years of age, was run over Friday afternoon while stealing a ride on a freight car being switched on another track. It has been a custom among the boys to get on these cars at Frenchman's Lane and ride down. Gray was a venturesome lad, and in company with others was jumping from the car as it reached the Rockingham Mill. Getting caught in some manner, the car passed over both legs, one above and one below the knee, crushing them horribly and wrenching one knee from its socket. The physicians called deemed it impossible to save his life by amputation, and he died a few hours after the accident. He was the only child of Mrs. William Gray. The sad affair furnishes another warning for the reckless boys who infest the railroad trains greatly to the annoyance of the employes.

The Boot and Shoe Manufacturers of Massachusetts and New Hampshire, to the number of three hundred and eighty-four, have signed and issued a circular protesting against the duties levied under the present tariff upon the raw materials used in their business, and arguing that the legislation of other countries is directed to securing for manufacturers and artisans the raw materials of their industry at the cheapest possible rates. This paper states the tariff tax upon leather amounts to thirty-five per cent.; upon cotton rubber webbing thirty-five per cent.; upon silk rubber webbing fifty per cent. and upon lastings and serges eighty-five per cent. It is alleged that the combined taxes upon all the articles forming the materials of the boot and shoe industry yield the United States Government an annual revenue of only three million five hundred thousand dollars, while they impose upon the manufacturers a tax of eighteen million dollars. It is also contended that the above mentioned taxes have caused such an increase in the cost of the products as to prevent competition with the manufacturers of boots and shoes in other countries, and that the legislation of the United States has driven the boots and shoes made in this country from the markets of Canada, Mexico, the West Indies and South America, and has transferred the manufacture to Canada, where it enjoys greater advantages and is subject to fewer impediments in the prosecution of business. Improved machinery and new processes, it is stated, have caused an increase of twenty-five per cent. in the productive power of a given amount of capital and labor engaged in the manufacture, but that this gain, which should have resulted in cheaper boots and shoes, has been completely nullified by protective taxes. The manufacturers and firms signing this protest are distributed among the following cities and towns of Massachusetts, to wit: Lynn, 122; Haverhill, 96; Boston, 84; Marblehead, 35; Worcester, 22, and Beverly, 15. Seven are in business at Dover, and three in this city.

A Prosperous Term.—The two years just closed have been prosperous ones in the history of New-Hampshire. Our finances have steadily bettered themselves, and the State debt has been paid off at a rate which, if continued, will wipe it all out in five years. Three important railway extensions have been pushed forward to completion. Our celebrated institution of learning at Hanover has celebrated its centennial and received large accessions to its endowment, which have given it a vigorous start on its new career. Our Agricultural College has been established, and its handsome edifice completed. Our first Normal School is in successful operation and promises to do a great work for popular education. Our State Prison has become self-supporting and will henceforth be a source of revenue. It is true that the census taken last year shows some decrease in population; but we have probably touched the bottom of the scale in that respect, and shall hold our own, or even increase, hereafter. The administration of Gov. Stearns has been a wise and discreet one, which all who wish well to the State may remember with satisfaction. If Gov. Weston leaves the Government in as good a condition, we shall have no fault to find with it.—*Republican Statesman.*

—The Richmond Whig accuses a cotemporary who had spoken lightly of Southern integrity and honor, as a supervacuous surplusage. The cotemporary is busily engaged reading Webster's Unabridged, for a suitable reply.

—Two irate cooks of New-Orleans threw eggs at a policeman who endeavored to separate them until he strongly represented an omelet and appeared disgusted in the egg-stream.

—A new-fangled coffee-pot astonished a peaceable family in Indianapolis by blowing off the top of the stove, and furnishing them with their coffee in the manner of a shower bath.

—A Vicksburg man set a spring gun in his chicken-house, which successfully brought down his wife for the first victim.

—"Mamma," said a little boy, who had been sent to dry a towel before the fire, "is it done when it's brown?"

—A Washington paper says that disappointment in love is making drunkards of many women in that city.

—A man who has repeatedly tried them says that all the short cuts to fortune are horribly overcrowded.

—A Chicago paper announces that "Nilsson is to take the Chicago soul and slap it into Elysium."

A Hard Case.—Mrs. Vallandigham is still unconscious. The physicians in constant attendance are reticent as to her recovery. She fails to recognize her most intimate friends. It is feared that she has lost or will lose her reason, while others declare that the double bereavement she has encountered during the last few days in the loss of her brother and husband threaten the most fatal consequences, and that her death is a matter of brief time.

THE
NEW ORLEANS, MOBILE & TEXAS
RAILROAD COMPANY
Are building a trunk line, connecting New Orleans with Mobile on the east, and giving
THE ONLY RAILROAD CONNECTION
between the former city and the great and most productive State of Texas of the west, the total distance from Mobile to Houston being 475 miles.
The Company is composed of strong Northern capitalists, who have already expended nearly **TEN MILLION DOLLARS** of their own funds in the construction of the line. They have built about 225 miles from Mobile westward, and secured by purchase of securities and made provision for the thorough repair and equipment of the 108 miles of the Texas division; leaving but 140 miles to be built
To Complete the Entire Road.
It is believed that no other railroad corporation in the country has ever made so large an expenditure from its own means before offering any of its securities to the public.
The Company now offer for sale the
Eight Per Cent. Mortgage Bonds
upon the Louisiana division of 22½ miles from New Orleans to the Sabine River. This will probably be the most valuable portion of the whole line, as it will be the only rail communication by which the enormous productions of Texas can reach the Southern metropolis.
So important is this road considered to Louisiana, that the State has made very liberal grants in aid of the enterprise, by direct donations, by endorsement of its bonds, and by subscriptions to the stock of the Company, amounting in all to over eight million dollars.
The Bonds now offered are of two classes:
FIRST MORTGAGE BONDS,
to the amount of $12,500 per mile, and
SECOND MORTGAGE BONDS,
to an equal amount, both principal and interest guaranteed by the State of Louisiana. The price of the two classes is the same, and subscribers can take their choice.
The Bonds are only in the denomination of $1,000, or £200 each, interest payable January and July, at the rate of eight per cent. currency in New York, or seven per cent. gold in London, at the option of the holder, at the time each coupon is due. Bonds can be registered, if desired.
No better security has been offered to investors. The Bonds are largely profitable, as well as entirely safe. One thousand dollars invested in these eight per cent. bonds will give the purchaser *more than seventy-seven per cent.* greater annual interest than the same amount invested in the new Government Five Per Cents.
At the same price, an 8 per cent. currency long bond is far cheaper than a 7 per cent. gold one. Calculating a return to specie payment in three years, and taking the time that the bonds of the New Orleans, Mobile and Texas Railroad have to run—45 years—we find that by compounding the interest of each, every six months, at 7 per cent. **an 8 per cent currency bond at 90 will give a return of $2,614.18 MORE than a 7 per cent. gold bond, at the same price, or nearly three times the amount of the original investment.**
The Bonds are dated May 1, 1871. The first coupon will, therefore, be a fractional one, running from May 1 to July 1. The price is 90, and accrued interest at 8 per cent. currency from May 1st to date of remittance.
Subscriptions will be received in Portsmouth by
First National Bank,
Information concerning the Company and the Road, and pamphlets containing map and full details of the enterprise, can be obtained of the undersigned or any of the Company's advertised agents.

The Subscribers having purchased the "Business and Good-will," of
The Old and Well Established Insurance Company of JOHN S. HARVEY,
have this day formed a co-partnership, under the firm name of
MORSE & ILSLEY,
for the purpose of carrying on the Insurance Business in all its branches. They trust, by industry, integrity and good judgment, to merit the approbation of all the old patrons of the office, and to receive a good share of new business.
MR. HARVEY will still take a lively interest in the Companies for which he has so long and faithfully worked, and he is authorized to receive applications for Insurance in said Companies as our Agent.
JOSEPH P. MORSE,
WINGATE N. ILSLEY.
Portsmouth, May 1, 1871.

A CARD.
HAVING disposed of my Insurance Business to JOSEPH P. MORSE and WINGATE N. ILSLEY, two gentlemen well known for their integrity and business capacity, I return my thanks to my old and constant patrons and friends, for their many favors, and earnestly recommend my successors, trusting the same generous patronage will be extended to them as to myself. They represent some of the ablest and most reliable Companies in both Fire and Life Insurance in the Country.

STATISTICS OF AMERICAN JOURNALISM.—The American Newspaper Directory for 1871, just issued by Messrs. Geo. P. Rowell & Co., proprietors of the American Advertising Agency of New York City, contains certain tables of statistics which have been compiled with care, and can be relied upon as substantially correct. They cover a field of research which no statistician has before touched upon and furnish food for reflection and wonderment. The following are a few of the many facts which a study of these tables reveal:

The whole number of periodicals issued in the United States is 5,983, with 73 to be added for the Territories; and 353 are printed in the Dominion of Canada, and 39 in the British Colonies, making a grand total of 6,438, of which 637 are daily, 118 tri-weekly, 129 semi-weekly, 4,642 weekly, 21 bi-weekly, 100 semi-monthly, 715 monthly, 14 bi-monthly, and 62 are issued quarterly. New York has the largest number of publications, 894, of which 371 are printed in New York City, and Nevada has the smallest number issued in any State—only 15. Nevada has more daily than weekly papers, and is unique in this respect, every other State having from three to twelve times as many weeklies as dailies. Tri-weekly papers are more common in the South than semi-weeklies, while in the Northern States the facts are reversed.

The largest number of daily papers published in any State is 89, in New York. Pennsylvania is second, with 61. Next comes Illinois, with 38, and California has 34, being the fourth on the list. Delaware and Florida have each one daily paper. Kansas has as many as Vermont, West Virginia, Mississippi and Arkansas combined. Nebraska and Nevada have each more dailies than either Oregon, Rhode Island, South Carolina, Vermont, West Virginia, Arkansas, Deleware, Florida, Maine, or Mississippi.

Of the 73 publications issued regularly in the Territories 13 are daily and 50 weekly, 3 tri-weekly, 4 semi-weekly, 1 appears monthly, 1 semi-monthly, and 1 bi-weekly.

The papers of New York State have the largest circulation, averaging 7,411 each issue. Massachusetts is second, with 5,709 average; then comes the District of Columbia with 4,323. Nevada has the smallest average circulation, only 516, while Florida averages 616, Arkansas 650, Texas 701, and Mississippi 753. The average circulation of all daily papers published is 2,717, of the weeklies 1,598, and of the monthlies 4,081. The average edition of all the papers printed is 1,842, which, multiplied by 6,438, the entire number of publications, gives 11,858,796 as the number of copies in which an advertisement would appear if inserted once in all. The same advertisement, if continued one year, would be printed the enormous number of 1,499,922,219 times. The total number of publications printed in an entire year in North Carolina will supply only four copies to each inhabitant, equivalent to one paper to every soul once in three months. Mississippi, Florida and Arkansas do but little better, furnishing 5 copies per year. Alabama, Minnesota, South Carolina, Texas and West Virginia all print less than enough to give each inhabitant a paper once in five weeks, while California gives 82 copies per year, exceeding every other State except New York, which prints 113 copies per year for every soul within its borders. As New York papers circulate everywhere, while those of California do not go very much out of the State, it is evident that the papers issued there have a better local support than in any other State of the American Union.

In the District of Columbia we find that one newspaper is published for every three square miles of territory. Massachusetts has one to 30 square miles, and Rhode Island one to 50; then comes New York with one to 57; Connecticut has one to 60; New Jersey one to 63; Texas one to 2,345; Florida one to 2,693; while in the Territories one newspaper spreads its circulation over no less than 11,445 square miles.

There are 548 papers in the United States which print more than 5,000 copies each issue, and 11 which print more than 100,000. The New York Weekly has the largest circulation given; among the political mediums the New York Weekly Tribune takes the lead, and among the agricultural weeklies Moore's Rural New Yorker stands first. The New York Independent is the largest paper and has the largest circulation of any religious paper. Nearly 1,000 papers are printed on the auxiliary plan—that is, on sheets purchased from New York, Chicago and other centres, with one side already printed. This number has more than doubled within one year. More than 1,000 new newspapers have been established since the first of March, 1870, and the number of new ones announced since January 1st, 1871, has averaged nearly four a day. The number of suspensions is about one-fourth as large as that of the new issues announced. Messrs. Geo. P. Rowell & Co. assert that the number of newspapers issued has fully doubled within six years.

—A contemporary feeling announces that "the fulminating patriotism which makes the Fourth of July the most dreadful day of the year, is within a fortnight of the period of its annual explosion."

—"Gentlemen," said a publican to his guests at midnight, "I don't know whether you have talked enough or not; but as for myself, I am going to shut up."

—The Troy Whig says it was three paper collars warmer on Sunday than it was on Saturday.

NEW ADVERTISEMENTS.

THIRTY THOUSAND DOLLARS PAID.—The TRAVELERS LIFE AND ACCIDENT INSURANCE COMPANY, of Hartford, Connecticut, paid $20,000 on W. H. Forbush and Wm. C. Curry, victims of the New Hamburg railroad; $5,000 on the late Jas. S. Blake, mayor of Worcester, Mass.; and $5,000 on the late S. H. Lewis, Jr., of St. Albans, Vt. All these accidents occurred, and the insurance was paid, within three months—each claim being paid about sixty days before it was due by the terms of the policy. The Travelers has paid **SEVEN HUNDRED DOLLARS A DAY** in benefits to its policy holders, for deaths or injury by accident, for every working day during the past seven years.

The TRAVELERS LIFE AND ACCIDENT INSURANCE COMPANY, of Hartford, Conn., grants all the usual forms of **LIFE** and **ENDOWMENT** Policies, on exceedingly favorable terms. AMPLE SECURITY AND LOW RATES.

CHEAP FARMS! FREE TRAVEL!

600,000 ACRES

CHOICE IOWA LANDS.

This Company is now offering for sale about six hundred thousand acres of the finest agricultural lands in the West. The Company sells only to actual settlers, and the prices are exceedingly reasonable, ranging from $3 to $15 per acre, the average being about $8. The greater part of these lands are situated along the line of its railroad between the cities of Des Moines and Council Bluffs, and are in the most accessible and fertile region in the State.

Sales made for cash or on credit long enough to enable any industrious man to pay for the land out of its crops.

These lands are held under a title direct from the General Government, and are not mortgaged or encumbered in any way. Full warranty deeds given to purchasers.

For maps, pamphlets, or any other information respecting them, address EBENEZER COOK, Land Commissioner, Davenport, Iowa.

EXPLORING TICKETS are sold at the Company's ticket offices at Chicago, and all other principal stations on its line, and if the purchaser buys land the amount paid for the ticket is applied on the purchase money.

TARRANT'S SELTZER APERIENT.

SECTS AND CREEDS DIFFER, but there are no dissenters from the general precept, that is a great medicine to a great blessing. We have many of these blessings, but among them all, in the province to which it belongs, no greater than

Tarrant's Effervescent Seltzer Aperient.

A column would not suffice to enumerate the ailments for which it is prescribed by physicians of the highest standing. It does not belong to the class derisively termed patent medicines, but is an article based on scientific analysis, and will stand the test of the sharpest and most rigid medical criticism as a cathartic, a stomachic, an anti-febrile preparation, and an admirable remedy for all bilious complaints.

Let there be no mistake. Secure the genuine article only.

A GREAT MEDICAL DISCOVERY!

DR. WALKER'S CALIFORNIA

VINEGAR BITTERS,

Hundreds of Thousands Bear Testimony to their Wonderful Curative Effects.

WHAT ARE THEY!

THEY ARE NOT A VILE FANCY DRINK,

Made of Poor Rum, Whiskey, Proof Spirits and Refuse Liquors doctored, spiced and sweetened to please the taste, called "Tonics," "Appetizers," "Restorers," &c., that lead the tippler on to drunkenness and ruin, but are a true Medicine, made from the Native Root and Herbs of California, **free from all Alcoholic Stimulants.** They are the GREAT BLOOD PURIFIER and a LIFE-GIVING PRINCIPLE, a perfect Renovator and Invigorator of the system, carrying off all poisonous matter and restoring the blood to a healthy condition. No person can take these Bitters according to direction and remain long unwell, provided the bones are not destroyed by mineral poison or other means, and the vital organs wasted beyond the point of repair.

For Inflammatory and Chronic Rheumatism and Gout, Dyspepsia or Indigestion, Bilious, Remittent and Intermittent Fevers, Diseases of the Blood, Liver, Kidneys and Bladder, these Bitters have been most successful. Such Diseases are caused by Vitiated Blood, which is generally produced by derangement of the Digestive Organs.

DYSPEPSIA OR INDIGESTION, Headache, Pain in the Shoulders, Coughs, Tightness of the Chest, Dizziness, Sour Eructations of the Stomach, Bad taste in the Mouth, Bilious Attacks, Palpitation of the Heart, Inflammation of the Lungs, Pain in the regions of the Kidneys, and a hundred other painful symptoms, are the offspring of Dyspepsia.

They invigorate the stomach and stimulate the torpid liver and bowels, which render them of unequalled efficacy in cleansing the blood of all impurities and imparting new life and vigor to the whole system.

FOR SKIN DISEASES, Eruptions, Tetter, Salt Rheum, Blotches, Spots, Pimples, Pustules, Boils, Carbuncles, Ring-Worms, Scald Head, Sore Eyes, Erysipelas, Itch, Scurfs, Discolorations of the Skin, Humors and Diseases of the Skin, of whatever name or nature, are literally dug up and carried out of the system in a short time by the use of these Bitters. One bottle in such cases will convince the most incredulous of their curative effect.

Cleanse the Vitiated Blood whenever you find its impurities bursting through the skin in Pimples, Eruptions or Sores; cleanse it when you find it obstructed and sluggish in the veins, cleanse it when it is foul, and your feelings will tell you when. Keep the blood pure, and the health of the system will follow.

PIN, TAPE and other WORMS, lurking in the system of so many thousands, are effectually destroyed and removed. For full directions, read carefully the circular around each bottle, printed in four languages—English, German, French and Spanish.

FOR FEMALE COMPLAINTS, whether in young or old, married or single, at the dawn of womanhood or at the turn of life, these Tonic Bitters have no equal. ☞ Send for a circular.

They are a Gentle Purgative as well as a Tonic, possessing also, the peculiar merit of acting as a powerful agent in relieving Congestion or Inflammation of the Liver, and all the Visceral Organs. 1yrdawfeb18

ARE YOU GOING TO PAINT?

—IF SO, USE THE—

AVERILL CHEMICAL PAINT.

It is Cheaper, Handsomer and more durable than the best of other Paints. One Thousand Gallons of it were sold in this City, in the year 1870, and not one complaint has come from those who have used it; but all speak in its favor; it is mixed ready for application, and is much easier put on than any other Paint, making a smooth, glossy surface for years, that can be cleaned with hot suds without injuring it. It is excellent for walls inside, in the place of paper.

I shall keep this season a large stock of Chemical Paints of all shades on hand, to accommodate customers with any amount, without delay in ordering it. Those who want to use the Chemical Paints and have had them misrepresented by those who deal in Lead and Oil, are invited to call and examine my Paints, which have been on Buildings two years, and you will find them as fresh as if laid but one month.

I am prepared to do Painting by Contract, or by the day, using the Chemical Paint, or furnishing good experienced workmen by the day at very low wages. B. NORTON, only Agent for selling the **AVERILL CHEMICAL PAINTS,** in the City. Also Dealer in

BINGHAM BLOWN.

Mr. Bingham next addressed the House. Counting his antagonists numerous and his case weak, he put forth his best efforts. Mr. Bingham is a curiosity in debate. Picture a man of forty-eight, medium stature, light weight, a bald head, which showed a well developed cranium, with full reasoning powers but moderate perceptives. It is said that Voltaire had much the expression of a vulture; give the gentleman from Littleton wings and feathers, and he would pass for a very respectable gray eagle. Mr. Bingham is reputed to be one of the ablest lawyers at the New Hampshire bar, and his reputation doubtless has been well earned. He has a strong, subtle, logical mind and tremendous individuality. He is a better leader than debater, a better fighter than strategist. He is dogged and dogmatic, and hence his strong hold is on the fears rather than the admiration of his followers. He crushes but never wins an opponent, and his terrible tenacity carries him forward at such a tearing, ferocious gait that a keen, wide-awake antagonist can trip him easily.

In yesterday's debate he started out, first, to crush his opponents, and in the second place to crush out all the scruples that any Democrat might entertain in Mr. Gage's favor. It was a fine effort of the kind, and highly enjoyed by the lawyers present; but, unluckily for its effect, he was followed by Mr. Wadleigh, in one of his happiest efforts. Mr. Wadleigh analyzed the probabilities, and ventilated the sophistries so confidently put forth by the gentleman from Littleton. In conclusion he showed the Democratic origin of the decision which had voided the police court naturalizations in this State, and fixed the responsibility where it belongs, upon the Democratic party. He also warned the Labor Reform members of the House of the transparent purpose of the Democracy to unseat enough Republican members to enable the Democrats to run the machine without the help of any allies. This fine, bold touch woke up the House to a vigorous expression of applause, which the speaker as vigorously attempted to check.

Mr. Bingham rose to explain. He denied the soft impeachments of the gentleman from Milford, and thought he had said "some very improper things!" Mr. Bingham was no longer a soaring eagle, with defiance in his eyes and talons at his fingers' ends, but a rooster just come in from out in the rain.—*Nashua Telegraph.*

—Mr. Robert Lincoln will read his father's emancipation proclamation at the Fourth of July celebration in Aurora, Illinois.

—Mr. Charles Dudley Warner, the "My-Summer-in-a-garden" man, thinks the crowning human virtue in a man is to let his wife poke the fire.

—The menagerie elephant, after the exhibition at Plymouth, Mass., the other night, visited the house of Rev. Mr. Knapp, opened the pantry blinds, drank three pans of milk, and ate a bag of meal and other articles, with great apparent satisfaction.

—The New York Commercial Advertiser says: "Nature that gave gold and grapes to California, gave her neither shad, eels, nor bullpouts. For these treasures California longs. So her Fish Commissioners appeal to Seth Green, and he promises to give them shad."

—A man in Jasper county, Illinois, while plowing corn recently, became infuriated at his horse and picked up a clod to throw at the beast, when his hand fell powerless. The bone of his arm above the elbow had been snapped short off by the violent contraction of the muscles.

—Hartford's generosity in offering to give half a million dollars towards a new state house, is accompanied by a proposition that the present state house and lot shall be turned over to the city, and as the lot is worth from $300,000 to $400,000, this will make the burden decidedly easy to bear.

—The editor of the Houston county (Minn.) Journal drove off all the potato bugs from his patch by a charge from a Babcock fire extinguisher, and he considers the machine a perfect remedy for the pests. He adds in a postscript the unimportant information that his potatoes all died within fifteen minutes after the bugs left.

—An old weather-beaten trapper was sauntering along the main street of one of our Western villages on a recent Sunday. Passing in front of a meeting-house for a moment he went in and took his seat among the congregation. The preacher was discoursing on the text of "The sheep and the wolves" and had evidently been drawing a contrast between the two subjects. Says he: "We who assemble here from week to week and do our duty and perform our part are the sheep; now who then are the wolves?" A pause, and our friend, the trapper, rose to his feet. "Wall, stranger, rather than see the play stopped I'll be the wolves." The preacher pronounced the benediction at once.

PROPOSALS FOR MATERIALS TO BE SUPPLIED TO THE NAVY YARDS UNDER THE COGNIZANCE OF THE BUREAU OF CONSTRUCTION AND REPAIR.

NAVY DEPARTMENT,
BUREAU OF CONSTRUCTION AND REPAIR,
WASHINGTON, D. C., June 6, 1871

SEALED PROPOSALS to furnish Timber and other materials for the Navy for the fiscal year ending June 30, 1872, will be received at this Bureau until 12 o'clock M., of the 30th of June instant, at which time the bids will be opened.

The proposals must be addressed to the Chief of the Bureau of Construction and Repair, Navy Department, Washington, and must be indorsed "Proposals for Timber, &c., for the Navy," that they may be distinguished from ordinary business letters.

To prevent confusion, and facilitate the opening of the bids, parties bidding for supplies at several yards will enclose their bids in separate envelopes, each indorsed with the name of the yard for which the bid is made.

Printed schedules for each classes as parties deal in and intend to bid for, together with instructions to bidders, giving the forms of proposals, of guarantee, and of certificate of guarantors, with printed forms of offer, will be furnished to such persons as desire to bid, on application to the Commandants of the respective Navy Yards, and those of all the yards on application to the Bureau.

The Commandant of each Navy Yard, and the Purchasing Paymaster for each Station, will have a copy of the schedules of the other yards for examination only, in order that persons who intend to bid may judge whether it is desirable to make application for any of the classes of those yards.

The proposals must be for the whole of a class, but the Department reserves the right to reduce the whole class, should the interest of the Government require it, before the execution of the contract. All applications for information, or for the examination of samples, must be made to the Commandants of the respective yards.

The proposal must be accompanied by a certificate from the Collector of Internal Revenue for the district in which the bidder resides, that he has a license to deal in the articles for which he proposes; *and, by direction of the Department, bids or offers will be received only from parties who are bona fide dealers in, or manufacturers of, the articles they offer to furnish.* The guarantors must be certified by the Assessor of Internal Revenue for the district in which they reside.

The contract will be awarded to the person who makes the lowest bid and gives the guarantee required by law, the Navy Department, however, reserving the right to reject the lowest bid, or any which it may deem exorbitant.

Sureties in the full amount will be required to sign the contract, and their responsibility must be certified to the satisfaction of the Navy Department.

An additional security twenty per centum will be withheld from the amount of the bills until the contract shall have been completed, and eighty per centum of the amount of each bill, approved in triplicate by the Commandants of the respective yards, will be paid by the Paymaster of the station designated in the contract, or, if none is specified, by the Paymaster of the station nearest the yard where the goods are delivered, within ten days after the warrant for the same shall have been passed by the Secretary of the Treasury.

The classes of this Bureau are numbered and designated as follows:—

No. 1, White Oak Logs; No. 2, White Oak Keel Pieces; No. 3, White Oak Curved Timber; No. 7, Yellow Pine Logs; No. 8, Yellow Pine Beams—Oregon Pine Beams at Mare Island yard; No. 9, Yellow Pine Mast Timber—Oregon Pine Mast Timber at Mare Island yard; No. 11, White Pine Logs; No. 12, White Pine Mast Timber; No. 13, White Pine Plank, Boards—Sugar Pine Boards at Mare Island yard; No. 15, White Ash, Elm, Beech—White Ash, Redwood at Mare Island yard; No. 16, White Ash Oars; No. 18, Black Walnut, Mahogany, Maple, Cherry; No. 22, Cypress, Cedar; No. 23, Black Spruce; No. 24, White Oak Staves and Headings; No. 25, Lignumvitæ; No. 30, Ingot Copper; No. 32, Wrought Iron, round and square; No. 33, Wrought Iron, flat; No. 34, Iron, plate; No. 35, Steel; No. 37, Iron Spikes; No; 38, Iron Wrought Nails; No. 39, Iron Cut Nails; No. 42, Lead, pipe, sheet; No. 43, Zinc; No 44, Tin; No. 45, Solder; No. 48, Locks, Hinges, Bolts, of brass and Iron; No. 49, Screws, of brass and iron; No. 50, Files; No. 51, Augers; No. 52, Tools for ship stores; No. 53, Tools for use in yard and shops; No. 54, Hardware: No. 56, White Lead; No. 57, Zinc Paints; No. 58, Colored Paints, Dryers, No. 59, Linseed Oil; No. 60, Varnish, Spirits Turpentine; No. 63, Sperm and Lard Oil; No. 64, Tallow, Soap; No. 65, Fish Oil; No. 68, Glass; No. 69, Brushes; No. 70, Dry Goods for upholstering; No. 71, Stationery; No. 72, Crucibles; No. 73, Ship Chandlery; No. 74, Acids; No. 75, Resin, Pitch, Crude Turpentine: No. 77, Belting, Packing; No. 78, Leather, pump rigging, lacing; No. 80, Junk; No. 85, Anthracite Coal; No. 86, Semi-bituminous Coal; No. 87, Bituminous Coal; No. 88, Charcoal; No. 89, Wood.

CARD.
Having become satisfied after thorough investigations that Elastic Sponge, as now and lately manufactured, is one of the best of all substitutes for curled hair, for many if not most uses in upholstery, we have accepted the Agency for it, and intend to make it hereafter a specialty in our business. The objections which been made to it and which it is well known we ourselves have thought were well founded, we have ascertained cannot be urged against the article as now perfected. The process of manufacture has been entirely remodeled under the advice and superintendence of one of the most eminent chemists of New England. New chemical and mechanical appliances have been introduced in cleansing crude Sponge, and in charging it with glycerine with such entire success, that Elastic Sponge may now be said to be chemically pure. There is absolutely nothing in it but the clean fibre of Sponge and chemically pure glycerine.
The objections to Elastic Sponge being thus removed there remain its undisputed merits which certainly entitles it to be considered one of the most valuable, as it is one of the most curious and interesting of late discoveries. Chief among these merits is, that it is proof against moths—the great scourge of the business,—against all other insects. Then its elasticity is permanent, based as it is upon the non-evaporable property of glycerine and the indestructibility of sponge fibre. We have always been satisfied upon these two points which are the essential requisites in such materials. The evidence is now equally clear that it is wholesome and sweet. It is very light and soft, easy to manipulate, and cheap enough for all except the lowest class of goods. For the cushioning of Churches, Theatres, Public Halls, Railway Stations, Omnibuses, Carriages, Steam and Horse Cars and the like, it will probably be found, everything considered, the best article in use. For all uses, and especially for Bedding, we are now prepared to recommend the public to give it a fair trial as we ourselves intend to do. We are are ready also to answer inquiries, make estimates and take orders for every description of work in Sponge as well as to supply the trade the article in Bales.

The Daily Chronicle.

PORTSMOUTH, N. H.

MONDAY, JUNE 26, 1871.

THE first act of the new democracy when in power was one to unite the Montreal and White Mountain Railroads. Thus notwithstanding the democratic howls of Bingham and Pearson against consolidation, we find a bill slipped through by Bingham's consent giving the advantage of consolidation to over 200 miles of road. The fact that Bingham is a counsel residing on the line of the road of course has no weight on the question.

THERE seems to be no indication that the Legislature will close its session this week. It costs "$2000 a day," you know, and the Democracy will be held strictly to account for the extra length of the session. The Republicans have brought the sessions to a close in four weeks, heretofore. Thus far the Democrats have allowed but little business to interrupt their political schemes. They seem to be waiting now for a Republican Senator to be tardy, or to sicken and die—but the Republican Senators persist in being in their seats five minutes before roll-call.

POLITICAL.

The Lexington (Ky.) Press reminds the democrats of the North that, if they care for the support of the democrats of the South, they must exhibit something more of tact and discretion than they have recently in denouncing Jefferson Davis and "the Confederate cause."

Hon George W. Morgan of Ohio has opened the campaign on the Democratic side with a long speech, in which he makes Mr. Lincoln responsible for the war because he did not arrest and imprison the Southern born army officers instead of accepting their resignations! If Mr. Lincoln had done this what a howl the Northern Democracy would have set up.

The Missouri Democrat (rep.) favors choosing the President directly by the people, without the intervention of electors and the electoral colleges.

Germany and England Disagree.

A serious complication has arisen between Germany and England, and severe dispatches are passing between Bismarck and Earl Granville. Bismarck addressed a note to Count Bernstoff, the German representative in London, informing him that the Imperial German Government desired to acquire Heligoland and empowering him to make propositions to the British Government for the purchase of that island.

Earl Granville replied that England will not part with Heligoland, and that the British Government could entertain no propositions looking to the cession of that island.

Bismarck again addressed the British Government through Count Bernstoff, declaring that the acquisition of Heligoland was necessary for the protection of the German coast, reciting as an instance the facilities for coaling and immunity from attack which the French fleet enjoyed at Heligoland, by which it was enabled to blockade Hamburg and paralyze the German coast. He looked upon Heligoland, on account of its close proximity, as German territory, and its possession by any foreign power as a standing menace to Germany.

Earl Granville replied that England was only bound to consider her own interests, and that the wish of Germany to acquire Heligoland did not constitute her right to it, as the island has never been under German rule.

VICE PRESIDENT COLFAX writes in a private letter to the editor of the Independent: "I shall have an article for your July number: but am resting generally—seeing few persons, writing few letters, riding out with Mrs. Colfax two hours per day, and walking in my garden an hour each day. Am obeying doctor's orders, and living the laziest life possible for me. I gain strength steadily but slowly, being still weak; but no doubt of my complete restoration to robust health. I shall heed the warning, however, and rest more and work less hereafter."

THINGS are lively in San Domingo, yet. The troops of Baez, amounting to 1200 or 1500, defeated an equal number of Cabral's forces at San Juan with a heavy loss, including two cannon captured, General Saint Clair killed and eighteen prisoners and the camp equipage taken. When Cabral saw that it was necessary for him to retreat he ordered the powder magazine to be fired, which was done, and nearly the whole town of San Juan was destroyed. Baez during the action remained at Azua, but returned to the capital afterwards.

THE CAUSE OF WILSON'S TREACHERY.

A writer in the Concord Republican Statesman thus accounts for the defection of E. M. Wilson, Representative from Pembroke. Wilson is a butcher, and his large slaughter house was a nuisance, infecting the neighborhood until a terrible sickness became prevalent. The citizens petitioned the Selectmen, who were Republicans, to have the nuisance abated. Wilson had been a Republican and thought the Selectmen should defend him. They endeavored to convince him that the nuisance must be abated and it would be best for him to do it voluntarily. He refused, was indicted and tried. He now helps betray the Republican party because the Selectmen did their duty. Out upon all such fellows, say we; the sooner the Republican party is rid of them and the Democrats receive them the better for the former and the worse for the latter. Isn't it a curious fact, however, that the Democratic party always gain adherents when men get too indecent to remain in the Republican ranks?

A NEW NOMENCLATURE.—Some of our exchanges, out of New Hampshire, are inclined to cast ridicule on the combined Democrats and Labor Reformers in our Legislature for permitting themselves to be *numbered*, to enable their leaders to detect any case of failure to "vote the ticket." Gentlemen from abroad! just let the allied sovereigns of New Hampshire regulate their domestic institutions in their own way. If they want to be marked and numbered like a flock of sheep; if they want to be watched as if they could not be trusted without a detective at their heels; if they want to be whipped into their traces like a team of Esquimaux dogs,—let them. They know better than you do, what they need, and what they will stand.

But the system of numbering their members might be made very convenient for one purpose. In the model prisons of England, each convict when admitted has, in like manner, a number assigned him, by which he is always known afterwards, his name being dropped. In reporting the proceedings of our Legislature, how much time it would save, to adopt the same course. Instead of announcing "the gentleman from A, Mr. 3," what an improvement it would be to say simply that No. 27 offered a resolution, No. 59 made a motion to adjourn, &c. We commend this scheme to the parties concerned, and trust they will publish a list of their members with the numbers annexed, so that the experiment may be tried.—*Exeter News Letter.*

KEEP IT BEFORE THE PEOPLE, that our Mr. Legro last spring voted the regular Republican ticket for State and County officers; that after his election as town Representative, mainly by Democratic votes, he repeatedly asserted that he was then and had been for years a Republican, and *at his own request* was so classed in the list of Representatives sent to Concord by telegraph. Somebody says Mr. Legro "was a Republican when some of his present assailants were in swaddling clothes." Very good! What of it? Was Judas Iscariot any the less a traitor and a sneak when he betrayed his master for thirty pieces of silver, on account of having been an *older* apostle than Paul or Peter?—*Coos Republican.*

JOSIAH TATNALL, formerly of the U. S. navy, died in Savannah, Georgia, on Wednesday, the 14th instant, in the 75th year of his age. He entered the navy as a midshipman in 1812, was commissioned lieutenant in 1818, commander in 1838 and captain in 1850. The first battle in which he participated was during his service in the frigate Constellation in the affair at Craney Island in June, 1813. He was in the Algerine war with Decatur, on the African coast with Perry and with Porter in his expedition against the Gulf of Mexico pirates. He commanded the Spitfire at the bombardment of Vera Cruz during the Mexican war, and also in the attack on Tuspan, Tampico and Alverado. From 1855 to 1859 he was flag-officer of the East India squadron, and rendered gallant but indiscreet service to the English in their attack on the Peiho forts. In 1822 he was stationed at Brooklyn navy yard, in 1839 at the Charlestown yard, in 1850 at Pensacola and in 1860 at Sackett's Harbor, N. Y. In the latter year, he brought the Japanese ambassadors to this country. In 1861, while at Sackett's Harbor, his native State seceded, and resigning his commission he offered his sword to the cause of the rebellion. In the first year of the war he was in command of a few puny gunboats and steamtugs at Port Royal when Dupont attacked that place. He also commanded the rebel ironclad Merrimac, when it was burned to prevent capture. In the Confederate navy he had the rank of commodore. He had the reputation of a sailor more distinguished for personal intrepidity in action than for judgment and skill in venturing upon or directing a battle. But other faults and failures, as well as his professional honor and future fame, are all overshadowed by his base treachery in the nation's critical hour.

GEN. BOURBAKI has recovered from his wounds.

SUPREME JUDICIAL COURT.—The June law term of the S. J. Court commenced in this town, on Tuesday. Full bench present. The following actions were disposed of on the Rockingham Docket: Pickering *vs.* Pickering *et al*; decree dismissing bill with costs.—George P. Cross *vs.* Josephine M. Cross; libel dismissed—Josephine M. Cross *vs.* George P. Cross; divorce decreed, with custody of child, $500 alimony for wife, and $500 for trustee of child.—Rosella Place *vs.* Wm. H. Place; dismissed without prejudice. Mary Pepain *vs.* James Pepain; libel dismissed—Job Jenness *vs.* Henry F. Wendell; judgment for pltf. for balance claimed, and interest from date of sale; opinion by Sargent, J; Hackett for pltf. Hatch for dft.—State *vs.* Hiram Jones; exceptions overruled; Daylight Burner Co. *vs.* Jas. W. Odlin; judgment on verdict for deft.; John Cook *vs.* John P. Bennett; judgment on verdict for pltf.; *Exeter News Letter.*

ONE of the directors of the New York Central Railroad has written a letter to Commissioner Pleasanton, in which he says that the statement that Colonel Thompson, or any person connected with the internal revenue bureau, gave information of the decision in the New York Central tax case in advance of its promulgation through the press, is entirely without foundation. In fact, the first knowledge or intimation of the decision was received through the daily journals. The charge against Colonel Thompson is known by the directors and officers of the New York Central Railroad Company to be untrue.

THE culvert on the Louisville, New Albany and Chicago Railroad, near Wanatah, Indiana, gave way under a passing train, June 23, precipitating the engine and baggage-car into the stream, 15 feet deep. The fireman was instantly killed and the engineer and baggage-master severely injured. Several passengers were slightly injured.

AT Stone Lake, Indiana, June 22, Addie Dwight was shot and instantly killed by Chauncey Barnes for refusing to marry him. Barnes subsequently shot himself, and is not expected to survive.

BUSINESS NOTICES.

SPECIAL NOTICES.

The Universal Safeguard.

It is useless for State Legislatures to pass laws for the preservation of the public health, if the great law of self-preservation which depends for its enforcement upon the will of the individual, is suffered to remain a dead letter.

There is scarcely an adult member of the community, of either sex, in the country, who has not seen the testimony in favor of HOSTETTER'S STOMACH BITTERS, furnished over their own signatures by persons of acknowledged eminence in science, literature, art, commerce, and every department of business and professional life. These witnesses have declared in the most explicit terms that the preparation is a safeguard against epidemics, a sovereign remedy for dyspepsia, a valuable antibilious medicine, a promoter of appetite, a genial and harmless stimulant, a good accompanying medicine, a strengthener of the nerves, a general invigorant, a protection against the deleterious effects of malaria and impure water, and that it imparts a degree of vigor and activity to the vital forces which is not communicated by any other of the tonics and stomachics in use. Under these circumstances the self-preservative law of nature should teach every rational person who, either by reason of inherent debility or in consequence of exposure to unwholesome influences, is in peril of losing the greatest of all temporal blessings, health, the importance of using the Bitters as a defensive medicine. Dyspeptics who neglect to give it a trial are simply their own enemies. It is guaranteed to cure indigestion in all its forms, and the billious and nervous will find nothing in the whole range of official and proprietary medicines which will afford them the same relief.

AVERILL CHEMICAL PAINT.

It is Cheaper, Handsomer and more durable than the best of other Paints. One Thousand Gallons of it were sold in this City, in the year 1870, and not one complaint has come from those who have used it; but all speak in its favor; it is mixed ready for application, and is much easier put on than any other Paint, making a smooth, glossy surface for years, that can be cleaned with hot suds without injuring it. It is excellent for walls inside, in the place of paper.

I shall keep this season a large stock of Chemical Paints of all shades on hand, to accommodate customers with any amount, without delay in ordering it. Those who want to use the Chemical Paints and have had them misrepresented by those who deal in Lead and Oil, are invited to call and examine my Paints that have been on Buildings two years, and you will find them as fresh as if laid but one month.

TONY PASTOR is coming July 5th.

SEE advt in another column, of furniture, doors, windows, etc., for sale at auction.

THERE is a general feeling among our citizens that the inhabitants of Portsmouth should be renumerated.

MR. JAMES R. MORRISON, clerk of Ward One, has not been legally summoned to appear before the Election Committee at Concord, Mr. Page to the contrary notwithstanding. Mr. Morrison, however, intends to be on hand when wanted by his Republican friends, and will help expose the tricks of the Democracy.

ST. ANDREW'S and St. John's Masonic Lodges, with Harlow's Band, turned out in the rain, Saturday evening, and received De Witt Clinton Commandery on their return from Lawrence with the Cornet Band. The Sir Knights speak highly of the courteous attentions shown them by the Knights and citizens of Lawrence, and express regret only at the unavoidable brevity of their visit.

THE boys are now treated to a free sight of Jim Fisk's regiment, escorted by the 8th Massachusetts Volunteers as they would appear on their way to divine service on Boston Common, had they gone there for that purpose, which they didn't—in the window of Stavers' variety store on Market Street; "procession" was arranged by Mr. Staver's clerks, and may be considered a work of high art.

THE Great Falls Journal says a young man from Portsmouth was arrested there on Tuesday for fast driving and arraigned before Judge Young, who fined him three dollars and costs, the whole fine amounting to $11.84. In default of payment he was put in the Station House. During the afternoon he broke the lock on the door with an iron bar and escaped. How he procured the bar is not known.

THAT Portsmouth women are handsome is proverbial. Of course their daughters at school promise much in that line; at least, the young men say so, and appropriately voted the two beautiful chromos (32 x 34 inches) offered at the Universalist Strawberry Festival to the Girl's High School, where they hang as a memento of the beauty of the scholars and the gallantry of their escorts. Some say the former are not indebted to the sterner sex for the chromos, but that the young ladies persisted in exercising the right of suffrage for their own selves. We repel the insinuation, however, as entirely in opposition to the disposition of "those girls."

RAILROAD CHANGES.—We publish to-day in their proper places the summer arrangement of all passenger trains leaving this city—thirteen every day and fourteen on Mondays, Wednesdays and Fridays. The trains leave as follows: For Boston at 3, 6.15, 8.25, 11.45 A. M., 5.30, 6.10, P. M.; For Portland at 10, 10.40, A. M., 2.30, 5.30, 10 P. M. On Monday, Wednesday and Friday evenings express trains leave for Boston and Portland at 8 o'clock. The regular trains from this city arrive in Boston at 5, 8.40, 10.45, A. M., 1.50, 7.30, 8.15, P. M. The Concord trains leave here at 8, A. M. and 5.40 P. M., (one hour later than before) stopping but ten minutes at Newmarket Junction. The afternoon train for this city leaves Concord at 4.15, instead of 3.30.

Communicated.

Dear Chronicle:—I was much pleased to see the communication in your issue of Tuesday, signed Improvement. In the name of many citizens he requests that the willows on Richards Avenue be spared when the road is remodelled; in the name of many other citizens I respond "amen." Strange to say, there are yet a few men and women in Portsmouth, and a few among our summer visitors, who can admire the picturesque as well as the regular, and to whom a straight row of maples or young elms is not the only beautiful thing in nature. Among such, and among all lovers of shade and comfort, there have been hearty thanksgivings this summer that the much dreaded "improvements" have been postponed for another year. If the road-bed and sidewalks were improved, handsome fences provided, and the trees, both elms and willows, cared for and kept in order, would not the conditions of Mrs. Cutts' will be complied with, and good taste and real convenience be consulted, better than in any more ambitious fashion? A RESIDENT.

MR. G. HARRISON JENNESS of Rye, Superintending School Committee, Schoolmaster *pro tem.*, press correspondent, &c., is to "open" his new house at Rye Beach on Tuesday evening to a few newspaper friends.

THE investigation of the check list of Ward Two will be continued at Concord, this evening. "Judge" Page conducts the offensive movement and has run against lots of stumps and is liable to encounter more. Some of the developments are rich and we intend to give them to our readers at the earliest opportunity.

MESSRS. Frank Jones of Ward 1, and Nelson Goodrich of Ward 2 were in Concord last week to endeavor to have all the Republican members from Portsmouth sent home. It is said that Bingham has promised Mr. Jones to vote them out and Mr. Jones it is said furnishes the funds and railroad passes for the witnesses. In the mean time the wealthy Brewer seems to have lost sight of the interests of Portsmouth. The Dover railroad bill sticks on the table, where the Democrats who oppose it and the Republicans and Labor Reformers who think that eight members at one swoop is too many to strike will be likely to keep it. If Mr. Jones thinks that depriving our business community of the services of such members as Walker and Hackett, with their colleagues, will work to his advantage and that of Portsmouth, he is mistaken.

THE Spanish Cortes adopted an address to the crown—164 to 98. The resignation of the whole ministry was then announced. Marshal Serrano will probably be President of the new ministry.

ONE thousand Swedish emigrants will arrive at New Sweden, Me., by way of Halifax, this week. About 500 have already arrived, and the satisfactory accounts sent home by them have caused a rush of emigration far beyond the expectations of the most sanguine. The State authorities of Maine will arrange for the proper reception and care of the new comers.

DR. TILTON'S COMPOUND DANDELION BITTERS have for the last three years met the unqualified approval of thousands in this city. They are the best and purest bitters in the market. They purify the blood, give tone and action to the stomach, strengthen the digestive organs, and reinstate in cases of general debility. The best medicine for female complaints, whether in old or young or at the turn of life. These bitters have no equal.

NOTORIOUS thieves entered the southern-bound express-car on the Mobile and Ohio Railroad on June 23, overcame the messenger and threw out the safe, which contained a large amount of money. The safe was subsequently found broken open. The thieves were tracked to Mobile and two of them arrested, and with them was found a portion of the stolen money. The remainder, it is thought, will be recovered. One of the prisoners is an escaped convict and a desperate character.

FRANCE.—The frequent postponements of Rochefort's trial indicates fear on the part of the present Government members who were constituents in the Government of national defence. Rochefort claims to possess documents which show transactions discreditable to Gambetta, Picard, Jules Simon, and other members of the Tours delegation, and even to Jules Favre and Trochu. The Government is threatened by an awkward contingency, if his trial is pushed. Rochefort's secretary has fled to England with numerous original diplomatic notes, and will produce them at the proper time. The most important and damaging document incriminating Favre and colleagues is said to be a letter from the Russian Czar to the Provisional Government, September 10, after the battle of Sedan, which promises to mediate in behalf of France, and to arrange a treaty of peace, and intimates as by inspiration that Germany would ask only Strasbourg, Metz and eight hundred million francs for war expenditures.

JOB AND CARD PRINTING.—We have made great additions to our jobbing facilities—a mammoth Hand Press (the largest in Portsmouth,) new Display Type, Borders of various styles, &c.—and are prepared to execute with neatness and dispatch, all orders for FULL SHEET POSTERS, DATE SLIPS, PAMPHLETS, SERMONS, ADDRESSES, AUCTION BILLS, CONSTITUTIONS, BY LAWS, PROGRAMMES, HANDBILLS, CIRCULARS, ORDERS DANCES, BLANKS, BILL HEADS, RECEIPTS, TICKETS, BUSINESS, MARRIAGE, ADDRESS AND VISITING CARDS, LABELS, TAGS, and in fact PRINTING OF ANY DESCRIPTION, AT SATISFACTORY PRICES. THE NEW ORLEANS, MOBILE & TEXAS RAILROAD COMPANY

Are building a trunk line, connecting New Orleans with Mobile on the east, and giving

THE ONLY RAILROAD CONNECTION

between the former city and the great and most productive State of Texas of the west, the total distance from Mobile to Houston being 475 miles.

The Company is composed of strong Northern capitalists, who have already expended nearly **TEN MILLION DOLLARS** of their own funds in the construction of the line. They have built about 225 miles from Mobile westward, and secured by purchase of securities and made provision for the thorough repair and equipment of the 108 miles of the Texas division; leaving but 140 miles to be built

To Complete the Entire Road.

It is believed that no other railroad corporation in the country has ever made so large an expenditure from its own means before offering any of its securities to the public.

The Company now offer for sale the

Eight Per Cent. Mortgage Bonds

upon the Louisiana division of 22¾ miles from New Orleans to the Sabine River. This will probably be the most valuable portion of the whole line, as it will be the only rail communication by which the enormous productions of Texas can reach the Southern metropolis.

So important is this road considered to Louisiana, that the State has made very liberal grants in aid of the enterprise, by direct donations, by endorsement of its bonds, and by subscriptions to the stock of the Company, amounting in all to over eight million dollars.

The Bonds now offered are of two classes:

FIRST MORTGAGE BONDS,

to the amount of $12,500 per mile, and

SECOND MORTGAGE BONDS,

to an equal amount, both principal and interest guaranteed by the State of Louisiana. The price of the two classes is the same, and subscribers can take their choice.

The Bonds are only in the denomination of $1,000, or £200 each, interest payable January and July, at the rate of eight per cent. currency in New York, or seven per cent. gold in London, at the option of the holder, at the time each coupon is due. Bonds can be registered, if desired.

No better security has been offered to investors. The Bonds are largely profitable, as well as entirely safe. One thousand dollars invested in these eight per cent. bonds will give the purchaser *more than seventy-seven per cent.* greater annual interest than the same amount invested in the new Government Five Per Cents.

At the same price, an 8 per cent. currency long bond is far cheaper than a 7 per cent. gold one. Calculating a return to specie payment in three years, and taking the time that the bonds of the New Orleans, Mobile and Texas Railroad have to run—45 years—we find that by compounding the interest of each, every six months, at 7 per cent. **an 8 per cent currency bond at 90 will give a return of $2,614.18 MORE than a 7 per cent. gold bond, at the same price, or nearly three times the amount of the original investment.**

The Bonds are dated May 1, 1871. The first coupon will, therefore, be a fractional one, running from May 1 to July 1. The price is 90, and accrued interest at 8 per cent. currency from May 1st to date of remittance.

Subscriptions will be received in Portsmouth by

First National Bank.

Information concerning the Company and the Road, and pamphlets containing map and full details of the enterprise, can be obtained of the undersigned or any of the Company's advertised agents.

HOTELS.

MARSHALL HOUSE,

YORK BEACH. This new and commodious SUMMER HOTEL is situated in one of the most beautiful localities on the coast, at the mouth of York Rivers; the facilities for Bathing, on sandy beaches, in surf or still water,—for Fishing, or for Boating on a beautiful river, are unrivalled; the sea view (taking in Boon Island and the Shoals) is unsurpassed, and the river and inland scenery *not equalled* by that surrounding any other hotel along the whole coast. With a good table, moderate charges, and strict attention and courtesy to all, we intend to merit and hope to receive a fair share of public patronage. The hotel will be open to the public, June 20th. N. G. MARSHALL & SONS,

Proprietors.

☞ Steamer HOFFMAN, Capt. Emerson, will make two trips daily (on Tuesdays, Thursdays and Saturdays) between Portsmouth and York Harbor, connecting with morning and afternoon trains from Boston, during the season, conveying passengers at reasonable rates and landing them but a few rods from the Hotel. NEW FIRM!

INSURANCE BUSINESS

The Subscribers having purchased the "Business and Goodwill," of

The Old and Well Established Insurance Company of JOHN S. HARVEY,

have this day formed a co partnership, under the firm name of

MORSE & ILSLEY,

for the purpose of carrying on the Insurance Business in all its branches. They trust, by industry, integrity and good judgment, to merit the approbation of the friends of the office, and to receive a good share of new business.

MR. HARVEY will still take a lively interest in the Companies for which he has so long and faithfully worked, and he is authorized to receive applications for Insurance in said Companies as our Agent.

JOSEPH P. MORSE,
WINGATE N. ILSLEY.

Portsmouth, May 1, 1871.

A CARD.

HAVING disposed of my Insurance Business to JOSEPH P. MORSE and WINGATE N. ILSLEY, two gentlemen well known for their integrity and business capacity, I return my thanks to my old and constant patrons and friends, for their many favors, and earnestly recommend **my** successors, trusting the same generous patronage will be extended to them as to myself. They represent some of the oldest and most reliable Companies in both Fire and Life Insurance in the Country.

m15 **JOHN S. HARVEY.**

Morning Chronicle.

NEW PUBLICATIONS RECEIVED.

The *Atlantic Monthly* for July abounds in pleasant summer reading of the widest variety. The number is unusually strong in poetry, containing characteristic pieces by Longfellow, Saxe and George Eliot. "Castilian Days," "Mountaineering in Nevada," "From Generation to Generation," are continued. Mr. Howells begins a story entitled "Their Wedding Journey," which, of course, opens delightfully. Bret Harte contributes "The Poet of Sierra Flat," which is redolent of his qualities, though hardly up to his best works. "The Whispering Gallery," for July, contains more of Dickens' capital letters to President Felton, and is captivating throughout.

The July number of *The Radical* is out, and this announcement we suspect is to many readers as agreeable as any we have made for at least a month, and the next will give not less satisfaction to the same people; the magazine is to be continued beyond the present year.

That nice little Magazine, *The Children's Hour*, and *Arthur's Lady's Home Magazine* are received. "The Happiest Time," is the title of the frontispiece in the latter, which contains nice stories and talk for the ladies.

DANIEL RYDER of Belleport, while fishing on Tuesday, June 22, near Barren Island, situated between Coney Island and Far Rockaway on Long Island, landed for water. Upon gaining the beach Ryder was first attacked by three savage bloodhounds, who lacerated his limbs in a terrible manner, but he nearly succeeded in regaining his sloop when five more ferocious dogs pounced upon him, throwing him upon the beach and gnawing his back and breast frightfully. Captain Petty of Belleport and a friend in a yacht a mile distant saw the whole affair and hastened to the rescue. Ryder was found nearly dead from the loss of blood, with his clothing entirely stripped from his body. There are no hopes of his recovery, the poisonous fangs of the bloodhounds having inflicted fatal wounds. The dogs were all shot by Captain Petty, the owner's remonstrance to the contrary notwithstanding. It is a great pity he did not shoot the owner of the savage brutes.

IN view of the fact that the action of the pension office some time ago in regard to homœopathic physicians called out many statements and counter-claims about the number of doctors practising different systems medicine, of the following statistics will prove of interest: The allopathic doctors have claimed to number fifty thousand in the United States, and the homœopbatists have claimed ten thousand. The number of physicians who pay taxes for the year ending April 30, 1871, is as follows: allopathic, 39,070; homœopathic, 2961; hydropathic, 133; eclectic, 2860; miscellaneous or not classified, 4774; total, 49,798. The doctors must either own to the correctness of these figures or else that as many of their profession as they may claim over these numbers have defrauded the government of its lawful tax. The names and post-office addresses of all the 49,798 physicians are indexed for reference.

NEW HAMPSHIRE ITEMS.

Great Falls will celebrate Fourth of July. In the morning the "fantastics will parade the streets accompanied by a large band of music. In the forenoon the Fire Department will have a parade and trial of machines; music by the Great Falls Band and an oration by a former resident of that town. In the afternoon there will be a free ascension by Prof. Sweet, who will walk over the river on a tight rope, which will be suspended across the stream near the bridge. At the riding park there will be three grand races and a balloon ascension. In the evening a ball will be given at the Town Hall.

EDWARD NEVINS, recently convicted of forging tickets on the Erie railway, has been sentenced to five years in Sing-Sing.

JOHN KEY, on trial for killing his father and another person in Cunningsburg, Ky., was convicted of murder in the first degree.

IN the United States circuit court at Philadelphia, Judge Strong delivered his opinion sustaining the constitutionality of the income tax.

—Two little girls, an eight and a ten year old, were gravely discussing the question of wearing ear-rings. One thought it wicked. The other replied, "Well, I don't care; if it wasn't wicked God would have made holes in our ears."

NEW ADVERTISEMENTS.

THIRTY THOUSAND DOLLARS PAID.—The TRAVELERS LIFE AND ACCIDENT INSURANCE COMPANY, of Hartford, Connecticut, paid **$20,000** on W. H. Forbush and Wm. C. Curry, victims of the New Hamburg railroad; **$5,000** on the late Jas. B. Blake, mayor of Worcester, Mass.; and **$5,000** on the late S. H. Lewis, Jr., of St. Albans, Vt. All these accidents occurred, and the insurance was paid, within three months—each claim being paid about sixty days before it was due by the terms of the policy. The TRAVELERS has paid **SEVEN HUNDRED DOLLARS A DAY** in benefits to its policy holders, for deaths or injury by accident, for every working day during the past seven years.

The TRAVELERS LIFE AND ACCIDENT INSURANCE COMPANY, of Hartford, Conn., grants all the usual forms of **LIFE** and **ENDOWMENT** Policies, on exceedingly favorable terms. AMPLE SECURITY and LOW RATES.

CHEAP FARMS! FREE TRAVEL!

Chicago, Rock Island, and Pacific Railroad Company.

600,000 ACRES

CHOICE IOWA LANDS.

This Company is now offering for sale about six hundred thousand acres of the finest agricultural lands in the West. The Company sells only to actual settlers, and the prices are exceedingly reasonable, ranging from $5 to $15 per acre—the average being about $8. The greater part of these lands are situated along the line of its railroad between the cities of Des Moines and Council Bluffs, and are in the most accessible and fertile region in the State.

Sales made for cash or on credit long enough to enable any industrious man to pay for the land out of its crops.

These lands are held under a title direct from the General Government, and are not mortgaged or encumbered in any way. Full warranty deeds given to purchasers.

For maps, pamphlets, or any other information respecting them, address EBENEZER COOK, Land Commissioner, Davenport, Iowa.

EXPLORING TICKETS are sold at the Company's ticket offices at Chicago, and all other principal stations on its line, and if the purchaser buys land the amount paid for the ticket is applied on the purchase money.

TARRANT'S SELTZER APERIENT.

SECTS AND CREEDS DIFFER, but there are no dissenters from the general proposition that great medicine is a great blessing. We have many of these blessings, but among them all, in the province to which it belongs, no greater than

Tarrant's Effervescent Seltzer Aperient.

A column would not suffice to enumerate the ailments for which it is prescribed by physicians of the highest standing. It does not belong to the class derisively termed patent medicines, but is an article based on scientific analysis, and will stand the test of the sharpest and most rigid medical criticism as a cathartic, a stomachic, an anti-febrile preparation, and an admirable remedy for all bilious complaints.

Let there be no mistake. Secure the genuine article only.

TRY IT!

How well we remember in days that are gone,
The feelings we felt as we saw the cork drawn—
The disgust—the recoil
From "Cod Liver Oil,"
Dealt out to poor souls in the days that are gone!
But who could complain
Of this to be ta'en?
It swallows as easy as sparkling Champagne—
Does "Marvins' Deodorized Oil."

AMERICAN & FOREIGN PATENTS.

R. H. EDDY, SOLICITOR OF PATENTS, *For Inventions, Trade Marks or Designs*, No. 76 STATE ST., OPPOSITE KILBY ST., BOSTON, After an extensive practice of upwards of thirty years, continues to secure patents in the United States; also in Great Britain, France and other foreign countries. Caveats, Specifications, Assignments, and all papers for Patents, executed on reasonable terms with dispatch. Researches made to determine the validity and utility of Patents of Invention, and legal and other advice rendered in all matters touching the same. Copies of the claims of any patent furnished, by remitting one dollar. Assignments recorded in Washington.

No Agency in the United States possesses superior facilities for obtaining Patents or ascertaining the patentability of inventions.

All necessity of a journey to Washington to procure a Patent and the usual great delay there, are here saved inventors.

TESTIMONIALS.

"I regard Mr. Eddy as one of the most *capable and successful* practitioners with whom I have had official intercourse.—CHARLES MASON, Commissioner of Patents."

"I have no hesitation in assuring inventors that they cannot employ a man *more competent and trustworthy* and more capable of putting their applications in a form to secure for them an early and favorable consideration at the Patent Office. EDMUND BURKE, Late Commissioner of Patents.

"MR. R. H. EDDY has made for me over THIRTY applications for Patents, having been successful in almost every case. Such unmistakable proof of great talent and ability on his part leads me to recommend ALL inventors to apply to him to procure their Patents, as they may be sure of having the most faithful attention bestowed on their cases, and at very reasonable charges. A GREAT MEDICAL DISCOVERY!

DR. WALKER'S CALIFORNIA

VINEGAR BITTERS.

Hundreds of Thousands Bear Testimony to their Wonderful Curative Effects.

"WHAT ARE THEY!"

THEY ARE NOT A VILE FANCY DRINK, Made of Poor Rum, Whiskey, Proof Spirits and Refuse Liquors doctored, spiced and sweetened to please the taste, called "Tonics," "Appetizers," "Restorers," &c., that lead the tippler on to drunkenness and ruin, but are a true Medicine, made from the Native Roots and Herbs of California, free **from all Alcoholic Stimulants.** They are the GREAT BLOOD PURIFIER and a LIFE-GIVING PRINCIPLE, a perfect Renovator and Invigorator of the system, carrying off all poisonous matter and restoring the blood to a healthy condition. No person can take these Bitters according to direction and remain long unwell, provided the bones are not destroyed by mineral poison or other means, and the vital organs wasted beyond the point of repair.

For Inflammatory and Chronic Rheumatism and Gout, Dyspepsia or Indigestion, Bilious, Remittent and Intermittent Fevers, Diseases of the Blood, Liver, Kidneys and Bladder, these Bitters have been most successful. Such Diseases are caused by Vitiated Blood, which is generally produced by derangement of the Digestive Organs.

DYSPEPSIA OR INDIGESTION, Headache, Pain in the Shoulders, Coughs, Tightness of the Chest, Dizziness, Sour Eructations of the Stomach, Bad taste in the Mouth, Bilious Attacks, Palpitation of the Heart, Inflammation of the Lungs, Pain in the regions of the Kidneys, and a hundred other painful symptoms, are the offspring of Dyspepsia.

They invigorate the stomach and stimulate the torpid liver and bowels, which render them of unequalled efficacy in cleansing the blood of all impurities and imparting new life and vigor to the whole system.

FOR SKIN DISEASES, Eruptions, Tetter, Salt Rheum, Blotches, Spots, Pimples, Pustules, Boils, Carbuncles, Ring-Worms, Scald Head, Sore Eyes, Erysipelas, Itch, Scurfs, Discolorations of the Skin, Humors and Diseases of the Skin, of whatever name or nature, are literally dug up and carried out of the system in a short time by the use of these Bitters. One bottle in such cases will convince the most incredulous of their curative effect.

Cleanse the Vitiated Blood whenever you find its impurities bursting through the skin in Pimples, Eruptions or Sores; cleanse it when you find it obstructed and sluggish in the veins, cleanse it when it is foul, and your feelings will tell you when. Keep the blood pure, and the health of the system will follow.

PIN, TAPE and other WORMS, lurking in the system of so many thousands, are effectually destroyed and removed. For full directions, read carefully the circular around each bottle, printed in four languages—English, German, French and Spanish.

FOR FEMALE COMPLAINTS, whether in young or old, married or single, at the dawn of womanhood or at the turn of life, these Tonic Bitters have no equal. ☞ Send for a circular.

They are a Gentle Purgative as well as a Tonic, possessing also, the peculiar merit of acting as a powerful agent in relieving Congestion or Inflammation of the Liver, and all the Visceral Organs. 1yrdaw6w8t8

OLD TIME CHRONICLES, No. 35.

BY UNCLE JOSEPH.

NEWINGTON.—*The longest pastorate in Rockingham County.*—Of course this pastorate was in the former century. The Congregational churches were about all that were in the State until 1770, and in that denomination, in early times, when a minister was settled as pastor that was usually the end of it till death or disability terminated the relation.

The one who served longest as pastor of a church was Rev. Joseph Adams of Newington. He was ordained Nov. 6, 1715, and retained the pastoral office till Jan. 1783, when being aged and infirm he was released at his own request. He died May 26 of that year, aged 94. The length of his pastorate was 67 years. But one in the State has exceeded this, that of Rev. L. Ainsworth of Jaffrey, 73 years; but he had a colleague in his last years.

Newington is a small township of but 5,273 acres; its boundaries by Great Bay and Little Bay are very irregular; it was settled early, a portion of it belonging to Portsmouth and a portion to Dover and it was incorporated in 1764. Its population at the census taken by the Selectmen three years later was 514, of whom 31 were slaves. The greatest population was in 1830, it then being 549; last year it was 414, having fallen off 41 since 1860, and 135 since 1830.

Four persons in Newington have attained the age of a century or upwards. Elizabeth Hight died in 1765, aged 100; Joanna Hixon in 1813, aged 105; Elizabeth Richards in 1816, aged 101; and Sarah Dame in 1823, aged 100.

Rev. J. Nutter lived here long, and we suppose was a native; he was a local Methodist preacher and was Representative in the Legislature. Rev. John Adams, usually called "Reformation John," was born here Feb. 14, 1791, and died in Newmarket Sept. 30, 1850. Rev. Samuel Hoyt was born here; was for many years a Methodist preacher, and for several years has resided in town. He has been Representative in the Legislature.

Rev. Joseph Adams was of the family that gave two Presidents to the United States. The ancestor first in America was Henry, who came to what is now Quincy, Mass., about 1630. Rev. Joseph, who settled in Newington was his great-grandson, and President John Adams was nephew of Rev. Joseph Adams.

Joseph Adams was born in Braintree, Mass., Jan. 1, 1689, and graduated at Harvard College in 1710. While a member of college he taught school in Newington, which was his introduction to the place; and soon after graduating, being licensed to preach, he was invited to Newington, and after supplying sometime as a candidate, was ordained as already stated in 1715. At the time of Mr. Adams' settlement there was but one meeting in Portsmouth, that which is now the North Church. This had its second pastor, Rev. N. Rogers. The Episcopal church, now St. John's, had been formed long before, but at that time was probably inactive. The Second Congregational church, the Old South, commenced about the time Mr. Adams was ordained at Newington.

Mr. Adams' pastorate seems to have been a peaceable one. No other religious society existed in the place during his ministry; the whole town was his parish, and as in those days people went to meeting, not only the vigorous and strong, but those in the decrepitude of age and small children carried by their parents, the congregation was large.

Congregational ministers of this State were among the first to use efforts to have a college established. In Sept., 1753, an annual convention was held at the house of Rev. J. Pike, Somersworth. Mr. Adams was Moderator; a petition was drawn up and sent to Benning Wentworth, governor of the Province, praying for a college charter. Mr. Adams was Chairman of the Committee to present the petition to the governor. The committee was also to solicit funds for the college. The next year, 1759, the convention was held at the house of Mr. Adams in Newington. The committee reported that the governor as yet was not favorable to granting a charter, yet it was hoped he would be. The convention had a plan of a charter read and approved. Mr. Adams was again chosen chairman of a committee to act in the case. Three years later Dr. Wheelock laid his plans before the convention, and soon to the great joy of Mr. Adams and others, Dartmouth College was established.

Mr. Adams was a man of respectable talents. But two anecdotes so far as we know are preserved of him. It was customary for notes to be sent to pastors, requesting public prayers for the sick, &c. Once reading such a note for one sick, he prayed earnestly that the man might be prepared to die, for, said he, "O Lord, we who are skillful know there is no possibility for his recovery!" Again, at a convention of the Ministerial Association at Portsmouth, he offered prayer. He was learned and not altogether unwilling to display it, and he made allusion to horses mentioned in the book of Revelation; but becoming suddenly embarrassed he closed abruptly, and one of the ministers privately told him, he "should be cautious of mounting strange horses if he would avoid a fall."

Eighty-eight years have passed since Mr. Adams' death. Probably not one living recollects him. Newington has seen changes. Twice the Congregational church has been reduced to two members. It now has a membership of fifteen church members. There is room for more and an ample field for operations and an increase.

THIRTY THOUSAND DOLLARS PAID.—The TRAVELERS LIFE AND ACCIDENT INSURANCE COMPANY, of Hartford, Connecticut, paid $30,000 on W. H. Forbush and Wm. C. Curry, victims of the New Hamburg railroad; $5,000 on the late Jas. S. Blake, mayor of Worcester, Mass.; and $5,000 on the late S. H. Lewis, Jr., of St. Albans, Vt. All these accidents occurred, and the insurance was paid, within three months—each claim being paid about sixty days before it was due by the terms of the policy. The TRAVELERS has paid SEVEN HUNDRED DOLLARS A DAY in benefits to its policy holders, for deaths or injury by accident, for every working day during the past seven years.

The TRAVELERS LIFE AND ACCIDENT INSURANCE COMPANY, of Hartford, Conn., grants all the usual forms of LIFE and ENDOWMENT Policies, on exceedingly favorable terms. ample security and low rates.

600,000 ACRES
CHOICE IOWA LANDS.

This Company is now offering for sale about six hundred thousand acres of the finest agricultural lands in the West. The Company sells only to actual settlers, and the prices are exceedingly reasonable, ranging from $8 to $15 per acre—the average being about $8. The greater part of these lands are situated along the line of its railroad between the cities of Des Moines and Council Bluffs, and are in the most accessible and fertile region in the State.

Sales made for cash or on credit long enough to enable any industrious man to pay for the land out of its crops.

These lands are held under a title direct from the General Government, and are not mortgaged or encumbered in any way. Full warranty deeds given to purchasers.

For maps, pamphlets, or any other information respecting them, address EBENEZER COOK, Land Commissioner, Davenport, Iowa.

EXPLORING TICKETS are sold at the Company's ticket offices at Chicago, and all other principal stations on its line, and if the purchaser buys land the amount paid for the ticket is applied on the purchase money.

TARRANT'S SELTZER APERIENT.

SECTS AND CREEDS DIFFER, but there are no dissenters from the general principle, that a great medicine is a great blessing. We have many of these blessings, but among them all, in the province to which it belongs, no greater than

Tarrant's Effervescent Seltzer Aperient.

A column would not suffice to enumerate the ailments for which it is prescribed by physicians of the highest standing. It does not belong to the class derisively termed patent medicines, but is an article based on scientific analysis, and will stand the test of the sharpest and most rigid medical criticism as a cathartic, a stomachic, an anti-febrile preparation, and an admirable remedy for all bilious complaints.

Let there be no mistake. Secure the genuine article only.

Consumption,
ITS CURE AND ITS PREVENTIVE.
By J. H. SCHENCK, M. D.

Many a human being has passed away, for whose death there was no other reason than the neglect of known and indisputably proved means of cure. Those near and dear to friends and friends, are sleeping the dreamless slumber into which, had they calmly adopted

Dr. JOSEPH H. SCHENCK'S SIMPLE TREATMENT,

and availed themselves of his wonderfully efficacious medicines, they would not have fallen.

Dr Schenck has in his own care proven that wherever medicine vitally possesses the virtues, by his medicines and his directions for their use, is quickened into healthful vigor.

In this statement there is nothing presumptuous. To the faith of the invalid is made no representation that is not a thousand times substantiated by living and visible works. The disease of the lungs Dr. Schenck's medicines is as simple as it is unfailing. Its philosophy requires no argument. It is self assuring, self-convincing.

The Seaweed Tonic and Mandrake Pills are the first movements made in the system when the remedy is assailed. Two-thirds of the cases of consumption originate in dyspepsia and a functionally disordered liver. With this condition the remedial "tubes" sympathize" with the stomach. They respond to the disorder of the stomach and liver. There then comes the culminating result, and the setting in, with all its distressing symptoms, of

CONSUMPTION.

The Mandrake Pills are composed of one of Nature's noblest gifts—the Podophillum Peltatum. They possess all the blood-searching, alterative properties of calomel, but unlike calomel, they

"LEAVE NO STING BEHIND."

The work of cure is now beginning. The vitiated and mucous deposits in the bowels and in the alimentary canal are ejected. The liver, like a clock, is wound up. It arouses from its torpidity. The stomach acts responsively, and the patient begins to feel that he is getting, at last,

A SUPPLY OF GOOD BLOOD.

The Seaweed Tonic, in conjunction with the Pills, permeates and assimilates with the food. Chylification is now progressing, and healthful nutritive fractures. Digestion becomes painless, and the cure is seen to be at hand. There is no more flatulence, no congestion of the stomach. All the parts are in.

Now comes the greatest blood Purifier ever yet given by an authoritative body to suffering man. Schenck's Pulmonic Syrup comes to to perform its functions and to hasten and complete the cure. It enters at once upon its work. Nature cannot be cheated. It collects and ripens the impaired and diseased portions of the lungs. In the form of sufferings it prepares for expectoration. Soon and lo! in a very short time the malady is vanquished, the ration freed from the disease, the patient gains and made new, and the patient, in all the dignity of regained vigor, steps forth to enjoy the manhood or womanhood that was

GIVEN UP AS LOST.

The second thing is, the patients must stay in a warm room until they get well; it is almost impossible to prevent taking cold when the lungs are diseased, but if they do get wet or a cross draft cannot be avoided. Fresh air and riding out, especially in this section of the country in the fall and winter months, are very improvidence. Physicians recommend that course lose their patients, if their lungs are badly diseased; and yet, because they are in the house they hunt not at the proper time for a good walk about the room as much and as fast as the strength will bear, to get up a healthy circulation of blood. The patients must keep in good spirits—be determined to get well. This has a great deal to do with the cure, and is the great point to gain.

To despair of cure after such evidence of its possibility in the worst cases, and moral certainty in all others, is sinful. Dr. Schenck's personal statement to the faculty of his own cure was in these modest words:

"Many years ago I was in the last stage of consumption; confined to my bed, and at one time my friends thought that I could not live a week; thin like a drowning man catching at straws, I tried it, and obtained the relief and health which I now offer to the public, and they made a perfect cure of me. It seemed to me that I could feel them operating on the diseased parts of my lungs; the matter in my lungs, and I would spit up more than a pint of offensive yellow matter every morning for a long time. As soon as that began to subside, my cough, fever, pains and night sweats all began to leave me, and my appetite became so great that it was with difficulty that I could keep from eating too much. I soon gained my strength, and have gone in the full enjoyment of health.

"I was weighed shortly after my recovery," added the Doctor, "then looking like a mere skeleton; my weight was only twenty-seven pounds; my present weight is two hundred and twenty-five (225) pounds, and for years I have enjoyed uninterrupted health."

Dr. Schenck has discontinued his professional visits to New York. His office is at Sea st., Mr. J. H. Schenck, Jr., still continue to see patients at their office, No. 15 North Sixth street, Philadelphia, every Saturday from 9 A. M. to 3 P. M. Those who wish a thorough examination with the Respirometer will be accommodated. The Respirometer declares the exact condition of the lungs, and patients can readily learn whether they are curable or not.

The directions for taking the medicines are adapted to the intelligence even of a child. Follow them in simplicity, and kind Nature will do the rest, accepting that in some cases Mandrake Pills are to be taken in increased doses; the three medicines need not be taken together, but follow the instructions that accompany them: First, create appetite. Of returning health hunger is the most unfailing symptom. When it comes, as it will come, let the despairing rejoice in good cheer. Good food and exercise will then complete the work of cure, which is at hand. In a short time both of these morbid symptoms are gone forever.

Dr. Schenck's Medicines are constantly kept in tens of thousands of families. As a laxative or purgative, the Mandrake Pills are a standard preparation; while the Pulmonic Syrup proves a king of coughs and colds, may be regarded as a prophylactic against consumption, when it comes, as it will come, let the despairing rejoice be of good cheer. Good food and exercise will then complete the work of cure, which is at hand. In a short time both of these morbid symptoms are gone forever.

CARD.

Having become satisfied after thorough investigations that Elastic Sponge, as now and lately manufactured, is one of the best of all substitutes for curled hair, for many if not most uses in upholstery, we have accepted the Agency for it, and intend to make it hereafter a speciality in our business. The objections which been made to it and which it is well known we ourselves have thought were well founded, we have ascertained cannot be urged against the article as now perfected. The process of manufacture has been entirely remodeled under the advice and superintendence of one of the most eminent chemists of New England. New chemical and mechanical appliances have been introduced in cleansing crude Sponge, and in charging it with glycerine with such entire success, that Elastic Sponge may now be said to be chemically pure. There is absolutely nothing of it but the clean fibre of Sponge and chemically pure glycerine.

The objections to Elastic Sponge being thus removed there remain its undisputed merits which certainly entitles it to be considered one of the most valuable, as it is one of the most curious and interesting articles of elastic fibre. Chief among these merits is, that it is proof against moths—the great scourge of the business,—against all other insects. Then its elasticity is permanent, based as it is upon the non-evaporable property of glycerine and the indestructibility of sponge fibre. We have always been satisfied upon these two points which are the essential requisites in such materials. The evidence is now equally clear that it is wholesome and sweet. It is very light and soft, easy to manipulate, and cheap enough for all except the lowest class of goods. For the cushioning of Churches, Theatres, Public Halls, Railway Stations, Omnibuses, Carriages, Steam and Horse Cars and the like, it will probably be found, everything considered, the best article in use. For all uses, and especially for Bedding, we are now prepared to recommend the public to give it a fair trial as we ourselves intend to do. We are are ready also to answer inquiries, make estimates and take orders for every description of work in Sponge as well as to supply the trade the article in Bales.

COPPERHEAD CONSISTENCY. — The Democratic papers are blaming the legislature for attending the dedication of the Agricultural College at Hanover, and charge it on the Republicans as a specimen of their waste of the public money. The fact is, the measure was introduced into the legislature by Hon. Francis R. Chase, an Ex-Speaker of the House and a prominent leader of the Democracy; and it is hard to tell, if the Republicans are "the ones to blame for this waste of the public money," why the economical Democracy did not use their coalition majority and defeat the obnoxious proposal. The copperheads do not regard either reason or justice in their growlings, and this is a fair sample of how much foundation is necessary to build a Democratic protest against "Republican extravagance" on.

WHEN Gov. Weston was inaugurated, he went to the Speaker's desk in the House, accompanied by his predecessors, Ex.-Govs. Stearns and Smythe; near by was Bingham, who had been counsel in the Concord Railroad contest. A member present was heard to remark in a low tone, to one of his colleagues; "This looks like the Receivers putting the Democratic party into possession after a protracted hearing." It will be remembered that the Ex.-Governors were the Receivers appointed by the Court to have charge of the Concord Railroad, while the suit was being contested that ended in possession being given to Mr. Bingham's clients, after a sharp competition by the lawyers over the prize.

THE ARMY OF THE JAMES.—The second triennial reunion of the Society of the Army of the James will be held in New York on Wednesday, July 19. The Society will assemble at Apollo Hall, corner of Broadway and West Twenty-eighth streets, which has been generously placed at the disposal of the Executive Committee by General Ferrero. The oration will be delivered by Major General Alfred H. Terry, of Fort Fisher celebrity, and an original poem recited by Colonel John Hay ("Jim Bludso"), late Private Secretary to President Lincoln. The band of the First United States Artillery, kindly tendered by General J. Vogdes, will furnish the music. After the termination of the public exercises, a business meeting will be held, and an election for officers take place. At 6:30 o'clock P. M. a banquet will be given by the Society at the St. James Hotel, on the corner of Broadway and Twenty-sixth street. Major Gen. B. F. Butler will respond to the sentiment of "The Society of the Army of the James," and the following prominent officers connected with the society will be present: Generals Terry, Ames, Weitzel, Gibbon, Foster, Devens, Shepley, Turner, Gilmore, "Baldy" Smith, and others. The headquarters of the society will be at the St. James Hotel. Officers who served in the Army of the James, desirous of joining the society, are requested to communicate with the Treasurer, General Chas. A. Carleton, No. 7 Warren street, New York.

FRANCE.—Disturbances still continue in the Montmartre and Villette districts. The present effective artillery force of France consists of 400 batteries and 4043 guns. Forty-seven ships of the French navy have been disarmed and 12,000 sailors dismissed from service. Bismark has made an imperative demand for the payment, now overdue, of the first instalment of the indemnity, which amounts to five hundred million francs.

BONE FELON.—Of all painful things, can there be any so excruciatingly painful as a bone felon? We know of none that flesh is heir to, and as this malady is quite frequent and the subject of much earnest consideration, we give the latest recipe for its cure, which is given by that authority, the London Lancet:

"As soon as the disease is felt, put directly over the spot a fly blister, about the size of your thumb nail, and let it remain for six hours, at the expiration of which time, directly under the surface of the blister, may be seen the felon, which can instantly be taking out with the point of a needle or a lancet."

—Indianapolis youths unite sentiment with economy, and serenade their ladyloves with hand-organs.

—That enlightened and liberal body, the Indiana State Medical Society, has just expelled a member for advertising! They don't think much of newspapers down in the Hoosier State. A good many of the doctors can't read.—*Chicago Mail.*

THE steamer Ida Rees struck on a sand bar at the mouth of White River, Iowa, and is a total loss. Damage $120,000; insurance $32,000.

JUDGE STUART on Friday submitted to Judge Cardozo a bill of exceptions upon application for a stay of judgment in the case of William Foster, sentenced to be hanged for the murder of Putnam.

GENERAL ROSECRANS, chairman of the General Thomas Monument Association, appeals to the American people for contributions to the fund. Remittances may be made to General J. S. Fuller.

HOSTILITIES have broken out among the rivals clans in the Fejee Islands, and cannibalism is being indulged in to an unlimited extent by the Leonl faction, who recently professed Christianity. King Thakamba is getting his forces ready to attack the revolting cannibals.

INDIAN affairs are not yet all quiet. Lieutenant Morton with twenty-nine soldiers and sixteen citizens has returned to Camp McDowell, California, and reports having killed fifty-six Apaches and recovered a large amount of stock. Captain Mills with a large party is now on trail. Hon. Ree sSmith was murdered near Rhode's rancho, Arizona, by the Indians. N. J. Long, John Mullen and two men named Elliot, were recently killed near Fort Griffin, Texas, by Indians. One of the Elliots was burned alive.

THE New York Herald's correspondent at Nagasaki, Japan, asked permission of Rear-Admiral Rodgers to accompany the U. S. naval expedition to the Corea, but was refused, the Rear-Admiral giving as a reason for his refusal that "it is not unlikely that the present trip may prove a preliminary one, and therefore it may be of the first importance to keep our action and further purposes from the Coreans;" and that "if anything is published, either here or in the Atlantic States, the purport of it will be likely to find its way back to the Coreans, through the Chinese, who get access to our newspapers." To this the correspondent replies: "I do not propose to cater to the literary taste of the Coreans, by writing either to or for them; and how I or any one else can keep your actions done in the Corea from the knowledge of the Coreans I am at a loss to fathom. And your further purposes I know nothing of, and therefore can give information thereon to no one. * * * I certainly cannot see what harm a truthful history of the expedition could do, even if a published account did reach the Coreans, for they will be equally with ourselves capable of judging as to the truthfulness of the account; and I was not aware that the circulation of American newspapers, even of the New York Herald, was general either among the Chinese or Coreans." He states that other persons not belonging to the expedition are allowed to accompany it, at least one of them being a foreign subject, and concludes as follows: "Under these circumstances and for these reasons, as an American citizen and a representative of the press of the United States, I protest against your decision. As far as my knowledge goes this is the first time that the press has been arbitrarily excluded from joining an expedition of the kind you are to lead, and I am quite confident that you are the first American naval officer that has ever made a discrimination between subjects of other countries and citizens of the United States, unfavorable to the latter." The reply of the press correspondent puts the refusal of the naval officer in a most ridiculous light, and comment on his refusal is needless.

RUM DID IT.—Rum adds to its list of horrible tragedies. A physician in good standing, with an affectionate wife and two children, the elder but a baby, cuts the throats of the children with a knife, and then ends his own life by the same weapon. No language can properly depict the horror of the scene. The anguish of the half-crazed mother during all the time the father and the children were locked in the room together, her refusal to admit the police lest it should bring disgrace upon her husband, the breaking open the door, and the three corpses weltering in there blood make up the brief and terrible story. Rum did it. Here is a temperance lecture whose power no human lips can exceed. It will touch many hearts that words would never reach. It appeals to every man, young and old, who has a thirst for intoxicating drinks. Shall the lesson be unheeded?—*N. Y. Star.*

—A lady in Wyoming complains, that notwithstanding the female suffrage law, hundreds of her sex in that territory refuse to vote unless coaxed by good-looking men.

—Some Kentucky woman, a few nights ago, went to the house of one Sheldon Dennis, took him from his bed, and beat him with 130 stripes, explaining that they thus misused him because he had violently ill-treated his wife.

THREE miles of track from Cumberland on the Maine Central extension have been laid.

CABRAL'S defeat is confirmed. He had Haytian soldiers, and Baez colored Americans. The Haytian general is a prisoner.

—"Why Did He Not Die?" is the title of a new novel. A sequel called "Because he refused to take his Medicine" is expected.

BUSINESS NOTICES.

A gentleman afflicted with the chronic rheumatism says, "No description of my case can convey the vast amount of benefit I have received from the use of *Johnson's Anodyne Liniment.* I believe it is the best article in the world for rheumatism.

If a horse has a good constitution, and has once been a good horse, no matter how old or how much run down he may be, he can be greatly improved, and in many respects made as good as new, by a liberal use of *Sheridan's Cavalry Condition Powders.*

SPECIAL NOTICES.

The Universal Safeguard.

It is useless for State Legislatures to pass laws for the preservation of the public health, if the great law of self-preservation which depends for its enforcement upon the will of the individual, is suffered to remain a dead letter.

There is scarcely an adult member of the community, of either sex, in the country, who has not seen the testimony in favor of HOSTETTER'S STOMACH BITTERS, furnished over their own signatures by persons of acknowledged eminence in science, literature, art, commerce, and every department of business and professional life. These witnesses have declared in the most explicit terms that the preparation is a safeguard against epidemics, a sovereign remedy for dyspepsia, a valuable antibilious medicine, a promoter of appetite, a genial and harmless stimulant, a good acclimating medicine, a strengthener of the nerves, a general invigorant, a protection against the deleterious effects of malaria and impure water, and that it imparts a degree of vigor and activity to the vital forces which is not communicated by any other of the tonics and stomachics in use. Under these circumstances the self-preservative law of nature should teach every rational person who, either by reason of inherent debility or in consequence of exposure to unwholesome influences, is in peril of losing the greatest of all temporal blessings, health, the importance of using the Bitters as a defensive medicine. Dyspeptics who neglect to give it a trial are simply their own enemies. It is guaranteed to cure indigestion in all its forms, and the bilious and nervous will find nothing in the whole range of official and proprietary medicines which will afford them the same relief.

THE ladies of the Methodist Society will hold a Strawberry Festival on Friday evening of this week, in Congress Hall.

NONE of our readers who visit Rye Beach during the hot weather should fail to call at G. H. Jenness' Ice Cream and Confectionery Saloon, near the Sea View House. Mr. Jenness was the pioneer in the saloon business at Rye, and is continually making improvements. This year he has put in a large and splendid soda fountain of Tufts' make, from which he will dispense to his thirsty patrons the most delicious soda, Congress water and Ottawa beer; while his famous bottled cider is almost without a rival in the market. As Mr. Jenness sells "*no liquor*" in his saloon, ladies and gentlemen can always be assured of a quiet place of resort. Those wishing for muscular exercise can be accommodated in the excellent bowling alley immediately adjoining. Mr. Jenness is a patron of (as well contributor to) the press, as will be seen from his advertisements elsewhere in our columns. He will open for the season, July 4th.

ON Sunday evening about eleven o'clock two men landed at the Navy Yard near the blacksmith shop, and being challenged by the sentry on duty at that post, gave the countersign correctly and passed on to the door of the machine shop in the department of Steam Engineering, and were about to unlock it, when they were hailed by the sentry (who had followed them, suspecting something wrong) and asked what their business was. One of them replied that he was a quarterman machinist in that shop and had a right to enter. The sentry doubting it, undertook to stop him, whereupon a scuffle ensued, the marine getting the worst of it, and having his clothing cut from his shoulder to his belt, but so dextrously as not to touch the skin! The whole force of watchmen, marines, officers and everybody else were piped up to defend the Yard and seize the ruffians; but the latter, ere these forces could be aroused, had put a convenient distance between themselves and the scene of their would-be burglarious exploits and hence no arrests have as yet been made. This is the story as given to us, but many discredit it, and incline to the belief that the marine magnifies the affair, although it would seem that the mutilated clothing would be sufficient evidence of assault unless the man cut it himself, which we can see no reason for his doing. If the affair was really an attack by two men and not an imaginary assault, the sentry was not so smart as he should have been or he never would have allowed the assailing party near enough to him to reach him with a knife, while he had a bayonet fixed.

DE WITT CLINTON Commandery of Knights Templar of this city, accompanied by the Portsmouth Cornet Band, arrived in Lawrence on Friday evening at 6 1-2 o'clock. They were received by Bethany Commandery, numbering some eighty members, who with the Lawrence Brass Band escorted them to the residence of Sir Knight John Hague, where they partook of a collation which had been prepared for them by the Tuscan and Grecian Lodges. They then marched through some of the principal streets and proceeded to the Franklin House, where they were to domicile. At 8 o'clock they again formed and were conducted to the City Hall to enjoy a promenade concert and dance. There were about two hundred ladies present, with a sprinkling of some from this city, who were soon partnered off enjoying themselves in social chit-chat sandwiched with cake, strawberries and cream. After the close of the dance a delegation from both Commanderies took into service the Cornet Band and serenaded several of the brethren who were prominent citizens of that place. The gathering clouds of Friday afternoon, which portended rain for Saturday, were sure in their predictions. All day the rain was coming down, and in such copious showers as to prevent the street display. At 8 o'clock A. M. they visited in a body the Pacific Mills, the next to if not the largest in New England, and other places of interest. Carriages were at their disposal and the day was spent in a round of entertainments. Many of the Sir Knights kept open houses, where tables were elegantly spread with the etcetras for feasting. At 10 minutes of 4 they started for home and arrived between 6 and 7, with looks somewhat brightened by the infectious spirit of enterprise which greeted them in the go-ahead city of Lawrence.

AT a meeting of Strawberry Bank Encampment, No. 5, I. O. O. F., held Friday eve'g June 23, the following officers were elected for the ensuing term: C. P., John H. Locke; H. P., Daniel Perry; S. W., Geo. L. Parks; J. W., Charles Cummings; Scribe, Geo. Annable.; Treasurer, Isaac Dow.

BRO. BUT. of the Bid. Un. & Jour. is mistaken as to the identity of the Chronicle's editor who was present at the Island Ledge House clam-bake. We'll struggle with you, John E., at Stowe, Montreal or on the Franconia or White Mountain range, unless you prefer a different range,—between the 10th and 19th of July.

THE Pullman train due in this city at 5:40 P. M., ran off the track at Freeport, Me., the station next this side of Brunswick, on Monday, being thrown off by the breaking of a wheel under the tender. The baggage-master was killed, two brakemen had their legs broken, and several passengers were injured. Our reporter could get no further particulars.

THE Lyre of Monday evening contained some reading matter very much above its usual average—copied from the CHRONICLE. As usual, the lyrical editor advertises this paper in a half-column article, in which he says we have not attempted to refute "the statement of facts" he published last week. Perhaps he will be satisfied when we explain that we seldom regard his "*statements* of facts" *as* facts, and that we, in common with others, regard his endorsement of any story as an abundant refutation of its truth, unless it is otherwise vouched for. He also says we are stupid. We know he is a wonderfully able editor, for he is always owning to it—another remarkable instance of the strange fatality which sometimes forces men to confess to things which without such confession would never be suspected—and suppose we ought to admire him greatly; but unfortunately we don't. He also says we can "look pious" (a charge he is not amenable to) "and perhaps slander somebody." As to the latter, perhaps we can, but there's no room for it while he is here—one editor in the business is enough at one time, in a place no bigger than Portsmouth.

The hundreds of persons who witnessed the performances of the little fellow named Georgie Ducow, in the circus ring Wednesday night, will perhaps be surprised to learn that he is shamefully treated by his father. Master Georgie, on Wednesday, was severely lashed by his father, who was trying to teach him some new acts, which the little fellow found great difficulty in performing. His father, getting angry flogged him in a cruel manner. His right leg was badly cut by the lash, and Thursday he showed us the marks, which looked shockingly. Master Georgie informed us that his mother died about two years ago, and that he had been traveling with his father for five years, and during most of the time had been shamefully treated. He is only eight years of age, and is a bright little fellow. Thursday morning, by some means, he was left at the hotel here by his father, and did not accompany the troupe to Biddeford. In the afternoon the landlord received a telegram asking if the boy was here. The answer sent was that he was here in a bad condition and that the father had better come after him. One of the circus men came on the train and took the boy away. The man said that the boy's father was going to let him leave the circus in a few days and go to his aunt's in Philadelphia, where he would be sent to school, as his mind is on books all the time. He verified the statement that the father abused the boy shamefully.—*Great Falls Journal.*

Ruby Smith, of Dover, was drowned Friday by the upsetting of a sail boat.

—A correspondent writes that the best way to get rid of cats under the window at night is to throw a bunch of catnip to them. According to his testimony, the felines will soon cluster around it, and their melodious voices will be stilled.

—Senator Hamlin of Maine has gone "up to the lakes" for a summer vacation. His friends hear of him catching fish assidously at the Rangeley Lakes, and trying vigorously to hold familiar converse with sheets of water bearing such names as Moosetocmaguntic and Mollechbukemunk, which, with the Wolokenbacook and Umbagog form a water chain in the Senator's present stamping-grounds.

THE
NEW ORLEANS, MOBILE & TEXAS
RAILROAD COMPANY
Are building a trunk line, connecting New Orleans with Mobile on the east, and giving
THE ONLY RAILROAD CONNECTION
between the former city and the great and most productive State of Texas of the west, the total distance from Mobile to Houston being 475 miles.
The Company is composed of strong Northern capitalists, who have already expended nearly
TEN MILLION DOLLARS of their own funds in the construction of the line. They have built about 225 miles from Mobile westward, and secured by purchase of securities and made provision for the thorough repair and equipment of the 108 miles of the Texas division; leaving but 140 miles to be built
To Complete the Entire Road.
It is believed that no other railroad corporation in the country has ever made so large an expenditure from its own means before offering any of its securities to the public.
The Company now offer for sale the
Eight Per Cent. Mortgage Bonds
upon the Louisiana division of 226½ miles from New Orleans to the Sabine River. This will probably be the most valuable portion of the whole line, as it will be the only rail communication by which the enormous productions of Texas can reach the Southern metropolis.
So important is this road considered to Louisiana, that the State has made very liberal grants in aid of the enterprise, by direct donations, by endorsement of its bonds, and by subscriptions to the stock of the Company, amounting in all to over eight million dollars.
The Bonds now offered are of two classes:
FIRST MORTGAGE BONDS,
to the amount of $12,500 per mile, and
SECOND MORTGAGE BONDS,
to an equal amount, both principal and interest guaranteed by the State of Louisiana. The price of the two classes is the same, and subscribers can take their choice.
The Bonds are only in the denomination of $1,000, or £200 each, interest payable January and July, at the rate of eight per cent. currency in New York, or seven per cent. gold in London, at the option of the holder, at the time each coupon is due. Bonds can be registered, if desired.
No better security has been offered to investors. The Bonds are largely profitable, as well as entirely safe. One thousand dollars invested in these eight per cent. bonds will give the purchaser *more than seventy-seven per cent.* greater annual interest than the same amount invested in the new Government Five Per Cents.
At the same price, at 8 per cent. currency long bond is far cheaper than a 7 per cent. gold one. Calculating a return to specie payment in three years, and taking the time that the bonds of the New Orleans, Mobile and Texas Railroad have to run—45 years—we find that by compounding the interest of each, every six months, at 7 per cent.
an 8 per cent currency bond at 90 will give a return of $2,614.18 MORE than a 7 per cent. gold bond, at the same price, or nearly three times the amount of the original investment.
The Bonds are dated May 1, 1871. The first coupon will, therefore, be a fractional one, running from May 1 to July 1. The price is 90, and accrued interest at 8 per cent. currency from May 1st to date of remittance.
Subscriptions will be received in Portsmouth by
First National Bank.
Information concerning the Company and the Road, and pamphlets containing map and full details of the enterprise, can be obtained of the undersigned or any of the Company's advertised agents.

Morning Chronicle.

A STRANGE ROMANCE.

SKETCH OF THE LIFE OF THE PRINCESS ACHILLE MURAT, OF FLORIDA.

Related to Gen. Washington through both her father's and mother's family, and born of wealthy parents, accustomed from infancy to the luxury and elegance of a Virginian household of "the olden time," Kate married at fifteen, and returned ere seventeen summers had passed over her head, a widow, with one child, to her parents. Sorrow followed the young mother. Her baby died, and once again Kate resumed her old habits and went to school, and the girls almost regarded her as one of themselves.

Her father was at this time involved in a law suit, which, ere long, reduced the family to comparative poverty. Unable to bear so great a change in the land of their forefathers, he determined to emigrate to Florida, and there finally he settled, living in a log-house, consisting of two large, low rooms, the dark forest all around, with its birds, its flowers, and its almost unbroken solitude. And now Kate's bright elastic spirit and helpful hands became invaluable to her mother; she was her chosen companion, and the principal duties of the household developed upon her.

Col. Gadsden, formerly of South Carolina, was one of their neighbors and frequently spoke of his intimacy with Achille Murat, then an exile from France, with a price set upon his head, living the life of an Indian on a plantation close by.

Col. Gadsden had endeavored to persuade him to call on the new family lately arrived in this vicinity. The reply was— "No; I don't care to go among women—I hate them."

Some days after this he was accidently introduced to Kate's father, who was practicing as a physician. Murat, delighted to find his new acquaintance a man devoted to literature and science, a lover of the poets, and above all of Shakspeare, sought the society of the good doctor, and finally called at the log-house and was introduced to the young widow, with whom he fell desperately in love.

Kate must then have been very lovely; her eyes, which still retain great beauty and softness, were of a shadowy gray merging into the blue when she was animated or excited; her eyebrows dark and pencilled; while the soft, brown hair curls round her fair face, the contour of which is extremely pleasing; added to which she possesses a gracefulness of address and demeanor which in her younger days must have been perfectly bewitching. The Prince soon showed his admiration by the most devoted attention to the young widow, who still wore mourning for her first husband, and disliked the idea of another filling the place in her heart. She studiously repelled Murat's advances, upheld by her mother, who needed the assistance and loved the companionship of her eldest daughter, and besides, he was an exile and a foreigner.

Her father, on the contrary, charmed with the keen perception, versatile mind, and thirst for knowledge evinced by Murat, courted his society, while Kate refused to listen to his professions, and, finally, Murat left the house in despair, much to the vexation of her father, who strenuously endeavored to overcome his daughter's objections, and succeeded so well that Kate promised to allow the Prince to renew his visits. Nothing, however, was said to Murat on the subject; but, several days afterward, riding through the plantation, Murat found across his path a dead rattlesnake. "A good omen," he exclaimed; "still beautiful, but deprived of venom."

He turned, and rode to the house of his lady love. She met him as he entered, with a smiling face and extended hand, and ere long the compact was sealed. Three months afterward, the young widow, "the American beauty," was married by a justice of the peace, to the Prince Achille Murat, son of the late King of Naples, but not before he had written to his exiled family, obtaining a full consent to his marriage which was recorded in the Tuileries; thus, on a change of dynasty, obtaining his wife's recognition among the crowned heads of Europe.

After her marriage, Madam Murat removed to her husband's plantation, and gradually took charge of his affairs. He was of a most generous disposition, and, having never in youth known the value of money, he lavishly expended what yet remained of his former wealth. Finally Madame Murat took the management of the plantation in her own hands, selling the crops or not, according to her own judgment.

The Indian, or Florida war broke out, and the white population generally moved away from its environs. The Murats had for years lived in kindly friendship with an Indian chief who was in the habit of visiting them continually. He would arrive at their house at night, and if the Murats had already retired, would ensconce himself comfortably in their dining room, after kindling a large wood fire, never in any way disturbing or annoying his white friends, who highly appreciated the honesty of the Indian chieftain, though Madame Murat often expressed her fears that he would set fire to the house. Murat now thought it necessary to inquire of the Indian if the friendship and good will of former peaceful days was to be continued through the hard and bloody times then threatening.

"Yes," said the Indian, "you and your squaw safe."

They remained on the plantation; deeds of horror were committed daily by the Indians; and one day the lurid glare of a burning homestead, seen through the wood, attracted Madame Murat's attention. Hastily calling her husband, he sounded his hunting horn, which quickly collected some neighbors, and they hurried to the fire, only to find the Indians gone, leaving a murdered mother, literally torn in peices, with her infant by her side, lying close to the burning building.

As this act had not been done by the Indians friendly to the Murats, Madame Murat now consented to leave Florida until peace was restored; but unable to endure the anxiety consequent on the separation from her husband, again she returned to her home, and a few days after, being alone, she perceived an Indian chief with five companions, dressed in war costume, with paint and feathers, approaching the house. She instantly stepped out to meet them. "Whiskey," said the chief. "I have none to give you," she replied; "you know that in these times we have none." The chief paused, then put out his hand; she grasped it within her own. "Friend," he said, "squaw safe!"

From that time the Murats remained unmolested on their estates during the six years' war, though often afraid of making use of lights in their house at night, dreading that they might attract to the house bands of marauding Indians, who frequently prowled round their homes. Madame Murat mentioned that during a severe illness of her husband she sat by his bed in darkness, often putting her hand on him and bending over him to know if he still breathed, not daring to kindle a fire, watching thus in cruel anxiety through the long hours of night.

After twenty-five years of married life Murat died, his last words being blessings on the good wife who watched so ceaselessly beside him.

For many succeeding years Madame Murat continued to live quietly on her Florida property, surrounded by a band of faithful servants—her negroes. But the southern war raged through the land, and her days were spent in caring for the sick and comforting the dying, and the hospitals tell of her noble munificence. She sold her jewels to feed the starving, and afterward one of her plantations, and divided the proceeds among the homeless and naked of her unhappy State.

At the close of the war she visited France and England in search of health; was received as a royal guest by the Emperor, and with kindly interest by the beautiful Eugenie; but unalured by the glittering court or the gorgeous offers of Napoleon, once more the waters of the Atlantic divide her husband's home, and she returns quietly to her garden, her flowers and her negroes (all of whom remain faithful to her), notwithstanding the charms of freedom offered to them by law her bones in her native land—her Florida. *Savannah (Ga.) A GREAT MEDICAL DISCOVERY!

DR. WALKER'S CALIFORNIA VINEGAR BITTERS.

Hundreds of Thousands Bear Testimony to their Wonderful Curative Effects.

WHAT ARE THEY!

THEY ARE NOT A VILE FANCY DRINK, Made of Poor Rum, Whiskey, Proof Spirits and Refuse Liquors doctored, spiced and sweetened to please the taste, called "Tonics," "Appetizers," "Restorers," &c., that lead the tippler on to drunkenness and ruin, but are a true Medicine, made from the Native Rootand Herbs of California, free from all Alcoholic Stimulants. They are the GREAT BLOOD PURIFIER and a LIFE-GIVING PRINCIPLE, a perfect Renovator and Invigorator of the system, carrying off all poisonous matter and restoring the blood to a healthy condition. No person can take these Bitters according to direction and remain long unwell, provided the bones are not destroyed by mineral poison or other means, and the vital organs wasted beyond the point of repair.

For Inflammatory and Chronic Rheumatism and Gout, Dyspepsia or Indigestion, Bilious, Remittent and Intermittent Fevers, Diseases of the Blood, Liver, Kidneys and Bladder, these Bitters have been most successful. Such Diseases are caused by Vitiated Blood, which is generally produced by derangement of the Digestive Organs.

DYSPEPSIA OR INDIGESTION, Headache, Pain in the Shoulders, Coughs, Tightness of the Chest, Dizziness, Sour Eructations of the Stomach, Bad taste in the Mouth, Bilious Attacks, Palpitation of the Heart, Inflammation of the Lungs, Pain in the regions of the Kidneys, and a hundred other painful symptoms, are the offspring of Dyspepsia.

They invigorate the stomach and stimulate the torpid liver and bowels, which render them of unequalled efficacy in cleansing the blood of all impurities and imparting new life and vigor to the whole system.

FOR SKIN DISEASES, Eruptions, Tetter, Salt Rheum, Blotches, Spots, Pimples, Pustules, Boils, Carbuncles, Ring-Worms, Scald Head, Sore Eyes, Erysipelas, Itch, Scurfs, Disc lorations of the Skin, Humors and Diseases of the Skin, of whatever name or nature, are literally dug up and carried out of the system in a short time by the use of these Bitters. One bottle in such cases will convince the most incredulous of their curative effect.

Cleanse the Vitiated Blood whenever you find its impurities bursting through the skin in Pimples, Eruptions or Sores; cleanse it when you find it obstructed and sluggish in the veins, cleanse it when it is foul, and your feelings will tell you when. Keep the blood pure, and the health of the system will follow.

PIN, TAPE and other WORMS, lurking in the system of so many thousands, are effectually destroyed and removed. For full directions, read carefully the circular around each bottle, printed in four languages—English, German, French and Spanish.

FOR FEMALE COMPLAINTS, whether in young or old, married or single, at the dawn of womanhood or at the turn of life, these Tonic Bitters have no equal. ☞ Send for a circular.

They are a Gentle Purgative as well as a Tonic, possessing also, the peculiar merit of acting as a powerful agent in relieving Congestion or Inflammation of the Liver, and all the Visceral Organs. 1yrforbdfd

THE YOUNG MESSENGER. — In our youthful days there were no newspapers for the young within our reach,—indeed scarcely one published anywhere. That was not all, for newspapers of any kind were not plenty, and but few families in the naval districts had them. We lived without any till the age of 16, when we had the New Hampshire Patriot, then conducted by Isaac Hill; it was read with avidity, and the only injury was, we like to have caught the fire of Mr. Hill's red hot public interest. Publications for the young are now abundant, many of them of a good character. "The Young Messenger" has been received, a monthly at 50 cts. per annum, published at Chicago, Ill., commenced in January last. The contents are wholly original, and the articles adapted to the wants and tastes of the young; and many of them may be read with profit by those of mature years. The mechanical part is well executed. J.

THE NEW JERSEY CAVE IN.—The sinking of a portion of the Morris and Essex Canal in New Jersey, has been already chronicled in the press. The New York Express gives the following additional details:

Not only did the bottom fall out of the canal, but enormous chasms have taken place in the woods adjoining, and large trees have gone toward China at such a rapid rate that one can see in the place they stood only a bottomless pit. One of these chasms is described as being 40 feet in diameter and 30 deep, while everything thrown into them instantly disappears. Part of a corn field has gone down with the rest, and other places in the same field have rather a shaky appearance. The theory receiving the most credence in relation to this phenomenon is that a perpetual combustion of limestone has been going on under Jersey for the last 1800 years, and now the whole of Jersey rests on a shell, and the caving in of the whole State is only a question of brief time. Some of the more timid, however, assert that it is the result of an earthquake, while others are willing to sell out cheap, no matter what it is.

THE DEAD AT GETTYSBURG.—The following shows the number of graves in the Gettysburg Cemetery, with the different States which they represent: New York, 808; Pennsylvania, 435; Massachusetts, 159; Ohio 131; Maine, 104; Michigan, 171: Indiana, 89; New Jersey, 78; Wisconsin, 93: Minnesota, 55; Vermont, 61; New Hampshire, 52: Connecticut, 22; Maryland, 22; Delaware, 15; Rhode Island, 11; West Virginia, 11; Illinois, 6. Regulars 138; unknown, 978; making an aggregate of 3,576. Directly after the battle thousands were removed by friends and relatives, leaving but a comparatively small number.

—Shakespeare on the New Departure —"Assume a virtue, if you have it not."—*N. Y. Standard.*

—During the recent inundation at New Orleans three hundred swine were run down a steep place into the river, but were unromantically rescued.

—A Norfolk paper reports that a little girl was lately lost in the tall weeds of a principal street, and was only found after an hour's search by the neighbors.

—A servant girl of Conductor Ellis, of South Braintree, taking offence at something said to her the other day, fired the house. No great damage was done, but she is under $2000 bonds.

—The Smith family are going to have an excursion from Baltimore on all the vessels they can charter, and invite all the Smits, Smiths, Smythes, Schmitts, Schmids, Schmites and Smitts.

—An Oregon paper credits the governor with riding a bushy headed, club-footed, ewe-necked, benched-legged, stifled, wheezing, hip-shotten, lubber-jointed, shaggy-tailed, vermin-eaten, one-eyed cayuse pony, bought on tick.

—An audacious robber undertook to burglarize the house of Rev. Thomas R. Harris, at Tremont, N. Y., Wednesday night, but was heard by the pastor, who evidently belongs to the church militant, for he went for the burglar with such unction that he not only "put a head" adorned with black eyes upon him, but secured him until the arrival of the neighbors, who took him into custody.

—The Memphis Avalanche gives the following account of the way Memphis jurymen kill time: "Every day a number of men—jurymen—can be seen busily engaged in playing that game which Ah Sin did not understand, in one of the rooms of the second circuit court. It is very thrilling to watch the buckets of perspiration flow from the marble brows of the players when the wrong man puts down the right bower."

CARD.
Having become satisfied after thorough investigations that Elastic Sponge, as now and lately manufactured, is one of the best of all substitutes for curled hair, for many if not most uses in upholstery, we have accepted the Agency for it, and intend to make it hereafter a speciality in our business. The objections which been made to it and which it is well known we ourselves have thought were well founded, we have ascertained cannot be urged against the article as now perfected. The process of manufacture has been entirely remodeled under the advice and superintendence of one of the most eminent chemists of New England. New chemical and mechanical appliances have been introduced in cleansing crude Sponge, and in charging it with glycerine with such entire success, that Elastic Sponge may now be said to be chemically pure. There is absolutely nothing in it but the clean fibre of Sponge and chemically pure glycerine.
The objections to Elastic Sponge being thus removed, there remain its undisputed merits which certainly entitles it to be considered one of the most valuable, as it is one of the most curious and interesting of late discoveries. Chief among these merits is, that it is proof against moths—the great scourge of the business,—against all other insects. Then its elasticity is permanent, based as it is upon the non-evaporable property of glycerine and the indestructibility of sponge fibre. We have always been satisfied upon these two points which are the essential requisites in such materials. The evidence is now equally clear that it is wholesome and sweet. It is very light and soft, easy to manipulate, and cheap enough for all except the lowest class of goods. For the cushioning of Churches, Theatres, Public Halls, Railway Stations, Omnibuses, Carriages, Steam and Pleasure Yachts and the like, it will probably be found, everything considered, the best article in use. For all uses, and especially for Bedding, we are now prepared to recommend the public to give it a fair trial as we ourselves intend to do. We are are ready also to answer inquiries, make estimates and take orders for every description of work in Sponge as well as to supply the trade the article in Bales.

WEDNESDAY, JUNE 28, 1871.

Editorial Correspondence.

CONCORD, June 27.

For the third time, the Republicans have missed a golden opportunity; cause, stragglers. To-day, Converse Gage, Republican, of Sutton, has been unseated. A Labor Reformer moved to take the case from the table, and a motion of Mr. Ramsdell, Republican, to substitute the minority report was defeated, yeas 122, nays 128—absent 37 Republicans, 37 Democrats, few if any being paired. Some of the absentees came in the evening trains (too late), six being from Portsmouth and vicinity. Mr. Scott of Keene, who has been very sick, was present for the first time, but was not sworn. These six men with his vote would have turned the scale.

A similar case occurred this afternoon. The Senate, by the vote of the six Republican members and Mr. Cram, Assistant Democrat, voted to adjourn the session next Saturday. The resolution went to the House and was laid on the table by just six majority. Had it been carried, all hope of carrying measures calculated to aid the Democracy would have been abandoned.

The Democracy have wasted three weeks already for the sake of carrying out their schemes of expelling members, gerrymandering the senatorial districts, altering the wards of the cities and amending the naturalization laws. Not one bill has passed both Houses and in four days they should adjourn! This is the record they must meet. During the two days' struggle for the organization, they were fond of informing Republicans that each day's delay cost the State $2000. Commencing with the second week of the session they have wasted, according to their own figures, $26,000. Net result, the expulsion of three Republican members! No wonder the Assistant Democrat of the Senate thought it time to go home!

The bill in aid of the Dover & Portsmouth Railroad lies on the table, placed there on a Democratic motion; that an absent Democrat, (long may he continue to be absent,) might have an opportunity to amend it. Even its wealthy friends prefer attacking the eight Republicans of Portsmouth (who would be expected to vote for it) for the sake of unseating them. Democratic motto, "party first." But they wield a two-edged sword.

Judge Smith, Republican Senator for the 10th district, has been interviewed. His vote is necessary for the success of Democratic measures. Harry Bingham, Senator Pitman and Geo. W. Morrison went for him—called at his boarding house, last evening, and were admitted. They don't appear very amiable this morning. They went for cool and were shorn. It was a final attempt to make Senator Smith a convert to Democracy; but he had not lived honorably 74 years to throw away character and soul now. They "coaxed and 'snaded," they urged and argued, they besought and threatened—and then tried a game of bluff. The grand old man, however, held a hand that could "beat three of a kind" every time—nobility of character, honesty of purpose and moral integrity. He informed the trio that he did not admit them to his room to instruct him in his duties. A Republican he had been, a Republican he would remain. He would never barter his principles nor betray his party. They remained with him until after 11 o'clock, and Republicans who called afterwards found him indignant at the boldness of his tormentors. It is reported this morning, that the Democrats, seeing the hopelessness of obtaining aid from any of the six Republican Senators, will now urge a speedy adjournment.

The Committee on Elections will probably close the Ward Two case to-day. A delegation from Portsmouth came up last night and the check list was carefully examined. The Democracy have a list of 140 names which they propose to have stricken off. The examination this evening shows that more than two-thirds of these names should remain on, while there was a very large number of ratable polls in the Ward on election day which should have been placed on the list in March, but were not. There are 1197 names of ratables now on and but 1050 are necessary for four Representatives. To every honest man it is at once evident that Ward Two has nearly 200 more ratables than is necessary for the present representation; yet the Republicans expect no justice from their opponents. The Committee consists of six Democrats and four Republicans, the chairman, Putnam, of Warren, being the most unscrupulous partizan in the House.

The examination of the witnesses for the Democracy brought out some queer statements, of which the following are samples. It was stated that Mr. Chas. C. Cushman had left the United States and taken up a residence at Vancouver's Island or some other foreign place. We happen to know C. C. C. comfortably well and but a short time ago received a letter from him written in Missouri. We hav'n't destroyed that letter, and know that our old friend Charles claims Ward Two as his home and has quite an interest there. We trust he will vote there next March.

Now come we to John Lowd. A witness stated that he was dead last March and John denies it. He still lives in Ward Two, and we would like an introduction to John if he will still reside there. By the way, these Democrats, in their eagerness to reduce the ratables, are endeavoring to have names taken from the list which were placed there on their own sworn testimony. I'ts an ill wind that blows no one good. The men that are stricken from the check list cannot vote the Democratic ticket in Ward Two by proxy or otherwise any more.

Next man testifies that Thomas C. Collins is dead. Straightway, E. Wash. Brown calls on Mrs. T. C. C., and she states that he wasn't dead in March, has been home from sea since election and is still alive for all she knows, at least she hopes so. Second the motion.

"Stacy Whidden is dead" says a Democratic swearer. Jones, of Stratham, a Democratic Committeeman, openeth his eyes and mouth and speaketh thus: "That won't do. He's an intimate friend of mine. If he was dead, I should know it." Hackett sees the need of corroborative testimony, cometh home next day and returneth with an affidavit from Mr. Whidden that he isn't dead.

Thus far the farce goeth, when the climax is capped by testimony that John Smith is dead. Now that is a moral impossibility. John Smith dead! The absurdest of all these absurd statements? Lives there a man with memory of aught under the sum who cannot testify that John Smith lives—lives in every country under the stars? And John lives in Portsmouth, in Ward Two, votes there and may yet vote there long after the world shall have forgotten the individual who would dare deprive him of the right of suffrage and representation.

Considerable indignation is manifested at the absence of two of the three selectmen of Ward Two, who owe it to themselves and their associates to appear here as requested and establish the identity of the voters whose names are on the check list. Can they have been more regardful of their one day's work than of their reputation and duty?

It is almost incredible, but the fact is fast becoming apparent that it was the copperheads who did all the work of putting down the copperhead rebellion,—at least we must believe this if we accept the testimony of the Democratic press. Not a solitary union soldier has been nominated for office since the war but the copperheads have raised a shout that he did nothing to crush their rebellion and was only a plaything for the rebels,—unless he happens to be a Democrat, in which case they at once discover that he did wonderful things in battle. McClellan, Blair and Hancock fought nobly, but Grant, Logan, Howard, Schenck, Ben Butler and all the other Republican generals were "failures" and cowards. The last copperhead discovery is that Gen. Noyes, the Republican candidate for Governor of Ohio, "did nothing to put down the rebellion," (except losing a leg in battle,) and that McCook, the Democratic candidate for Governor of Ohio, who was a Commissary General or something of that sort and never smelt powder burned in guns pointed in his direction nor saw a battle-field while a fight was in progress, was a tremendous fellow in carrying on the war against "our Southern brethren." Our Southern brethren may as well cease their hostility to the Republican party, for the confessions of the Northern Democratic press are enough to convict the Democratic party of having alone put down the slave-holders' rebellion, without any assistance from the Republicans.

STEAMER Premier, from Havana, foundered with all on board in a great snow storm of Shield, England, June 26.

DAVID M. FRENCH of Biddeford, 50 years old, was run over and killed by the cars at Cape Elizabeth, Saturday night. He leaves a wife and two children.

THE copperhead outcry about $2,000,000 worth of counterfeit bonds being substituted for an equal amount of genuine ones purchased by government, the latter having been abstracted and sent to England for sale, turns out to be a genuine bugbear, all the coupons of the bonds purchased within the last two years having been examined and found genuine. So all the virtuous copperhead indignation is wasted.

It is well said by the Pittsburg Chronicle, that "while Jefferson Davis hugs the delusion that this great nation may yet be disintegrated and shorn of its world-wide influence, the nations of Europe, on fitting occasions, pay homage to its strength as they never did prior to 1865. Grocery loafers at the cross roads of Mississippi moan over the 'Lost Cause' at a time when English statesman court the good will of the United States as a matter of incalculable importance."

BASE BALL.—The Yale freshman nine defeated the Harvard freshman nine at New Haven, June 26; the Kekiongas of Fort Wayne surprised the Mutuals by getting away with them, 5 to 3; the Athletics beat the Boston nine 20 to 8; the Olympics at Washington got away with the Cleveland Forest Cities, 16, to 8, and the Harvard nine made 34 runs while the Brown University nine scored 15.

BUSINESS NOTICES.

A gentleman afflicted with the chronic rheumatism says, "No description of my case can convey the vast amount of benefit I have received from the use of *Johnson's Anodyne Liniment*. I believe it is the best article in the world for rheumatism.

If a horse has a good constitution, and has once been a good horse, no matter how old or how much run down he may be, he can be greatly improved, and in many respects made as good as new, by a liberal use of *Sheridan's Cavalry Condition Powders*.

SPECIAL NOTICES.

The Universal Safeguard.

It is useless for State Legislatures to pass laws for the preservation of the public health, if the great law of self-preservation which depends for its enforcement upon the will of the individual, is suffered to remain a dead letter.

There is scarcely an adult member of the community, of either sex, in the country, who has not seen the testimony in favor of HOSTETTER'S STOMACH BITTERS, furnished over their own signatures by persons of acknowledged eminence in science, literature, art, commerce, and every department of business and professional life. These witnesses have declared in the most explicit terms that the preparation is a safeguard against epidemics, a sovereign remedy for dyspepsia, a valuable antibilious medicine, a promoter of appetite, a genial and harmless stimulant, a good acclimating medicine, a strengthener of the nerves, a general invigorant, a protection against the deleterious effects of malaria and impure water, and that it imparts a degree of vigor and activity to the vital forces which is not communicated by any other of the tonics and stomachics in use. Under these circumstances the self-preservative law of nature should teach every reasonable person who, either by reason of inherent debility or in consequence of exposure to unwholesome influences, is in peril of losing the greatest of all temporal blessings, health, the importance of using the Bitters as a defensive medicine. Dyspeptics who neglect to give it a trial are simply their own enemies. It is guaranteed to cure indigestion in all its forms, and the bilious and nervous will find nothing in the whole range of officinal and proprietary medicines which will afford them the same relief.

Dog Licenses—City Marshal.

U. S. S. Tallapoosa sailed from this station for Boston on Tuesday.

LIEUT. C. M. ANTHONY has been detached from the receiving ship Vandalia and ordered to duty at the Washington Navy Yard.

LITTLE snappy of the Lyre is very nervous and unhappy, this warm weather. It must be that he takes his ice-cream boiled, poor fellow.

AT a meeting of S. F. Engine Co. No 3, on the 26th, the following persons were appointed a committee to confer with the committees of the different companies in regard to the Fireman's General Muster:—Willard J. Sampson, 1st Asst., Benjamin Lord, 2nd Asst., and Ira C. Seymour.

THE Methodist Society will hold a Strawberry Festival at Congress Hall, next Friday evening. One feature of the affair is to be matched neck-ties and bows, the neck-ties to be sold to the gentlemen, and the bows given to the ladies; the matched pairs to be treated at thegentlemen's expense. A chromo is to be balloted for by the few friends of the two daily papers published opposite Kittery.

THE individual who furnished us with an item stating that a school teacher called his scholars who attend the "evangelical" churches into a recitation room to inform them of a coming strawberry festival, excluding all who attend the Unitarian and Universalist churches, is hereby informed that the teacher in question flatly contradicts the statement, saying that there is not the least foundation for it. And we may as well remark here, that we have known the teacher intimately for years and have no doubt of his veracity.

Correspondence.
KITTERY, ME., June 27.

"Praise meetings" are becoming a regular part of divine worship on this side of the Piscataqua. There was one last Sunday evening at the Methodist church, which was well attended and the singing unexpectedly good. Remarks were made by Rev. Messrs. Pattee and Hutchinson and by Mr. Lovell, the latter saying there was religion in a good honest shake of the hand as well as in prayer. The next praise meeting here will probably be in the Christian church.

There was also a praise meeting at York, Sunday night, and it was a rouser. There were present 118 teams, and the crowd was so large that no males could get into the church except those who sung. The singing was directed by a music teacher, and if the time and tune were not satisfactory he had the pieces repeated.

The Universalists commence a Strawberry Festival at Armory Hall this (Tuesday) evening, and on Wednesday evening the Portsmouth Cornet Band will be in attendance. The proceeds will be applied towards fitting up the new chapel, now nearly completed.

The marine assaulting and cutting affair on the Navy Yard does not "go down" much. The night it is said to have occurred was so still and calm that a boat could have been seen or oars heard from the yard to Portsmouth, but no one save the marine on guard seems to have seen or heard anything at all. A vivid imagination, slightly stimulated, probably explains it all. K. M.

FORT RICHMOND, New York harbor, is said to be worthless as a fortication. It has cost about $2,000,000.

COMMODORE Geo. S. Blake, U. S. N., died in Brookline, Mass., on Saturday. He was actively connected with the navy for more than 40 years.

The house and two barns of Mr. William Clifford at Salisbury, together with considerable of his stock and farming utensils, were burned Monday morning. Loss about $2000 and insured.

Rev. D. C. Frink, pastor of the Presbyterian church at New Boston, died on Friday.

A trot from Portland to Dover between "English Tiger and the Haley mare," for a purse of $500, was won by Tiger in five hours and twenty minutes, trotting time. The horse was in good condition when he arrived.

THE accident on the Maine Central Railroad at Freeport, Me., on Monday, resulted in the death of two men. Geo. Chase of Skowhegan, baggage-master, killed instantly, and Albert Barron of Skowhegan, brakeman, whose legs were crushed and who has since died. L. A. Larrabee of Skowhegan, brakeman, had his leg broken. Two baggage and four passenger cars were thrown from the track and badly broken, and the track was torn up for several rods. The Pullman palace car was uninjured, and none of the passengers were hurt. No blame attaches to the officers or employes of the road for the disaster, and every assistance was rendered by them to the people on the train. Mr. Chase, the baggage-master, was a worthy young man and but recently married. The trains are running regularly over the road, the obstructions having been cleared in a few hours.

THE Amador County (Cal.) miners who have been rioting while on a strike, have been bothered by the State militia, who reached the scene of disturbance Sunday night. The miners make many threats but have no chance of successful resistance, and men who are willing to work will be protected in so doing.

THE NEW ORLEANS, MOBILE & TEXAS RAILROAD COMPANY

Are building a trunk line, connecting New Orleans with Mobile on the east, and giving

THE ONLY RAILROAD CONNECTION

between the former city and the great and most productive State of Texas of the west, the total distance from Mobile to Houston being 475 miles.

The Company is composed of strong Northern capitalists, who have already expended nearly **TEN MILLION DOLLARS** of their own funds in the construction of the line. They have built about 225 miles from Mobile westward, and secured by purchase of securities and made provision for the thorough repair and equipment of the 108 miles of the Texas division; leaving but 140 miles to be built

To Complete the Entire Road.

It is believed that no other railroad corporation in the country has ever made so large an expenditure from its own means before offering any of its securities to the public.

The Company now offer for sale the

Eight Per Cent. Mortgage Bonds

upon the Louisiana division of 226¼ miles from New Orleans to the Sabine River. This will probably be the most valuable portion of the whole line, as it will be the only rail communication by which the enormous productions of Texas can reach the Southern metropolis.

So important is this road considered to Louisiana, that the State has made very liberal grants in aid of the enterprise, by direct donations, by endorsement of its bonds, and by subscriptions to the stock of the Company, amounting in all to over eight million dollars.

The Bonds now offered are of two classes:

FIRST MORTGAGE BONDS,

to the amount of $12,500 per mile, and

SECOND MORTGAGE BONDS,

to an equal amount, both principal and interest guaranteed by the State of Louisiana. The price of the two classes is the same, and subscribers can take their choice.

The Bonds are only in the denomination of $1,000, or $200 each, interest payable January and July, at the rate of eight per cent. currency in New York, or seven per cent. gold in London, at the option of the holder, at the time each coupon is due. Bonds can be registered, if desired.

No better security has been offered to investors. The Bonds are largely profitable, as well as entirely safe. One thousand dollars invested in these eight per cent. bonds will give the purchaser *more than seventy-seven per cent.* greater annual interest than the same amount invested in the new Government Five Per Cents.

At the same price, or 8 per cent. currency long bond is far cheaper than a 7 per cent. gold one. Calculating a return to specie payment in three years, and taking the time that the bonds of the New Orleans, Mobile and Texas Railroad have to run—45 years—we find that by compounding the interest of each, every six months, at 7 per cent. **an 8 per cent currency bond at 90 will give a return of $2,614.18 MORE than a 7 per cent. gold bond, at the same price, or nearly three times the amount of the original investment.**

The Bonds are dated May 1, 1871. The first coupon will, therefore, be a fractional one, running from May 1 to July 1. The price is 90, and accrued interest at 8 per cent. currency from May 1st to date of remittance.

Subscriptions will be received in Portsmouth by

First National Bank.

Information concerning the Company and the Road, and pamphlets containing map and full details of the enterprise, can be obtained of the undersigned or any of the Company's advertised agents.

HOTELS.

MARSHALL HOUSE,

YORK BEACH. This new and commodious SUMMER HOTEL is situated in one of the most beautiful localities on the coast, at the mouth of York River; the facilities for Bathing on sandy beaches, in surf or still water,—for Fishing, or for Boating on a beautiful river, are unrivalled; the sea view (taking in Boon Island and the Isles of Shoals) unsurpassed, and the river and inland scenery *not equalled* by that surrounding any other hotel along the whole coast. With a good table, moderate charges, and strict attention and courtesy to all, we invite to merit and hope to receive a fair share of public patronage. The hotel will be open to the public, June 20th. N. G. MARSHALL & SONS, Proprietors.

☞ Steamer HOFFMAN, Capt. Emerson, will make two trips daily (on Tuesdays, Thursdays and Saturdays) between Portsmouth and York Harbor, connecting with morning and afternoon trains from Boston, during the season, conveying passengers at reasonable rates and landing them but a few rods from the Hotel. The run across will occupy but about one hour. je10

No investment in the market possessing equal guarantees of safety, returns an equal percentage of interest. The Chicago, Burlington and Quincy has given a traffic guarantee and obligates itself to invest in these bonds 50 per cent. of the gross earnings derived from all business from this road. PROPOSALS FOR ALTERING AND REPAIRING THE LIGHT-HOUSE TENDER "IRIS."

TREASURY DEPARTMENT,
OFFICE LIGHT-HOUSE BOARD,
Washington City, June 23, 1871.

SEALED PROPOSALS will be received at this Office until 1 o'clock P. M., on Friday, the 28th day of July next, for altering and thoroughly repairing the Light-House Tender "Iris," (now at Portland, Maine, where she may be examined at any time,) according to the printed, detailed specifications, and plan of the vessel, which will form a part of the contract, copies of which may be obtained upon application to the Light-House Board, and at the Offices of the Light-House Inspectors at Boston and Portland, and also at the Custom-houses at Portsmouth, N. H., and Ellsworth, Maine.

Bidders are required to state (in submitting their bids) the time within which they will contract for the entire and satisfactory completion of the work according to the terms of the specifications, in case of acceptance, and to be guaranteed by satisfactory security.

For full details, see printed specifications, plan, and the form of bid and gurrantee required. The right is reserved to reject any bid, or all bids, for reasons other than the price that may be named.

All bids must be carefully sealed and endorsed "Proposals for Altering and Repairing Light-House Tender 'Iris,'" and then be placed in another envelope and addressed, for delivery in person, or be sent through the mail *prepaid*, to the "Chairman of the Light-House Board," Washington City. Portsmouth, May 1, 1871.

A CARD.

HAVING disposed of my Insurance Business to JOSEPH P. MORSE and WINGATE N. ILSLEY, two gentlemen well known for their integrity and business capacity, I return my thanks to my old and constant patrons and friends, for their many favors, and earnestly recommend my successors, trusting the same generous patronage will be extended to them as to myself. They represent some of the oldest and most reliable Companies in both Fire and Life Insurance in the Country.

NEW HAMPSHIRE ITEMS.

A series of thefts were committed in Lee and Nottingham, on Thursday night last. A horse was stolen from a pasture in Nottingham, a harness from John Simpson and a wagon from Albert Fernald; also a wagon from the Hale farm in Lee, and a part of a harness from N. D. Meserve. A reward of $200 has been offered for the recovery of the property and the detection of the thief.

Three men fell from a roof of a church in South Merrimac, Monday, 22 feet to the ground. Though badly hurt, they will recover.

The small pox has wholly disappeared from Nashua.

The Portland and Rochester Railroad is nearly completed to Rochester.

Ex-Gov. Harriman has sold his place in Warner, and will take up his residence in Melrose, Mass.

Farmington schools are suffering from inroads of the mumps.

Active preparations are being made by the citizens of Nashua for celebrating the 4th of July.

The Grand Duke Alexis of Russia is not coming to this country, after all; the State Department have heard nothing of any such visit, officially.

The second investigation of the Methodist Book Committee in the Lanahan case has come to naught, Bishop Ames having vetoed the committee's decision.

A man named McNamee attempted on Saturday, June 24, at Princeville, Ill., to hang Miss Potter, a schoolteacher, for punishing his children. He seized the lady, fastened a rope around her neck and dragged her to the school door, when she was rescued by two men passing at the time. McNamee is in jail.

Judge Cardozo has denied motions for a writ of error and stay of proceedings in the case of William Foster, the Putnam murderer, whose execution is appointed for July 14. Judge Stuart will renew his application before some other judge of the supreme court, and endeavor to obtain a delay of the proceedings until the correctness of Cardozo's action is finaly decided.

The Little Corporal for July is a model number. Mrs. Miller's new story begins well, and will be read with delight by all the boys and girls. The poem "Pictures on the Slate," has a full page illustration by Lauderbach, which is exceedingly fine and suggestive. $1.50 a year. Published by John E. Miller, Chicago, Ill.

The ceremony of decorating the soldiers graves in Augusta, Me., took place on Saturday. The services were conducted under the management of Hon. Joseph Woodward, president of day. The services consisted of music, instrumental and vocal, addresses, prayer, &c. General James A. Hall of Damariscotta, delivered a fine oration, and Henry A. Webster a poem. Many soldiers were buried in the cemetery from the United States hospital during the war, with no mark of identification.

An unknown woman, aged 20 years, was murdered on Saturday morning near Baltimore by a party of men who claim to have mistaken her for a man dressed in women's clothes, who has been prowling about the neighborhood stealing poultry, &c. She was first seen Friday night acting suspiciously, and early Saturday morning a party of four white and two colored men found her sitting on a bank beside the railroad track, and Joseph Lengue shot her in the forehead, killing her instantly. She was neatly clad, and of a lady-like appearance. It is supposed she was insane, and had escaped from custody. The murderer has been arrested.

A party of assassins on Sunday, June 25th, attacked a house near Orleans, Lawrence county, Indiana, occupied by a family named Moody, consisting of four old bachelor brothers, Mrs. Tolliver, their sister and a hired man named Lee. Three jugs of benzine were thrown into the house, followed by several large torpedoes loaded with buckshot, nails, screws and similar missiles. The torpedoes exploding set fire to the benzine and around the family, when the assailants opened fire with revolvers into the doors and windows. Thomas Moody was shot in the hip. Lee received a severe wound in the thigh and another in the back. Mrs. Tolliver was terribly burned. The assassins escaped. Ten thousand dollars have been raised to prosecute the guilty parties when caught. Moody's condition is hopeless and Lee's very doubtful.

TARRANT'S SELTZER APERIENT.

SECTS AND CREEDS DIFFER, but there are no dissenters from the general principle, that a great medicine is a great blessing. We have many of these blessings, but among them all, in the province to which it belongs, no greater than

Tarrant's Effervescent Seltzer Aperient.

A column would not suffice to enumerate the diseases for which it is prescribed by physicians of the highest standing. It does not belong to the class derisively termed patent medicines, but is an article based on scientific analysis, and will stand the test of the sharpest and most rigid medical criticism as a cathartic, a stomachic, an anti-febrile preparation, and an admirable remedy for all bilious complaints.

Let there be no mistake. Secure the genuine article only.

RICHARDSON'S

IRISH LINENS, DAMASKS, LINEN CAMBRIC HANDK'FS, &c.

We feel ourselves called on again to CAUTION CONSUMERS against the indiscriminate use of Irish fabrics made up to imitate our goods in fold, trade mark, and general appearance, and to warn them, that their only safeguard is to see that the authentic seal of our firm,

J. N. RICHARDSON, SONS & OWDEN,

is stamped on each article.

Determined to confine ourselves, as heretofore, to the use of yarns spun from the choicest and strongest Flax, by the best machinery obtainable; uniform in weight and elasticity—manufactured and bleached under our own superintendence, the consumer will be

GUARANTEED BY OUR SEAL

the same durability and satisfaction in the wear, which the genuine goods have always afforded.

THE "GEMS" AND "PEARL" OF SONG.

A FULL LIBRARY OF VOCAL MUSIC!

Many songs enjoy a transient popularity, and—are forgotten. Others acquire a permanent reputation, and continue to sell largely for many years. Such ones will be found in the books entitled

WREATH OF GEMS,
GEMS OF GERMAN SONG,
GEMS OF SACRED SONG,
GEMS OF SCOTTISH SONG,
OPERATIC PEARLS,
SHOWER OF PEARLS, (Duets) and
SILVER CHORD.

All of the above are bound uniformly with the instrument books of the HOME CIRCLE SERIES, and resemble them in containing an immense amount of valuable music, at one-tenth of the "Sheet-music" price. Each book contains, in Cloth, $3.00; in Boards, $2.50; and Full Gilt (for presents) $4.00.

Sent, post-paid, for the above price.

A GREAT MEDICAL DISCOVERY!

DR. WALKER'S CALIFORNIA

VINEGAR BITTERS,

Hundreds of Thousands Bear Testimony to their Wonderful Curative Effects.

WHAT ARE THEY!

THEY ARE NOT A VILE FANCY DRINK,

Made of Poor Rum, Whiskey, Proof Spirits and Refuse Liquors doctored, spiced and sweetened to please the taste, called "Tonics," "Appetizers," "Restorers," &c., that lead the tippler on to drunkenness and ruin, but are a true Medicine, made from the Native Roots and Herbs of California, **free from all Alcoholic Stimulants.** They are the GREAT BLOOD PURIFIER and a LIFE-GIVING PRINCIPLE, a perfect Renovator and Invigorator of the system, carrying off all poisonous matter and restoring the blood to a healthy condition. No person can take these Bitters according to direction and remain long unwell, provided the bones are not destroyed by mineral poison or other means, and the vital organs wasted beyond the point of repair.

For Inflammatory and Chronic Rheumatism and Gout, Dyspepsia or Indigestion, Bilious, Remittent and Intermittent Fevers, Diseases of the Blood, Liver, Kidneys and Bladder, these Bitters have been most successful. Such Diseases are caused by Vitiated Blood, which is generally produced by derangement of the Digestive Organs.

DYSPEPSIA OR INDIGESTION, Headache, Pain in the Shoulders, Coughs, Tightness of the Chest, Dizziness, Sour Eructations of the Stomach, Bad taste in the Mouth, Bilious Attacks, Palpitation of the Heart, Inflammation of the Lungs, Pain in the regions of the Kidneys, and a hundred other painful symptoms, are the offspring of Dyspepsia.

They invigorate the stomach and stimulate the torpid liver and bowels, which render them of unequalled efficacy in cleansing the blood of all impurities and imparting new life and vigor to the whole system.

FOR SKIN DISEASES, Eruptions, Tetter, Salt Rheum, Blotches, Spots, Pimples, Pustules, Boils, Carbuncles, Ring-Worms, Scald Head, Sore Eyes, Erysipelas, Itch, Scurfs, Discolorations of the Skin, Humors and Diseases of the Skin, of whatever name or nature, are literally dug up and carried out of the system in a short time by the use of these Bitters. One bottle in such cases will convince the most incredulous of their curative effect.

Cleanse the Vitiated Blood whenever you find its impurities bursting through the skin in Pimples, Eruptions or Sores; cleanse it when you find it obstructed and sluggish in the veins, cleanse it when it is foul, and your feelings will tell you when. Keep the blood pure, and the health of the system will follow.

PIN, TAPE and other WORMS, lurking in the system of so many thousands, are effectually destroyed and removed. For full directions, read carefully the circular around each bottle, printed in four languages—English, German, French and Spanish.

FOR FEMALE COMPLAINTS, whether in young or old, married or single, at the dawn of womanhood or at the turn of life, these Tonic Bitters have no equal. ☞ Send for a circular.

They are a Gentle Purgative as well as a Tonic, possessing also, the peculiar merit of acting as a powerful agent in relieving Congestion or Inflammation of the Liver, and all the Visceral Organs. 1yrdawfeb16

The Chronicle.

—The New York Tribune perpetrates this bit of irreverent pleasantry:

"Satan trembles when he sees
The meanest saint upon his knees."
Imagine, then, his wild despair
At seeing Colonel Jeames at prayer.
He never saw, in all his dreams,
A meaner saint than Colonel Jeames.

—A few weeks ago all the London papers recorded with unanimity of admiration a heroic act by one J. B. Johnson, a professional swimmer. He had come to London from Leeds to take part in a swimming-match for the championship. While crossing London bridge he saw a man fall from a steamboat into the water, and, notwithstanding the great height of the bridge, Johnson hastily divested himself of his boots and made a dive. He rescued the drowning man and brought him to land. The next day the match took place, and Johnson was victorious. The sympathy of the lookers-on was with him from the first, on account of the heroism of his act the day before. There was some talk of organizing a demonstration in his honor on his return to Leeds. But there is a sequel to the story. It turns out that the rescued man is a brother of the rescuer, and is himself a professional swimmer. The fall from the steamboat and the rescue were prearranged, and Mr. Peter Johnson of Leeds, who enacted the part of the drowning man, had great difficulty in restraining his mirth when he was supposed to be dying from exhaustion in the boat after his rescue. As may be supposed the enthusiasm in favor of the champion has somewhat abated.

DICKENS ON DREAMS.—Mr. Fields, in his recollections of Dickens in the *Atlantic Monthly* for July, gives the remarks of the great novelist on dreams, as follows:

I very often dream I am in America again; but, strange to say, I never dream of you. I am always endeavoring to get home in disguise, and have a dreary sense of the distance. *Apropos* of dreams, is it not a strange thing if writers of fictions never dream of their own creations; recollecting, I suppose, even in their dreams, that they have no real existence? I never dreamed of any of my own characters, and I feel it so impossible that I would wager Scott never did of his, real as they are. I had a good piece of absurdity in my head a night or two ago. I dreamed that somebody was dead. I don't know who, but it's not to the purpose. It was a private gentleman, and a particular friend, and I was greatly overcome when the news was broken to me (very delicately) by a gentleman in a cocked hat, top boots and a sheet. Nothing else. "Good God!" I said, "Is he dead?" "He is as dead, sir," rejoined the gentleman, "as a door nail. But we must all die, Mr. Dickens; sooner or later, my dear sir." "Ah!" I said. "Yes, to be sure. Very true. But what did he die of?" The gentleman burst into a flood of tears, and said, in a voice broken by emotion: "He christened his youngest child, sir, with a toasting fork." I never in my life was so affected as at his having fallen a victim to this complaint. It carried a conviction to my mind that he never could have recovered. I knew that it was the most interesting and fatal malady in the world; and I wrung the gentleman's hand in a convulsion of respectful admiration, for I felt that this explanation did equal honor to his head and heart!

—At a recent marriage in Illinois the groom was forty and the bride twelve and a half years of age.

—Piano-making at present takes the third rank among the manufacturing interests in the United States.

—A Western paper states that the Cicada Septemdecim is ravaging the northwestern forests. It works with its haustellum.

—General Forrest has engaged for his railroad all the Chinamen heretofore employed on the Stanton road, numbering in the neighborhood of 800.

—The Welsh paper at Scranton, Penn., has accepted the situation. Its remark that "Cyfrarfu Bynapledd Ddemocrataidd Dalecthem 10 o' gloch heddyw" is unanswerable.

—Willard Young, the Mormon cadet at West Point, told an interviewing reporter the other day that he has sixteen brothers and twenty-two sisters. Thus one of the great questions of the time is settled—thirty-nine children in Brigham's family.

—An instrument has been invented that marks "the ebb of time," showing how many minutes there are prior to any event. If placed in the post-office it reads, "Mails open in thirty minutes;" one minute later it reads, "in twenty-nine minutes," then in twenty-eight, and so on. At a railway station it reads, "This train leaves in ten minutes," then in eight, &c., and when the index reaches 0 the train starts. Thus, any passenger, on entering a station, knows just how much time he has for getting tickets, checks, a newspaper and a seat, without consulting a watch or a clock to ascertain the hour of the day.

AMERICAN & FOREIGN PATENTS.

R. H. EDDY,
SOLICITOR OF PATENTS,
For Inventions, Trade Marks or Designs,
No. 76 STATE ST., OPPOSITE KILBY ST., BOSTON,
After an extensive practice of upwards of thirty years, continues to secure patents in the United States; also in Great Britain, France and other foreign countries. Caveats, Specifications, Assignments, and all papers for Patents executed on reasonable terms with dispatch. Researches made to determine the validity and utility of Patents of Inventions, and legal and other advice rendered in all matters touching the same. Copies of the claims of any patent furnished, by remitting one dollar. Assignments recorded in Washington.

No Agency in the United States possesses superior facilities for obtaining Patents or ascertaining the patentability of inventions.

All necessity of a journey to Washington to procure the Patent and the usual great delay there, are here saved inventors.

TESTIMONIALS.

"I regard Mr. Eddy as one of the most *capable and successful* practitioners with whom I have had official intercourse. CHARLES MASON, Commissioner of Patents."

"I have no hesitation in assuring inventors that they cannot employ a man *more competent and trustworthy* and more capable of putting their applications in form to secure for them an early and favorable consideration at the Patent Office. EDMUND BURKE, Late Commissioner of Patents.

"Mr. R. H. Eddy has made for me over THIRTY applications for Patents, having been successful in almost every case. Such unmistakable proof of great talent and ability on his part leads me to recommend ALL inventors to apply to him to procure their Patents, as they may be sure of having the most faithful attention bestowed on their cases, and at very reasonable charges. JOHN TAGGART."

Consumption,
ITS CURE AND ITS PREVENTIVE,
By J. H. SCHENCK, M. D.

Many a human being has passed away, for whose death there was no other reason than the neglect of known and indisputably universal remedies. Those near and dear to family and friends are sleeping the dreamless slumber into which, had they calmly adopted

Dr. JOSEPH H. SCHENCK'S SIMPLE TREATMENT,

and availed themselves of his wonderfully efficacious medicines, they might now be living.

Dr. Schenck has in his own case proven that wherever sufficient vitality remains, that vitality, by his medicines and his directions for their use, is quickened into healthful vigor.

In this statement there is nothing presumptious. To the faith of the invalids made no representation that is not a thousand times substantiated by living and visible works. The testimony of the cures of Schenck's medicines is as simple as it is unfailing. Its philosophy requires no argument. It is self-asserting, self-convincing.

The Seaweed Tonic and Mandrake Pills are the first two weapons with which the citadel of the malady is assailed. Two-thirds of the cases of consumption originate in dyspepsia and a functionally disordered liver. With this condition the stomach tubes "sympathize" with the stomach. They respond to the morbific action of the liver. Here, then comes the inevitable result, and the setting in, with all its distressing symptoms, of

CONSUMPTION.

The Mandrake Pills are composed of one of Nature's mildest yet most potent vegetable cathartics. They possess all the blood-searching, alterative properties of calomel, but unlike calomel, they

"LEAVE NO STING BEHIND."

The work of cure is now beginning. The vitiated and morbid deposits in the bowels and in the alimentary canal are ejected. The liver, like a clock, is wound up. It arouses from its torpidity. The stomach acts responsively, and the patient begins to feel that he is getting, at last,

A SUPPLY OF GOOD BLOOD.

The Seaweed Tonic, in conjunction with the Pills, permeates and assimilates with the food. Chylification is performed healthfully, and in due time nutrition. Digestion becomes painless, and the cure is seen to be at hand. There is no more flatulence, no exacerbation of the symptoms. The cough ceases. Now comes the greatest Blood Purifier ever yet given by any medical man. Dr. Schenck's Pulmonic Syrup comes in to perform its functions and to hasten and complete the cure. It enters at once upon its work. Nothing cannot be cheated. It collects and ripens the impaired and diseased portions of the lungs. In the form of gulverings it prepares them for expectoration, and lo! in a very short time the malady is vanquished, the enfeebled lungs healed, the cough cured and made new, and the patient, in all the dignity of regained vigor, steps forth to enjoy the manhood or womanhood that was

GIVEN UP AS LOST.

The second thing is, the patients must stay in a warm, room, until they get well; it is almost impossible to prevent taking cold when the lungs are diseased, but a cold is generally fatal, or a cure not be effected. Fresh air and riding out, especially in this section of the country in the fall and winter season, are all wrong. Physicians who recommend that course lose their patients, if their lungs are badly diseased; not at first, because; they are in the house they must not sit down quiet: they must walk about the room as much and as fast as the strength will bear, to get rid of the poison in the blood. The patients must keep in good spirits—be determined to get well. This has a great deal to do with the appetite, and is the great point to gain.

To despair of cure after such evidence of its possibility is the act of a coward and traitor to self, to others, is sinful. Dr. Schenck's personal statement to the Faculty of his own cure was in these modest words:

"Many years ago I was in the last stages of consumption; coughing my lungs out; my friends and my physicians thought that I could not live a week; then like a drowning man catching at straws, I heard of, and obtained your medicines. They saved my life to the public, and they made a perfect cure of me. It seemed to me that I could feel them penetrate my whole system, and I could cough the matter in my lungs, and I would spit up more than a pint of purulent matter every morning for a long time. As soon as that began to subside, my cough, fever, pains and night sweats all began to abate, and my appetite became so great that it was with difficulty that I could keep from eating too much. I soon gained my strength, and have grown in flesh ever since."

"I was weighed shortly after my recovery," added the Doctor, "then looking like a mere skeleton; my weight was only ninety-seven pounds; my present weight is two hundred and twenty-five (225) pounds, and for years I have enjoyed unimpaired health."

Dr. Schenck has discontinued his professional visits to New York and Boston. He or his son, Dr. J. H. Schenck, Jr., still continue to see patients at their office, No. 15 North Sixth street, Philadelphia, every Saturday from 9 A. M. to 3 P. M. Those who wish a thorough examination with the Respirometer will be charged $5. The Respirometer declares the exact condition of the lungs, and patients can readily learn whether they are curable or not.

The directions for taking the medicines are adapted to the intelligence even of a child. Follow those directions, and Nature will do the rest, excepting that in some cases the Mandrake Pills are to be taken in increased doses; the three medicines need no other accompaniments than the simple instructions that accompany them: First, create appetite. Of course, in both hunger is the most welcome symptom. When it comes, as it will come, let the despairing at once be of good cheer. Good blood at once follows, though much loosens, the night sweat is abated. In a short time both of these morbid symptoms are gone forever.

Dr. Schenck's medicines are constantly kept in tens of thousands of families. As a laxative or purgative, the Mandrake Pills are a standard preparation: while the Pulmonic Syrup, as a cure of coughs and colds, may be regarded as a prophylactic against consumption in any of its forms.

Price of the Pulmonic Syrup and Seaweed Tonic $1.50, a bottle, or $7.50 a half dozen. Mandrake Pills, 25 cents a box. For sale by all druggists and dealers.

CARD.

Having become satisfied after thorough investigations that Elastic Sponge, as now and lately manufactured, is one of the best of all substitutes for curled hair, for many if not most uses in upholstery, we have accepted the Agency for it, and intend to make it hereafter a specialty in our business. The objections which been made to it and which it is well known we ourselves have thought were well founded, we have ascertained cannot be urged against the article as now perfected. The process of manufacture has been entirely remodeled under the advice and superintendence of one of the most eminent chemists in New England. New chemical and mechanical appliances have been introduced in cleansing crude Sponge, and in dyeing it with giv'ness with such entire success, that Elastic Sponge may now be said to be chemically pure. There is absolutely nothing in it but the clean fibre of Sponge and chemically pure glycerine.

The objections to Elastic Sponge being thus removed there remain its undisputed merits which certainly entitles it to be considered one of the most valuable, as it is one of the most curious and interesting of late discoveries. Chief among these merits is, that it is proof against moths—the great scourge of the business.—against all other insects. Then its elasticity is permanent, based as it is upon the unevaporable property of glycerine and the indestructibility of sponge fibre. We have always been satisfied upon these two points which are the essential requisites in such materials. The evidence is now equally clear that it is wholesome and sweet. It is very light and soft, easy to manipulate, and cheap enough for all except the lowest class of goods. For the cushioning of Churches, Theatres, Public Halls, Railway Stations, Omnibuses, Carriages, Steam and Horse Cars and the like, it will probably be found, everything considered, the best article in use. For all uses, and especially for Bedding, we are now prepared to recommend the public to give it a fair trial as we ourselves intend to do. We are are ready also to answer inquiries, make estimates and take orders for every description of work in Sponge as well as to supply the trade the article in Bales.

Portsmouth, N. H.

THURSDAY, JUNE 29, 1871.

THE LEGISLATURE.

On the 27th, in the Senate, Mr. Cram of No. 4 introduced an address for the removal of William H. H. Allen as Judge of Probate for Sullivan county, which, on motion of Mr. Smith of No. 10, was laid upon the table.

[When Mr. Allen was appointed Judge of Probate there was some feeling about the matter between his predecessor, now Senator Smith and the appointee. The Democrats hoped Mr. Smith might vote for Judge Allen's removal in consequence, but the Senator sunk personal feeling and the Democratic scheme was defeated.]

In the House on the 28th, the bill exempting $500 worth of property from taxation was reconsidered—yeas 230, nays 57.

The House passed the following bills:

To exempt disabled soldiers from paying poll tax.

To reduce the valuation of polls from $150 to $100.

To incorporate the Canaan Branch Railroad.

To allow the United States to purchase and hold real estate for lighthouse purposes in the State, and providing for taking the same, if necessary, by jury apprisal, complying with the request of the superintendent of the lighthouse board.

To exempt a homestead or personal estate to the amount of $500 from taxation. This elicited a long discussion, with several amendments and divisions.

To allow towns to exempt from taxation, for a term not exceeding ten years, manufacturing and railroad enterprises located within their limits.

The bill for towns to grant aid to the Dover and Portsmouth Railroad was laid on the table as embracing some new points of legislation, which should be carefully considered.

Thursday at 11 o'clock was assigned for the election of the State officers.

The bill to fix the rate of interest on money loaned, fixing the rate as may be agreed between the two parties, and if specifications are not made or agreed on, the rate to be six per cent., was defeated.

Correspondence.

CONCORD, June 28.

The hearing on Ward 2 contested seat case was concluded this morning and the case of members of Ward 1 taken up. The Democracy proposed to have one member resign but the members do not see it.

The unterrified divided badly on the reconsideration of the vote passing the bill to exempt $500 of personal and real estate from taxation, to-day. The new departure Democrats, led off by Roles of Ossipee and Jones of Stratham, beat Bingham and Page by 173 majority. Page (Dem.) of Concord has moved to lay Hackett's bill repealing certain sections of the liquor law passed last year—upon the table. The Democracy will not repeal the liquor law this session, but keep it for a campaign document for next year, while they will persuade their prominent supporters, that they cannot repeal it this year. They may yet be subjected to the test. None of the cases of Democratic members illegally holding seats are brought up, as the Committee are under orders to keep them back.

THE nomination of Simon Cameron of Pennsylvania for Vice President on the Republican ticket, although it might secure the vote of that State to the Republicans in 1872, would be one of the most disgraceful acts the Republican party could commit. There are too many men of better reputation in the ranks, to risk any such entangling alliance. Republicans cannot afford to abandon principle even for availability. Simon Cameron is a person whom 4,000,000 Republican voters should shun as a political candidate. The Republican party is not to be saved from defeat by compromise with wrong or wrong doers.

THE last new name for the "new departures" is "Mulatto Democrats." They have been so dubbed by that able and influential Democratic ex-mayor, Richard Vaux of Philadelphia.

DR. BULLIS, the Republican nominee for lieutenant-governor of Iowa, was thrown from his sulky at Decorah, on Monday. He had several ribs broken and received other severe injuries.

THE subscriptions to the Fitz-Greene Halleck monument now amount to about $4000—one-third of the sum required.

GOV. WESTON has nominated Joseph F. Wiggin of Exeter, as Judge of Probate for Rockingham county.

POLITICAL.

The New Mexico Democratic territorial convention has nominated Jose M. Gallegos for a delegate to Congress, with a platform similar to that adopted by the Ohio Democracy.

The Prohibitionists of Morgan county, Ohio, have nominated a full ticket for representatives and county officers.

ANOTHER terrible accident occurred on the Maine Central Railroad, June 27th, involving loss of life and serious damage to the railway company. It was a collision a mile and a half below Hallowell between a local train of one small engine and passenger car, which left Gardiner on its regular time, soon after five o'clock, and the mixed train, so-called, which left Augusta in order to accommodate the delegates to the democratic State convention, returning to their home in the southern part of the State. The train was crowded with passengers and consisted of an engine, one freight car, one smoking car and three passenger cars. According to the rules of the road, this train should have waited at Hallowell, but it did not. There was a sharp curve at the point where the engines met. Persons in the fields near by saw the approaching trains and attempted to signal them, but without success. The shock was terrible and the engines were wholly demolished. There was a steep embankment at the point where the trains met, and there would have been a terrible loss of life if the cars had been thrown over. Fortunately they were not, although the freight car on the down-train was wrecked. The seats were all torn out of the passenger car on the up train. There were a dozen passengers on board the latter, half of whom were badly jammed and otherwise injured, but none fatally; and nine of the passengers on the accommodation train were more or less injured. Daniel Berry, engineer of the mixed train, was killed; he leaves a wife and two children. Wilkes Carvel, fireman, was fatally injured, having his skull fractured and being badly scalded. There is blame due somewhere, and the coroner's inquest will doubtless locate it aright.

THE Maine State democratic convention was held at Augusta, June 27, and C. P. Kimball, the well known carriage-maker of Portland, was nominated almost unanimously on the first ballot, receiving 445 of 463 votes cast. There was a sharp struggle over the new departure, but the young democracy carried the day, although "denouncing the means by which" the constitution was amended; and the Maine democracy are now "departed." Mr. Clifford of Portland made a harangue in favor of the new departure, and claimed that the democratic party had always stood for principle, even when it seemed to be defending slavery. The party had been deprived of power and had had no participation in the government for twelve years. For what had been done during that time the party was not responsible, (that party will never be *held* responsible for destroying slavery, preserving the Union or elevating the laborer to the dignity of a free man,) but they would be something else than democrats if they failed to recognize their obligation to the Constitution as it exists. He acknowledged that the party had made many divergences from principle, but however far it had swerved it had never lost sight of its duty to sustain the Constitution of the country!

BUSINESS NOTICES.

A gentleman afflicted with the chronic rheumatism says, "No description of my case can convey the vast amount of benefit I have received from the use of *Johnson's Anodyne Liniment.* I believe it is the best article in the world for rheumatism.

If a horse has a good constitution, and has once been a good horse, no matter how old or how much run down he may be, he can be greatly improved, and in many respects made as good as new, by a liberal use of *Sheridan's Cavalry Condition Powders.*

SPECIAL NOTICES.

The Universal Safeguard.

It is useless for State Legislatures to pass laws for the preservation of the public health, if the great law of self-preservation which depends for its enforcement upon the will of the individual, is suffered to remain a dead letter.

There is scarcely an adult member of the community, of either sex, in the country, who has not seen the testimony in favor of HOSTETTER'S STOMACH BITTERS, furnished over their own signatures by persons of acknowledged eminence in science, literature, art, commerce, and every department of business and professional life. These witnesses have declared in the most explicit terms that the preparation is a safeguard against epidemics, a sovereign remedy for dyspepsia, a valuable antibilious medicine, a promoter of appetite, a genial and harmless stimulant, a good acclimating medicine, a strengthener of the nerves, a general invigorant, a protection against the deleterious effects of malaria and impure water, and that it imparts a degree of vigor and activity to the vital forces which is not communicated by any other of the tonics and stomachics in use. Under these circumstances the self-preservative law of nature should teach every rational person who, either by reason of inherent debility or in consequence of exposure to unwholesome influences, is in peril of losing the greatest of all temporal blessings, health, the importance of using the Bitters as a defensive medicine. Dyspeptics who neglect to give it a trial are simply their own enemies. It is guaranteed to cure indigestion in all its forms, and the bilious and nervous will find nothing in the whole range of official and proprietary medicines which will afford them the same relief.

THE scheme to gerrymander the wards of this city has at last come to light. The bill as read twice and tabled in the Senate reads as follows:

BE it enacted by the Senate and House of Representatives in General Court convened:

Section 1. That the city of Portsmouth hereby is and shall continue to be divided into three wards, which shall be constituted as follows:

Ward One shall contain all that part of the city of Portsmouth north of a line commencing at the navy yard landing at the foot of Daniel street and running thence westerly through the centre of Daniel street to Market Square, thence along the north side of Market Square up Congress street to Vaughan street, through the centre of Vaughan to Hanover street, through the centre of Hanover to Bridge street, through the centre of Bridge street to the Concord and Portsmouth Railroad, thence following said railroad to a point thereon opposite the passage way leading to the barn of the heirs of Henry Nowell, deceased, thence turning and running southerly through the centre of said passage way and following the division fence between land of Frank Jones and George W. Shackley to Islington street, thence from Islington street southerly between land of Aaron Akerman and Andrew H. Jones to Madison street, through the centre of Madison street to Middle street, through the centre of Middle street to Middle road, through the centre of Middle road over the Portsmouth Plains to the Greenland road, and through the centre of Greenland road to the line between Portsmouth and Greenland.

Ward Two shall contain all that part of Portsmouth between the southerly boundary of Ward One and a line commencing on the water at the foot of State street and running westerly through the centre of State street to Pleasant street, thence through the centre of Pleasant street to the Universalist meeting house, thence in a straight line across the south mill pond to the southerly end of Richards avenue, thence through the centre of South and Lafayette roads to the line between Portsmouth and Rye.

Ward Three shall contain all that part of Portsmouth not contained in the other two wards.

Section 2. All acts and parts of acts inconsistent with the provisions of this act, and so much of the eighth section of chapter forty-four of the General Statutes as relates to the city of Portsmouth are hereby repealed.

The present line of division between the 1st and 2d Wards runs from the Spring Market through Market, Congress and Islington Streets to Greenland; the line of division between the 2d and 3d Wards runs from Puddle Dock through Washington street to Brimstone Hill, over the Hill to Pleasant Street and across the South Mill Pond to South Road, thence on Lafayette Road to the line between Portsmouth and Rye.

The proposed change throws the Puddle Dock region from the 2d into the 3d Ward, the Bow Street foreign population from the 2d Ward into the 1st, and the inhabitants living between Vaughan and Dover streets (as well as a few others just beyond, where the "arrangers" propose to cut across lots) into the 2d Ward. Their unique plan of making things crooked, takes the voters north of the line between Middle and Islington Streets, and west of the line of Madison Street, into the 1st Ward.

Isn't it a nice plan? The 3d Ward suddenly finds itself grown larger, the 2d Ward (in the most compact part of the city) comes down to a wedge with a "water front" extending from the foot of State Street to the foot of Daniel Street, and is otherwise reduced in size, the 1st Ward seizes the unconscious denizens between the Spring Market and Daniel Street with one hand and takes the territory and population in the vicinity of Frank Jones' brewery with the other. Desired Democratic results—the 3d Ward may be able then to have two Representatives, legally, and the 1st is expected to be Democratic by the transfer of the English vote to the 2d Ward and the influx of the Irish population from Church Hill and the brewery men above Cass Street. This might be very serious business for Republicans were it not for the fact that the outrageous attempt to gerrymander the city will not pass as long as the six Republican State Senators do their duty.

STEAMER Appledore, Capt. Baker, commences the Saturday evening trips which were so popular last year, on the 1st of July, leaving Pier Wharf at half past 7 o'clock and returning the same night in season for those so inclined to get to bed by midnight.

THE force of accumulation in the Mutual Life Insurance Company of New York, is illustrated in the following:—Upon a life policy for the sum of $4000, Mr. J. P. Bartlett, the agent for the above company, has paid the heirs in this city the sum of $8420.92, or more than double the original sum insured.

THE First Baptist Society of Manchester are arranging for an excursion to this city, the Isles of Shoals and Rye Beach, on the 4th of July.

WE are informed that there is one engine company in this city willing to do all they can for a Fireman's half day muster among themselves, only.

THE Auction sale of furniture, bedding, carpets, &c., at the rigging loft, foot of State Street, closes with to-day. There is yet a good chance for a bargain.

AT a meeting of the North Parish, Tuesday evening, it was unanimously voted to grant a year's leave of absence from August 10th, to the pastor, Rev. George M. Adams, who is to visit Europe.

MR. A. J. NAY, a well known citizen of Manchester, is canvassing this city and vicinity, for the sale of Lossing's new work—The House of Washington, or Mount Vernon and its Associations. The book is published in the best style of A. S. Hale & Co. and is of interest to all Americans. It is printed on tinted paper, and illustrated by very superior steel engravings and wood cuts. It contains much historical matter of value.

THE chromo to be voted to one of the daily papers, at the Methodist Strawberry Festival, Friday evening, is on exhibition in the window of the Congress Block book store. The committee in charge of the Festival expect Prof. Tourjee of Boston to be present. The Kittery "Old Folks" will lead in the grand choruses. Go to Congress Hall, Friday evening, buy strawberries and cream, take part in the singing exercises and vote the beautiful chromo to—our neighbor over the way!

Communicated.

Messrs. Editors:—The reflections of your Concord correspondence upon two of the selectmen of Ward 2 are hardly just. I have never received an intimation, verbal or written, legal or illegal, from any member or committee of the Legislature, that I was needed or desired in Concord; neither had it occurred to me that I could be of assistance enough to make it desirable that I should go. I saw Representative Hackett, Saturday, and such facts as I gave him in a few minutes' conversation he expressed himself familiar with, and he did not in any way intimate that I could be of any assistance by going to Concord. L. G. DAVIS.

[Mr. Davis was not one of the two selectmen referred to.—*Eds. Chronicle.*]

THE work of improving the channel in the Cocheco River has commenced, a gang of eight or nine men, including the veteran and well-known submarine diver, Mr. Reuben Wiley of Seabrook, having arrived with a hoisting scow and the necessary gear to prosecute the work. They came here on Tuesday, and owing to the state of the tide did not go up the river till next day; but will get to work at the rocks this (Thursday) morning. The locality of their labors is at Dover Narrows, where there is a depth of two feet of water at low tide; and they are to cut a channel 75 feet in width and 150 or more feet along the river's course, through ledges and boulders, to a depth of four feet at low water. The party have a steam drill capable of making a hole 3 inches in diameter and 3 feet deep in 8 minutes, in rock of average hardness; a row of such holes will be drilled along the entire face of the rock they wish to remove, and all then charged with powder and exploded simultaneously. After removing the obstructions at the Narrows, there will still remain some ugly boulders at Trickey's Brook, and another ledge at the Gulf, higher up the river towards Dover, which must be blown away before the present improvements can be properly utilized; but another appropriation will probably be needed to carry the work so far. The present appropriation is but $10,000, and Mr. Wiley informs us that a similar sum was expended in improving the channel in the same place, the Narrows, many years ago. He was a boy at the time, and watched the workmen as they toiled in the water at low tide, unprotected by submarine armor (which had not then been invented) or any other dress, fastening chains to the loose stones on the ledge. With the approved appliances for inspecting and smashing out the river's bottom which the present workmen possess, $2000 will probably do more good than $10,000 did in the olden time. The present appropriation was procured from Congress through the exertions of the Dover Board of Trade; and we would suggest to Mr. Wiley that he set the steam drill to work on *our* Board of Trade and put in a charge of nitro glycerine, and see if it wouldn't make things a little more lively in that respectable but rather conservative body.

A very heavy shower passed over this city, Wednesday afternoon. It did not extend to Rye and covered a space of less than five square miles, 'tis said.

—On Monday, a journeyman by the name of Adams, belonging in Portsmouth, N. H., and who had been working in the blacksmith shop of Mr. Joseph C. Adams at the north-end of this city, was stricken with paralysis of his legs, rendering him unable to walk. He had not been in the enjoyment of good health for some days previous to the attack. He was taken to his home in Portsmouth, and before the person who went over in charge of him left to return, the sick man died. He leaves a widow and one child.—*Newburyport Herald.*

THE miners on a strike in South Wales now number 9000, and there is no present prospect of a settlement of their difficulties with the companies. A subterranean fire is known to be raging at Sheffield, England, and fears are entertained that it is in an old colliery which extends to the very centre of the town.

A long growing disaffection between the Roman Catholic priest of Hudson, N. Y., and his congregation, culminated on Sunday morning by about two hundred of the latter forming around the church entrance and denying the priest admittance when he approached for the morning mass. After some altercation the priest retired without holding a service. He appeared at the police court for party warrants for their arrest, but as yet no person competent has been found to indorse him.

THE
NEW ORLEANS, MOBILE & TEXAS
RAILROAD COMPANY
Are building a trunk line, connecting New Orleans with Mobile on the east, and giving
THE ONLY RAILROAD CONNECTION
between the former city and the great and most productive State of Texas of the west, the total distance from Mobile to Houston being 475 miles.

The Company is composed of strong Northern capitalists, who have already expended nearly **TEN MILLION DOLLARS** of their own funds in the construction of the line. They have built about 225 miles from Mobile westward, and secured by purchase of securities and made provision for the thorough repair and equipment of the 108 miles of the Texas division; leaving but 140 miles to be built

To Complete the Entire Road.

It is believed that no other railroad corporation in the country has ever made so large an expenditure from its own means before offering any of its securities to the public.

The Company now offer for sale the

Eight Per Cent. Mortgage Bonds

upon the Louisiana division of 226½ miles from New Orleans to the Sabine River. This will probably be the most valuable portion of the whole line, as it will be the only rail communication by which the enormous productions of Texas can reach the Southern metropolis.

So important is this road considered to Louisiana, that the State has made very liberal grants in aid of the enterprise, by direct donations, by endorsement of its bonds, and by subscriptions to the stock of the Company, amounting in all to over eight million dollars.

The Bonds now offered are of two classes:

FIRST MORTGAGE BONDS,

to the amount of $12,500 per mile, and

SECOND MORTGAGE BONDS,

to an equal amount, both principal and interest guaranteed by the State of Louisiana. The price of the two classes is the same, and subscribers can take their choice.

The Bonds are only in the denomination of $1,000, or £200 each, interest payable January and July, at the rate of eight per cent. currency in New York, or seven per cent. gold in London, at the option of the holder, at the time each coupon is due. Bonds can be registered, if desired.

No better security has been offered to investors. The Bonds are largely profitable, as well as entirely safe. One thousand dollars invested in these eight per cent. bonds will give the purchaser *more than seventy-seven per cent.* greater annual interest than the same amount invested in the new Government Five Per Cents.

At the same price, an 8 per cent. currency bond is far cheaper than a 7 per cent. gold one. Calculating a return to specie payment in three years, and taking the time that the bonds of the New Orleans, Mobile and Texas Railroad have to run—45 years—we find that by compounding the interest of each, every six months, at 7 per cent. **an 8 per cent. currency bond at 90 will give a return of $2,614.18 MORE than a 7 per cent. gold bond, at the same price, or nearly three times the amount of the original investment.**

The Bonds are dated May 1, 1871. The first coupon will, therefore, be a fractional one, running from May 1 to July 1. The price is 90, and accrued interest at 8 per cent. currency from May 1st to date of remittance.

Subscriptions will be received in Portsmouth by

First National Bank,

Information concerning the Company and the Road, and pamphlets containing map and full details of the enterprise, can be obtained of the undersigned or any of the Company's advertised agents.

FIRST MORTGAGE
7 PER CENT. GOLD BONDS,
At 90 and Accrued Interest in Currency.
ON A COMPLETED ROAD,
FREE OF U. S. TAX,

This road is now in the dullest season of the year earning more than 12 per cent. net on the amount of its mortgage obligations.

Its 7 per cent. gold bonds are equal for security to Government or any Railroad issue. They command a ready market and we are prepared to buy and sell them at all times. No investment in the market possessing equal guarantees of safety, returns an equal percentage of interest. The Chicago, Burlington and Quincy has given a traffic guarantee and obligates itself to invest in these bonds 50 per cent. of the gross earnings derived from all business from this road. This is sufficient indication of the estimate of this enterprise by the largest and most far-sighted Corporation in the West. A limited quantity still for sale by

PROPOSALS FOR ALTERING AND REPAIRING THE LIGHT-HOUSE TENDER "IRIS."

TREASURY DEPARTMENT,
OFFICE LIGHT-HOUSE BOARD,
Washington City, June 23, 1871.

SEALED PROPOSALS will be received at this Office until 1 o'clock P. M., on Friday, the 28th day of July next, for altering and thoroughly repairing the Light-House Tender "Iris," (now at Portland, Maine, where she may be examined at any time,) according to the printed, detailed specifications, and plan of the vessel, which will form a part of the contract, copies of which may be obtained upon application to the Light-House Board, and at the Offices of the Light-House Inspectors at Boston and Portland, and also at the Custom-houses at Portsmouth, N. H., and Ellsworth, Maine.

Bidders are required to state (in submitting their bids) the time within which they will contract for the entire and satisfactory completion of the work according to the terms of the specifications. In case of acceptance, and to be guaranteed by satisfactory security.

For full details, see printed specifications, plan, and the form of bid and guarantee required. The right is reserved to reject any bid, or all bids, for reasons other than the price that may be named.

All bids must be carefully sealed and endorsed "Proposals for Altering and Repairing Light-House Tender 'Iris,'" and then be placed in another envelope and addressed, for delivery in person, or be sent through the mail *prepaid*, to the "Chairman of the Light-House Board," Washington City. W. B. SHUBRICK,
3td4wje27 Chairman.

The Subscribers having purchased the "Business and Goodwill," of
The Old and Well Established Insurance Company of JOHN S. HARVEY,
have this day formed a co-partnership, under the firm name of
MORSE & ILSLEY,
for the purpose of carrying on the Insurance Business in all its branches. They trust, by industry, integrity and good judgment, to merit the approbation of all the old patrons of the office, and to receive a good share of new business.
MR. HARVEY will still take a lively interest in the Companies for which has so long and faithfully worked, and he is authorized to receive applications for Insurance in said Companies as our Agent.
JOSEPH P. MORSE,
WINGATE N. ILSLEY.
Portsmouth, May 1, 1871.

A CARD.
HAVING disposed of my Insurance Business to JOSEPH P. MORSE and WINGATE N. ILSLEY, two gentlemen well known for their integrity and business capacity, I return my thanks to my old and constant patrons and friends, for their many favors, and earnestly recommend my successors, trusting the same generous patronage will be extended to them as to myself. They represent some of the oldest and most reliable Companies in both Fire and Life Insurance in the Country.

NEW HAMPSHIRE ITEMS.

Messrs. John Lindsey and Whitney Thompson of Lancaster have purchased the staging at the Glen House for $20,000.

A scholarship of $1000 has been founded at Dartmouth by Mrs. Josephine M. Ellis of Milford, which will bear the name of her husband, Rev. John M. Ellis, class of 1822. Mr. Ellis was formerly financial agent for the college.

The farmers in northern Coos and the county of Essex, Vermont, have organized a new agricultural society, electing J. H. Dudley president.

The steam saw-mill and box-factory of Messrs. Libbey, Varney & Co., in Wolfeborough, was burned on Sunday night, June 25. Loss about $25,000, and no insurance.

The German troops in France are to form a new army, to be called the army of occupation.

The United States authorities have broken up an extensive gang of counterfeiters who have been at work in Ohio and Indiana. Several of the leaders have also been arrested.

Two girls, named Carrie Olson, aged 16 years, and Susan Caul, aged 14 years, were drowned while bathing at Mount Morris, Wisconsin, June 23. George Tracy, who attempted to save the girls, was also drowned. George W. Wetherell, 22 years old, was drowned at Chicopee, Mass., while bathing in the Chicopee river, June 27th.

The interest in the Methodist Book Concern investigation deepens. Bishop Ames sustains Dr. Lanahan's application to the courts. Dr. Carlton has written his resignation and published a defence charging Dr. Lanahan with recklessness in the use of figures. The sub-committee of the book committee recommends a through examination by experts.

Rev. H. D. Northrop of New York, in the course of a sermon from the text "The way of the transgressor is hard," referred in strong terms to the Rock Island stock transactions. He said that the "cliques" and "corners" in which stock-brokers engage are neither more or less than gambling, and a man who "bulls" or "bears" the market for the purpose of robbing his fellows is no better than the man who robs his wife and children to try his fortune at cards. It, by accident, one of these monsters reached the New Jerusalem he would ask his way to Wall Street, and if there was no such place in the sacred city he would go to hell rejoicing.

HOTELS.

MARSHALL HOUSE,

YORK BEACH. This new and commodious SUMMER HOTEL is situated in one of the most beautiful localities on the coast, at the mouth of York River; the facilities for Bathing, on sandy beaches, in surf or still water,—for Fishing, or for Boating on a beautiful river, are unrivalled; the sea view (taking in Boon Island and the Shoals) is unsurpassed, and the river and inland scenery *not equalled* by that surrounding any other hotel along the whole coast. With a good table, moderate charges and strict attention and courtesy to all, we intend to merit and hope to receive a fair share of public patronage. The hotel will be open to the public, June 20th.

N. G. MARSHALL & SONS, Proprietors.

☞ Steamer HOFFMAN, Capt. Emerson, will make two trips daily (on Tuesdays, Thursdays and Saturdays) between Portsmouth and York Harbor, connecting with morning and afternoon trains from Boston, during the season, conveying passengers at reasonable rates and landing them but a few rods from the Hotel. The run across will occupy but about one hour. jel0

NEW ADVERTISEMENTS.

THIRTY THOUSAND DOLLARS PAID.—The TRAVELERS LIFE AND ACCIDENT INSURANCE COMPANY, of Hartford, Connecticut, paid $30,000 on W. H. Forbush and Wm. C. Curry, victims of the New Hamburg railroad; $5,000 on the late Jas. B. Blake, mayor of Worcester, Mass.; and $5,000 on the late S. H. Lewis, Jr., of St. Albans, Vt. All these accidents occurred, and the insurance was paid, within three months—each claim being paid about sixty days before it was due by the terms of the policy. The TRAVELERS has paid SEVEN HUNDRED DOLLARS A DAY in benefits to its policy holders, for deaths or injury by accident, for every working day during the past seven years.

The TRAVELERS LIFE AND ACCIDENT INSURANCE COMPANY, of Hartford, Conn., grants all the usual forms of LIFE and ENDOWMENT Policies, on exceedingly favorable terms. AMPLE SECURITY and LOW RATES.

600,000 ACRES

CHOICE IOWA LANDS.

This Company is now offering for sale about six hundred thousand acres of the finest agricultural lands in the West. The Company sells only to actual settlers, and the prices are exceedingly reasonable, ranging from $5 to $10 per acre—the average being about $6. The greater part of these lands are situated along the line of its railroad between the cities of Des Moines and Council Bluffs, and are in the most accessible and fertile region in the State.

Sales made for cash or on credit long enough to enable any industrious man to pay for the land out of its crops.

These lands are held under a title direct from the General Government, and are not mortgaged or encumbered in any way. Full warranty deeds given to purchasers.

For maps, pamphlets, or any other information respecting them, address EBENEZER COOK, Land Commissioner, Davenport, Iowa.

EXPLORING TICKETS are sold at the Company's ticket offices at Chicago, and all other principal stations on its line, and if the purchaser buys land the amount paid for the ticket is applied on the purchase money.

TARRANT'S SELTZER APERIENT.

SECTS AND CREEDS DIFFER, but all agree that Seltzer Aperient, on general principle, that a great medicine is a great blessing. We have many of these blessings, but among them all, in the province to which it belongs, no greater than

Tarrant's Effervescent Seltzer Aperient.

A column would not suffice to enumerate the ailments for which it is prescribed by physicians of the highest standing. It does not belong to the class derisively termed patent medicines, but is an article based on scientific analysis, and will stand the test of the sharpest and most rigid medical criticism as a cathartic, a stomachic, an anti-febrile preparation, and an admirable remedy for all bilious complaints.

Let there be no mistake. Secure the genuine article only.

TRY IT!

How well we remember in days that are gone,
The feelings we felt as we saw the cork drawn—
The disgust—the recoil
From "Cod Liver Oil,"
Dealt out to poor souls in the days that are lgone!
But who could complain
Of this to be taken?
It swallows as easy as sparkling Champagne—
Does "Marvins' Deodorized Oil."

RICHARDSON'S

IRISH LINENS, DAMASKS, LINEN CAMBRIC HANDK'FS, &c.

We feel ourselves called on again to CAUTION CONSUMERS against the indiscriminate use of Irish fabrics made up to imitate our goods in fold, trade mark, and general appearance, and to warn them, that their only safeguard is to see that the authentic seal of our firm,

J. N. RICHARDSON, SONS & OWDEN,

is stamped on each article.

Determined to confine ourselves, as heretofore, to the manufacture of yarn from the choicest and strongest Flax, by the best machinery obtainable; uniform in weight and elasticity—manufactured and bleached under our own superintendence, the consumer will be

A GREAT MEDICAL DISCOVERY!

DR. WALKER'S CALIFORNIA

VINEGAR BITTERS!

Hundreds of Thousands Bear Testimony to their Wonderful Curative Effects.

WHAT ARE THEY!

THEY ARE NOT A VILE FANCY DRINK,

Made of Poor Rum, Whiskey, Proof Spirits and Refuse Liquors doctored, spiced and sweetened to please the taste, called "Tonics" "Appetizers," "Restorers," &c., that lead the tippler on to drunkenness and ruin, but are a true Medicine, made from the Native Root and Herbs of California, **free from all Alcoholic Stimulants.** They are the GREAT BLOOD PURIFIER and a LIFE-GIVING PRINCIPLE, a perfect Renovator and Invigorator of the system, carrying off all poisonous matter and restoring the blood to a healthy condition. No person can take these Bitters according to direction and remain long unwell, provided the bones are not destroyed by mineral poison or other means, and the vital organs wasted beyond the point of repair.

For Inflammatory and Chronic Rheumatism and Gout, Dyspepsia or Indigestion, Bilious, Remittent and Intermittent Fevers, Diseases of the Blood, Liver, Kidneys and Bladder, these Bitters have been most successful. Such Diseases are caused by Vitiated Blood, which is generally produced by derangement of the Digestive Organs.

DYSPEPSIA OR INDIGESTION, Headache, Pain in the Shoulders, Coughs, Tightness of the Chest, Dizziness, Sour Eructations of the Stomach, Bad taste in the Mouth, Bilious Attacks, Palpitation of the Heart, Inflammation of the Lungs, Pain in the regions of the Kidneys, and a hundred other painful symptoms, are the offspring of Dyspepsia.

They invigorate the stomach and stimulate the torpid liver and bowels, which render them of unequalled efficacy in cleansing the blood of all impurities and imparting new life and vigor to the whole system.

FOR SKIN DISEASES, Eruptions, Tetter, Salt Rheum, Blotches, Spots, Pimples, Pustules, Boils, Carbuncles, Ring-Worms, Scald Head, Sore Eyes, Erysipelas, Itch, Scurfs, Discolorations of the Skin, Humors and Diseases of the Skin, of whatever name or nature, are literally dug up and carried out of the system in a short time by the use of these Bitters. One bottle in such cases will convince the most incredulous of their curative effect.

Cleanse the Vitiated Blood whenever you find its impurities bursting through the skin in Pimples, Eruptions or Sores; cleanse it when you find it obstructed and sluggish in the veins, cleanse it when it is foul, and your feelings will tell you when. Keep the blood pure, and the health of the system will follow.

PIN, TAPE and other WORMS, lurking in the system of so many thousands, are effectually destroyed and removed. For full directions, read carefully the circular around each bottle, printed in four languages—English, German, French and Spanish.

FOR FEMALE COMPLAINTS, whether in young or old, married or single, at the dawn of womanhood or at the turn of life, these Tonic Bitters have no equal. ☞ Send for a circular.

They are a Gentle Purgative as well as a Tonic, possessing also, the peculiar merit of acting as a powerful agent in relieving Congestion or Inflammation of the Liver, and all the Visceral Organs. 1yrdaw6ib16

BETTY'S NIGHT WITH THE BEAR.

What a dark wood, and what a brown little house, right under the shadow of the tall Minnesota pines! Coming upon it, though, after long miles of silent forests, it seemed quite gay and lively, and if you went in, and saw the bright faced mother, and the wild children, and after a while the tall, sunburnt father, you made up your mind this was almost a village. Then a few rods on, and the wood opened out to the clearing, where day after day the father worked in his great field of corn and potatoes, which hardly needed scarecrows, because the blackened stumps, still standing, seemed to be one. Then the lake, and the brook which emptied into it, and on the other side, the maple wood, where sugar was made in the spring, when the Indians came down from the upper lakes.

In the winter the woods were filled with lumbermen, who camped only a mile or two from them, and through the summer they amused themselves in ways you never dream of. And so the years went on, and little Betty, the youngest, came to be four years old.

It was August, a hot bright day, and the very height of the huckleberry season.

"Now, children, I want you to do your prettiest to-day," Mrs. Brewer said early in the morning. "If you want your fill of huckleberry-pie this winter, you've got to get me a bushel more afore they are gone."

"I found a place yesterday," said Jack. "I bet there's half a bushel anyhow. Put Betty down in the middle, an' she might fill a two-quart pail without getting up."

"Well bring home all you can," said the mother; "and here are your dinners in this little pail. Look out for Betty."

"She'll look out for herself; she's cute as an Injin this minute."

And Jack picked up his basket and started on, followed by Sarah and Betty in Indian file.

Five or six miles to the best huckleberry field would seem a long way to you, but the children's brown, bare feet never tired.

Before long, they passed a little lake, stopped there a moment to drink, and soon reached the opening where the berries grew thickest.

What with finding better and better places, and stopping sometimes to watch the scolding squirrels, and then to eat dinner, the day went swiftly by, and it was almost sunset when they turned toward home with heavy pails and basket. Betty lagged behind, for she ached with long stooping, and Jack and Sarah grew more and more impatient.

"Now, Betty, we'll just leave you if you don't hurry. You've got the littiest pail. Come along quick," said Jack.

"I can't. I won't go quick if I don't want to," and Betty half cried.

"Come along," said Jack, hurrying on; and Betty, indignant, sat down on a log, and waited till they were almost out of sight.

"I know the way just as well as they do," she thought, and walked on leisurely.

Jack turned once or twice, and seeing her following slowly, concluded she would soon overtake them, and went on.

Now and then Betty stopped, the last time till they were entirely out of sight, determined to show that she didn't depend upon them at all.

The shadows lengthened; the wood had never seemed so dark; and at last, a little frightened, Betty called loudly; "Jack! Jack!"

No answer save the echo, and now Betty ran on, hoping at every moment to see the two before her. She did not notice that she had taken a trail leading off from the one they had gone over in the morning, and only stopped on coming to a swampy spot she did not remember.

"O Jack!" she sobbed, turning once more, but now the darkness was coming in upon her. The forest was thick and close, and try as she would there was no finding another trail.

Overhead an owl hooted. She stumbled on, startled at the sudden sound, then tripping over a root in the way, spilling the berries all about, picked herself up, only to fall again; caught at the air as she felt herself going, rolled down a steep incline, and lay at the bottom in a little heap.

It was nearly eight o'clock when Jack and Sarah walked into the little house, and set their pails on the table.

"Where's Betty," said the mother.

"Just behind; she wouldn't come along with us."

And Mrs. Brewer, satisfied, told them to sit down and eat their suppers.

"Where's Betty?" said the father, presently coming in.

"She's coming; she wouldn't keep up with us," said Jack, privately, a little uneasy in his mind at her long delay.

"Then go out now and help her along in," said Mr. Brewer. "It's a poor way for a boy to do, to leave a little gal alone in the woods, even if she does know the way."

Jack, with a slice of bread in his hand, went out a little sulky, and Mr. Brewer stood in the door leading down to the trail. Half an hour went by.

"I don't see what's the matter," said Mrs. Brewer. "I'm sort of worried, John. Ain't you a mind to go out?"

For an answer, Mr. Brewer took his gun and started. For an hour or more Mrs. Brewer waited, growing more and more anxious. Then she walked down the trail, calling now and then, coming suddenly at last upon her husband and Jack.

"Here's Jack, done beat out," he said, "take him home, wife. I'm going for old Pierre Beauchamp. He knows every turn and crook of the woods. Keep the fire going, for it's a raw night, and the child'll be cold when we bring her in, and don't fret;" said Mr. Brewer turned down the old trail to Pierre's cabin.

I can hardly tell you how the night went by to the poor mother, waiting and watching, or to the poor father, with old Pierre, who scoured every foot of the woods on each side of the trail, and by the light of their pine knot torches scorched each hollow tree, thinking the child might possibly have crawled into them for shelter. They shouted and called; but morning dawned at last with no sign of Betty, and the father, exhausted and almost despairing, sank down under one of the tall pines, and hid his face in his hands. Suddenly he lifted his head.

"Dat vey," old Pierre said, as his quick ear caught a slight sound, and Mr. Brewer darted off to the left, but stopped short, and stood with such a ghastly face that old Pierre, too, paused a moment. Not a stone's throw from them flowed a wide deep creek, one of the tributaries of Gull Lake, and crossed here by an old log thrown over it long ago by the Indians. A white birch grew by its side, and under it lay Betty, resting partly against a huge brown bear, apparently asleep. At the slight crackling in the brush it raised its head and growling low, put one paw on the child's dress; then, as if scenting danger, turned about, saw the two faces looking toward it, and with a fierce loud growl caught Betty in his mouth and started towards the log.

"Vat you do? Vat you do?" said old Pierre as Mr. Brewer levelled his gun. "You shoots now and mads de bear, den de child all gone; vait one minute. Hold you still — not cry; keep you mooch quiet!" he called to Betty; "Not be feared if you falls in de vater."

As he spoke the bear had reached the middle of the log, and turned now to see if he was followed. The small, fierce eyes rested a second on the pair, and in that second old Pierre, the best shot in Minnesota, fired. Without a struggle or sound, the bear reeled from the log to the dark water below, and in one moment Mr. Brewer had dashed in and seized the screaming child.

"De prettiest shot dis bon gun did ever fire," old Pierre shouted, hugging his gun and dancing wildly about, while Mr. Brewer hugged Pierre and the gun and Betty all at once, and then ran on toward home, forgetting all weariness in this great joy.

There was a happy family that day, as sitting about the bed where Betty lay in state, they tried to make her tell when the bear came to her and how she felt.

"I rolled 'way down somewhere," said Betty "and sort of went to sleep, and then I cried when I woke up because I was all scratched and smarty. Then I heard somefin comin,' an' didn't cry any more, an' it came and snuffed all round me. I thought maybe it would eat me up, but I couldn't cry, only I sort of whispered, 'Now I lay me,' an' it kep' smelling me. Then it lay down and licked me. It's tongue was all rough and scratchy; it hurt me. But when I tried to get away it growled. Then I kept still, and was so tired, and we went to sleep, an' I didn't remember till it picked me up an' made me cry, coz the teeth pinched me, 'an then I heard Pierre holler, and you got me out 'o the water."

Do you think this can't be true, boys and girls? I know it is, for Betty herself told me the story. She is living still, and if you are very anxious to find out her real name, write to me and I will tell you.—*Hearth and Home.*

Consumption.

ITS CURE AND ITS PREVENTIVE,

By J. H. SCHENCK, M. D.

Many a human being has passed every, for whose death there was no other reason than the neglect of known and indisputably proved means of cure. These men and dear to family and friends are sleeping the dreamless slumber into which, had they calmly adopted

Dr. JOSEPH H. SCHENCK'S SIMPLE TREATMENT,

and availed themselves of his wonderfully efficacious medicines, they would not have fallen.

Dr. Schenck has in his own case proven that wherever sufficient vitality remains, life and vitality by his medicines and his directions for their use, is quickened into healthful vigor.

In this statement there is nothing presumptuous. To the faith of the invalid is made no representation that is not a thousand times substantiated by living and visible works. The theory of the cure by Dr. Schenck's medicines is as simple as it is unfailing. Its philosophy requires no argument. It is self-assuring, self-convincing.

The Seaweed Tonic and Mandrake Pills are the first two weapons with which the citadel of the malady is assailed. Two-thirds of the cases of consumption originated in dyspepsia and a functionally disordered liver. With this condition the bronchial tubes "sympathize" with the stomach. They respond to the horrible action of the liver. Here, then comes the culminating result, and the setting in, with all its distressing symptoms, of

CONSUMPTION.

The Mandrake Pills are composed of one of Nature's noblest gifts—the Podophillum Peltatum. They possess all the blood-accreting, alterative properties of calomel, but unlike calomel, they

"LEAVE NO STING BEHIND."

The work of cure is now beginning. The vitiated and mucous deposits in the bowels and in the alimentary canal are ejected, the liver, like a clock, is wound up. It arouses from its torpidity. The stomach acts responsively, and the patient begins to feel the appetite of a child.

A SUPPLY OF GOOD BLOOD.

The Seaweed Tonic, in conjunction with the Pills, permeates and assimilates with the food. Chylification is now progressing, without its previous torpidity. Health becomes manifest. Strength is seen to be at hand. There is no more flatulence, no exacerbation of the stomach. An appetite sets in.

Now comes the greatest blood purifier ever yet given by an indulgent father to suffering man. Schenck's Pulmonic Syrup comes in to perform its functions and to hasten and complete the cure. It enters at once upon its work. Nature cannot be cheated. It cicatrizes and throws the diseased and diseased portions of the lungs. In the form of gatherings it prepares them for expectoration, and so! in a very short time the lungs are vacuolated, the rotten throne that it occupied is renovated and made new, and the patient, in all the dignity of regained vigor, steps forth to enjoy the manhood or womanhood that was

GIVEN UP AS LOST.

The second thing is, the patients must stay in a warm, room, until they get well; it is almost impossible to get well if exposed to cold when the lungs are diseased, but it must be prevented or a cure cannot be effected. A very common error, especially in this section of the country in the fall and winter season, are all wrong. Physicians who recommend that course lose their patients and their cure. Are badly diseased; and yet, because they are in the house they cannot get well. Many persons can walk about the room as much and as fast as the strength will bear, to get up a good circulation of blood. Fresh air is necessary, and good food. Quiet must be determined to get well. This has a great deal to do with the appetite, and is the great point to gain.

To close the cure, Schenck's Mandrake Pills are invaluable in the worst cases, and moral certainty in all others as well. Dr. Schenck has given strict statement to the Faculty of his own cure was in these modest words:

"Many years ago I was in the last stages of consumption: confined to my bed, and at one time my physicians thought that I could not live a week, then they ceased my case, and gave me up to die. I heard of, and obtained the preparations which I now offer to the public, and they made a perfect cure of me. It seemed to me that I could feel them penetrate my whole system. They soon ripened the matter in my lungs, and I would spit up more than a pint of offensive yellow matter every morning for a long time. As soon as that began to subside, my cough, fever, night sweats and night sweats all began to leave me, and my appetite became so great that it was with difficulty that I could keep from eating too much. I soon gained my strength, and have grown in flesh ever since."

"I was weighed shortly after my recovery," added the Doctor, "then looking like a mere skeleton; my weight was only ninety-seven pounds; my present weight is two hundred and twenty-five (225) pounds, and for years I have enjoyed unintermitted health."

Dr. Schenck has discontinued his professional visits to New York and Boston. He or his son, Dr. J. H. Schenck, Jr., still continue to see patients at their office, No. 15 North Sixth street, Philadelphia, every Saturday from 9 A. M. to 3 P. M. Those who wish a thorough examination with the Respirometer will be charged $5. The Respirometer decides the exact condition of the lungs, and patients can readily learn whether they are curable or not.

The directions for taking the medicines are adapted to the intelligence even of a child. Follow these directions, and kind Nature will do the rest, excepting that in some cases the Mandrake Pills are to be taken in increased doses; the three medicines need no other accompaniments than the simple instructions that accompany them: First, cultivate appetite. Of returning health hunger is the most vociferous symptom. When it comes, as it will come, let the demand be at once be of good chest. Good blood at once follows, the cough loosens, the night sweat is abated. In a short time both of these morbid symptoms are gone forever.

Dr. Schenck's medicines are constantly kept in tens of thousands of families. As a laxative or purgative, the Mandrake Pills are a standard preparation: while the Pulmonic Syrup, as a cure of coughs and colds, may be regarded as a prophylacteric against consumption in any of its forms.

Price of the Pulmonic Syrup and Seaweed Tonic $1.50, a bottle, or $7.50 a half dozen. Mandrake Pills, 25 cents a box. For sale by all druggists and dealers.

CARD.

Having become satisfied after thorough investigation that Elastic Sponge, as now and lately manufactured, is one of the best of all substitutes for curled hair, for many if not most uses in upholstery, we have accepted the Agency for it, and intend to make it hereafter a speciality in our business. The objections which been made to it and which it is well known we ourselves have thought were well founded, we have ascertained cannot be urged against the article as now perfected. The process of manufacture has been entirely remodeled under the advice and superintendence of the gentleman who first introduced it in New England. New chemical and mechanical appliances have been introduced in cleansing crude Sponge, and in charging it with glycerine with such entire success, that Elastic Sponge may now be said to be chemically pure. There is absolutely nothing in it but the clean fibre of Sponge and chemically pure glycerine.

The objections to Elastic Sponge being thus removed there remain its undisputed merits which certainly entitles it to be considered, in the opinion of most valuable, as it is one of the most curious and interesting of late discoveries. Chief among these merits is, that it is proof against moths—the great scourge of the business,—against all other insects. Then its elasticity is permanent, based as it is upon the non-evaporable property of glycerine and the indestructibility of sponge fibre. We have always been satisfied upon these two points which are the essential requisites in such materials. The evidence is now equally clear that it is wholesome and sweet. It is very light and soft, easy to manipulate, and cheap enough for all except the lowest class of goods. For the cushioning of Churches, Theatres, Public Halls, Railway Stations, Omnibuses, Carriages, Steam and Horse Cars and the like, it will probably be found, everything considered, the best article in use. For all uses, and especially for Bedding, we are now prepared to recommend the public to give it a fair trial as we ourselves intend to do. We are are ready also to answer inquiries, make estimates and take orders for every description of work in Sponge as well as to supply the trade the article in Bales.

FRIDAY, JUNE 30, 1871.

THE LEGISLATURE.

In the Senate, June 28, the bill to amend the city charter of Manchester came up, and Mr. Fling raised a point that Senator Holbrook of Manchester could not vote on the question on account of personal interest and bias. The president took time to consider the question.

In the House, leave was granted on petition to unite the Great Falls and Cocheco Railway, and a resolution to transfer the State's interest in the Gettysburg cemetery to the United States, to withdraw.

The committee on judiciary reported it inexpedient to legislate on the prohibitory law.

The homestead bill was taken from the table and indefinitely postponed by a vote of 226 to 60.

Mr. Tucker of Pittsfield moved an address to the governor for the removal of the judge of probate and register of probate of Merrimack county.

In the Senate, Thursday, Senator Fling of Bristol withdrew his motion to disfranchise Senator Holbrook of Manchester from voting on the bill to establish new Ward boundaries in Manchester. That bill now lies on the table, where it is quite probable it will remain.

It is rumored that the Democrats are inclined to back down from their proposed attempt to remove Senator Smith.

In joint Convention of both Houses, a ballot for Railroad Commissioner resulted as follows: Dauphin W. Buckminster, Rep., of Keene, had 162; David Gilchrist, Dem., of Franklin, 168, and was elected for three years.

For Secretary of State, Nathan W. Gove of Concord, Republican, had 162; John H. Goodale, Asst. Dem., of Nashua, had 166, and was chosen.

For State Treasurer, Leander W. Cogswell, Ass't Dem., 271, scattering 36.

For State Printer, James M. Campbell of the Manchester Union, Dem., had 168; Orren C. Moore, Repub., 160.

For Commissary General, Andrew J. Bennett, Dem., had 145; Scattering 36.

CONCORD, June 29.

Most of the forenoon was consumed in the election of State officers; the proceeding was far more dignified than on former occasions. The ballots were collected by the doorkeepers, the hall being cleared of outsiders. The rostrum was occupied, not as on former occasions by members of Congress, Democratic Committeemen and the like, but by the President of the Senate, the Speaker, and Messrs. Hackett and Page, the tellers. The Candidates of the Democrats and Labor Reformers were elected by close votes.

The Com. on Elections reported this morning in favor of Messer of Northwood (Dem.) and Caswell of Gosport (Rep.) holding their seats.

In Ward Two the Committee find that there were but ratable polls enough for three representatives. The democrats desired the delegation to agree upon one of their number to be unseated. Mr. Hackett at once placed his resignation in the hands of the speaker, to be presented in case the report should be adopted, but the Committee finding that the only vacancy likely to occur was by the resignation of Mr. Hackett, who declined to remain the fourth representative after his Ward was declared to be entitled to but three, determined to vote upon the two questions, 1st, shall all be sent home? 2d, what member shall be designated, if one is sent? The first proposition was negatived, and on the second the Committee examined the credeatials and selected Mr. Flagg as the victim, Mr. F., by reason of the misprint of the initial of his middle name, receiving last March four votes less than Mr. C. H. Sides. The hearing in Ward One case will doubtless be conducted Thursday evening.

Mr. Hackett appeared before the Special Committee on the sale of Medicines and Poisons on Wednesday and Thursday afternoons, in behalf of the Apothecaries of Portsmouth, who were dissatisfied with the bill. Col. Tappan also appeared in behalf of some of the Concord druggists. The bill was severely criticised, and in its present shape cannot possibly pass. Mr. Hackett advocated its postponement to the next legislature. Some of the Committee wanted Mr. Hackett to have the Portsmouth Pharmists at Concord on Thursday morning, to state their objections, but Mr. H. required more time and denied that the bill could be perfected this session. It is beginning to raise a clamor all over the State.

POLITICAL.

Reports from Ohio indicate the certain triumph of the Republican party in the coming State election. There is unbounded enthusiasm for the ticket nominated by the convention, and entire harmony prevails. The Democratic new departure in that State appears to be buried with its unfortunate author and director, Mr. Vallandigham. No personal feuds will disturb the Republican canvass, as all who went into the convention accept its decision, and those who wanted to get in and could not are too few to do any harm.

Remarking on the character of the assurances of safety at the South held out by Forrest and others, to wit: that no man is in danger so long as he behaves himself, *i. e.*, when he has no political opinions contravening those held by his native fellow citizens, the N. Y. Tribune is reminded of the assurance of a Mississippi steamboat Captain to Dr. Russell in reply to the question whether traveling was not dangerous on the river. "Not a mite of danger," said the candid mariner. "only you've got to be spry with your weepins."

The next State election to be held is that of Keptucky, on Monday, August 7th, at which a governor and other State officers will be chosen.

The Missouri Democrat (Republican) favors choosing the President directly by the people, without the intervention of electors and the electoral colleges.

The establishment of female suffrage in Wyoming is said to have brought political ruin upon all male candidates who are not good looking.

THE unterrified Democracy, in their mortal terror lest they may not be able to push through the Legislature their schemes for overturning the judiciary and so gerrymandering town and district boundaries that the State Legislature will be copperhead next year against a large actual majority for the Republican party, have thrown aside all pretense to honor and decency, and are resorting to the most desperate pettifogging to carry their party measures—all thoughts of attending to the interests of the State having long ago slipped their minds, if indeed such thoughts were ever entertained by them. At a meeting of the sachems of the Democratic party at Concord, June 28, it was informally decided to bring charges of bribery, duress and undue influence against Senator Smith before the Senate; pending action on these charges Judge Smith would be suspended, and meanwhile good copperhead measures could be pushed through. This plan Bingham thought would make him master of the situation; but the copperhead leaders appear to have at the last shrunk from perpetrating so outrageous a piece of political scoundrelism as charging an honorable man with corruption merely because they were themselves unable to bully or bribe him, for they have not yet made the proposed attack.

The Portland & Rochester R. R. is completed to the track of the G.F.& C. road and an engine passed over it for the first time on the 24th.

Rev. Charles E. Sawyer, Universalist clergyman of Claremont, his wife and her father were drowned in the Connecticut River at Ashley's ferry, between Claremont and Weathersfield, Vt., June 28. The bodies were recovered about four o'clock. Mr. Sawyer commenced to preach the first Sunday in May, and was married the sixteenth of May. They had been out for a ride, and were returning by way of the ferry. It is generally supposed they mistook it for a ford, and attempted to drive across. The horse was also drowned.

At the coroner's inquest on the body of Mr. Berry, the engineer killed by the recent collision on the Maine Central Railroad, Mr. Merrill, the conductor of the accommodation train, testified very frankly and honestly that it was his neglect that caused the accident; that he had some trouble with a passenger on board who refused to pay his fare, causing him to forget that the train was not running on its usual time, and at Hallowell he signalled the engineer to proceed. He thought of the mistake an instant before the alarm was sounded. The testimony of all the witnesses is unmistakable in fixing the fatal blunder entirely upon Merrill, who was running his train when the accommodation train plainly had the right of way. The young man is greatly dejected, feeling keenly the heavy blunder that rests upon him. In accordance with the evidence, the coroner's jury found that Merrill was to blame, and that "the only apparently extenuating feature revealed by the investigation was the trouble that took place on the train which he managed, between Mr. Merrill and a refractory passenger who used abusive language and refused to pay his fare, thus throwing him off his guard and causing him to forget to remain at Hallowell as he should have done, until the arrival of the accommodation train from Gardiner, which was then nearly due. Mr. Merrill's inexperience in running heavily-loaded passenger trains is also acknowledged to have considerable weight in the minds of the jury. We also find that no blame can be attached to the managers of the Maine Central Railroad or any other individual connected with the company."

ALTHOUGH last fall Governor Schaffer forbid the Nauvoo Legion from drilling, the Mormon lieutenant-general has ordered them out for the 4th of July. Governor Woods, who is temporarily absent from the territory, refused before leaving to give his assent to this proceeding.

SPECIAL NOTICES.

The Universal Safeguard.

It is useless for State Legislatures to pass laws for the preservation of the public health, if the great law of self-preservation which depends for its enforcement upon the will of the individual, is suffered to remain a dead letter.

There is scarcely an adult member of the community, of either sex, in the country, who has not seen the testimony in favor of HOSTETTER'S STOMACH BITTERS, furnished over their own signatures by persons of acknowledged eminence in science, literature, art, commerce, and every department of business and professional life. These witnesses have declared in the most explicit terms that the preparation is a safeguard against epidemics, a sovereign remedy for dyspepsia, a valuable antibilious medicine, a promoter of appetite, a genial and harmless stimulant, a good acclimating medicine, a strengthener of the nerves, a general invigorant, a protection against the deleterious effects of malaria and impure water, and that it imparts a degree of vigor and activity to the vital forces which is not communicated by any other of the tonics and stomachics in use. Under these circumstances the self-preservative law of nature should teach every rational person who, either by reason of inherent debility or in consequence of exposure to unwholesome influences, is in peril of losing the greatest of all temporal blessings, health, the importance of using the Bitters as a defensive medicine. Dyspeptics who neglect to give it a trial are simply their own enemies. It is guaranteed to cure indigestion in all its forms, and the billious and nervous will find nothing in the whole range of officinal and proprietary medicines which will afford them the same relief.

AMERICAN & FOREIGN PATENTS.
R. H. EDDY,
SOLICITOR OF PATENTS,
For Inventions, Trade Marks or Designs,
NO. 76 STATE ST., OPPOSITE KILBY ST., BOSTON,
After an extensive practice of upwards of thirty years, continues to secure patents in the United States; also in Great Britain, France and other foreign countries. Caveats, Specifications, Assignments, and all papers for Patents, executed on reasonable terms with dispatch. Researches made to determine the validity and utility of patents of inventions, and legal and other advice rendered in all matters touching the same. Copies of the claims of any patent furnished, by remitting one dollar. Assignments recorded in Washington.
No Agency in the United States possesses superior facilities for obtaining Patents or ascertaining the patentability of inventions.
All necessity of a journey to Washington to procure a Patent and the usual great delay there, are here saved inventors.
TESTIMONIALS.
"I regard Mr. Eddy as one of the most *capable and successful* practitioners with whom I have had official intercourse. CHARLES MASON, Commissioner of Patents."
"I have no hesitation in assuring inventors that they cannot employ a man *more competent and trustworthy* and more capable of putting their applications in a form to secure for them an early and favorable consideration at the Patent Office. EDMUND BURKE, Late Commissioner of Patents.
"MR. R. H. EDDY has made for me over THIRTY applications for Patents, having been successful in almost every case. Such unmistakable proof of great talent and ability on his part leads me to recommend ALL inventors to apply to him to procure their Patents, as they may be sure of having the most faithful attention bestowed on their cases, and at very reasonable charges.
JOHN TAGGART."

CHAS. E. SHEDD & Co. offer bargains in their new advertisement to-day. They have secured the services of Mr. Horace E. Frye and intend doing a large business in gentlemen's furnishing goods.

THE Piscataqua Base Ball club of Kittery went to Newburyport on Wednesday, to play a game with the Mutuals of that city, and came within 11 runs of winning, the score at the close standing Mutuals 48, Piscataquas 38.

A pair of runaway horses attached to a carriage, belonging to Mr. Henry R. Stoddard, smashed two large window panes in Thacher's drug store, corner of Congress and Vaughan Streets, Thursday morning. One of the horses received a slight cut on the lip.

THE strawberry festival of the ladies of the Methodist Society, at Congress Hall this evening, will be one of the most successful affairs of the kind for the season. In addition to the attractions already announced there will be first rate music, Harlow's Band having volunteered their services.

THE City Marshal warns all owners of dogs that on or before July 1st is the time to renew dog licenses, and that a failure to attend to such renewal will be likely to cost canine lives. The Marshal has no option in the matter, as it is his imperative duty to have destroyed all unlicensed dogs found running at large within the city limits.

THE following resolution was passed at a recent meeting of the directors of the Portland, Saco & Portsmouth Railroad Company:

Resolved, That this Board desires to express its grateful appreciation of the services of Hon. Ichabod Goodwin, as President of the Portland, Saco & Portsmouth Railroad Company for the period of twenty-three years,—and its gratification that though claiming the right to retire after so long term of service from the active administration of an officer, he still consents to give us the benefit of his judgment and experience as a member of this Board.

WE respectfully decline to amend our statement regardinging the ratable polls of the 2d Ward to please Snarleyow. We said there were 1197 ratables on the list and that it was evident to *honest* men that the Ward has nearly 200 more ratables than is necessary for the present representation. Of the list furnished the Election Committee last week to be stricken off, there were just 38 in which there was not proof sufficient to retain them. There were 80 belonging on the list, that were not on; 1050 being necessary for four Representatives, there was a surplus of 189 ratables in this Ward last March. If that isn't nearly 200—it isn't, that's all.

THE private boarding house just put up at Rye Beach by G. H. Jenness, Esq., was duly opened, inspected and pronounced worthy of occupation, on the 27th, by a jolly party of gentlemen, most of whom were M. Ps. The new House is a model. It contains 27 rooms nicely furnished with all the modern conveniences. They are large, the halls are roomy and the stairs and staircases wide. From the cupola the party had a fine view of the sea coast, 50 miles in extent.

Mr. Jenness' cider was a subject of admiration. It gave strength to the entire party in the three pin game at the bowling alley, in which W. Scott Smith (of many newspapers) led the van. The set-to at the table between the immortal "Buggins" and "Dan" of base ball fame, each being modest in getting outside of the choice viands at hand, was considered drawn. To people wishing quietness, neatness, nice cooking and general comfort we can recommend no better arrangement than to place themselves in the hands of Mr. and Mrs. G. H. Jenness.

—The business transacted in the Senate was of little interest except when a resolution was suddenly sprung by a Republican, that the Senate adjourn on Saturday next. It was a mere trick, and as such was opposed by Senator Marcy and others; but *owing to a misunderstanding of the case*, one of the Democratic Senators voted for it and it was sent to the House.—*Daily Evening Lyre, 27th.*

On the assembling of the Senate a concurrent resolution was introduced fixing on Saturday, July 1st, for the final adjournment of the Legislature. The proposition seemed so sensible and judicious that it received the full republican strength and the vote of Senator Cram besides. The other Democrats of the Senate were caught napping, and *they tried to persuade Senator Cram to move a reconsideration; but he was as firm as a rock.—Nashua Telegraph, 27th.*

Correspondence.

KITTERY, ME., June 29.

The social levee and Strawberry Festival held at Armory Hall on Tuesday and Wednesday Evenings, under the auspices of the Universalist Ladies' Aid Society, for furnishing the new Chapel, was a complete success, the society realizing the handsome sum of about $180. The Universalist Society of Portsmouth was so largely represented the first evening as to quite overcome Kittery, and having things about her own way, Portsmouth made a merry time indeed of it, aided not a little in their pleasantry by the Portsmouth Cornet Band. No evening of public entertainment ever closed in this place over more substantial evidences of pleasure and universal good feeling towards all, then did that of Tuesday night. Wednesday evening was made particularly interesting to the children, tableaux, singing and a magic lantern exhibition being the chief sources of amusement. In the distribution of the gifts, the Cake presented by Mrs. Charles Mendum of Portsmouth fell to Mrs. Leonard Jenkins and Saml. Buxton; the Smoking Case, to Stephen Shaw, Esq., the Vases to Mr. John A. Knox of Portsmouth, the Toilet Set to Mr. Geo. B. Adams, the Tea Set to Mr. Stephen Quin, the Glass Set to Miss Lottie Appleton, and the Plant (given by John Rogers, Esq.,) to Mr. Charles E. Otis of Portsmouth. The Ladies' Aid Society feel under great obligation to the many friends who have aided them in their successful entertainment, particularly to the Portsmouth Cornet Band for their liberal considerations, Mrs. Dr. Riley for contributions of beautiful bouquets, and John Slater, Esq., for the use of his Magic Lantern.

Yours, M. V. B. S.

DR. PEABODY, of Harvard College, thinks a good physician is an unspeakable blessing to a community, but that many enter the medical profession with the best purposes, whose most appropriate record is written in the bills of mortality.

THE "Battle of Dorking," which England appears to be rapidly drifting into, pleases the Germans immensely. A letter in the Allgemeine Zeitung recommend Kaiser Wilhelm to invade and conquer England as did his namesakes of Normandy and Orange, pension Queen Victoria, give Wales annuity and an eulogium in the London Times.

—An Iowa paper says: "The long train of covered wagons pouring in from the East and drifting Westward is one hundred per cent. greater this year than in any previous year since we have been in Iowa."

—The dream of an ocean pier at Long Branch is about to be realized. Engineers are now upon the ground selecting a location. The pier will be of iron, 1200 feet long, and throughout the first one thousand feet it will be 30 feet wide. The last two hundred feet will have a width of 100 feet, and on it will be a pavilion and parlors having accommodations for 2000 persons.

THE NEW ORLEANS, MOBILE & TEXAS RAILROAD COMPANY

Are building a trunk line, connecting New Orleans with Mobile on the east, and giving

THE ONLY RAILROAD CONNECTION

between the former city and the great and most productive State of Texas of the west, the total distance from Mobile to Houston being 475 miles.

The Company is composed of strong Northern capitalists, who have already expended nearly **TEN MILLION DOLLARS** of their own funds in the construction of the line. They have built about 225 miles from Mobile westward, and secured by purchase of securities and made provision for the thorough repair and equipment of the 108 miles of the Texas division; leaving but 140 miles to be built

To Complete the Entire Road.

It is believed that no other railroad corporation in the country has ever made so large an expenditure from its own means before offering any of its securities to the public.

The Company now offer for sale the

Eight Per Cent. Mortgage Bonds

upon the Louisiana division of 226½ miles from New Orleans to the Sabine River. This will probably be the most valuable portion of the whole line, as it will be the only rail communication by which the enormous productions of Texas can reach the Southern metropolis.

So important is this road considered to Louisiana, that the State has made very liberal grants in aid of the enterprise, by direct donations, by endorsement of its bonds, and by subscriptions to the stock of the Company, amounting in all to over eight million dollars.

The Bonds now offered are of two classes:

FIRST MORTGAGE BONDS,

to the amount of $12,500 per mile, and

SECOND MORTGAGE BONDS,

to an equal amount, both principal and interest guaranteed by the State of Louisiana. The price of the two classes is the same, and subscribers can take their choice.

The Bonds are only in the denomination of $1,000, or £200 each, interest payable January and July, at the rate of eight per cent. currency in New York, or seven per cent. gold in London, at the option of the holder, at the time each coupon is due. Bonds can be registered, if desired.

No better security has been offered to investors. The Bonds are largely profitable, as well as entirely safe. One thousand dollars invested in these eight per cent. bonds will give the purchaser *more than seventy-seven per cent.* greater annual interest than the same amount invested in the new Government Five Per Cents.

At the same price, as 8 per cent. currency long bond is far cheaper than a 7 per cent. gold one. Calculating a return to specie payment in three years, and taking the time that the bonds of the New Orleans, Mobile and Texas Railroad have to run—45 years—we find that by compounding the interest of each, every six months, at 7 per cent. **an S per cent currency bond at 90 will give a return of $2,614.18 MORE than a 7 per cent. gold bond, at the same price, or nearly three times the amount of the original investment.**

The Bonds are dated May 1, 1871. The first coupon will, therefore, be a fractional one, running from May 1 to July 1. The price is 90, and accrued interest at 8 per cent. currency from May 1st to date of remittance.

Subscriptions will be received in Portsmouth by

First National Bank.

Information concerning the Company and the Road, and pamphlets containing map and full details of the enterprise, can be obtained of the undersigned or any of the Company's advertised agents.

NEW FIRM!
INSURANCE BUSINESS

The Subscribers having purchased the "Business and Goodwill," of
The Old and Well Established Insurance Company of JOHN S. HARVEY,
have this day formed a co-partnership, under the firm name of
MORSE & ILSLEY,
for the purpose of carrying on the Insurance Business in all its branches. They trust, by industry, integrity and good judgment, to merit the approbation of all the old patrons of the office, and to receive a good share of new business.

MR. HARVEY will still take a lively interest in the Companies for which he has so long and faithfully worked, and he is authorized to receive applications for Insurance in said Companies as our Agent.

JOSEPH P. MORSE,
WINGATE N. ILSLEY.
Portsmouth, May 1, 1871.

A CARD.

HAVING disposed of my Insurance Business to JOSEPH P. MORSE and WINGATE N. ILSLEY, two gentlemen well known for their integrity and business capacity, I return my thanks to my old and constant patrons and friends, for their many favors, and earnestly recommend my successors, trusting the same generous patronage will be extended to them as to myself. They represent some of the oldest and most reliable Companies in both Fire and Life Insurance in the Country.
m15 **JOHN S. HARVEY.**

Morning Chronicle.

THE Navy department has received the following account of further fighting in the Corea, from Adm. Rogers:—"The Coreans not apologizing for their treacherous attack, on the 10th of June we landed on Hong Hoa, took and destroyed the lower forts and the munitions. On the 11th we took another fort, and then stormed and captured the stronghold. Five forts have been taken. The troops which defended them are reported as numbering eleven thousand. There was desperate hand-to-hand fighting in the citadel. The ordnance was destroyed. Four hundred and eighty-one pieces (principally brass), very many small arms and fifty flags were taken. We counted 243 dead Coreans around the citadel. We had three killed. They were the gallant Lieutenant McKee, who was the first inside the citadel, killed with bullet and spear; marine Dennis Hanrahan and landsman Seth Allen. Our nine wounded are all out of danger and doing well." The British foreign office has received the following confirmatory despatch:—"The American expedition has gained a victory over the Coreans on Hong Hoa Island. The Corean stronghold was captured and destroyed. The Coreans made a desperate defence, losing 500 in killed and wounded. The loss of the Americans was one officer and two men killed and seven wounded."

THE Ku-Klux investigating committee is still examining witnesses in Washington, but a sub-committee will go South in a few days. The postmaster of Meridian, Miss., and Gen. Fort Pillow Forrest, the confederate butcher, testified June 27. The Postmaster's evidence was that the Meridian riot and other outrages committed last year were Ku-Klux affairs; while the butcher says that everything is altogether lovely in Tennessee, and has been so since 1868. As to outside evidence, Senator Robinson of South Carolina says he has heard of no recent outrages in his State, and thinks a much better state of feeling prevails there than heretofore. A petition for protection has been received by the government from sixty-three citizens of Dublin, Ala., setting forth that their lives and property are wholly insecure, and the civil authorities powerless to protect them from the Ku-Klux bands. There's a little disrepepsy somewhere.

—A judge in Washington who has displeased the Star of that city by excluding its reporters from his court is called "Old Necessity," on the ground that "necessity knows no law."

Chicago, Rock Island, and Pacific Railroad Company.

600,000 ACRES

CHOICE IOWA LANDS.

This Company is now offering for sale about six hundred thousand acres of the finest agricultural lands in the West. The Company sells only to actual settlers, and the prices are exceedingly reasonable, ranging from $8 to $15 per acre—the average being about $8. The greater part of these lands are situated along the line of its railroad between the cities of Des Moines and Council Bluffs, and are in the most accessible and fertile region in the State.

Sales made for cash or on credit long enough to enable any industrious man to pay for the land out of its crops.

These lands are held under a title direct from the General Government, and are not mortgaged or encumbered in any way. Full warranty deeds given to purchasers.

For maps, pamphlets, or any other information respecting them, address EBENEZER COOK, Land Commissioner, Davenport, Iowa.

EXPLORING TICKETS are sold at the Company's ticket offices at Chicago, and all other principal stations on its line, and if the purchaser buys land the amount paid for the ticket is applied on the purchase money.

A GREAT MEDICAL DISCOVERY!

DR. WALKER'S CALIFORNIA VINEGAR BITTERS,

Hundreds of Thousands Bear Testimony to their Wonderful Curative Effects.

WHAT ARE THEY!

THEY ARE NOT A VILE FANCY DRINK, Made of Poor Rum, Whiskey, Proof Spirits and Refuse Liquors doctored, spiced and sweetened to please the taste, called "Tonics," "Appetizers," "Restorers," &c., that lead the tippler on to drunkenness and ruin, but are a true Medicine, made from the Native Root and Herbs of California, free from all Alcoholic Stimulants. They are the GREAT BLOOD PURIFIER and a LIFE-GIVING PRINCIPLE, a perfect Renovator and Invigorator of the system, carrying off all poisonous matter and restoring the blood to a healthy condition. No person can take these Bitters according to direction and remain long unwell, provided the bones are not destroyed by mineral poison or other means, and the vital organs wasted beyond the point of repair.

For Inflammatory and Chronic Rheumatism and Gout, Dyspepsia or Indigestion, Bilious, Remittent and Intermittent Fevers, Diseases of the Blood, Liver, Kidneys and Bladder, these Bitters have been most successful. Such Diseases are caused by Vitiated Blood, which is generally produced by derangement of the Digestive Organs.

DYSPEPSIA OR INDIGESTION, Headache, Pain in the Shoulders, Coughs, Tightness of the Chest, Dizziness, Sour Eructations of the Stomach, Bad taste in the Mouth, Bilious Attacks, Palpitation of the Heart, Inflammation of the Lungs, Pain in the regions of the Kidneys, and a hundred other painful symptoms, are the offspring of Dyspepsia.

They invigorate the stomach and stimulate the torpid liver and bowels, which render them of unequalled efficacy in cleansing the blood of all impurities and imparting new life and vigor to the whole system.

FOR SKIN DISEASES, Eruptions, Tetter, Salt Rheum, Blotches, Spots, Pimples, Pustules, Boils, Carbuncles, Ring-Worms, Scald Head, Sore Eyes, Erysipelas, Itch, Scurfs, Discolorations of the Skin, Humors and Diseases of the Skin, of whatever name or nature, are literally dug up and carried out of the system in a short time by the use of these Bitters. One bottle in such cases will convince the most incredulous of their curative effect.

Cleanse the Vitiated Blood whenever you find its impurities bursting through the skin in Pimples, Eruptions or Sores; cleanse it when you find it obstructed and sluggish in the veins, cleanse it when it is foul, and your feelings will tell you when. Keep the blood pure, and the health of the system will follow.

PIN, TAPE and other WORMS, lurking in the system of so many thousands, are effectually destroyed and removed. For full directions, read carefully the circular around each bottle, printed in four languages—English, German, French and Spanish.

FOR FEMALE COMPLAINTS, whether in young or old, married or single, at the dawn of womanhood or at the turn of life, these Tonic Bitters have no equal. Send for a circular.

They are a Gentle Purgative as well as a Tonic, possessing also, the peculiar merit of acting as a powerful agent in relieving Congestion or Inflammation of the Liver, and all the Visceral Organs. 1yrdawf&bl6

BOXING THE EARS.—Boxing the ears is an inexcusable brutality; many a child has been made deaf for life by it, because the "drum" of the ear is a membrane, as thin as paper, stretching like a curtain just inside the external entrance of the ear. There is nothing but air just behind it, and any violent concussion is liable to rend it in two, and the "hearing" is destroyed forever, because the sense of hearing is caused by the vibrations of this drum or "tympanum." Picking the ears is a most mischievous practice. In attempting to do this with hard substances, an unlucky motion has many a time pierced the India-rubber life preserver; nothing harder or sharper than the end of the little finger, with the nail pared, ought ever to be introduced into the ear, unless by a physician; persons are often seen endeavoring to remove the "wax" of the ear with the head of a pin; this ought never to be done; first, because it not only endangers the rupture of the ear by being pushed too far in, but if not pushed so far, it may grate against the drum, excite inflammation and an ulcer, which will finally eat all the parts away, especially if of a scrofulous constitution; second, hard substances have slipped in, and caused the necessity of painful, dangerous and expensive operations to fish or cut out; third, the wax is manufactured by nature to guard the entrance from dust, insects, and unmodified cold air, and when it has subserved its purpose it becomes dry, scaly, light, and in this condition is easily pushed outside by new formations of wax within.

Occasionally wax may harden and interfere with the hearing; but when this is the case it is the part of wisdom to consult a physician and let him decide what is the matter and what the remedy; if one cannot be had, the only safe plan is to let fall into the ear three or four drops of tepid water, night and morning; the saliva is better still, it is softer and more penetrating—but glycerine is far preferable to either; it is one of the best, blandest fluids in nature, and very rapidly penetrates the hardest wax, cools the parts, and restores them to a healthful condition. If, in a week, there is not a decided improvement in the hearing, medical advice ought to be had at once, as next to the eye, the ear is the most delicate organ of the body.

After an extensive practice of upwards of thirty years in the business of obtaining Patents in the United States; also in Great Britain, France and other foreign countries. Caveats, Specifications, Assignments, and all papers for Patents, executed on reasonable terms with dispatch. Researches made to determine the validity and utility of Patents of inventions, and legal and other advice pertaining to all matters touching the same. Copies of the claims of any patent furnished, by remitting one dollar. Assignments recorded in Washington.
No Agency in the United States possesses superior facilities for obtaining Patents or ascertaining the patentability of inventions.
All necessity of a journey to Washington to procure a Patent and the usual great delay there, are here saved inventors.
TESTIMONIALS.
"I regard Mr. Eddy as one of the most *capable and successful* practitioners with whom I have had official intercourse. CHARLES MASON, Commissioner of Patents."
"I have no hesitation in assuring inventors that they cannot employ a man *more competent and trustworthy* and more capable of putting their applications in form to secure for them the early and favorable consideration at the Patent Office. EDMUND BURKE, Late Commissioner of Patents.
"MR. R. H. EDDY has made for me over THIRTY applications for Patents, having been successful in almost every case. Such unmistakable proof of great talent and ability on his part leads me to recommend ALL inventors to apply to him to procure their Patents, as they may be sure of having the most faithful attention bestowed on their cases, and at very reasonable charge. Consumption,
ITS CURE AND ITS PREVENTIVE,
By J. H. SCHENCK, M. D.
Many a human being has passed away, for whose death there was no other reason than that he neglected or known and indisputably proved means of cure. Thus men and dear to family and friends are sleeping the dreamless slumber into which, and they calmly adopted
Dr. JOSEPH H. SCHENCK'S SIMPLE TREATMENT,
and availed themselves of the wonderfully effective medicines, that they could not have failed.
Dr. Schenck has in his own close present that wherever sufficiently persevered in, by his medicines and his directions for their use, is quickened into healthful vigor.
In this statement there is neither presumptuous. To the faith of the invalid is made no representation that is not a thousand times corroborated by his positive and visible works. The theory of the cure by Dr. Schenck's medicines is as simple as it is unfailing, its philosophy perfectly in accordance with Nature, self-convincing.
The Seaweed Tonic and Mandrake Pills are the first two weapons with which the citadel of the malady is assailed. Two-thirds of the cases of consumption originate in dyspepsia and functionally disordered liver. With this condition the bronchial tubes "sympathize" with the stomach. They respond to the morbific action of the liver. Here, then comes the culminating result, and the setting in, with all its distressing symptoms, of
"CONSUMPTION."
The Mandrake Pills are composed of one of Nature's noblest gifts—the Podophillum Peltatum. They possess all the blood-searching, alterative properties of Mercury, but Mercury, they
"LEAVE NO STING BEHIND."
The work of cure is now beginning. The vitiated and mucous deposits in the bowels and in the alimentary canal are ejected. The liver, like a clock, is wound up. It resumes healthy action. The stomach acts responsively, and the patient begins to feel that he is getting, at last,
A SUPPLY OF GOOD BLOOD.
The Seaweed Tonic, in conjunction with the Pills, permeates the entire system with healthy blood. Digestion is now progressing, without its previous tortures. Digestion becomes painless, and the cure is seen to be at hand. There is no more distressing, no exacerbation of the stomach. An appetite sets in.
Now comes the question, Should food similar to that given by an indulgent father to suffering man, Schenck's Pulmonic Syrup comes in to perform its functions and to finish the work of cure. It enters at once upon its work. Nature cannot be cheated. It collects and ripens the impaired and diseased portions of the lungs. In the form of gatherings it prepares them for expectoration, and lo! in a very short time the lungs are vanquished, the rotten throne that it occupied is renovated and made new, and the patient, in all the dignity of regained health, comes forth to enjoy the manhood or womanhood that was
GIVEN UP AS LOST.
The second thing is, the patients must stay in a warm room, until they get well; it is almost impossible to cure people who are in a room and are diseased, but it must be prevented or a cure cannot be effected. Fresh air and riding out, especially in this section of the country in the fall, winter and season, are all wrong. Physicians who recommend that course have their patients dying on their hands daily diseased; and yet, because they are in the house they must not sit down quiet: they must walk about from one place to another as their strength will bear, to get up a good circulation of blood. The patients must keep in good spirits—be determined to get well. This has a great deal to do with the appetite, and is the great point to gain.
To the cure of the most desperate cases of consumption in the worst cases, and moral certainty in all others, is sinful. Dr. Schenck's personal statement to the Faculty of his own case was in the following words:
"Many years ago I was in the last stages of consumption: confined to my bed, and at one time my physicians thought that I could not live a week; then also as a last resort I could not live a week, I heard of, and obtained the preparations which I now offer to the public, and they made a perfect cure of me. I coughed up quantities of matter, penetrate my whole system. They soon ripened the matter in my lungs, and I would spit up more than a pint of offensive yellow matter every morning for a long time. As soon as that began to subside, my cough, fever, pains and night sweats all began to leave me, and my appetite became so great that it was with difficulty that I could keep from eating too much. I soon gained my strength, and have grown in flesh ever since."
"I was weighed shortly after my recovery," added the Doctor," then looking like a mere skeleton; my weight was only ninety-seven pounds; my present weight is two hundred and twenty-five (225) pounds, and for years I have enjoyed uninterrupted health."
Dr. Schenck has discontinued his professional visits to New York and Boston. He or his son, Dr. J. H. Schenck, Jr., still continue to see patients at their office, No. 15 North Sixth street, Philadelphia, every Saturday from 9 A. M. to 3 P. M. Those who wish a thorough examination with the Respirometer will be charged $5. The Respirometer declares the exact condition of the lungs, and patients can readily learn whether they are curable or not.
The directions for taking the medicines are adapted to the intelligence even of a child. Follow these directions, and kind Nature will do the rest, excepting that in some cases the Mandrake Pills are to be taken in increased doses; the three medicines need no other accompaniments than the simple instructions that accompany them: First, create appetite. Of returning health hunger is the most welcome symptom. When it comes, as it will come, let the depurating at once and purify the blood. Good blood at once follows, the cough loosens, the night sweat is abated. In a short time both of these morbid symptoms are gone forever.
Dr. Schenck's medicines are constantly kept in tens of thousands of families. As a laxative or purgative, the Mandrake Pills are a standard preparation; while the Pulmonic Syrup, as a cure of coughs and colds, may be regarded as a prophylactic against consumption in any of its forms.
Price of the Pulmonic Syrup and Seaweed Tonic $1.50, a bottle, or $7.50 a half dozen. Mandrake Pills, 25 cents a box. For sale by all druggists and dealers.

CARD.
Having become satisfied after thorough investigations that Elastic Sponge, as now and lately manufactured, is one of the best of all substitutes for curled hair, for many if not most uses in upholstery, we have accepted the Agency for it, and intend to make it a specialty in our business. The objections which been made to it and which it is well known we ourselves have thought were well founded, we have ascertained cannot be urged against the article as now perfected. The process of manufacture has been entirely remodeled under the advice and superintendence of one of the most eminent chemists of New York. New chemical and mechanical appliances have been introduced in cleansing crude Sponge, and in charging it with glycerine with such entire success, that Elastic Sponge may now be said to be chemically pure. There is absolutely nothing in it but the clean fibre of Sponge and chemically pure glycerine.
The objections to Elastic Sponge being thus removed there remain its undisputed merits which certainly entitles it to be considered one of the most valuable as it is one of the most curious and interesting of late discoveries. Chief among these merits is, that it is proof against moths—the great scourge of the business,—against all other insects. Then its elasticity is permanent, based as it is upon the non-evaporable property of glycerine and the indestructibility of sponge fibre. We have always been satisfied upon these two points which are the essential requisites in such materials. The evidence is now equally clear that it is wholesome and sweet. It is very light and soft, easy to manipulate, and cheap enough for all except the lowest class of goods. For the cushioning of Churches, Theatres, Public Halls, Railway Stations, Omnibuses, Carriages, Steam and Horse Cars and the like, it will probably be found, everything considered, the best article in use. For all uses, and especially for Bedding, we are now prepared to recommend the public to give it a fair trial as we currently intend to do. We are are ready also to answer inquiries, make estimates and take orders for every description of work in Sponge as well as to supply the trade the article in Bales.

The Daily Chronicle.

Portsmouth, N. H.

SATURDAY, JULY 1, 1871.

THE LEGISLATURE.

In the Senate, on the 28th, a bill in amendment of the pamplet laws in relation to naturalization was passed.

Both Houses have passed bills to amend chapter 41, General Statutes, relating to mayors of cities, and to incorporate the Nashua Horse Railroad Company.

The House indefinitely postponed the bill to enable towns to refund to persons drafted the amounts paid for substitutes.

On the 29th, in the House, a resolution to appropriate $12,000 in aid of the State Agricultural College was discussed.

Mr. Roles, dem., of Ossipee moved an amendment that the sum be distributed among the school districts, as in his section nine or ten weeks' schooling was all they were able to give pupils for the year.

Mr. Tucker, Asst. Dem., would prefer to invest it in Bradley's superphosphate, and scatter it over the State.

The bill was passed to its third reading.

A bill allowing the Dover and Portsmouth Railroad to allow cities and towns on its route to guarantee 6 per cent. interest to the stock-holders, not to exceed 5 per cent. of their valuation, was debated up to the hour of adjournment, Mr. Parker of Fitzwilliam offering an amendment that a two-thirds' vote of the legal voters present and voting should be required to so bind the town. Mr. Trickey of Dover, Mr. Walker of Portsmouth, Mr. Putnam of Warren and Mr. Bingham opposed the amendment, and Mr. Baker of Dover and Mr. Page of Concord, favored it. In the course of his remarks, Mr. Page said at two-thirds' vote was required by the statute in such cases, and that to deviate from this was to abandon the democratic doctrine that a bare majority should not say where the minority's money should be invested. It had been thrown out that some powerful corporation was at the bottom of this amendment. He knew nothing of it, whether it was the Eastern or Boston and Maine railroads. Three times had this bastard been before the legislature within fifteen years. Twice had it sold its franchise to either one road or another, and now it appears again. He would like to know where it was this time? On a division the amendment was carried—110 to 109.

Mr. Bingham called for the yeas and nays, and on this motion the House adjourned.

On Friday, the House passed an address to the Governor for the removal of Hon. Hamilton E. Perkins of Concord from the position of Judge of Probate for Merrimack County, and also for the removal of Isaac A. Hill of Concord from the office of Register of Probate of the same county.

The House adopted the report of the Committee on Elections, stating that Origen S. Caswell, Republican, of Gosport, is entitled to a seat, and that John H. Flagg, one of the Republican members from Ward Two in Portsmouth, be unseated.

A majority of the committee on elections reported that Wm. W. Messer of Northwood (Democrat) was entitled to his seat in the House. The minority of the same committee presented their report that the said Mr. Messer was not entitled to a seat and should be returned home. After a long discussion the House voted not to unseat Mr. Messer.

It was agreed by both parties in the Judiciary Committee, Friday morning, that when the House adjourns this week it will be to Monday afternoon, when Mr. Fowler, Rep., and Mr. Page, Dem., both of Concord, will appear and favor an adjournment until Wednesday, at 5 P. M., as the House cannot adjourn beyond two days at a time; so no business will be transacted until Thursday of next week.

The Committee on Railroads have decided to report, 8 to 2, to postpone the question of granting a charter to the Nashua, Manchester & Concord Railroad to the next Legislature; also, 7 to 3, to report a bill for the Nashua & Acton Railroad.

IN New Orleans, a resolution authorizing the construction of works for the protection of the levee along the lake shore has been vetoed by the mayor and the veto sustained. This was a $3,000,000 job. It is said a better protection of the city from overflow can be made for $100,000.

THE Italian Senate has ratified the treaty of commerce with the United States, and also bills making a provision for public safety, and for the unification of the pontifical debt.

No richer piece of political trickery has been tried on by the Democratic fuglers at Concord this season (which is saying a good deal) than the attempt to prevent Mr. Holbrook of Manchester from voting on the question of altering the Ward boundaries of that city, on the ground that he was an interested party! (Why not prevent each citizen of New Hampshire from voting for Governor of the State or Representative from his own town, on the same grounds?) The most "interested parties" in the case are the copperhead leaders, and above all Harry Bingham; for unless they can manage during this session of the Legislature to fix ward and district boundaries so that one Democratic vote will have as much power in deciding the political complexion of the next Legislature as two Republican ones, Old Harry will never have a chance to inflict fourteen-column speeches on the U. S. Senate, as he hopes to do. But the unscrupulous tricksters gave up their project of disfranchising Senator Holbrook's district, and that gentleman's vote helped lay the Manchester bill on the table, where the Portsmouth gerrymander bill will keep it company for a long while. By the way, had Mr. Holbrook's vote been refused, how many times would Mr. Marcy have been allowed to vote on questions concerning Portsmouth?

A BRILLIANT DISCOVERY.—Yesterday, on the coming up for debate and action of the bill now pending in the Senate for redistricting Manchester, Mr. Fling of Bristol, Senator from district No. 11, gravely rose in his place and raised the point of order that, inasmuch as the bill concerned especially the Senator from No. 3, (he living in Manchester), that Senator had no right vote. If this point had been made as a joke, it would have been, probably, entitled to rank as the best thing in that line the Senator from No. 11 ever perpetrated—all the wit of it consisting in its absurdity.

But the subsequent discussion, and grave determination of the President of the Senate to reserve the point for a night's consideration, indicate that it was not meant for a joke at all. Besides, we learn that Mr. Fling says the point was suggested to him by no less a personage than the newly-seated Member of Congress from District No. 1. So the point seems to have had several paternities. This is unfortunate, since, while it might have immortalized one man, it can hardly do as much for half-a-dozen.

The discovery that a Senator cannot vote on matters which concern the interests of his own immediate constituents, is certainly an original discovery. And we advise Mr. Fling, or Mr. Hibbard if he has the better right, to go straight to Washington and take out a patent without a day's delay. There must be both fortune and fame in it for somebody, provided, always, that it accomplishes what is claimed for it; which is nothing less than a reversal of all the hitherto accepted theories of representative government.

From time immemorial, in fact, ever since representative government first existed, it has been believed and taught that the primary duty of the representative was to watch over, advocate and vote for, the interests of his constituents. But this, according to Messrs. Fling and Hibbard, is all a delusion and mistake. The duty of the representative is to look after those who are not his constituents, and to be dumb and a "dummy" when *their* rights and interests are concerned.

We find it difficult to discuss this question seriously, in the present stage of it. It is too absurd to be respectable; and yet the place and circumstances of its perpetration and the discussion which followed, make it almost a grim reality. We suppose (for we have no information at the time of writing this) there can be no doubt that President Pitman's right of reflection will show him the absurdity of reserving the question at all.

P. S. Since writing the foregoing, we learn that Mr. Fling, on the assembling of the Senate this morning, rose and withdrew his "point of order," stating that he was satisfied it was not what it was cracked up to be. Subsequently, it was ruled against by the President of the Senate, as we predicted it would be. We have not heard what Mr. Hibbard thinks of the matter.—*Concord Monitor.*

—The Portsmouth Chronicle thinks the nomination of Simon Cameron for Vice President would be "one of the most disgraceful acts the Republican party could commit." Yet, he was made Chairman of the Foreign Committee at the dictation of Grant, to the exclusion of Sumner, by this same Republican party. Was that disgraceful?—*Manchester Union.*

Yes.

—The cry of the Pennsylvania Democracy is—"Hancock all around." If they should get another chance at the Federal crib a more popular cry would be—"Handcuff all around."—*New York Commercial.*

—One of the morning journals has an editorial under the head of "Hay-Loft and Cheese-Press Democracy." The Democracy won't probably care a straw for the first nickname, and but mitey little for the second.—*N. Y. Globe.*

IN Hartford, Conn., June 29, a little son of Hon. James Nichols was accidentally and fatally shot by a student who was practising with a rifle.

THAT the California Democrats should insert an anti-Chinese immigration plank in their platform is not to be wondered at, as John Chinaman (unlike our foreign born fellow citizens from the "ould sod,") does not do much in the way of voting the copperhead ticket early and often; but when a Republican convention demands the abrogation of the treaty with China and the prohibition of Chinese immigration by the general government, there is room for surprise,—and this is what the California Republican gubernatorial convention recently did. Both parties in that State seem to be insane in their hatred and unjust treatment of the Chinese, but their absurd demands that the nation shall endorse and adopt their contracted ideas will never be complied with. Chinese immigration can no more be prevented than can the influx of Irish or Germans, nor is it any more desirable that it should be. There is yet room within our boundaries for all who choose to come, and the danger to our institutions is far less from the temperate Chinese than from the whiskey and beer guzzling emigrants from over the Atlantic.

BUSINESS in San Domingo is dull and disturbances continue on the frontier. The German residents are urging annexation to the United States, and it is said with the approval of the German government.

TERRIBLE riots have occurred among the miners in the imperial iron works at Silesia, in Germany. The office of the superintendents of the mines and prison were destroyed by the rioters, who then commenced plundering the Jewish residents of the town. The uhlans were called upon to put down the disturbances, and cleared the streets, killing seven miners, wounding thirty and arresting sixty. Martial law has been proclaimed.

BUSINESS NOTICES.

STRANGERS in Boston, wishing quiet and elegant accommodations, with every convenience, and in the very centre of business or amusement, can find no better stopping-place than the AMERICAN HOUSE, on Hanover St.

A gentleman afflicted with the chronic rheumatism says, "No description of my case can convey the vast amount of benefit I have received from the use of *Johnson's Anodyne Liniment.* I believe it is the best article in the world for rheumatism.

If a horse has a good constitution, and has once been a good horse, no matter how old or how much run down he may be, he can be greatly improved, and in many respects made as good as new, by a liberal use of *Sheridan's Cavalry Condition Powders.*

SPECIAL NOTICES.

The Universal Safeguard.

It is useless for State Legislatures to pass laws for the preservation of the public health, if the great law of self-preservation which depends for its enforcement upon the will of the individual, is suffered to remain a dead letter.

There is scarcely an adult member of the community, of either sex, in the country, who has not seen the testimony in favor of HOSTETTER'S STOMACH BITTERS, furnished over their own signatures by persons of acknowledged eminence in science, literature, art, commerce, and every department of business and professional life. These witnesses have declared in the most explicit terms that the preparation is a safeguard against epidemics, a sovereign remedy for dyspepsia, a valuable antibilious medicine, a promotor of appetite, a genial and harmless stimulant, a good acclimating medicine, a strengthener of the nerves, a general invigorant, a protection against the deleterious effects of malaria and impure water, and that it imparts a degree of vigor and activity to the vital forces which is not communicated by any other of the tonics and stomachics in use. Under these circumstances the self-preservative law of nature should teach every rational person who, either by reason of inherent debility or in consequence of exposure to unwholesome influences, is in peril of losing the greatest of all temporal blessings, health, the importance of using the Bitters as a defensive medicine. Dyspeptics who neglect to give it a trial are simply their own enemies. It is guaranteed to cure indigestion in all its forms, and the bilious and nervous will find nothing in the whole range of officinal and proprietary medicines which will afford them the same relief.

FIRST MORTGAGE

7 PER CENT. GOLD BONDS,

At 90 and Accrued Interest in Currency.

ON A COMPLETED ROAD,

FREE OF U. S. TAX,

This road is now in the dullest season of the year earning more than 12 per cent. net on the amount of its mortgage obligations.

Its 7 per cent gold bonds are equal for security to Government or any Railroad issue. They command a ready market and we are prepared to buy and sell them at all times. No investment in the market possessing equal guarantees of safety, returns an equal percentage of interest. The Chicago, Burlington and Quincy has given a traffic guarantee and obligates itself to invest in these bonds 90 per cent. of the gross earnings derived from all business from this road. This is sufficient indication of the estimate of this enterprise by the largest and most far-sighted Corporation in the West. A limited quantity still for sale by

U. S. S. Kansas is expected at this naval station soon.

THE Boston Yacht Club is to visit the Shoals, July 7.

IT is reported about town that next Tuesday is the 95th anniversary of American Independence.

THE British iron steamer Clotilde which went ashore at Wells Beach last December, was cleared from her groundings at 8 P. M., Thursday night, and left for Portland at 10 P. M., under tow of coast wrecking steamer Winants, Captain Mirrithew. She is not much damaged.

AT a regular meeting of Osgood Lodge No. 48, I. O. O. F., held Thursday evening, June 29, the following officers were elected for the ensuing term: Robert Bates, N. G.; Emmons B. Philbrick, V. G.; Benjamin Plumer, Treas.; Edward T. Morrison, R. S.; C. Dwight Hanscom, P. S.; John Hodgdon, 2d, William B. Grogan, Moses Plumer, Trustees.

THE Post Office in this city has never been better managed than under the administration of the present Postmaster and his courteous and attentive corps of assistants. Mr. Peirce has introduced many improvements for the convenience of the public, and now gives notice that the office will hereafter be open for the delivery of mail matter on Sundays, from half-past 9 o'clock until 10 A. M.

THE trip to York Beach in the staunch little steamer Hoffman, will be found very pleasant, on a favorable day. The boat is in charge of Capt. Frank Emerson, a very pleasant gentleman and attentive officer, and the run occupies about an hour between the two rivers; while the new Marshall House is a handsome, finely located, well furnished and neatly kept hotel of a hundred rooms or more. From a long acquaintance with Messrs. Marshall, and a personal inspection of the premises we can recommend to our readers a visit to York Beach.

EDWARD RICHARDS, a young man belonging in Great Falls, where he is very respectably connected, has been wanted in Lowell, Mass., since the 17th of April last, to answer to a charge of committing a felonious assault, with violence, upon Eliza Nesmith of the latter city. On Thursday evening Officer Quimby of Great Falls and Deputy Marshal Bowles of Lowell arrived in this city in search of Richards, and gave his description to the police force, who found him by the description, arrested him and had him in the lockup in less than half an hour from the time the out-of-town officers arrived. Mr. Bowles left for Lowell at 3 o'clock, Friday morning, taking the prisoner with him. There is no doubt of the latter's guilt in the present case, and the officers assert that it is not his only offence of the kind.

THE Strawberry Festival of the ladies of the Methodist Society, Friday evening, was a great success. Congress Hall was crowded, Harlow's Band furnished excellent music, the Sunday School of the society and the Old Folks of Kittery gave some fine choruses, and the beautifully decorated tables were liberally patronized. But the great interest of the evening was on the voting of a chromo to one of the two local dailies; and as the supporters of "our friends across the street" voted oftener if not earlier than ours, the said chromo will hereafter adorn their sanctum,—the vote at the close standing 520 to 390, a majority for our political antipodes of 130. If this victory will only make 'em a little more good natured in the future, we shall remember those who won it for them in our prayers. The Festival cleared about $300 for the society.

ASTRONOMICAL QUESTIONS.—The sun is at its greatest declination north, June 21st. Then is our longest day. Why is it that in almanacs six or seven days are put down at the same length? Commencing the 18th and extending to about the 24th, it is usually put down so. Is there no declination of the sun for some days about that time?

The declination of the sun is not put down as the same each day. One day it is put down as having declined 8 minutes; again 7, and all the way down to having declined but 2 minutes. What is the cause of this variation. J.

[Perhaps N. D. will attend to our correspondent above.—*Eds. Chronicle.*]

NEW HAMPSHIRE ITEMS.

On the 22d ult., in Candia, Mr. Thomas Dearborn, a worthy citizen aged about fifty, endeavored to commit suicide by beating and cutting his head with an axe. He was found insensible, with four large cuts in his head. He had complained of illness and hinted at suicide. Mental aberration is assigned as the cause. His recovery is dubious.

A son of Mr. Jefferson Gilbert of Laconia committed suicide on Wednesday last by shooting himself. He was about twelve years of age. In the forenoon some trouble had occurred between the boy and the teacher, after which his father had a conversation with him. After the interview with his father the boy went out and shot himself.

The officers and non-commissioned officers of the Eighth Massachusetts Regiment of Infantry, have received orders from their commander, Col. Benjamin F. Peach, Jr., to parade for elementary drill, at Hampton, on the sixth and seventh days of next month. They are required to appear fully prepared for camp duty.

POLITICAL.

That part of the Democracy of Iowa dissatisfied with the "new departure" policy recently indorsed by the State convention has called another State convention, to be held in Des Moines, August 13. Legrand Byington heads the call, and Henry Clay Dean, will be the leader of the party that adheres to the "new departure" policy.

Newton Booth, the republican nominee for governor of California, has long been identified with business on the Pacific coast, is a citizen of integrity and high standing, and a graduate of Yale College. His Democratic opponent, Governor Haight, who has held office four years, comes originally from New York, and has boxed the political compass from the whig party, through know-nothingism, abolitionism and republicanism to democracy. At the last election, four years ago, there were Gorhamites and anti-Gorhamites in the republican ranks, Booth apparently belonging to the last-named wing; but he and Gorham are warm personal friends, and the latter will be able to to rally his whole following to Booth's support. He will thus command the entire strength of his party, while the democrats are now as much at logger heads over Haight as the republicans were over Gorham. The prospect for Booth's election is therefore not unfavorable.

FRANCE.—The review at Longchamps was a splendid affair. The crowd of spectators was immense. McMahon, Thiers, Grevy and other distinguished persons were present. The weather was fine and no disturbances occurred. The success of the new loan is great. In less than six hours, 4,500,000,000 francs was described for. The republicans in Paris have failed to agree on a combined ticket for the assembly. The communists in Marseilles are quite active just now, and several of the communists have been sentenced. The Patrie denies any truth in the rumor of a triple alliance between Russia, Prussia and Austria. Gambetta, in a speech at Bordeaux, protested his loyalty to the present government.

BASE-BALL.—Athletics 5, Mutuals 4. Forest Citys of Cleveland 32, Pastimes 9. Eckfords 15, Harvards 9.

THE NEW ORLEANS, MOBILE & TEXAS RAILROAD COMPANY

Are building a trunk line, connecting New Orleans with Mobile on the east, and giving

THE ONLY RAILROAD CONNECTION

between the former city and the great and most productive State of Texas of the west, the total distance from Mobile to Houston being 475 miles.

The Company is composed of strong Northern capitalists, who have already expended nearly **TEN MILLION DOLLARS** of their own funds in the construction of the line. They have built about 225 miles from Mobile westward, and secured by purchase of securities and made provision for the thorough repair and equipment of the 108 miles of the Texas division; leaving but 140 miles to be built

To Complete the Entire Road.

It is believed that no other railroad corporation in the country has ever made so large an expenditure from its own means before offering any of its securities to the public.

The Company now offer for sale the

Eight Per Cent. Mortgage Bonds

upon the Louisiana division of 226½ miles from New Orleans to the Sabine River. This will probably be the most valuable portion of the whole line, as it will be the only rail communication by which the enormous productions of Texas can reach the Southern metropolis.

So important is this road considered to Louisiana, that the State has made very liberal grants in aid of the enterprise, by direct donations, by endorsement of its bonds, and by subscriptions to the stock of the Company, amounting in all to over eight million dollars.

The Bonds now offered are of two classes:

FIRST MORTGAGE BONDS,

to the amount of $12,500 per mile, and

SECOND MORTGAGE BONDS,

to an equal amount, both principal and interest guaranteed by the State of Louisiana. The price of the two classes is the same, and subscribers can take their choice.

The Bonds are only in the denomination of $1,000, or £200 each, interest payable January and July, at the rate of eight per cent. currency in New York, or seven per cent. gold in London, at the option of the holder, at the time each coupon is due. Bonds can be registered, if desired.

No better security has been offered to investors. The Bonds are largely profitable, as well as entirely safe. One thousand dollars invested in these eight per cent. bonds will give the purchaser *more than seventy-seven per cent.* greater annual interest than the same amount invested in the new Government Five Per Cents.

At the same price, an 8 per cent. currency long bond is far cheaper than a 7 per cent. gold one. Calculating a return to specie payment in three years, and taking the time that the bonds of the New Orleans, Mobile and Texas Railroad have to run—45 years—we find that by compounding the interest of each, every six months, at 7 per cent. **an 8 per cent currency bond at par will give a return of $2,614.18 MORE than a 7 per cent. gold bond, at the same price, or nearly three times the amount of the original investment.**

The Bonds are dated May 1, 1871. The first coupon will, therefore, be a fractional one, running from May 1 to July 1. The price is 90, and accrued interest at 8 per cent. currency from May 1st to date of remittance.

Subscriptions will be received in Portsmouth by

First National Bank.

Information concerning the Company and the Road, and pamphlets containing map and full details of the enterprise, can be obtained of the undersigned or any of the Company's advertised agents.

HOTELS.

MARSHALL HOUSE,

YORK BEACH. This new and commodious SUMMER HOTEL is situated in one of the most beautiful localities on the coast, at the mouth of York River; the facilities for Bathing, on sandy beaches, in surf or still water,—for Fishing, or for Boating on a beautiful river, are unrivalled; the sea view (taking in Boon Island and the Shoals) is unsurpassed, and the river and inland scenery *not equalled* by that surrounding any other hotel along the whole coast. With a good table, moderate charges, and strict attention and courtesy to all, we intend to merit and hope to receive a fair share of public patronage. The hotel will be open to the public, June 20th. N. G. MARSHALL & SONS, Proprietors.

☞ Steamer HOFFMAN, Capt. Morning Chronicle.

CHEAP WINE AND DRUNKENNESS.—Dr. Hollard, in a recent letter to the Springfield Republican, gives the following results of his observation as bearing upon the oft-repeated assertion that the abundance of cheap and pure wines would tend to diminish drunkenness:—

"There were two questions in America in which for many years I felt a profound interest. On both these questions I entertained very decided opinions, and I have been most curious to see what effect foreign observation would have upon them. As it happens, I find myself located just where grand practical experiments are in progress—have been, indeed, for a long time in progress—that go far to decide these questions with me; and, as one of them is decided against me, I hope I may have the credit of the candor with which I have always endeavored to regard them, in what I feel moved to write about them.

A large amount of land in this Canton of Vaud is surrendered to the cultivation of the grape; and, as the wine of Switzerland is never heard of out of Switzerland it is plain that it is all drank here. Indeed, I have been assured that the wine produced in this Canton is drank mainly in the Canton itself. Now, from near Villevenue to Morges, a distance of twenty five miles, as I guess somewhat at random, the entire lake-side, averaging half a mile in width, is a vineyard. One can say, almost with literal truth, that throughout the entire territory I describe to you no crops but grapes are grown.

For the last three weeks, the whole working population, men and women, have been in these vineyards gathering the crop. The teams are employed in transporting the immensely large casks of new wine from the presses to the cellars of their owners, to the vaults of the dealers who have purchased it, and to the railroad depot for transportation to the storehouse of speculators in other quarters. There is an endeavor on the part of these people to throw a romantic interest around their vintage. The casks go through the street with gay bouquets of flowers in their bung-holes, but from what I have seen of the effect of wine here, the show is all a sorry farce.

There is no question that the people would be better, healthier, happier, and much more prosperous, if there were not a vineyard in the canton. We have all been told in America, and I fully believed it, that, if a people could be supplied with a cheap wine, they would not get drunk—that the natural desire of same sort of stimulant would be gratified in a way that would be not only harmless to morals, but conducive to health. I am thoroughly undeceived. The people drink their cheap, white wine here to drunkenness.

A boozier set than hang around the multitudinous cafes here it would be hard to find in any American city, even where they enjoy the license of the Maine law. The grand difference in the drunkenness of an American and Swiss city is found in the fact that a man who has wine in him is good natured, and the man who is equally charged with whiskey is a demon. There is no murdering, no fighting, no wrangling. The excitement is worked off in singing, shouting and all sorts of insane jabber.

Then the steady old white wine topers come into blossom. If you can imagine a cauliflower of the color of the ordinary red cabbage, you can achieve a very adequate conception of faces that are not uncommon in all his wine growing region. So this question is settled, in my mind. Cheap wine is not the cure of intemperance.

The people here are just as intemperate as they are in America, and, what is more there is no public sentiment that checks intemperance in the least. The wine is fed freely to children, and by all classes is regarded as a perfectly legitimate drink. Failing to find the solution of the temperance question in the Maine law, failing to perceive it in the various modes and movements of reform, I, with many others, have looked with hope to find it in a cheap compartively harmless wine; but, for one, I can look in this direction hopefully no longer.

I firmly believe that the wines of Switzerland are of no use except to keep out whiskey, and that the advantages of the wine over the whiskey are not very obvious. It is the testimony of the best men in Switzerland—those who have the highest good of the people at heart—that the increased growth of the grape has been steadily and correspondingly attended by the increase of drunkenness. They lament the planting of a new vineyard as we, at home, regret the opening of a new grog-shop. They expect no good of it, to anybody. They know, and deeply feel, that the whole wine-producing enterprise is charged with degradation for their country."

—Blind Tom don't read at sight, but he plays a good sight better than some that do.

—Balloonists don't care about making much money. If they can only make ascent they are satisfied.

—The New Orleans papers, now that the inundation is over, don't think it was much of a shower after all. Only 1,647 acres were flooded.

—The Count De Chambord is described as having a "diluted look in the eye." Perhaps its Thiers the Count has in his eyes.—*Louisville Cour Jour.*

—Mr. Dusenberry undertook to correct an offending cow with such indifferent success that his family, numbering about a dozen, subsequently went Dusenberrying.

600,000 ACRES
CHOICE IOWA LANDS.

This Company is now offering for sale about six hundred thousand acres of the finest agricultural lands in the West. The Company sells only to actual settlers, and the prices are exceedingly reasonable, ranging from $5 to $15 per acre, the average being about $8. The greater part of these lands are situated along the line of its railroad between the cities of Des Moines and Council Bluffs, and are in the most accessible and fertile region in the State.

Sales made for cash or on credit long enough to enable any industrious man to pay for the land out of its crops.

These lands are held under a title direct from the General Government, and are not mortgaged or encumbered in any way. Full warranty deeds given to purchasers.

For maps, pamphlets, or any other information respecting them, address EBENEZER COOK, Land Commissioner, Davenport, Iowa.

EXCURSION TICKETS are sold at the Company's ticket offices at Chicago, and all other principal stations on its line, and if the purchaser buys land the amount paid for the ticket is applied on the purchase money.

A GREAT MEDICAL DISCOVERY!
DR. WALKER'S CALIFORNIA
VINEGAR BITTERS.

Hundreds of Thousands Bear Testimony to their Wonderful Curative Effects.

WHAT ARE THEY!

THEY ARE NOT A VILE FANCY DRINK, Made of Poor Rum, Whiskey, Proof Spirits and Refuse Liquors doctored, spiced and sweetened to please the taste, called "Bitters," "Appetizers," "Restorers," &c., that lead the tippler on to drunkenness and ruin, but are a true Medicine, made from the Native Root and Herbs of California, *free from all Alcoholic Stimulants.* They are the GREAT BLOOD PURIFIER and a LIFE-GIVING PRINCIPLE, a perfect Renovator and Invigorator of the system, carrying off all poisonous matter and restoring the blood to a healthy condition. No person can take these Bitters according to direction and remain long unwell, provided the bones are not destroyed by mineral poison or other means, and the vital organs wasted beyond the point of repair.

For Inflammatory and Chronic Rheumatism and Gout, Dyspepsia or Indigestion, Bilious, Remittent and Intermittent Fevers, Diseases of the Blood, Liver, Kidneys and Bladder, these Bitters have been most successful. Such Diseases are caused by Vitiated Blood, which is generally produced by derangement of the Digestive Organs.

DYSPEPSIA OR INDIGESTION, Headache, Pain in the Shoulders, Coughs, Tightness of the Chest, Dizziness, Sour Eructations of the Stomach, Bad taste in the Mouth, Bilious Attacks, Palpitation of the Heart, Inflammation of the Lungs, Pain in the regions of the Kidneys, and a hundred other painful symptoms, are the offspring of Dyspepsia.

They invigorate the stomach and stimulate the torpid liver and bowels, which render them of unequalled efficacy in cleansing the blood of all impurities and imparting new life and vigor to the whole system.

FOR SKIN DISEASES, Eruptions, Tetter, Salt Rheum, Blotches, Spots, Pimples, Pustules, Boils, Carbuncles, Ring-Worms, Scald Head, Sore Eyes, Erysipelas, Itch, Scurfs, Discolorations of the Skin, Humors and Diseases of the Skin, of whatever name or nature, are literally dug up and carried out of the system in a short time by the use of these Bitters. One bottle in such cases will convince the most incredulous of their curative effect.

Cleanse the Vitiated Blood whenever you find its impurities bursting through the skin in Pimples, Eruptions or Sores; cleanse it when you find it obstructed and sluggish in the veins, cleanse it when it is foul, and your feelings will tell you when. Keep the blood pure, and the health of the system will follow.

PIN, TAPE and other WORMS, lurking in the system of so many thousands, are effectually destroyed and removed. For full directions, read carefully the circular around each bottle, printed in four languages—English, German, French and Spanish.

FOR FEMALE COMPLAINTS, whether in young or old, married or single, at the dawn of womanhood or at the turn of life, these Tonic Bitters have no equal. ☞ Send for a circular.

They are a Gentle Purgative as well as a Tonic, possessing also, the peculiar merit of acting as a powerful agent in relieving Congestion or Inflammation of the Liver, and all the Visceral Organs. 1yrdaw&w16

Home and Health for July has articles on Women's Dress, Narcotics, Sickness from Wall Paper, Influence of Trees on Climate and Climate on Man, Sleeping Rooms, Bad Air *vs.* Religion, and many other articles of interest and value. W. R. DePuy & Bro., Publishers, New York; $1.50 per annum.

Good Health has among its contents articles on insanity, preserving the health, old sight and spectacles, the nerves, consumption and sea-bathing. $2 per annum. Alex. Moore, Publisher, Boston.

Chick & Andrews have published *Mount Washington in Winter*, or the experience of a scientific expedition upon the highest mountain in New England, 1870-71. The book has a double value, from the fact that it not only contains the scientific report, but graphically describes the whole winter's experience of the party, making it a most interesting book for the general reader. It contains a map of the White Mountains, and fifteen illustrations, making a book of 350 pages, and to place it within reach of all it will be sold for $1.50.

THE strike of the Amador county, California, miners is at an end, and the proprietors will employ no more men connected with the Miners League, which ordered and engineered the late strike.

FODDER-CORN.—We take occasion to urge upon our readers the importance of putting in a liberal breadth of this crop, where land is fitted for it and means are at hand for its being well manured; it needs these two conditions to be grown successfully, as it is a crop requiring good soil and a liberal dressing. More especially do we urge this just now from the present rather unfavorable condition of the grass fields and the consequent liability of a light yield of hay the present season. Not only is fodder corn a most important crop as a feed for milch cows and working oxen the latter part of July and through August and September, but cured it furnishes a good winter feed, relished by all neat stock, as it gives a variety or change which animals confined to winter stalls and yards so much desire. Plant in drills about three feet apart. Hoe often until it is large enough to shade the ground, when weeds will not grow. The sweet corn of our gardens is considered better for sowing than the western corn, although the latter is used in preference to our domestic corn, as it attains a ranker growth and furnishes a larger amount of leaves. Sow now, and at intervals of two weeks until the middle of July.—*Me. Farmer.*

—Miss Terry of Wisconsin is 104. She is an ancient mistery.—*Boston Post.*

—A Nova Scotia paper says that if the home government continues to treat them as shabbily as it claims it has the treaty of Washington, they will "follow the codfish," and come over to this country at once.

—The Czar of Russia has addressed a communication to the committee of the American Evangelical Alliance, officially requesting the committee to meet and confer with him at Stuttgardt, on the 10th of July next.

—A Battle Creek bill-poster got one of Train's bills in such close proximity to a poster of the Martinetti troupe, that the general reading public were startled to behold the display lines of "George Francis Train," "The Brazillian Ape."

—The Union Pacific Railroad Company has succeeded in obtaining a plentiful supply of water in the alkaline district by means of artesian wells. Water formerly had to be transported a distance of one hundred and thirty-six miles.

—Moribund denizens of Hyde Park, Ill., obviate the expensiveness of funeral processions by committing suicide in lonely places. They are found daily by picnic parties, beside empty pistols and elegantly written notes of farewell.

—The Salt Lake City News says that a short time since, while some men were engaged in clearing out a spring in that region, from which the people obtain water for irrigation, they found standing erect, in the spring, what had been a two-year old heifer, in an advanced state of petrification.

—A Chicago man who visited St. Louis the other day, says he has discovered why they do so little business there—the merchants are too (adjective) lazy. "Why," says he, "they go about in their stores, showing goods, with fans in their hands, and when they have to walk a block they hoist umbrellas to keep off the sun." And yet let us give St. Louis men their due. They do load in fluid refreshments with an alacrity and perseverance, that Chicago cannot equal.—*Mail.*

DISEASE AND DEBILITY VANISH BEFORE THE COMPLEXION by using HELMBOLD'S

Catawba Grape Juice Pills

and HELMBOLD'S highly-concentrated

Fluid Extract Sarsaparilla.

This is the time to use good blood-renewing, purifying and invigorating medicines. HELMBOLD'S FLUID EXTRACT SARSAPARILLA and HELMBOLD'S FLUID EXTRACT GRAPE-JUICE PILLS are the best and most reliable.

ONE BOTTLE of Helmbold's Fluid Extract Sarsaparilla equals in strength one gallon of the syrup or decoction as made by druggists; and a wine-glass added to a pint of water equals the celebrated Lisbon Diet drink, a delightful and healthful beverage.

The Grape-Juice Pill is composed of fluid extract Catawba grape-juice and FLUID EXTRACT RHUBARB. Useful in all diseases requiring a cathartic remedy, and far superior to all other purgatives, such as salts, magnesia, &c. Helmbold's Grape-Juice Pill is not a patented pill, put up as those ordinarily vended, but the result of ten years' experimenting and great care in preparation.

SAFE FOR AND TAKEN BY CHILDREN; NO NAUSEA; NO GRIPING PAINS; BUT MILD, PLEASANT, AND SAFE IN OPERATION.

Two bottles of the Fluid Extract of Sarsaparilla and one bottle of the Grape-Juice Pills are worth their weight in gold to those suffering from bad blood, poor complexion, headache, nervousness, wakefulness at night, costiveness and irregularities, and to those suffering from broken and delicate constitutions it will give new blood, new vigor and new life.

The Catawba Grape Pills are done up with great care and in handsome bottles, and will surpass all those vended in wooden boxes and carelessly prepared by inexperienced men, comparing with the French and English style of manufacturing.

All of H. T. HELMBOLD'S Preparations are Pharmaceutical, not a single one being patented, but all on their own merits. To dispel any impression or prejudice that might exist in the minds of many against my Preparations, from the publicity given through advertising, and that I am and have been a druggist for a period of twenty years and more, conclusively to prove this, See letter.

PSYCHOMANCY.—This word is derived from the Greek, signifying the power of the soul, spirit or mind, and is the basis of all human knowledge. Psychomancy is the title of a new work of 400 pages, by HERBERT HAMILTON, B. A., giving full instruction in the science of Soul Charming and Psychologic Fascination; how to exert this wonderful power over men or animals instantaneously, at will. It teaches Mesmerism, how to become Trance or Writing Mediums, Divination, Spiritualism, Alchemy, Philosophy of Omens and Dreams, Brigham Young's Harem, Guide to Marriage, &c. This is the only book in the English language professing to teach this occult power, and is of immense advantage to the Merchant in selling goods, the Lawyer in gaining the confidence of Jurors, the Physician in healing the sick, the Lover, in securing the affections of the opposite sex, and all seeking riches of happiness. Price by mail, in cloth, $1.25; paper covers, $1. Agents wanted for this book, Private Medical Works, Perfumery, Jewelry, &c., who will receive samples free. Address T. W. CARD.

Having become satisfied after thorough investigations that Elastic Sponge, as now and lately manufactured, is one of the best of all substitutes for curled hair, for many if not most uses in upholstery, we have accepted the Agency for it, and intend to make it hereafter a speciality in our business. The objections which been made to it and which it is well known we ourselves have thought were well founded, we have ascertained cannot be urged against the article as now perfected. The process of manufacture has been entirely remodeled under the advice and superintendence of one of the most eminent chemists of New England. New chemicals and mechanical appliances have been introduced in washing crude Sponge, and in charging it with glycerine with such entire success, that Elastic Sponge may now be said to be chemically pure. The fibre is absolutely nothing in it but the clean fibre of Sponge and chemically pure glycerine.

The objections to Elastic Sponge being thus removed there remain its undisputed merits which certainly entitles it to be considered one of the most valuable, as it is one of the most curious and interesting of late discoveries. Chief among these merits is, that it is proof against moths—the great scourge of the business,—against all other insects. Then its elasticity is permanent, based as it is upon the non-evaporable property of glycerine and the indestructibility of sponge fibre. We have always been satisfied upon these two points which are the essential requisites in such materials. The evidence is now equally clear that it is wholesome and sweet. It is very light and soft, easy to manipulate, and cheap enough for all except the lowest class of goods. For the cushioning of Churches, Theatres, Public Halls, Railway Stations, Omnibuses, Carriages, Steam and Horse Cars and the like, it will probably be found, everything considered, the best article in use. For all uses, and especially for Bedding, we are now prepared to recommend the public to give it a fair trial as we ourselves intend to do. We are are ready also to answer inquiries, make estimates and take orders for every description of work in Sponge as well as to supply the trade the article in bales.

LAFAYETTE LAIGHTON.

The Daily Chronicle.

Portsmouth, N. H.

MONDAY, JULY 3, 1871.

THE Boston Transcript recently argued that the Bostonians should vote to allow the sale of beer in that city, because beer would be sold there, no matter how they voted! If that is a sound argument, then all laws against murder, theft and other crimes should be at once repealed, for murders, thefts and other crimes are constantly being committed in spite of all laws to the contrary.—And a man urged through the columns of the Advertiser, that to interfere with the immense beer traffic of Boston would seriously injure the city, as that trade keeps vast sums of money in circulation! So it does; but the money circulates *from* the poor man's pocket and finds its resting place in the rich brewer's purse, enabling the brewer to drive splendid teams and own fine establishments while the poor man's family go ragged and hungry because the money has not circulated among dealers in clothing and food instead of in bar-rooms. The very magnitude of the traffic, considered in connection with the undeniable fact that the greater it becomes the more misery it causes among the poor, is the strongest possible argument in favor of checking it. How far the law has power to do anything which the rum and beer interest says shall *not* be done, is another question.

THE Manchester Union speaks of the "shameful gerrymanderings" of Pennsylvania "by the Radicals to insure a radical Legislature, everytime!" As the Pennsylvania State Senate is Democratic by one majority, will the Union please inform us how the State was gerrymandered by "the Radicals!" The facts is, the redistricting of the State was the result of a compromise, which insures one Democratic majority next year in the Senate and three Republican majority in the House.

—There has been no decision in caucus or in any other meeting of the Democracy to do justice to the Democratic party of New Hampshire, and simple justice to Senator Smith, by expelling him from the Senate.—*Daily Evening Lyre.*

The Democratic legislative caucus on [illegible] *Keene Republican, Democratic.*

THE indications are that the Washington statement will show a reduction of $6,000,000 of the public debt during the month of June.

THE woman's rights movement has at last taken a practical shape. It is now proposed, in some of the New England States, to run a woman's ticket, selecting from both the regular political tickets the best names on each.

LETTERS have lately been received from William H. Lawrence, formerly pension agent of New York city, stating that he is now in Texas. The deficit in his accounts is ascertained to be $47,000, which his friends are ready to pay.

BASE BALL flourished on Friday, as follows:—Olympics of Washington at (Chicago) 13, Chicago 8; at Philadelphia, Kekiongas 16, Olympics of Philadelphia 14; at Hamilton, Ohio, Red Stockings of Boston 27, Resolutes 0; Eckfords of New York 36, Clippers of Lowell 4.

On the Marblehead Branch railroad, June 30, the train from Marblehead to Salem ran off the track from the spreading of the rails near the Head Mills, about two miles from the latter city. The engineer and fireman escaped by jumping. One man in the baggage car was killed and several injured. The train consisted of five cars. The engine lies buried in the dock so that only the smoke-stack is visible. The engine was first class and was making its first trip over the road.

THE Boston steamships Erie, of 3000 tons, and the Ontario, of 2889 tons, which were originally built for the trade between that port and Liverpool, have recently been sold in New York, where they have been lying idle since their trips to France several months ago. The terms of the sale were private, but it is stated that the Erie was sold for $150,000 and the Ontario for $125,000. They are hereafter to be employed in the South American trade. The first cost of these steamers was nearly $700,000 cash.

POLITICAL.

The National Intelligencer refuses to depart.

The Iowa Republicans will elect their excellent ticket, as they are in a vast majority.

The Toledo Blade thinks it is humiliating to see Chief-Justice Chase in the company he now seeks.

Stephens of Georgia is reading out of the Democratic party all who accept of the new departure.

The Mercer (Pa.) Dispatch thinks the "new departure" is a "detestable pill." It may cure, however.

A Democratic editor in Omaha, Neb., thinks the death of Mr. Vallandigham a judgment of Providence.

The Washington Patriot says "the policy of a democratic opposition is offensive." Very true. That's just what's the matter with it.

The Greensburg (Pa.) Argus says: "The Democratic party cannot gulp the fourteenth and fifteenth fraudulent amendments and preserve their integrity."

The Richmond (Va.) Dispatch says: "General Lee left us unharmed by a word or an act of his. Mr. Davis, in the midst of our defeat, prostration, and helplessness, lifts the arm of defiance, and proclaims the war not ended."

It is observable that between the "new departure," Stephen's exterminating war on "time serving issues." John Quincy Adams' polished logic, Jefferson Davis' revamped secession speeches, and Toombs' "burning ether," to say nothing of Garret Davis' orations, the old time Democratic luminaries are greatly perplexed to choose their political thunder for the coming campaign.

One genuine Old Bourbon copperhead unburthened his bosom in the Maine Democratic State Convention, after this fashion: "I believe and there are thousands just like me in the State of Maine, that we had no more right to take the niggers away from the Southerners than you have to take an ox out of my barn, and that, if they'd killed every cussed Abolitionist that entered their country for that purpose, they'd have performed as much service to the community as I should if I shot a burglar who had crawled into my house. Sir, they ought to be hung now—all of them! they are no better than thieves and robbers!" This poor man should take a dose of Holloway's pills and ointment, if the new Ohio medicine disagrees with him so.

General Butler is coming out in a new role. He may be the Temperance candidate for Governor in Massachusetts. Dr. Miner said at Tremont Temple Monday evening, "I don't know who is to be governor next year, but I devoutly pray his knee-joints may not be exhausted, and that he may have a backbone. If there is no other man than Benjamin F. Butler who will answer that description, let us have him. I am not here to nominate General Butler, and I don't know that I would vote for him if he was nominated, but," [a voice; "I would!"] "I am not sure but I would," continued the Doctor. The Newburyport Herald says "General Butler would probably unite the fragments into which the Republican party has been split, better than any other leader," and if he don't, it won't be his fault. He has professed himself a Labor Reformer, a Female Suffragist, a Fenian, and now a Total Abstinent, and if there are any more fragments he will be equally ready to ally himself to them—or them to him, to be accurate.

HEREAFTER there will be two through mails each day for the South, over the great southern mail route.

AN engineer in the employ of the Boston & Albany Railroad went into the engine house at East Boston, June 30, and laid down to sleep with his feet projecting over the track. An engine backed into the House and cut both of his feet off.

THE Sioux Indians are moving toward Montana. They are far from friendly to the whites and no dependence can be placed upon them. Curiously enough, Red Cloud has been displaced because his followers could not believe his reports of what he saw.

The July number of the *Aldine* is rich in illustrations and varied in matter. The illustrations comprise "The Ruins of the Temple of Minerva," "The Konigssee," after Heyn, and one of Konewaka's wonderful and humorous silhouettes, "The Start and The Return;" the five others, though less in size, are equally good. The literary matter is fully up to the standard, and include articles on the "Austrian Empire," by Wm. F. Allen; "American Watering Places," by Grace Harkaway, and "Edmund Spenser" by Annette L. Noble. James Sutton & Co., New York; $2.50 a year.

—They tell of a girl who rushed into a citizen's arms, at Savannah, exclaiming, "Oh, you are my long lost brother!" She soon discovered her mistake and rushed off in a confused manner, accompanied by her long lost brother's pocket-book.

—A morning paper thus advises the waffle loving portion of the public: "Don't eat waffles that are cooked by the wayside, for they have a sickening history. The flour from which they are made is picked up on the docks, and the grease in which they are browned comes from places most questionable. Besides, the men who cook them never wash their hands." This state of things is waffle to contemplate.—*N. Y. Globe.*

—Representative Tucker, of Pittsfield, doesn't believe in "book farming," and consequently has a profound contempt for our Agricultural College. He didn't never have no larnin' and wouldn't want no boys of hisen to be wastin' their time on such fancy stuff; he can farm it jest as his grandfather did, and don't want any college to show him, any how. Inspired with this eminently practical idea, Mr. Tucker rose in his seat the other day, and in tones of deep and biting sarcasm questioned the ability of the students in the Agricultural College to plow! Mr. Adams, of Manchester, had no specific information as to plowing, but informed the Representative from Pittsfield that last year the students cut, cured, and stored seventy tons of hay. Thereupon the House applauded, and Mr. Tucker sat down with an uncomfortable feeling, while a dim suspicion crept over him that he had made an ass of himself.—*Concord Statesman.*

BUSINESS NOTICES.

The cathartics used and approved by the physicians comprising the various medical associations of this State are now compounded and sold under the name of *Parson's Purgative Pills.*

We copy the following from an exchange, which is important if true:—Chronic diarrhœa of long standing, also dysentery, and all similar complaints common at this season of the year, can be cured by the use (internally) of *Johnson's Anodyne Liniment.* We know whereof we affirm.

THERE is no article in materia-medica which supercedes Castor Oil, Magnesia or Salts equal to *Helmbold's Catawba Grape Pills* for purging from the system all superfluous and worn-out matter. For Biliousness, Costiveness, Sick or Nervous Headache, &c., they are unequaled, as they cause neither nausea or griping pains, after which purify and make New Blood by using *Helmbold's Sarsaparilla.*

SPECIAL NOTICES.

How We Used to be Physicked.

Who does not remember the time when spring purgation was considered indispensable to summer health? No matter for wry faces, the inevitable salts and senna, rhubarb, or calomel and jalap, must be administered. Among "spring medicines," the youngsters were told, were to keep them hale and hearty during the summer. We all know that this was a falacy; that new vigor, not depletion, is what is required at the commencement of the summer solstice. As a preparation for the enervating effects of oppressive summer weather, a course of HOSTETTER'S STOMACH BITTERS is highly expedient. This famous vegetable preparation has three prominent properties: It renovates, purifies, and regulates all the functions of the body. It is composed exclusively of pure vegetable productions, viz: the essential principle of Monongahela Ryé, and the most efficacious tonic and alterative roots, barks, and gums known to medical botanists. Hence, it is an absolutely safe medicine, and no tincture of the Pharmacopœia can compare with it either in purity, or in the variety of its objects, and its comprehensive results. Happily for mankind, the theory that it was necessary to prostrate a patient in order to cure him, is forever exploded, and the true philosophical doctrine, that vigor is the great antagonist of disease, has taken its place. Hostetter's Bitters is an invigorant, and hence it is the proper medicine for the feeble at this most trying season of the year.

Be sure that you obtain the genuine article, as there are innumerably vile imitations in the market. Look to the ornamental stamp, the engraved label, and the name blown into the glass. Hostetter's Stomach Bitters is sold in bottles only.

Special Notice.

WANTED — Copies of the DAILY CHRONICLE for June 1st and 3d, to complete files.

THE Cornet Band has been engaged by the city to give an evening Concert to-morrow on Haymarket Square.

THE rooms of the Young People's Union are to be open to-morrow July 4th, day and evening, and then close until September 5th.

MISS ADDIE S. RYAN, so well known in this city, is in London, studying under the celebrated Mme. Sainton-Dolby. She will spend two months of the summer at Florence, at the summer residence of her accomplished teacher.

THE arguments in the case of the P. S. & P. Railroad's petition for dissolving the injunction obtained by the B. & M. Railroad, restraining the former from leaving the latter's trains at Berwick Junction, were held at Portland, June 30th.

BASE BALL.—Two games are to be played to-morrow at the Plains—one between the Minies of South Berwick and the Newmarket club, in the morning, and one between the Minies and the Athletics of this city, in the afternoon. Good playing is expected.

A number of workmen in the Department of Construction were discharged from the Navy Yard on Saturday, orders having been received from Washington to that effect,—11 Plumbers, 7 Painters, 13 Laborers, 14 Borers and 4 Boatbuilders. We are informed that the monthly allotment has been reduced two thousand dollars, thus rendering a reduction necessary.

THE citizens who contemplate visiting Rye Beach on the "Glorious Fourth" will be pleased to hear that Mr. G. H. Jenness has engaged Harlow's full (Marine) Band to give two grand concerts, in front of his Saloon, afternoon and evening. As everything is quiet in this vicinity, a very large crowd is expected. Refreshments will be served during the day.

A large excursion from Manchester will arrive here in a special train at 7 A. M., July 4th, on a trip down our harbor. Steamers Clara Bateman, Appledore and Gov. Hoffman, and a schooner have been chartered. The party will land on one of the islands to partake of fish chowder, enjoy games, &c. They will probably number 500 and be accompanied by a band.

PROBABLY very few who see the tall, straight and symmetrical poles sold by Mr. S. W. Moses for beans and other uses, are aware that they are of the arbor vitæ, or small cedar, as we believe it is sometimes called. They are brought from Eastern Maine, where the tree is plenty. For poles, they are excellent; but for hedges — notwithstanding the popularity of the arbor vitæ, the Norway spruce, or our native hemlock, are vastly superior—the hemlock being we think the finest of all the evergreens.

Communicated.

UNDER WHICH KING?—*Messrs. Editors*:—Mr. Frank Jones, notwithstanding all his other business, spent several days and considerable money at Concord, last week, with two of his bummers, to misrepresent Portsmouth and turn out our highly respectable delegation in the Legislature — concerning whose real right to seats, neither he nor anybody else has the slightest doubt. I do not wonder at this, nor complain of it, for I have always regarded Mr. Jones as one of the most unscrupulous partizans and bitter politicians to be found anywhere, notwithstanding all the talk to the contrary; but I would like to call the attention (to the operations at Concord) of certain gentlemen who have called themselves Republicans but who have heretofore been deluded into voting for Mr. Jones on some occasions, and have advocated the humbug of a Citizen's ticket in local matters. The dullest Republican ought to learn from recent events, how much sincerity there is in any Copperhead pretence of burying the political hatchet, (except in the heads of their opponents,) and how much excuse there ever was for deserting sound Republican nominations for such men as Ex-Mayor Jones.

IN Cincinnati three hundred persons — saloon-keepers, brewers and cigar dealers—have met to take action relative to the present Sunday laws. —The "Mecca" for invalids, is the great Seltzer Spring of Germany, thousands go there for yearly resuscitation, after the waste of genteel dissipation. The possessor of the latest thing in civilized suffering goes there, and those who are well, invent a fashionable disease and go there also, to drink a new life from the sparkling Seltzer draught. It seems never to have occurred to the otherwise philosophical Germans to transport the Seltzer to their own doors in the portable form of a powder. It was left for an American to do this, and now, indeed, "Tarrant's Seltzer Aperient" is better known than the original Spring itself. The dyspeptic, the bilious, the rheumatic, and all the victims of venal disease, find in it their greatest comfort. It is a mild, cooling cathartic and alterative, and is the very essence of the great German Seltzer Spa. Being in powder, "Tarrant's Seltzer Aperient" requires the addition of water only, to render it instantly a delicious effervescing beverage.—*Exchange.*

THE NEW ORLEANS, MOBILE & TEXAS RAILROAD COMPANY

Are building a trunk line, connecting New Orleans with Mobile on the east, and giving

THE ONLY RAILROAD CONNECTION

between the former city and the great and most productive State of Texas of the west, the total distance from Mobile to Houston being 475 miles.

The Company is composed of strong Northern capitalists, who have already expended nearly **TEN MILLION DOLLARS** of their own funds in the construction of the line. They have built about 225 miles from Mobile westward, and secured by purchase of securities and made provision for the thorough repair and equipment of the 108 miles of the Texas division; leaving but 140 miles to be built

To Complete the Entire Road.

It is believed that no other railroad corporation in the country has ever made so large an expenditure from its own means before offering any of its securities to the public.

The Company now offer for sale the

Eight Per Cent. Mortgage Bonds

upon the Louisiana division of 226½ miles from New Orleans to the Sabine River. This will probably be the most valuable portion of the whole line, as it will be the only rail communication by which the enormous productions of Texas can reach the Southern metropolis.

So important is this road considered to Louisiana, that the State has made very liberal grants in aid of the enterprise, by direct donations, by endorsement of its bonds, and by subscriptions to the stock of the Company, amounting in all to over eight million dollars.

The Bonds now offered are of two classes:

FIRST MORTGAGE BONDS,

to the amount of $12,500 per mile, and

SECOND MORTGAGE BONDS,

to an equal amount, both principal and interest guaranteed by the State of Louisiana. The price of the two classes is the same, and subscribers can take their choice.

The Bonds are only in the denomination of $1,000, or £200 each, interest payable January and July, at the rate of eight per cent. currency in New York, or seven per cent. gold in London, at the option of the holder, at the time each coupon is due. Bonds can be registered, if desired.

No better security has been offered to investors. The Bonds are largely profitable, as well as entirely safe. One thousand dollars invested in these bight per cent. bonds will give the purchaser *more than seventy-seven per cent.* greater annual interest than the same amount invested in the new Government Five Per Cents.

At the same price, an 8 per cent. currency long bond is far cheaper than a 7 per cent. gold one. Calculating a return to specie payment in three years, and taking the time that the bonds of the New Orleans, Mobile and Texas Railroad have to run—45 years—we find that by compounding the interest of each, every six months, at 7 per cent. **an 8 per cent currency bond at 90 will give a return of $2,614.18 MORE than a 7 per cent. gold bond, at the same price, or nearly three times the amount of the original investment.**

The Bonds are dated May 1, 1871. The first coupon will, therefore, be a fractional one, running from May 1 to July 1. The price is 90, and accrued interest at 8 per cent. currency from May 1st to date of remittance.

Subscriptions will be received in Portsmouth by

First National Bank.

Information concerning the Company and the Road, and pamphlets containing map and full details of the enterprise, can be obtained of the undersigned or any of the Company's advertised agents.

HOTELS.

MARSHALL HOUSE,

YORK BEACH. This new and commodious SUMMER HOTEL is situated in one of the most beautiful localities on the coast, at the mouth of York River; the facilities for Bathing, on sandy beaches, in surf or still water,—for Fishing, or for Boating on a beautiful river, are unrivalled; the sea view (taking in Boon Island and the Shoals) is unsurpassed, and the river and inland scenery *not equalled* by that surrounding any other hotel along the whole coast. With a good table, moderate charges, and strict attention and courtesy to all, we intend to merit and hope to receive a liberal share of public patronage. The hotel will be open to the public, June 20th. N. G. MARSHALL & SONS,
Proprietors.

☞ Steamer HOFFMAN, Capt. Emerson, will make two trips daily (on Tuesdays, Thursdays and Saturdays) between Portsmouth and York Harbor, connecting with morning and afternoon trains from Boston, during the season, conveying passengers at reasonable rates and landing them but a few rods from the Hotel. The run across will occupy but about one hour. je10

NEW FIRM!

INSURANCE BUSINESS

The Subscribers having purchased the "Business and Goodwill," of

The Old and Well Established Insurance Company of JOHN S. HARVEY,

have this day formed a co-partnership, under the firm name of

MORSE & ILSLEY,

for the purpose of carrying on the Insurance Business in all its branches. They trust, by industry, integrity and good judgment, to merit the approbation of all the old patrons of the office, and to receive a good share of new business.

MR. HARVEY will still take a lively interest in the Companies for which he has so long and faithfully worked, and he is authorised to receive applications for Insurance in said Companies as our Agent.

JOSEPH P. MORSE,
WINGATE N. ILSLEY.
Portsmouth, May 1, 1871.

A CARD.

HAVING disposed of my Insurance Business to JOSEPH P. MORSE and WINGATE N. ILSLEY, two gentlemen well known for their integrity and business capacity, I return my thanks to my old and constant patrons and friends, for their many favors, and earnestly recommend my successors, trusting the same generous patronage will be extended to them as to myself. They represent some of the oldest and most reliable Companies in both Fire and Life Insurance in the Country.

Two little Keene boys—but not two keen little boys—started for California last week. Their money and courage gave out at Bellows Falls and they were sent home to be spanked.

Senator Cragin has given $500 towards the new hotel at Lebanon.

The greater part of a human skeleton was found among some bushes in Manchester on the 23d. No clue to the gentleman who formerly owned the bones.

Napoleon Marchand, a ten-year old boy, was drowned in the canal at Manchester, June 30.

The people of Cheshire county, and that part of Hillsborough county bordering on the Monadnock Railroad, propose a grand excursion to Rocky Point and Newport R. I., on July 6.

Charles Elliot and William Goodwin were arraigned before Sanborn B. Carter, of Wolfeborough, on a charge of setting fire to Libby, Varney & Co.'s lumbering establishment in that town, on June 24th, and were committed to jail to await their trial at the October term of the court.

A son of Mr. O. Davis of Effingham was fatally injured by the falling of a tree on Tuesday, June 27.

Canker worms have appeared in Rockingham county.

A one-legged man has been hopping half a mile in Lancaster, in six minutes and a quarter.

Philip Whittier, of Newton, realized $50.23 last year from the sale of lambs and wool from four sheep. This year he has received $71.29 as the avails of the sale of lambs and wool from five sheep. The sheep are across between the Cape, Cotswold and Deicester.

A meeting of the trustees of the Episcopal General Theological Seminary in New York was held on Thursday night. June 29, to consider charges made by one of the faculty against Dean Forbes. The action of the trustees was indecisive, and Dean Forbes at once resigned. While ex-Judge Bell, a well known lawyer, was speaking with much earnestness, he fell dead. He was about 70 years old.

—The Boston Post has an announcement of the death of several citizens "from throat disease superinduced by razors."

—"Spray" is the popular drink in the oil regions. It is said to be so mild and gentle in its influence that "Let us spray" is the usual remark when friends meet.

—The French style of betting is quite novel. If the lady loses she gives the gentleman what she chooses; if the gentleman loses, he gives her whatever she asks for.

—The descendants of Lord John Booth of England have put in a claim for the whole of Suffolk county, L. I., amounting, principal and interest, $80,000,000.

—Chinamen are said to make the best miners in the world, they are so anxious to get home. At one spot in Nebraska they are down on the way over seven hundred feet.

—In the course of a discussion with her husband a Memphis lady aimed a pop-bottle at his head. It struck a lighted non-explosive, however, and the remainder of the conversation was lost.

—The weeping friends at the funeral of a Californian were considerably surprised at beholding the supposed deceased acting as pall bearer for his own coffin. Mistake satisfactorily explained, and the ceremony proceeded.

—Two card-playing friends were passing through a pine forest, when one asked the other this audacious conundrum: "Why can not the proprietor of this forest fell his own timber? Because no one is allowed to cut when it is his own deal."

—Sidney Smith once gave a lady two and twenty receipts against melancholy. One was a bright fire; another to remember all the pleasant things said to her; another to keep a box of sugar-plumbs on the chimney-piece, and a kettle simmering on the nob.

—A New York paper tells that a girl in a Third Avenue car was remonstrated with by the conductor for using profane language. She arose at once, and bowing politely to the other feminine passengers, begged to be excused, saying she had forgotten there were ladies present.

A FREE BATH.—On Tuesday afternoon, as a number of French lads were playing near the coal office of A. & B. E. Cutter, on Factory Island, one of their number accidentally dropped his hat into the canal, and a general outcry was raised by the whole company, which brought the *live dyer*, whose office is in that immediate vicinity, promptly on the spot. The urchins being unable to speak English or German, merely pointed, in an excited manner, to the floating hat. This was enough for the chivalric Free, who instantly plunged into the water, and struck out for the hat; obtaining which, he exclaimed: "And vare ish te poy?" We believe he has abandoned search for him.—*Bid. Democrat.*

600,000 ACRES
CHOICE IOWA LANDS.

This Company is now offering for sale about six hundred thousand acres of the finest agricultural lands in the West. The Company sells only to actual settlers, and the prices are exceedingly reasonable, ranging from $5 to $15 per acre—the average being about $8. The greater part of these lands are situated along the line of its railroad between the cities of Des Moines and Council Bluffs, and are in the most accessible and fertile region in the State.

Sales made for cash or on credit long enough to enable any industrious man to pay for the land out of its crops.

These lands are held under a title direct from the General Government, and are not mortgaged or encumbered in any way. Full warranty deeds given to purchasers.

For maps, pamphlets, or any other information respecting them, address EBENEZER COOK, Land Commissioner, Davenport, Iowa.

EXPLORING TICKETS are sold at the Company's ticket offices at Chicago, and all other principal stations on its line, and if the purchaser buys land to the amount paid for the ticket is applied on the purchase money.

TARRANT'S SELTZER APERIENT.

THE GREAT EQUIVALENT.—The world may be safely challenged to produce so perfect a simulation of anything in nature, as

Tarrant's Seltzer Aperient

is of its original, the Seltzer Spring of Germany. The Aperient, based on a correct analysis of the Seltzer Water, is even superior to the manufacture of Nature herself, because it contains all the active medicinal properties of the spring, unalloyed by any of the inert and useless particles found in all mineral fountains. **The genuine article being secured,** you have the Seltzer Water of Europe, purified and perfected, and propably the best, the most genial cathartic and antibilious preparation on the face of the earth.

SCIENTIFIC AND POPULAR MEDICAL WORKS
—ON—
MANHOOD, WOMANHOOD AND NERVOUS DISEASES,
PUBLISHED BY THE
PEABODY MEDICAL INSTITUTE,
No. 4 Bulfinch Street, Boston,
(Opposite Revere House.)

DR. W. H. PARKER, Assistant Physician.

Medical knowledge for everybody. 250,000 *copies sold in two years.*

A Book for every Man.

THE SCIENCE OF LIFE, OR SELF-PRESERVATION. A Medical Treatise on the Cause and Cure of EXHAUSTED VITALITY, PREMATURE DECLINE IN MAN, NERVOUS AND PHYSICAL DEBILITY, HYPOCHONDRIA, and all other diseases arising from the ERRORS OF YOUTH, OR THE INDISCRETIONS OR EXCESSES of mature years. This is indeed a book for every man. Price only $1.00. 288 pages, bound in cloth.

A Book For Every Woman,

Entitled SEXUAL PHYSIOLOGY OF WOMAN, AND HER DISEASES; or, WOMAN TREATED OF PHYSIOLOGICALLY AND PATHOLOGICALLY, FROM INFANCY TO OLD AGE, with elegant ILLUSTRATIVE ENGRAVINGS. 350 pages, bound in beautiful French cloth. Price $2.00.

A Book for Everybody.

Flattered by the reception of, and great demand for, the above valuable and timely treatises, and also to meet a great need of the present age, the author has just published a new book, treating exclusively of NERVOUS AND MENTAL DISEASES. 150 pp. cloth Price $1, or SENT FREE on receipt of $3 for the other two books, postpage paid.

These are, beyond all comparison, the most extraordinary works on Physiology ever published. There is nothing whatever that the MARRIED OR SINGLE, of EITHER SEX, can either require or wish to know, but what is fully explained, and many matters of the most important and interesting character are introduced to which no allusion even can be found in any other works in our language. All the New Discoveries of the author, whose experience is such as probably never before fell to the lot of any man, are given in full. No prescription will be without these valuable books.

"VALUABLE BOOKS.—We have received the valuable medical works published by the Peabody Medical Institute. These books are of actual merit, and should find a place in every intelligent family. They are not the cheap order of abominable trash, published by irresponsible parties, and purchased to gratify coarse taste, but are written by a responsible professional gentleman of eminence, as a source of in-truction on vital matters, concerning which lamentable ignorance exists. The important subjects presented are treated with delicacy, ability and care, and, as an appendix, many useful prescriptions for prevailing complaints are added."—*Coos Republican, Lancaster, N. H.*

"The author of these books is one of the most learned and popular physicians of the day, and is entitled to the gratitude of our race for these invaluable productions. It seems to be his aim to induce men and women to avoid the cause of those diseases to which they are subject, and he tells them just how and when to do it."—*Chronicle, Farmington, Maine, Sept. 7, 1869.*

Either book sent by mail on receipt of price.

N. B. The Author of the above-named medical works is the Chief Consulting Physician of the Peabody Medical Institute, and is so constantly employed in consultation with invalids from all parts of the country, that he has no time to attend to mere business details. Therefore all letters should be addressed to the PEABODY MEDICAL INSTITUTE, or to Dr. W. H. PARKER, the Medical Assistant of the Author, and his Business Agent, who, as well as the Author himself, may be consulted on all diseases requiring skill, secrecy and experience. oct28 1yr

A GREAT MEDICAL DISCOVERY!
DR. WALKER'S CALIFORNIA
VINEGAR BITTERS,
Hundreds of Thousands Bear Testimony to their Wonderful Curative Effects.
WHAT ARE THEY!

THEY ARE NOT A VILE FANCY DRINK, Made of Poor Rum, Whiskey, Proof Spirits and Refuse Liquors doctored, spiced and sweetened to please the taste, called "Tonics," "Appetizers," "Restorers," &c., that lead the tippler on to drunkenness and ruin, but are a true Medicine, made from the Native Root and Herbs of California, **free from all Alcoholic Stimulants.** They are the GREAT BLOOD PURIFIER and a LIFE-GIVING PRINCIPLE, a perfect Renovator and Invigorator of the system, carrying off all poisonous matter and restoring the blood to a healthy condition. No person can take these Bitters according to direction and remain long unwell, provided the bones are not destroyed by mineral poison or other means, and the vital organs wasted beyond the point of repair.

For Inflammatory and Chronic Rheumatism and Gout, Dyspepsia or Indigestion, Bilious, Remittent and Intermittent Fevers, Diseases of the Blood, Liver, Kidneys and Bladder, these Bitters have been most successful. Such Diseases are caused by Vitiated Blood, which is generally produced by derangement of the Digestive Organs.

DYSPEPSIA OR INDIGESTION, Headache, Pain in the Shoulders, Coughs, Tightness of the Chest, Dizziness, Sour Eructations of the Stomach, Bad taste in the Mouth, Bilious Attacks, Palpitation of the Heart, Inflammation of the Lungs, Pain in the regions of the Kidneys, and a hundred other painful symptoms, are the offspring of Dyspepsia.

They invigorate the stomach and stimulate the torpid liver and bowels, which render them of unequalled efficacy in cleansing the blood of all impurities and imparting new life and vigor to the whole system.

FOR SKIN DISEASES, Eruptions, Tetter, Salt Rheum, Blotches, Spots, Pimples, Pustules, Boils, Carbuncles, Ring-Worms, Scald Head, Sore Eyes, Erysipelas, Itch, Scurfs, Discolorations of the Skin, Humors and Diseases of the Skin, of whatever name or nature, are literally dug up and carried out of the system in a short time by the use of these Bitters. One bottle in such cases will convince the most incredulous of their curative effect.

Cleanse the Vitiated Blood whenever you find its impurities bursting through the skin in Pimples, Eruptions or Sores; cleanse it when you find it obstructed and sluggish in the veins, cleanse it when it is foul, and your feelings will tell you when. Keep the blood pure, and the health of the system will follow.

PIN, TAPE and other WORMS, lurking in the system of so many thousands, are effectually destroyed and removed. For full directions, read carefully the circular around each bottle, printed in four languages—English, German, French and Spanish.

FOR FEMALE COMPLAINTS, whether in young or old, married or single, at the dawn of womanhood or at the turn of life, these Tonic Bitters have no equal. ☞ Send for a circular.

They are a Gentle Purgative as well as a Tonic, possessing also, the peculiar merit of acting as a powerful agent in relieving Congestion or Inflammation of the Liver, and all the Visceral Organs. 1yrdawfebl6

HOW HE LOST HIS LEG.—How Gen. Noyes (the Republican candidate for Governor in Ohio) lost his leg is thus told by a spectator: It was the fight of Nicajack creek, July 4, 1864. Gen. Fuller was ordered with his brigade to develop the enemy's left to see how far in those dense woods their lines and works extended, and what they were composed of. It was a bright, hot and beautiful day. Gen. Fuller, with consummate skill, moved his skirmishers as far forward as possible, and hastily threw up a line of breastworks for one regiment. Behind each flank of this regiment in line of battle, was a regiment in column doubled on the center, ready to deploy instantly in any direction that might be needed. The 4th regiment, Colonel Noyes, was reserved for the charge. When everything was ready, Colonel Noyes asked Gen. Fuller, who was standing in the open road on the line of battle, that he be permitted to give the order to charge by word of mouth instead of the bugle, which he said would apprise the enemy, while the quieter order would give his men at least two minutes the advantage of the enemy. Gen. Fuller replied, "No, sound the bugle, and the supports will take up the yell simultaneously, and help you in that way." Noyes replied pleasantly, "All right, general," and gayly started for the front. It was not more than a minute before Noyes was on his line. He waved his hat, gave the signal to the buglers and leading his men, all dashed forward with a cheer. The enemy replied with a scathing fire; but the fierce yelling of the supports, added to the rapid charge, was too much for them, and they incontinently fled. In another moment an orderly came back and informed Gen. Fuller that Col. Noyes was wounded, and that they were in possession of the works. The stretcher-bearers were hurried forward, and Col. Noyes was brought in, with his hands folded under the back of his head. He looked up to Fuller, and said with the same light-heartedness and pleasantness that had characterized him a few minutes before, "General, we have carried the works, but I've lost my leg. I know it; both bones are smashed." A bullet had indeed crashed through both bones just above the ankle, rendering the gallant officer a cripple for life.

BRICK POMEROY'S OBITUARY OF VALLANDIGHAM.—God moves in a mysterious way!

Vallandigham is dead.

A man of talent—of energy—of wide acquaintance, has gone home.

Men die when they have outlived their usefulness. Men are sometimes removed when their counsels are not for good. So went C. L. Vallandigham to his home and work elsewhere, that the party of men devoted to the defense of principle above expediency might not be demoralized by trembling notes from an instrument that once gave no uncertain sound, but words of cheer and wisdom to encourage patriots and the defenders of liberty.

Vallandigham made a mistake. He went off half cocked, as did the pistol which, accidently discharged by his own hand, took his life. His speech, a few days since, about "dead men's bones" was, all unknown to him, aimed at himself. There is a special Providence, we are told, and the departure of Vallandigham is one. In dying we are told that he passed peacefully away.

We lament his death. But, as a leader of the people, he had turned aside from that great line of Right he once walked with such boldness, to rest in the shade, and find enjoyment under the shadow of those tomb-stones by battle-fields which mark the ravages of that insane Republican party whose acts he first condemned and then endorsed. Weary of the fight, he has gone to his rest.

Let us emulate his virtues and his Democracy, and forgive his tiring of the contest in which he once so nobly bore himself.—*Lacrosse Democrat.*

—In the recent billiard match between Cyrille Dion and Melvin Foster, a contest for "the championship of the world," Mr. Foster was so badly beaten as to draw forth the following singular remarks by The Spirit of the Times: "His execrable exhibition may probably be accounted for by one of two causes—either he has fallen off most unequivocably in science, or his whilom desire for stimulants was allowed to exercise its despotism and take the cunning from his hand." Whether the insinuation contained in the above statement is true, we do not know; but certainly if there is any skillful task for which a man wants absolute possession of himself, it is the handling of a billiard cue. Imagine Mr. Blondin just before setting out to cross Niagara, indulging in "a whilom desire for stimulants." It takes all the brain in a man's head, and all the nerves of his body, both acting tranquilly together, to make a brilliant player of billiards. One would imagine also, that, in addition to these requisites, it requires also a prohibitory liquor law.—*Golden Age.*

PSYCHOMANCY.—This word is derived from the Greek, signifying the power of the soul, spirit or mind, and is the basis of all human knowledge. Psychomancy is the title of a new work of 400 pages, by HERBERT HAMILTON, B. A., giving full instruction in the science of Soul Charming and Psychologic Fascination; how to exert this wonderful power over men or animals instantaneously, at will. It teaches Mesmerism, how to become Trance or Writing Mediums, Divination, Spiritualism, Alchemy, Philosophy of omens and Dreams, Brigham Young's Harem, Guide to Marriage, &c. This is the only book in the English language professing to teach this occult power, and is of immense advantage to the Merchant in selling goods, the Lawyer in gaining the confidence of jurors, the Physician in healing the sick; to Lovers, in securing the affections of the opposite sex, and all seeking riches of happiness. Price by mail, in cloth, $1.25; paper covers, $1. Agents wanted for this book. Private Medical Works, Perfumery, Jewelry, &c., who will receive samples free. Address T. W. Researches made to determine the validity and utility of Patents of inventions, and legal and other advice rendered in all matters touching the same. Copies of the claims of any patent furnished by forwarding one dollar. Assignments recorded in Washington.

No Agency in the United States possesses superior facilities for obtaining Patents or ascertaining the patentability of inventions.

All necessity of a journey to Washington to procure a Patent and the usual great delay there, are here saved inventors.

TESTIMONIALS.

"I regard Mr. Eddy as one of the most *capable and successful* practitioners with whom I have had official intercourse. CHARLES MASON, Commissioner of Patents."

"I have no hesitation in assuring inventors that they cannot employ a man *more competent and trustworthy* and more capable of putting their applications in a form to secure for them an early and favorable consideration at the Patent Office. EDMUND BURKE, Late Commissioner of Patents.

"MR. R. H. EDDY has made for me over THIRTY applications for Patents, having been successful in almost every case. Such unmistakable proof of great talent and ability on his part leads me to recommend ALL inventors to apply to him to procure their Patents, as they may be sure of having the most faithful attention bestowed on their cases, and at very reasonable charges. TUESDAY, JULY 4, 1871.

POLITICAL.

The Democratic Convention to nominate a candidate for State Senator for Pickaway and Franklin Counties, was held at Columbus, Ohio, on Tuesday week. Three candidates were named, and John G. Thompson received a majority on the second ballot. Thompson having returned thanks, the unsuccessful candidates were called out. The first of them, Mr. A. R. Van Cleaf, spoke as follows: "Gentleman I am a true Democrat. I always support the nominees; but the way John Thompson has secured the nomination is perfectly infamous, and I am not afraid to say it. I thank my friends for standing by me." The other, Senator H. G. Hibbs, not to be outdone, responded in the same vein: "Gentlemen, if John Thompson will tell us how much money he spent to secure his nomination I will perhaps support him; but if he doesn't I don't pledge myself." The Convention the adjourned, amid cries of "shut up" and calls for Thompson.

FIFTEEN suits for $20,000 damages each, for libels on firms of coal dealers, have been begun against the Jersey City Evening Journal.

JOHN KENNEDY, in a fight with his wife, at New York, on Saturday morning, threw a stove lid at her, which killed a child two years old.

THE reports from the cotton and corn crops in the South show that the yield of cotton this year will be less than last, and the corn about the same.

OLIVER S. HALSTEAD, Jr., of Washington, well known as Pet Halstead, was murdered in a house of ill-fame at Newark, N. J., Sunday morning.

THREE hundred Mormons, just from Europe, left New York for Salt Lake, Friday night, in charge of Brigham Young's sons, and 400 more are at quarantine.

THE Cincinnati police on Saturday night made simultaneous descent on all the faro banks and keno dens in the city, capturing all the instruments used for gambling.

IN the Ku-Klux trial at Memphis a negro testified to being compelled to assist in hanging an inoffensive man, and he identified five of the outlaws concerned in the outrage.

THE Athletic base ball club defeated the Kekiongas of Fort Wayne, 20 to 3. The Stars, amateurs champions of New York, defeated the Actives of Newark, N. J., by a score of 45 to 4, and the Resolutes (Colored) of Boston defeated the Excelsiors, by a score of 25 to to 21, on Saturday.

THE Boston & Albany Railroad freight trains have been plundered for some time past, by adroit thieves but detectives have worked up the case and secured the conviction and sentence of sixteen persons,—fourteen brakemen, one freight conductor and a woman who received the stolen goods.

ANOTHER illustration of the beneficent influence of the rum traffic occurred in Somerville, Mass., on Saturday evening. One Sullivan, a quarrelsome drunkard, stabbed and killed Henry Talbot, a sober and peaceable man, because he could not find his (Sullivan's) wife to beat, she having gone for the police to arrest him. The murderer was arrested.

PANAMA letters of the 20th ultimo state that the survey of Napipi River valley for a Darien ship canal was satisfactory, the route having been demonstrated practicable, and Commander Selfridge was at Panama awaiting the return of the surveying party, which ascended the Atrato River, and for the storeship Grand, when the entire expedition would sail for home.

THE Supreme Court of Massachusetts has overruled the exceptions taken by the counsel for Moran, the Stoughton murderer, and ordered the defendant to be sentenced according to the verdict of the jury. Mrs. Fair, the California murderess, has been refused a new trial. We regard hanging as being a very poor use to put a man to, but if anybody is ever to be put to death by the law, Moran and Mrs. Fair deserve it.

ON the question of allowing the sale of beer, voted on in Massachusetts on Saturday, Boston voted—yes 7421, no 1495; Chelsea—yes 334, no 542 (reversing its former vote); Worcester—yes 1865, no 1831; Springfield—two to one for beer; Fall River—yes 677, no 768; New Bedford—yes 943, no 1100; Newburyport—yes 701, no 115. Lynn having failed to vote, the prohibitory law is in force, and in the afternoon the local police made eight seizures.

—A terrible accident occurred at the cut through March's hill of the City Railroad, on Saturday morning, by the caving in of the soil on the South corner of where the excavation was going on. The cut here is about thirty feet deep, and there were 11 men at work in the cut at the time of the slide, and seven of them were either wholly or partially buried. There were three cars between which and the face of the cut were the men at work—one car on the down track, one on the turn-table at the end and one on the up track. These cars were in the way of the slide, so that the men could not get out of the way when they saw it coming. Three of the men were entirely covered by earth which fell, two of whom were dead before they could be extricated, and the other was so seriously injured that it was at first considered doubtful whether he would recover. The names of those buried by the fall were as follows:—

John Twoby was one of those wholly covered by the earth, and when dug out he was dead. He was 60 years of age and leaves a widow and six children, and lived on Merrimack street, near the foot of Olive street. He had been in this country about four years, was a steady industrious man, and was respected by his neighbors.

James Cashman was also fatally injured by being buried in the slide. He was 50 years old, resided on Temple street, and he leaves a family of the same number as that of Twoby—a widow and six children. He was a hard working, respectable man, of steady habits.

John Clifford was another of those entirely buried, and he was jammed against one of the cars. Soon after he was extricated he raised considerable blood, and fears were entertained that he was so badly injured he would not recover, but he is now considered out of danger by Dr. Hurd, who attended him. Besides the bruises, the shock and the suffocation of the earth which covered him, he swallowed considerable sand.

James Haley was buried and jammed against the cars and badly bruised, but not so but that he is able to be out about town.

Patrick Hopkin was buried up to the arm pits and bruised in his abdomen.

John Slattery was bruised and injured in the leg.

Michael Lynch was buried and but slightly injured.

The men who were partially buried scooped the earth from their mouths and faces of those who were wholly covered, so as to give them the best chances to breath possible. The slide of the gravel was from the south corner of the cut, partly from the end, and mostly from the side. The earth was more solid and firm where it had been excavated, but at this point a soft, loose place was reached, which caused the disaster.—*Newburyport Herald.*

THE excitement about the Roman Catholic priests at Hudson, New York, is increasing. The doors were locked against the priests Sunday, and threats of excommunication were received with derision.

U. S. STEAMER SPEEDWELL took out a fishing party to the Shoals on Monday, consisting of Navy Yard officers and their friends.

DIVIDENDS on the Concord & Portsmouth Railroad are paid this week at the First National Bank.

Dividends on the Eastern Railroad in New Hampshire and the Portland, Saco & Portsmouth Railroad, are also now payable at the same place.

TONY PASTOR'S talented variety company are coming to-morrow (Wednesday) evening. Tony is an old favorite and has with him, Carleton, a famous Irish singer and dancer, Johnny Wild, who first introduced "the Nerve" here, Miss Kitty O'Neil, whose jig dancing is first class, Miss Ada Wray, banjoist, and Miss Annie Hindle, the well known London Mimic. Johnny Wild and Frank Kerns will dance the latest sensation, "Golden Showers." In the farce, Miss Jennie Gilmer, an Irish Comedienne and Vocalist, will appear. The programme promises a lively entertainment.

—It is now asserted that Bonard, who left Bergh so much money for the prevention of cruelty to animals, was a Pythagorean, and thought he might sometime reappear on four legs. Hence his pecuniary precaution.

Orders received by mail, express, or at the CHRON'CLE OFFICE will be *promptly filled.*

BUSINESS NOTICES.

The cathartics used and approved by the physicians comprising the various medical associations of this State are now compounded and sold under the name of *Parson's Purgative Pills.*

We copy the following from an exchange, which is important if true:—Chronic diarrhœa of long standing, also dysentery, and all similar complaints common at this season of the year, can be cured by the use (internally) of *Johnson's Anodyne Liniment.* We know whereof we affirm.

SPECIAL NOTICES.

How We Used to be Physicked.

Who does not remember the time when spring purgation was considered indispensable to summer health? No matter for wry faces, the inevitable salts and senna, rhubarb, or calomel and jalap, must be administered. These "spring medicines," the youngsters were told, were to keep them hale and hearty during the summer. We all know that this was a falsey; that new vigor, not depletion, is what is required at the commencement of the summer solstice. As a preparation for the enervating effects of oppressive summer weather, a course of HOSTETTER'S STOMACH BITTERS is highly expedient. This famous vegetable preparation has three prominent properties: It renovates, purifies, and regulates all the functions of the body. It is composed exclusively of pure vegetable productions, viz: the essential principle of Monongahela Rye, and the most efficacious tonic and alterative roots, barks, and gums known to medical botanists. Hence, it is an absolutely safe medicine, and no chemicals in the Pharmacopœia can compare with it either in purity, or in the variety of its objects, and its comprehensive results. Happily for mankind, the theory that it was necessary to prostrate a patient in order to cure him, is forever exploded, and the true philosophical doctrine, that vigor is the great antagonist of disease, has taken its place. Hostetter's Bitters is an invigorant, and hence it is the proper medicine for the feeble at this most trying season of the year.

Be sure that you obtain the genuine article, as there are innumerably vile imitations in the market. Look to the ornamental stamp, the engraved label, and the name blown into the glass. Hostetter's Stomach Bitters is sold in bottles only.

THE WORLD IS IN ARMS

Against the new hair-coloring preparations. Science condemns them. They are virtually dead. Meanwhile,

Cristadoro's Excelsior Hair Dye

proved by time and sanctioned by practical chemists, has become the standard article of its class throughout the length and breadth of the land. It is poisonless, rapid in its operation, certain to produce the required shade of color, and has no equal among hair dyes, either in the United States or Europe. To beautify and soften the hair after dyeing, use

CRISTADORO'S HAIR PRESERVATIVE

as a dressing. 1mje27

PROPOSALS FOR ALTERING AND REPAIRING THE LIGHT-HOUSE TENDER "IRIS."

TREASURY DEPARTMENT,
OFFICE LIGHT-HOUSE BOARD,
Washington City, June 23, 1871.

SEALED PROPOSALS will be received at this Office until 1 o'clock P. M., on Friday, the 28th day of July next, for altering and thoroughly repairing the Light-House Tender "Iris," (now at Portland, Maine, where she may be examined at any time,) according to the printed, detailed specifications, and plan of the vessel, which will form a part of the contract, copies of which may be obtained upon application to the Light-House Board, and at the Offices of the Light-House Inspectors at Boston and Portland, and also at the Custom-houses at Portsmouth, N. H., and Ellsworth, Maine.

Bidders are required to state (in submitting their bids) the time within which they will contract for the entire and satisfactory completion of the work according to the terms of the specifications, in case of acceptance, and to be guaranteed by satisfactory security.

For full details, see printed specifications, plan, and the form of bid and gurrantee required. The right is reserved to reject any bid, or all bids, for reasons other than the price that may be named.

All bids must be carefully sealed and endorsed "Proposals for Altering and Repairing Light-House Tender 'Iris,'" and then be placed in another envelope and addressed, for delivery in person, or be sent through the mail *prepaid*, to the "Chairman of the Light-House Board," Washington City. THE DAY.

When in the course of human events, it becomes necessary to neglect business and join in the quiet or noisy celebration of national birth days, there is very little hesitancy in accepting the situation, and the non-appearance of the CHRONICLE to-morrow will be the result of twenty-four hours' absence of our employees from their post, preferring to exchange the composing stick for the bat, the oar or some display of dormant vigor which we wot not of.

"Grandly and gloriously" was the first hour of the day ushered in by the enthusiastic *gamins*. That Christian Shore bell awoke echoes that dispelled the dreams of all mortals within hearing. What cared the boys for "old fogies?" It wasn't a time to sleep, and if any body needed rest, let them go to the country or a nunnery! Was it too dark for such early demonstrations? The moon was sufficient for them, but to accommodate, they would just build a bonfire or two, and that developed a new necessity—inflammable material was indispensable; and out from back yards and dark precincts rolled barrels and boxes, slabs and debris, the urchins throwing their whole soul into the matter; here a youth of seven tugging at a box that he has hardly strength enough to lift, there a lad of twelve staggering under a load which falls from his shoulders just as he arrives on Market Square. A welcome shout, a dozen comrades rush to the rescue and the burden becomes light as they raise it and throw it on the accumulating pile of rubbish.

Do the arrangements disturb you? Arise, come out and see the fun.

These boys have been at it, since 11 o'clock, P. M., of Monday. Many hands make light work. Each knows a particular pile of rubbish belonging to people soundly snoozing. Those piles of rubbish are being transferred for coming use. Note the gradual subsidence of the noise. The great anniversary day is at hand. In one minute, the clocks will "strike twelve" and all the fugitive rubbish gatherers have straggled in to see the full fruition of their hopes. That pyramid looming in the dark has tar barrels for a foundation. The clocks begin to chime the hour, the hero of the moment has lighted a match and applied it to the base of the pyramid. Straightway, a lurid flame shoots upward, the suppressed breathing is changed to a round of uproarious cheers and volley after volley, regular and irregular, is fired from muskets, pistols and miniature cannon by the older boys, while the younger respond with cannon crackers and torpedoes. "Wasn't it glorious," cries a little one from out the crowd, just as the gathering flames light up his ruddy countenance, his eyes sparkling with delight. You feel the same spirit in your veins, forgetting that you are passed boyhood's happy hour. You would not begrudge the little fellows their enjoyment if there is safety from danger. "Fourth of July only comes once a year," says one of them as he enthusiastically explodes his fire crackers.

The programme of the day's festivities hereabouts is more or less immense.

At sunrise, the church bells will be rung.

About that time, the Star Spangled Banner will be thrown to the breeze from the City Rooms, amidst subdued enthusiasm.

At 7.30, o'clock, A. M. an excursion party of 527 will arrive from Manchester and take steamers for the Shoals, intending to return here at 8,30 P. M. and take a special trainfor home. The Peirce Bros. have erected a large tent at Frost's Point for the accomodation of some of the visitors.

A morning concert by the Cornet Band will be given on Market Square from 8 to 10 o'clock.

From 8 to 12 A. M., the Post Office clerks will get around lively, assorting and delivering mails. It's a way they have.

The Temple Bowling Alley will be open all day.

At 9 o'clock a base ball match will come off at the Plains, between the Minies of South Berwick and the Newmarket club.

At 9.30, the Second Adventists will commence a meeting in Hartshorn's grove, near the South Cemetery, to be continued at 2.30 P. M.

At noon, the bells will be rung again and Uncle Sam will fire a salute from the Navy Yard battery.

At 2:30 P. M., the Athletics of this city and the Minies of South Berwick will play a game of base ball at the Plains.

A large crowd will go to Rye Beach and take refreshments with Mr. G. H. Jenness at his saloon near the Sea View House. Harlow's Marine Band will give concerts there, afternoon and evening.

From 5 to 6 P. M. the Post Office will be open.

At 5,30 the Steamer Appledore will make an excursion to the Shoals, returning at 8.30. Fare 50 cents.

At sunset, the bells will ring.

A concert will be given from 8 to ten P. M., on Market Square, by the Cornet Band and ere the gathering darkness deepens, when the sun has sunk behind the Western hills and the moon shall rise in her majesty, rockets will go up and sticks will come down, torpedoes will be thrown among promenaders by the small boys, and blue lights will cast an azure hue o'er the assembled multitudes.

All drunkards confined at the Station House will be released on recovering their perpendicularity.

Finally, everybody will go home, many cross and tired and nearly all (the boys excepted) glad and thankful that Fourth of July is over.

THE Oil Paintings advertised to be on exhibition and sale at H. F. Wendell's Auction Room last week, were detained on the route and did not arrive until Monday morning, the 3d. We have glanced over the stock, and confess ourselves surprised at the merit of many of the pictures, which are of a class not usually offered to the public at auction. Two works by Remington, "Niagara by Moonlight," by Vinning, and an American Autumn landscape by somebody else, particularly attracted our attention; but the whole collection is well worthy an inspection by all lovers of art. There is also a large assortment of watches, jewelry, cutlery, &c., on sale at the same place. The advertisement may be found in another column.

GEORGE H. KNOWLTON, Esq., one of the editors of the Portland Press, died of inflamation of the bowels, at Biddeford, on Monday. Mr. Knowlton was formerly in the grocery business here and afterwards went to Alfred, Me., where he held the office of Register of Deeds and studied law. He was Assessor of Internal Revenue at the time of his death. Mr. Knowlton was about 35 years of age and leaves a wife and one child. His funeral takes place to-day.

THE NEW ORLEANS, MOBILE & TEXAS RAILROAD COMPANY

Are building a trunk line, connecting New Orleans with Mobile on the east, and giving

THE ONLY RAILROAD CONNECTION

between the former city and the great and most productive State of Texas of the west, the total distance from Mobile to Houston being 475 miles.

The Company is composed of strong Northern capitalists, who have already expended nearly **TEN MILLION DOLLARS** of their own funds in the construction of the line. They have built about 225 miles from Mobile westward, and secured by purchase of securities and made provision for the thorough repair and equipment of the 108 miles of the Texas division; leaving but 140 miles to be built

To Complete the Entire Road.

It is believed that no other railroad corporation in the country has ever made so large an expenditure from its own means before offering any of its securities to the public.

The Company now offer for sale the

Eight Per Cent. Mortgage Bonds

upon the Louisiana division of 226¾ miles from New Orleans to the Sabine River. This will probably be the most valuable portion of the whole line, as it will be the only rail communication by which the enormous productions of Texas can reach the Southern metropolis.

So important is this road considered to Louisiana, that the State has made very liberal grants in aid of the enterprise, by direct donations, by endorsement of its bonds, and by subscriptions to the stock of the Company, amounting in all to over eight million dollars.

The Bonds now offered are of two classes:

FIRST MORTGAGE BONDS,

to the amount of $12,000 per mile, and

SECOND MORTGAGE BONDS,

to an equal amount, both principal and interest guaranteed by the State of Louisiana. The price of the two classes is the same, and subscribers can take their choice.

The Bonds are only in the denomination of $1,000, or £200 each, interest payable January and July, at the rate of eight per cent. currency in New York, or seven per cent. gold in London, at the option of the holder, at the time each coupon is due. Bonds can be registered, if desired.

No better security has been offered to investors. The Bonds are largely profitable, as well as entirely safe. One thousand dollars invested in these eight per cent. bonds will give the purchaser *more than seventy-seven per cent.* greater annual interest than the same amount invested in the new Government Five Per Cents.

At the same price, an 8 per cent. currency long bond is far cheaper than a 7 per cent. gold one. Calculating a return to specie payment in three years, and taking the time that the bonds of the New Orleans, Mobile and Texas Railroad have to run—45 years—we find that by compounding the interest of each, every six months, at 7 per cent. **and 8 per cent currency bond at 90 will give a return of $2,614.18 MORE than a 7 per cent. gold bond, at the same price, or nearly three times the amount of the original investment.**

The Bonds are dated May 1, 1871. The first coupon will, therefore, be a fractional one, running from May 1 to July 1. The price is 90, and accrued interest at 8 per cent. currency from May 1st to date of remittance.

"These Bonds are offered for the present at 90, and accrued interest at 8 per cent. currency from July 1 to date of remittance."

Subscriptions will be received in Portsmouth by

First National Bank.

Information concerning the Company and the Road, and pamphlets containing map and full details of the enterprise, can be obtained of the undersigned or any of the Company's advertised agents.

HOTELS.

MARSHALL HOUSE,
YORK BEACH. This now and commodious SUMMER HOTEL is situated in one of the most beautiful localities on the coast, at the mouth of York River; the facilities for Bathing, on sandy beaches, in surf or still water,—for Fishing, or for Boating on a beautiful river, are unrivalled; the sea view (taking in Boon Island and the Shoals) is unsurpassed, and the river and inland scenery *not equalled* by that surrounding any other hotel along the whole coast. With a good table, moderate charges, and strict attention and courtesy to all, we intend to merit and hope to receive a fair share of public patronage. The hotel will be open to the public, June 20th. N. G. MARSHALL & SONS,
Proprietors.

☞ Steamer HOFFMAN, Capt. Emerson, will make two trips daily (on Tuesdays, Thursdays and Saturdays) between Portsmouth and York Harbor, connecting with morning and afternoon trains from Boston, during the season, conveying passengers at reasonable rates and landing them but a few rods from the Hotel. The run across will occupy but about one hour. je10

APPLEDORE HOUSE,
ISLES OF SHOALS. Open June 20th. Much enlarged and improved since last season.

The swift steamer APPLEDORE, Capt. Baker, will leave Pier Wharf, Portsmouth, at 11 o'clock A. M., returning in season to connect with the cars.

ARE YOU GOING TO PAINT?
—IF SO, USE THE—
AVERILL CHEMICAL PAINT.

It is Cheaper, Handsomer and more durable than the best of other Paints. One Thousand Gallons of it were sold in this City, in the year 1870, and not one complaint has come from those who have used it; but all speak in its favor; it is mixed ready for application, and is much easier put on than any other Paint, making a smooth, glossy surface for years, that can be cleaned with hot suds without injuring it. It is excellent for walls inside, in the place of paper.

I shall keep this season a large stock of Chemical Paints of all shades on hand, to accommodate customers with any amount, without delay in ordering it. Those who want to use the Chemical Paints and have had them misrepresented by those who deal in Lead and Oil, are invited to call and examine my Paints that have been on Buildings two years, and you will find them as fresh as if laid but one month.

I am prepared to do Painting by Contract, or by the day, using the Chemical Paint, or furnishing good experienced workmen by the day at very low wages. B. NORTON, only Agent for selling the

NEW FIRM!
INSURANCE BUSINESS
The Subscribers having purchased the "Business and Goodwill," of
The Old and Well Established Insurance Company of JOHN S. HARVEY,
have this day formed a co-partnership, under the firm name of
MORSE & ILSLEY,
for the purpose of carrying on the Insurance Business in all its branches. They trust, by industry, integrity and good judgment, to merit the approbation of all the old patrons of the office, and to receive a good share of new business.

MR. HARVEY will still take a lively interest in the Companies for which he has so long and faithfully worked, and he is authorized to receive applications for Insurance in said Companies at our Agent.

JOSEPH P. MORSE,
WINGATE N. ILSLEY,
Portsmouth, May 1, 1871.

A CARD.
HAVING disposed of my Insurance Business to JOSEPH P. MORSE and WINGATE N. ILSLEY, two gentlemen well known for their integrity and business capacity, I return my thanks to my old and constant patrons and friends, for their many favors, and earnestly recommend my successors, trusting the same generous patronage will be extended to them as to myself. They represent some of the oldest and most reliable Companies in both Fire and Life Insurance in the Country.

HOW SIAH AND I PARTED.

[The following poem, a continuation of "Betsey and I are Out," is sent us by Mrs. French, of Thirty-second street, New York, who claims to have written both it and its predecessor, under spiritual influence as a "mechanical medium." Her friends assert that they can make good her claim to the authorship of the poem published under the name of Will M. Carleton. However that may be, we present the stanzas below as interesting in view of the controversy which the lady's claim is likely to create, whether they shall be found of intrinsic merit or not.] *Brooklyn Union.*

HOW SIAH AND I PARTED.

Siah brought home from the lawyers
A paper for me to sign,
Saying what was his should be his
And what was mine should be mine.

For Siah and I had quarreled
So many times, you see,
That at last we agreed together
That we could never agree.

So I read the paper over,
Each separate paragraph,
And found that for all the property
He'd give the better half;

For he gave me the house and homestead,
And kept the Tewsbury hill;
He gave me the cute Salandin,
And kept the lame horse Bill.

He gave me the brindle heifer,
The sheep and the line back cow,
And kept the steers that wouldn't draw,
And the lean-ribbed, peak-nose sow.

I was mad because he favored me,
And made it show so plain;
And I reckon if he had done less
I should only have been mad again.

But looking along the paper
The first thing that I read
Was "Lay us under the maples
Together, when we are dead."

Then I knew the choice that was left me
Was a flood of tears or tongue,
So I told him I wouldn't sign the thing,
To keep him from being hung.

In his mean old farm and live stock
I scorned any part or share;
I was going home to my mother,
And 'twas none of his business—there!

Then straight in my face looked Siah.
'Till I turned my face away,
And he walked out through the kitchen,
Not another word to say.

I heard his step fall heavy,
But I didn't see him go.
The maples were blushing scarlet
That he planted years ago;

And under them played little Bessie,
The child of our failing years;
I heard her calling Papa,
And then came a rush of tears.

But before I could reach the doorway,
Click went the garden gate,
And to all my sorrowful feelings
It seemed to say, too late,

And Bessie came in from playing,
A tear on each round, red cheek,
And asked "where is Papa going;
He kissed me but did not speak?"

Then up in my arms I caught her,
And murmured and sobbed her name,
Bemoaning that ever my darling
Was born to such sorrow and shame.

But Siah was gone. The sunshine
Lay golden along the lane,
I strained my eyes with watching,
But he did not turn back again.

I remember 'twas Thursday morning,
I was baking pies and cake;
But I had no luck with the eggs and cream,
And the oven wouldn't bake.

The hours crept by slow-footed,
Night darkened, buried the dawn;
I tried to be happy and careless
And not wonder where Siah had gone.

At last the hired man came and told me:
"I'm going; it's Saturday night."
He went, and I tidied the door-yard
And set the kitchen to rights;

And cuddled and rocked little Bessie, while
She said, "Now I lay me" so sweet;
Then her blue eyes drooped and I laid her down
In her old-fashioned crib, fast asleep.

I remember the prayer meeting gathered
As usual, at good Deacon West's;
I felt like staying away for once, but
I thought, to go would be best.

The neighbors they knew we quarreled,
And as Siah allers said,
They had lent their kindest services
To help the thing ahead.

But that night they turned up their noses,
With a smile that was almost a sneer;
And asked, "Where is Mr. Perkins?
Why isn't he with you here?"

I was angry, and grieved and tortured,
Though I tried to be proud and cool;
But I blamed them all for hypocrites,
And blamed myself for a fool.

So when I could bear it no longer,
And the Deacon was praying still,
I just slipped out and hurried home,
Alone, by the Wolf Rock hill.

Silent I entered the kitchen,
And walked across the floor;
And silent I paused, in fear and fright,
By the open bedroom door.

For lo! in the golden moonlight
A strange dark shadow was there—
'Twas Siah kneeling by Bessie's crib,
And I knew he was breathing a prayer.

In a minute I kneeled beside him,
Not a single word we said;
But I saw there were tears on the pillow
That Bessie never shed.

And under the old rose blanket
That was new on our wedding-day,
And under the patchwork coverlet,
We found it was better to lay

Than under the thirty maples (they
Have doubled in size since then);
And if the Recording Angel came
Down with his book and pen,

That night I know the last record
He took to his higher sphere
Was, "Betsy, wife, are you sorry I come?"
"Husband I'm glad you're here."

Next mornin' we burned the paper
We both had forgotten to sign;
I did not ask his forgiveness,
And he did not beg for mine;

But we both pretty much concluded,
Without any words to tell,
That what was mine was his'n,
And his'n was mine as well.

—A Colorado saloon keeper said of a rough crowd: "I couldn't get their whiskey strong enough for them, so after trying every way, I at last made a mixture of poison oak and butternut. It fetched 'em. I called it the sheep herder's delight; and it was a popular drink. The first Pike I tried it on yelled with delight; the next one took two drinks, and turned a double somerset in the road before the house. A peddler came along, and after he took several drinks of my sheep herder's delight, he went off and stole his own pack, and hid it in the woods."

SCIENTIFIC AND POPULAR MEDICAL WORKS
—ON—
MANHOOD, WOMANHOOD AND NERVOUS DISEASES,
PUBLISHED BY THE
PEABODY MEDICAL INSTITUTE,
No. 4 Bulfinch Street, Boston,
(Opposite Revere House.)

DR. W. H. PARKER, Assistant Physician.

Medical knowledge for everybody. 250,000 *copies sold in two years.*

A Book for every Man.

THE SCIENCE OF LIFE, OR SELF-PRESERVATION. A Medical Treatise on the Cause and Cure of EXHAUSTED VITALITY, PREMATURE DECLINE IN MAN, NERVOUS AND PHYSICAL DEBILITY, HYPOCHONDRIA, and all other diseases arising from the ERRORS OF YOUTH, OR THE INDISCRETIONS OF MATURE YEARS. This is indeed a book for every man. Price only $1.00. 285 pages, bound in cloth.

A Book For Every Woman,

Entitled SEXUAL PHYSIOLOGY OF WOMAN, AND HER DISEASES; or, WOMAN TREATED OF PHYSIOLOGICALLY AND PATHOLOGICALLY, FROM INFANCY TO OLD AGE. With elegant ILLUSTRATIVE ENGRAVINGS. 320 pages, bound in beautiful French cloth. Price $2.00.

A Book for Everybody.

Flattered by the reception of, and great demand for, the above valuable and timely treatises, and also to meet a great need of the present age, the author has just published a new book, treating exclusively of SEXUAL DISEASES AND MENTAL DISEASES. 150 pp. cloth Price $1, or SENT FREE on receipt of $3 for the other two books, postpage paid.

These are, beyond all comparison, the most extraordinary works on Physiology ever published. There is nothing whatever that the MARRIED OR SINGLE, of EITHER SEX, can either require or wish to know, but what is fully explained, and many matters of the most important and interesting character are introduced to which no allusion even can be found in any other works in our language. All the NEW DISCOVERIES of the author, whose experience must be probably never before fell to the lot of any man, are given in full. No person should be without these valuable books.

VALUABLE PRESENTS are now received the valuable medical works published by the Peabody Medical Institute. These books are of actual merit, and should find a place in every intelligent family. They are not the cheap order of abominable trash, published by irresponsible parties, and purchased to gratify coarse tastes, but are written by a responsible professional gentleman of eminence, as a source of instruction on vital matters, concerning which lamentable ignorance exists. The important subjects presented are treated with delicacy, ability and care, and, as an appendix, many useful prescriptions for prevailing complaints are added."—*Coos Republican, Lancaster, N. H.*

"The author of these books is one of the most learned and popular physicians of the day, and is entitled to the gratitude of our race for these invaluable productions. It seems to be his aim to induce men and women to avoid the cause of those diseases to which they are subject, and he tells them just how and when to do it."—*Chronicle, Farmington, Maine, Sept. 7, 1869.*

Either book sent by mail on receipt of price.

N. B. The Author of the above-named medical works is the Chief Consulting Physician of the Peabody Medical Institute, and is so constantly employed in consultation with invalids from all parts of the country, that he has no time to attend to mere business details. Therefore all letters should be addressed to the PEABODY MEDICAL INSTITUTE, or to Dr. W. H. PARKER, the Medical Assistant of the Author, and his Business Agent, who, as well as the Author himself, may be consulted on all diseases requiring skill, secrecy and experience. oct25 1yr

A GREAT MEDICAL DISCOVERY!
DR. WALKER'S CALIFORNIA
VINEGAR BITTERS.
Hundreds of Thousands Bear Testimony to their Wonderful Curative Effects.
WHAT ARE THEY!

THEY ARE NOT A VILE FANCY DRINK, Made of Poor Rum, Whiskey, Proof Spirits and Refuse Liquors doctored, spiced and sweetened to please the taste, called "Tonics," "Appetizers," 'Restorers," &c., that lead the tippler on to drunkenness and ruin, but are a true Medicine, made from the Native Roots and Herbs of California, **free from all Alcoholic Stimulants.** They are the GREAT BLOOD PURIFIER and a LIFE-GIVING PRINCIPLE, a perfect Renovator and Invigorator of the system, carrying off all poisonous matter and restoring the blood to a healthy condition. No person can take these Bitters according to direction and remain long unwell, provided the bones are not destroyed by mineral poison or other means, and the vital organs wasted beyond the point of repair.

For Inflammatory and Chronic Rheumatism and Gout, Dyspepsia or Indigestion, Bilious, Remittent and Intermittent Fevers, Diseases of the Blood, Liver, Kidneys and Bladder, these Bitters have been most successful. Such Diseases are caused by Vitiated Blood, which is generally produced by derangement of the Digestive Organs.

DYSPEPSIA OR INDIGESTION, Headache, Pain in the Shoulders, Coughs, Tightness of the Chest, Dizziness, Sour Eructations of the Stomach, Bad taste in the Mouth, Bilious Attacks, Palpitation of the Heart, Inflammation of the Lungs, Pain in the regions of the Kidneys, and a hundred other painful symptoms, are the offspring of Dyspepsia.

They invigorate the stomach and stimulate the torpid liver and bowels, which render them of unequalled efficacy in cleansing the blood of all impurities and imparting new life and vigor to the whole system.

FOR SKIN DISEASES, Eruptions, Tetter, Salt Rheum, Blotches, Spots, Pimples, Pustules, Boils, Carbuncles, Ring-Worms, Scald Head, Sore Eyes, Erysipelas, Itch, Scurfs, Discolorations of the Skin, Humors and Diseases of the Skin, of whatever name or nature, are literally dug up and carried out of the system in a short time by the use of these Bitters. One bottle in such cases will convince the most incredulous of their curative effect.

Cleanse the Vitiated Blood whenever you find its impurities bursting through the skin in Pimples, Eruptions or Sores; cleanse it when you find it obstructed and sluggish in the veins, cleanse it when it is foul, and your feelings will tell you when. Keep the blood pure, and the health of the system will follow.

PIN, TAPE and other WORMS, lurking in the system of so many thousands, are effectually destroyed and removed. For full directions, read carefully the circular around each bottle, printed in four languages—English, German, French and Spanish.

FOR FEMALE COMPLAINTS, whether in young or old, married or single, at the dawn of womanhood or at the turn of life, these Tonic Bitters have no equal. ☞ Send for a circular.

They are a Gentle Purgative as well as a Tonic, passessing also, the peculiar merit of acting as a powerful agent in relieving Congestion or Inflammation of the Liver, and all the Visceral Organs. lyr|&w&w

The Young Pilot for July is fully up to the standard. The articles are fresh and varied. The present number contains a very interesting article on a trip to the Schoodic Lakes, two chapters of "My Uncle's Watch", Paris, Great Men, &c., $1 per annum. Send stamp for specimen. Franklin H. Tinker, 6 and 7 Farwell Hall, Chicago, Ill.

Old and New, for July, contains the first part of a serial by Edward E. Hale, called "Ups and Downs;" an article on Edward Everett's College Life; Examinations for Women in Cambridge, England; Lyrics; a fresh part of the story, "Two College Friends;" The Cambridge Union; Recollections of Mexico and Buena Vista; The continuation of Mrs. Stowe's story, "Pink and White Tyranny;" Talk About the Tea-Table; Elegiacs; which with The Examiner, Fine Arts, and Record of Progress, make this number an unusually fine one.

INDIAN MASSACRE. — We have to record another of those terrible tragedies which have become so frequent of late on our Frontier, caused by the pacific policy of the General Government towards the Indians of the Reservation.

On Thursday the 19th of May, about 21 miles West from Jacksboro', and 8 miles East of Salt Creek, on the main road from Weatherford to Fort Griffin, one of the trains loaded with corn for Fort Griffin Government Contractors was attacked by one hundred and fifty or two hundred well armed and mounted Comanche and Kiowa Indians, each Indian having a Spencer carbine and revolvers. The train consisted of wagons, their being with the train 12 men well armed, a wagon master, ten teamsters, and one night watchman.

At the time of the attack the wagons were about to camp, it being about 3 o'clock in the afternoon, when the Indians were discovered one-half mile distant, having been previously concealed behind some rising ground on the prairie. They were riding rapidly towards the train, all being well mounted and appeared to act in concert as though under command of some leader. The wagon master, Mr. N. S. Long, immediately endeavored to corral the wagons for defense, and succeeded in making an imperfect corral by driving the wagons in a circle. The teamsters then prepared for a desperate fight and endeavored to build a breastwork of sacks of corn, but the fire of the Indians was so heavy they were unable to complete it. The wagon master and four teamsters were killed in the corrals; several Indians had also been killed, and the Indians now dismounted and prepared to charge the train on foot; the remaining seven men then left the corral of wagons, endeavoring to reach the cover of the timber, distant some two miles. The Indians pursued them and in the running fight which ensued on the prairie two more of them were killed and three wounded. After gaining the timber the Indians left these men and went back to the train, which they plundered of everything that could be carried off. The five remaining men of the train arrived at Jacksboro' at daylight on Friday, the 20th inst.

A party was sent out from Fort Richardson and buried the victims of the tragedy, who presented a terrible appearance. Their bodies were fearfully mutilated by the Indians in their savage frenzy, the body of one of the teamsters being chained to a wagon wheel and burned. These brave men made a noble fight for their lives and died at their post doing their duty, none attempting to leave their train until it was madness to stay longer.—*Weatherford (Texas) Post.*

—The Boston Journal of Chemistry gives the following recipe for a cheap ice chest: Take two dry goods boxes, one of which is enough smaller than the other to leave a space of about three inches all around when it is placed inside. Fill the spaces between the two with sawdust packed closely, and cover with a heavy lid made to fit neatly inside the large box. Insert a small pipe in the bottom of the chest to carry off the water from the melting ice. For family use this has proved quite as serviceable and as economical as more costly "refrigerators."

—If any proof were needed to show that the Chinaman is rapidly becoming civilized, the latest item from the Patent Office would be sufficient. One Lee Fing, who lives in Canton, and one Pon Jib, who abides in San Francisco, are partners in a tea firm, and, desiring to protect their wares, they have sent to Washington for a patent on their trade-mark.

THE DETAILS of the English census returns show that the larger cotton-manufacturing cities have lost in population sinc 1860.

The Daily Chronicle.

Portsmouth, N. H.

THURSDAY, JULY 6, 1871.

POLITICAL.

It is said Gov. Claflin of Massachusetts will not be a candidate for re-election.

The Milwaukee Sentinel prefers Grant to Greeley as a candidate for the Presidency for reasons which it states as follows:—"Which will be our safest leader, the hero of Vicksburg or the farmer of Chappaqua? A gleam of steel in the background will be more reassuring than the hazy vision of a field of gourds."

A correspondent of the New Orleans Republican, writing of the next leader of the Democratic party, says: "George Pendleton is a frank, generous, good fellow, but he is not shrewd enough. His wife is a charming, fascinating women, but she belongs to that old secession Key family. At her sister's (Mrs. Gen. Howard) in Baltimore, I once met Jeff Davis, and I then learned how deep-dyed in secession were the whole family. The guests of Mrs. Pendleton in Cincinnati always smack of disloyalty, too; in fact, during the war she led the secession element in Cincinnati. The Groesbecks were disloyal enough, but they did not 'tassel out' like the Pendletons. Mrs. Pendleton affected the exclusive aristocratic secessionists. She gave dinners and cut Unionists."

MRS. LYDIA SHERMAN was arrested at New Brunswick, N. J., June 30, by officers from Connecticut, who charge her with having poisoned three husbands and two stepchildren. Her last husband was N. H. Sherman of Derby, Conn., a widower with two children, one six and the other fifteen years old. Within nine months these three died, all under the same circumstances, and poison was found in the stomachs of all three. The officers state that they are able to fix upon the alleged murderess the purchase of poison similar to that of which traces were found, and there is no doubt the woman is guilty of one of the most startling crimes ever committed in this part of the country. On being charged with the crime she manifested surprise, which was either real or very well assumed. She gave no appearance of guilt, and beyond simple surprise and an assertion of her innocence, did not seem to be at all affected.

HON. A. A. SARGENT has been renominated for Congress by the California Republicans.

TURKEY AND EGYPT are preparing for war.

THE Democratic press have a great deal to say concerning the "corruption of radical Internal Revenue collectors" and other officials, under the present administration. That a rogue will get in occasionally where so many men are employed is unavoidable, and some few of the Republican tax gatherers have turned out to be swindlers and thieves; but the government reports show that there is still due from Andy Johnson's Revenue Collectors, nearly all of them Democrats, the snug sum of $1, 813, 757, or more than double the amount lost to the Treasury by defaulting collectors since President Grant took his seat! The Democratic party also clamor to be put in power at Washington, so that "an honest and economical administration of the national finances" may be secured. They shout that the national expenses should not exceed $100,000,000 per annum, and would not if they were running the machine and guarding the Treasury. [Probably less than that amount would be spent *on the country's affairs*, if they were.] But New York city, the stronghold of copperheadism in the North, is groaning under the immense city debts contracted by Tammany, many of whose leaders were poor men before they took up the business of being self-sacrificing Democratic economists, and now count their wealth by millions. The Tammany Ring are the leading representatives of the virtuous Democracy who demand national power as a reward "for their honesty," but this same Ring have empowered themselves to expend $70,000,000 in 1871! Not far from half as much as the entire national expenditure, for one Democratic city. The council of political reform, a body of citizens of New York who have undertaken to expose and reform abuses in the city and State government, have made a public report on the taxes and debt of the city, which presents some startling facts. For two years and four months, during which period $100,000,000 passed through their hands, the mayor and comptroller made no report to the public. This was in open violation of the law, which requires a report quarterly. Finally, just on the eve of the last election, they put forth a misleading statement, signed by Messrs. Roberts, Astor, Taylor and other citizens. This was followed on the 12th ult. by the formal reports of these officers. Yet these are only in round numbers, are not accompanied by the auditor's report, — which is most demanded,—and include no report from the comptroller for the year 1869.

The paper then gives a set of tables showing the growth of the debt, from which it appears that in twenty-eight months the total was increased over fifty millions, and in four months over ten millions. Within two years the ring raised over sixty millions from the citizens by taxation, and spent thirty-nine millions in addition, which they borrowed. It further appears that when charged last year with having swelled the city debt up to seventy millions, the authorities denied and ridiculed the charge. But their own report now shows that the debt at that time was over eighty-four millions, exclusive of the floating debt. These acute critics close by presenting an instructive comparison of the difference between Tammany management and the present administration of the national finances:—

The city rulers showed no account for twenty-eight months. The national rulers report in full and minutely on the first day of each month, for the preceding month; furnish the report to the press, from Maine to California, and mail a tabular statement to every one who asks for it.

The city rulers in the last two years more than doubled the city debt. The national rulers in the same period reduced the debt of the nation eight per cent., and reduced taxation some twenty per cent.

Comptroller Connolly gives not a line of explanation of the $18,812,000 added to the county debt in two years, on claims adjusted by himself alone, and the mayor and president of the board of supervisors. The municipal extravagance, corruption and incapacity of the last twenty-eight months is unexampled in history. No city or county can show its equal.

Until our city rulers produce their accounts and deliver to the public the regular quarterly reports of the auditors for the last twenty-eight months, showing to whom, when and for what they paid the four millions a month spent by them in that period, tax-payers and the public creditors cannot avoid the belief that a large part of it was stolen, traitorously stolen.

—The Democratic office-seekers are becoming impatient over the dead-lock in the Senate. A Democratic editor casually expressed the exact situation when he remarked: "Thirty-five thousand Democrats are blaming us for not doing something, and thirty-five thousand Republicans are laughing at us because we can't do anything. Whatever we may do, it can't be much worse for us."—*Nashua Telegraph.*

THERE IS NO TRUTH in the report that the redeemed bonds undestroyed in the Treasury had been stolen in large quantities, and their places made good by counterfeits.

THE result of the supplementary elections in France is estimated to be the return of 120 Republicans, 8 Legitimists and 12 Bonapartists.

SPECIAL NOTICES.

How We Used to be Physicked.

Who does not remember the time when spring purgation was considered indispensable to sumtitable health? No matter for wry faces, the inevitable salts and senna, rhubarb, or calomel and jalap, must be administered. These "spring medicines," the youngsters were told, were to keep them hale and hearty during the summer. We all know that this was a falacy; that new vigor, not depletion, is what is required at the commencement of the summer solstice. As a preparation for the enervating effects of oppressive summer weather, a course of HOSTETTER'S STOMACH BITTERS is highly expedient. This famous vegetable preparation has three prominent properties: It renovates, purifies, and regulates all the functions of the body. It is composed exclusively of pure vegetable productions, viz: the essential principle of Monongahela Rye, and the most efficacious tonic and alterative roots, barks, and gums known to medical botanists. Hence, it is an absolutely safe medicine, and no tincture of the Pharmacopœia can compare with it either in purity, or in the variety of its objects, and its comprehensive results. Happily for mankind, the theory that it was necessary to prostrate a patient in order to cure him, is forever exploded, and the true philosophical doctrine, that vigor is the great antagonist of disease, has taken its place. Hostetter's Bitters is an invigorant, and hence it is the proper medicine for the feeble at this most trying season of the year.

Be sure that you obtain the genuine article, as there are innumerably vile imitations in the market. Look to the ornamental stamp, the engraved label, and the name blown into the glass. Hostetter's Stomach Bitters is sold in bottles only.

ARE YOU GOING TO PAINT?
—IF SO, USE THE—
AVERILL CHEMICAL PAINT.

It is Cheaper, Handsomer and more durable than the best of other Paints. One Thousand Gallons of it were sold in this City, in the year 1870, and not one complaint has come from those who have used it; but all speak in its favor; it is mixed ready for application, and is much easier put on than any other Paint, making a smooth, glossy surface for years, that can be cleaned with hot suds without injuring it. It is excellent for walls inside, in the place of paper.

I shall keep this season a large stock of Chemical Paints of all shades on hand, to accommodate customers with any amount, without delay in ordering it. Those who want to use the Chemical Paints and have had them misrepresented by those who deal in Lead and Oil, are invited to call and examine my Paints that have been on Buildings two years, and you will find them as fresh as if laid but one month.

THE FOURTH

Has gone the way of 95 others of its kind of American product. The night of the 3d was the most noisy "night before" that Portsmouth has experienced for a dozen years. Bonfires blazed in all directions and every section of the city had its celebrators. The most saddening incident was the drunkenness of mere boys, who went staggering about like old topers, as proud of their disgraceful condition as the first successful attempt at smoking a cigar.

Disturbances were few, although many people found their way to the Police Station, where they were released after sleeping off the effects of their numerous potations. Shortly after the bonfire was kindled on Market Square, a drunken man was repeatedly pushed on the fire, and while the City Marshal was conducting the helpless unfortunate to the Station, he was struck in the neck and head by some one who thought it best to interfere. His cane (of hickory) was torn from his grasp and twisted in two. With the aid of his Assistants, the would-be rescuers were taken to the lock-up.

Though the morning was cool and the wind easterly, all the water craft were engaged and the river—particularly the Lower Harbor—presented an animated scene. The steamboats were conveying crowds all day, to and from the Shoals and the Sagamore, the sail and row boats were dodging about in miniature fleets, and at almost every landing place some merry party might be seen "roughing it" on fried fish, chowder, rolls and butter, pie, cake, cheese, cold ham and tongue, olives, fruit, hot coffee, and such like hard fare. There was little sun, but the day was mild and pleasant, and many fair ladies under the impression that the sun would only injure the complexion, returned to town with brilliantly colored cheeks and noses, the result of the unwonted exposure to the salt air. When the breeze came on cold and fresh, bringing a fog with it, about 4 o'clock, screens were struck, sails set and oars shipped in a hurry, and with voices that did not always keep tune and oars that very seldom kept time, the various parties returned to the city, "Home, sweet home" and "Shoo Fly," in equal quantities, appearing to be the favorite songs of the aquatic vocalists.

One of a picnic party who had landed on Pest Island, chose to go to sleep by the side of his baby, and was awakened by the crawling of an adder from the child's face to his own. That adder has been subtracted from the number of reptiles infesting the earth.

The proposed base ball match between the Minies of South Berwick and a Newmarket club didn't come off on account of the absence of the Newmarket boys. The game at the Plains, in the afternoon, between the Minies and the Portsmouth Athletics attracted a large crowd. Loose play characterized the game throughout, and, finally, after three and a half tedious hours, the visiting club gave up the game on the 8th inning, in order to reach home that night. The score at the time stood 34 to 31 in favor of the Minies, but as the captains of the nines agreed to accept five innings for the game, the umpire, Mr. David Marshall decided it in favor of the Portsmouth boys, the five innings resulting in a score of 22 for the Athletics to 16 for the Minies. The spectators were greatly disappointed because the 9th inning was not played.

The Appledore took large crowds to the Shoals in the morning, including the Manchester excursionists, but on account of the dense fog the evening trip was abandoned. The Cornet Band gave acceptable concerts on Market Square, morning and evening. The bells rang at sunrise, noon and sunset, and Uncle Sam expended powder enough at the Navy Yard for a mid-day salute of 21 guns.

During the afternoon a youngster was started after some yeast by his mother and getting beery undertook to storm the Church with stones. The Church took him in hand, immediately, and guided his "erring footsteps" (the boy's) to the lock-up. There the boy bade him "good bye" and led him a tall chase through the crowd. The return of the youngster was secured and at 10 o'clock the boy did not know where he was and was enquiring for "yeast."

In the evening, crowds thronged the streets, and a few fire-works were let off. At half past 10 o'clock, the streets were nearly deserted. We hear of but one accident during the day. A lad named Tibbetts received the contents of a pistol in the face, and fears were entertained that he might lose the sight one eye.

THE POLICE sent a family of straggling gipseys out of town, on the 5th.

U. S. STEAMER KANSAS was to sail for this port from New York on the 1st. The vessel is of 400 tons burthen.

NO. 5's BOYS have appointed a committee to act in conjunction with other committees on the subject of the Firemen's Muster. Letters are being received from out-of-town companies desiring to take part in the muster.

THE Democratic members of the legislature have sent home Mr. Flagg, the Representative from Ward Two. A friend suggests that if he had been a "rebel flag" the Democracy would have been careful not to disturb the same.

TO-DAY, Thursday, is the last day of the great sale of oil paintings, fine cutlery, watches, jewelry, &c., at H. E. Wendell's Auction Room on State St. Those intending to inspect and purchase will take notice that this is the last chance.

THREE of the four Representatives of Ward Two desire us to contradict the statement in the Lyre that the delegation from that Ward agree that the Ward is entitled to but three Representatives in the Legislature. The fourth Representative we have not seen, as he is out of town.

Hon. Horton D. Walker also pronounces the statement of the Lyre that he acknowledges "the justice of the decision" ousting one of the Ward Two Representatives, false in every respect. Will the Lyre please add to its lengthy list of untruths some that may have some rational foundation for belief? Its reputation may improve if it will publish yarns having a reasonable amount of plausibility about them.

Correspondence.

KITTERY, ME., July 5.

Young America went in at 11.30 P. M., July 3, with bonfires, bell-ringing, music on the plaintive fish-horn and expressive drum, &c., to make a tremendous clatter and celebrate the nation's birthday. At 7 1-2 o'clock A. M., on the 4th, four large boatloads of Good Templars and ladies started for Little Harbor and report having had a glorious time; a company of about one hundred persons went to Preble's Island, the 2d Methodist Society had a picnic in Keen's Grove, the Congregationalists another one at Kittery Point, and there was a general picnic at the Lower Point. These parties were all back at an early hour, and by 6 1-2 P. M. our village was as quiet as Sunday.

Our citizens are talking of putting an article in the town warrant, to see if money can be raised to hire a band, and secure and fit up a grove for a general picnic on the 4th of July, 1872. There is also some talk of voting a leather medal to Portsmouth for her celebration this year, but it is not certain they will do this.

The Universalists are to make preparation this week for dedicating their new chapel. K. M.

OUR York, Me., correspondent informs us that a cannon burst in that town on the forenoon of the 4th, while being fired. The weight of the gun, exclusive of the carriage, was 502 lbs.; but so much weight of cannon cannot now be found. Fragments were scattered in all directions, one piece (weighing 53 lbs.,) going twenty rods; another chunk went through the roof of S. W. Junkins & Co.'s store, fifteen rods from where the gun burst, and a third bit (20 lbs. weight) flew a long distance, knocked an empty nail keg to pieces, and narrowly missed killing Miss Flora L. Plaisted and Miss Laura J. Perry. Stone walls and fences were demoralized and trees badly bruised, but nobody was hurt.

A YOUNG SON of Edward Storer at the South End accidentally cut the heel string of his right foot while playing with a carpenter's adze, Wednesday afternoon.

THE NEW ORLEANS, MOBILE & TEXAS RAILROAD COMPANY

Are building a trunk line, connecting New Orleans with Mobile on the east, and giving

THE ONLY RAILROAD CONNECTION

between the former city and the great and most productive State of Texas of the west, the total distance from Mobile to Houston being 475 miles.

The Company is composed of strong Northern capitalists, who have already expended nearly **TEN MILLION DOLLARS** of their own funds in the construction of the line. They have built about 225 miles from Mobile westward, and secured by purchase of securities and made provision for the thorough repair and equipment of the 108 miles of the Texas division; leaving but 140 miles to be built

To Complete the Entire Road.

It is believed that no other railroad corporation in the country has ever made so large an expenditure from its own means before offering any of its securities to the public.

The Company now offer for sale the

Eight Per Cent. Mortgage Bonds

upon the Louisiana division of 226¾ miles from New Orleans to the Sabine River. This will probably be the most valuable portion of the whole line, as it will be the only rail communication by which the enormous productions of Texas can reach the Southern metropolis.

So important is this road considered to Louisiana, that the State has made very liberal grants in aid of the enterprise, by direct donations, by endorsement of its bonds, and by subscriptions to the stock of the Company, amounting in all to over eight million dollars.

The Bonds now offered are of two classes:

FIRST MORTGAGE BONDS,

to the amount of $12,500 per mile, and

SECOND MORTGAGE BONDS,

to an equal amount, both principal and interest guaranteed by the State of Louisiana. The price of the two classes is the same, and subscribers can take their choice.

The Bonds are only in the denomination of $1,000, or £200 each, interest payable January and July, at the rate of eight per cent. currency in New York, or seven per cent. gold in London, at the option of the holder, at the time each coupon is due. Bonds can be registered, if desired.

No better security has been offered to investors. The Bonds are largely profitable, as well as entirely safe. One thousand dollars invested in these eight per cent. bonds will give the purchaser *more than seventy-seven per cent.* greater annual interest than the same amount invested in the new Government Five Per Cents.

At the same price, an 8 per cent. currency long bond is far cheaper than a 7 per cent. gold one. Calculating a return to specie payment in three years, and taking the time that the bonds of the New Orleans, Mobile and Texas Railroad have to run—45 years—we find that by compounding the interest of each, every six months, at 7 per cent.

an 8 per cent currency bond at 90 will give a return of $2,651,15 MORE than a 7 per cent. gold bond, at the same price, or nearly three times the amount of the original investment.

The Bonds are dated May 1, 1871. The first coupon will, therefore, be a fractional one, running from May 1 to July 1. The price is 90, and accrued interest at 8 per cent. currency from May 1st to date of remittance.

"These Bonds are offered for the present at 90, and accrued interest at 8 per cent. currency from July 1 to date of remittance."

Subscriptions will be received in Portsmouth by

First National Bank.

Information concerning the Company and the Road, and pamphlets containing map and full details of the enterprise, can be obtained of the undersigned or any of the Company's advertised agents.

Morning Chronicle.

IN REFERENCE TO THE STATEMENT that Gen. Thomas was passed over by General Sheridan when the latter was made lieutenant-general, Major-General Hartsuff, adjutant-general of the military division of Missouri, made the following statement: When General, Grant vacated the office of general, and General Sherman succeeded him, the list of major-generals in the order of rank was as follows: Halleck, Meade, Sheridan, Thomas and Hancock. General Thomas was made a brigadier-general in the regular army before General Sheridan, but when Gen. Sheridan was promoted to be major-general for his distinguished services in the valley of the Shanandoah, ending with the battle of Cedar Creek, not a voice was raised against the justice and propriety of his promotion, which was accompanied by an autograph letter from President Lincoln, thanking him for his great services to the country. Subsequently General Thomas, for his distinguished services at the battle of Nashville, was made major-general, taking his place next below General Sheridan. If, therefore, General Thomas had been made lieutenant-general, it would have been General Sheridan, in addition to Generals Meade and Halleck, who would have been passed over.

THE Ku-Klux investigating committee on Saturday examined several witnesses. Among them was Ezek Harris, a young colored man, who rents and works a piece of land in Chatham county, North Carolina. He testified that just before last Christmas a band of white men visited his neighborhood and took away his own and other negroes' guns. A short time afterward a party disguised, whom he believed to be Ku-Klux, came to his house at night and called on him to open his doors. He refused and at once barricaded all the means of entrance except one of the windows, which the murderers forced open and began to fire through, his wife and six children being with him inside, returning their fire. Harris shot she in the breast and another in the eye, and while reloading, his wife called out loudly for a mythical five-shooter, whereupon the Ku-Klux withdrew. He swore that he knew of no assignable reason for his attack, having done nothing to provoke it unless it was to vote a republican ticket. He had now concluded not to vote any more. Captain Daniel Bryan, a conservative witness, knew of these occurrences only by hearsay, but gave Harris a high character.

GEN. SPINNER, United States Treasurer, now on a business visit to Europe, called on the Rothschilds in London and after waiting in the ante-chamber an hour or more, left. He was soon overtaken by a clerk, who proceeded to apologize in behalf of his employers, that really they did not know that it was General Spinner, and if he would return, he would be ushered in at once. The General threw cold water on the apology, by telling the messenger to ask the Rothschilds to go to a place numentionable to ears polite; that, in America, they didn't treat dogs in that way. The General hates red tape.

THE COMPARATIVE STATEMENT of the amounts expended from the appropriation for assessing and collecting the internal revenue for the first six months of the years 1870 and 1871, is as follows: For the six months ending June 30, 1870, $4,006,860; for the six months ending June 30, 1871, $3,298,436; balance in favor of 1871, $708,424. A similar statement of the amounts expended from the appropriation for detecting fraud is as follows: For the six months ending June 30, 1870, $49,714; for the six months ending June 30, 1871, $14,533; balance in favor of 1871, $39,181. Total saving from both sources, $743,605.

600,000 ACRES
CHOICE IOWA LANDS.
This Company is now offering for sale about six hundred thousand acres of the finest agricultural lands in the West. The Company sells only to actual settlers, and the prices are exceedingly reasonable, ranging from $5 to $15 per acre—the average being about $8. The greater part of these lands are situated along the line of its railroad between the cities of Des Moines and Council Bluffs, and are in the most accessible and fertile region in the State.
Sales made for cash or on credit long enough to enable any industrious man to pay for the land out of its crops.
These lands are held under a title direct from the General Government, and are not mortgaged or encumbered in any way. Full warranty deeds given to purchasers.
For maps, pamphlets, or any other information respecting them, address EBENEZER COOK, Land Commissioner, Davenport, Iowa.
EXPLORING TICKETS are sold at the Company's ticket offices at Chicago, and all other principal stations on its line, and if the purchaser buys land the amount paid for the ticket is applied on the purchase money.

THE GREAT EQUIVALENT.—The world may be safely challenged to produce so perfect a simulation or anything in nature, as
Tarrant's Seltzer Aperient
is of its original, the Seltzer Spring of Germany. This aperient, based on a combination of the salts of the Seltzer Water, is even superior to the manufacture of Nature herself, because it contains all the active medicinal properties of the spring, unalloyed by any of the inert and useless particles found in all mineral fountains. The genuine article being secured, you have the Seltzer Water of Europe, purified and perfected, and probably the best, the most genial cathartic and antibilious preparation on the face of the earth.

CONSUMPTION.
ITS CURE AND ITS PREVENTIVE.
By J. H. SCHENCK, M. D.
Many a human being has passed away, for whose death there was no other reason than the neglect of known and indisputably proved means of cure. These and dear to family and friends are sleeping the dreamless slumber into which had they calmly adopted
Dr. JOSEPH H. SCHENCK'S SIMPLE TREATMENT,
and availed themselves of his wonderfully efficacious medicines, they would not have fallen.
Dr Schenck has in his own case proven that wherever sufficient vitality remains, that vitality, by his medicines, can be aroused into action, when it quickened into healthful vigor.
In this statement there is nothing presumptuous. To the faith of the invalid is made no representation that is not a thousand times substantiated by living and visible proof. The theory of the cure by Dr. Schenck's medicines is as simple as it is unfailing. His philosophy requires no argument. It is self-acting, self-convincing.
The deadwood Tonic and Mandrake Pills are the active powerful agents in the decadal of the disease by assisted. Two-thirds of the cases of consumption originate in dyspepsia and a functionally disordered liver. With this condition the bronchial tubes "sympathize" with the stomach. They respond to the sympathetic action of the liver. Here, then comes the culminating result, and the setting in, with all its distressing symptoms, of
CONSUMPTION.
The Mandrake Pills are composed of one of Nature's noblest gifts—the Podophillum Peltatum. They possess all the blood-searching, alterative properties of calomel, but unlike calomel, they
"LEAVE NO STING BEHIND."
The work of cure is now beginning. The vitiated and morass deposits of the bowels and in the alimentary canal are ejected. The liver, like a clock, is wound up. It arouses from its torpidity. The stomach acts responsively, and the patient begins to feel that he is getting, at last,
A SUPPLY OF GOOD BLOOD.
The Seaweed Tonic, in conjunction with the Pills, permeates and assimilates with the food. Chyification is now performed without the pain of previous nights. Digestion becomes painless, and the cure is soon to be at hand. There is no more fermentation, no exacerbation of the stomach. An appetite sets in.
Now comes the greatest Blood Purifier ever yet given by an Indulgent Creator to suffering man. Schenck's Pulmonic Syrup comes in to perform its functions and to hasten and complete the cure. It enters at once the lungs of the patient. Here he is cheated. It collects and ripens the impaired and diseased portions of the lungs. In the form of gatherings it prepares them for expectoration, and lo! in a very short time the malady is vanquished, the rotten tissue that it occasioned is removed and made new, and the patient, in all the dignity of regained vigor, steps forth to enjoy the manhood or womanhood that was
GIVEN UP AS LOST.
The second thing is, the patients must stay in a warm room, until they get well; it is almost impossible to prevent taking cold when the lungs are diseased, but it must be prevented or a cure can not be effected. Fresh air and riding out, especially in this section of the country in the fall and winter season, are all wrong. Physicians who recommend that course lose their patients, if their lungs are badly diseased; they get worse, because they in the house they must not sit down quiet: they must work about the room as much and as fast as the strength will bear, to get up a good circulation of blood. The patients must keep in good spirits—be determined to live, and to prevent

—Wisconsin abolished grand juries on the first of July.

—Chicago personal columns contain such perspicuous announcements as the following: "Major So-and-So bit buckwheats at the Briggs House yesterday."

— A California applicant before a school board defined phlebotomy as "pertaining to the bottom of a flea." He has retired with a dignity becoming his profession.

—They utilize foreign noblemen in San Francisco. A saloon keeper hires one—heir to a long line of illustrious ancestors, but no cash—at six dollars a week to clean bottles.

—There is at least one good reason why the negro ought not to be educated. Whenever he gets so he can read newspapers he will no longer be eligible for a juror.—*Louisville Courier-Journal.*

—Sam Jones and Jim Nilsson were two colored citizens of Georgia. Jim asked Sam what time it was, and Sam said it was 12 o'clock. Jim disagreed with him, however, and argued the question with a hoe, to the entire conviction of Sam and the prospective conviction of Jim.

—Louisville boasts of an eighteen-year-old belle who can lift a tub of clothing from the ground to an elevation of four feet, and have the clothes-line white with the results of the labor of her own little hands in a short while. Meantime her mother sits in her parlor taking her ease in her old age. As soon as this becomes generally known the railroads running into that city will have to run extra trains.

—One of the most touching and dreadful domestic tragedies ever enacted occurred about a week ago near Navasota, Grimes county, Texas. In the midst of a neighborhood infested with robbers, resided Mr. and Mrs. Goodrich, a tender and affectionate couple. One night, feeling assured she heard burglars in the house, Mrs. Goodrich aroused her husband, who, arming himself with a pistol and bowie knife, went in pursuit. In the darkness he struck one who fled outside. Another at the same time passed him and sought refuge in the house. In order to intercept him Mr. Goodrich passed around, outside the house, to his bedroom window, which he knew was raised, and out of which he expected the burglar would issue. Meanwhile Mrs. Goodrich, suffering from faintness (which may have been superinduced by chloroform the burglars had with them) arose from the bed where her husband had left her, and groped her way, through the thick darkness, to the window, for air. At that very moment her armed and excited husband reached the sill from the outside. Seeing the obscure outlines of a human form there, the wretched husband mistook them for those of the second burglar, and with knife and pistol immediately began an attack whose horrors pass conception when it is remembered that it was directed against the form of his wife, between whose self and him existed such faithful and tender love. The discovery of the mistake came all too late. The ill-fated woman died with her arms around the neck of the worse-fated man, breathing into his ear, with her last quivering accents, whispers of forgiveness, fidelity and love.

A BRAVE LITTLE GIRL.—A few mornings since "little Effie," a bright-eyed, curly-headed five-year old, belonging to Mr. and Mrs. Pavish, living on Main Street, just south of Thomas & Parry's livery stable, took a "plunge bath" that came near resulting fatally. There is a deep well on the place holding some fourteen feet of water. It has no curb, and water is drawn by means of a rope. "Effie" had been watching Mr. Thomas drawing water from the well in a bucket, which she had called a "kettle." The rope broke and the "kettle" went to the bottom. This troubled the little one, and afterward, in peeping into the well, looking for the kettle, she lost her balance, and plunged head first into the well. Her mother heard her scream as she tipped over, ran into the yard, and happening, by the merest chance, to glance into the well, saw "Effie" as she came to the surface the first time. Powerless herself, she ran to the livery stable, shouting at every step. "Effie's in the well, Effie's in the well." Mr. Thomas was at the well in no time, and without a moment's thought of how he was going to get out, plunged in, bracing himself as best as he could against the smooth walls as he went down, and reached the water in time to meet Effie "on the way up" the second time, and, of course, rescued her. As soon as the little one could get water enough out and breath enough in to speak, she said to Mr. Thomas: "Jack, I have found your 'kettle;' it was clear down to the bottom," and, sure enough, she had the rope tightly clinched in her little fingers. We hardly know which to admire, the bravery of the man who risked his life to save that of the little girl, or the coolness of the child in hunting up the "kettle," when fourteen feet under water.—*Cameron (Missouri) Observer.*

AMERICAN & FOREIGN PATENTS.

R. H. EDDY,

SOLICITOR OF PATENTS,

For Inventions, Trade Marks or Designs,

No. 76 STATE ST., OPPOSITE KILBY ST., BOSTON,

After an extensive practice of upwards of thirty years, continues to secure patents in the United States, also in Great Britain, France and other foreign countries. Caveats, Specifications, Assignments, and all papers for Patents, executed on reasonable terms with dispatch. Researches made to determine the validity and utility of Patents of inventions, and legal and other advice rendered in all matters touching the same. Copies of the claims of any patent furnished, by remitting one dollar. Assignments recorded in Washington.

No Agency in the United States possesses superior facilities for obtaining Patents or ascertaining the patentability of inventions.

All necessity of a journey to Washington to procure a Patent and the usual great delay there, are here saved inventors.

TESTIMONIALS.

"I regard Mr. Eddy as one of the most *capable and successful* practitioners with whom I have had official intercourse. CHARLES MASON, Commissioner of Patents."

"I have no hesitation in assuring inventors that they cannot employ a man *more competent and trustworthy* and more capable of putting their applications in a form to secure for them an early and favorable consideration at the Patent Office. EDMUND BURKE, Late Commissioner of Patents.

"MR. R. H. EDDY has made for me over THIRTY applications for Patents, having been successful in almost every case. Such unmistakable proof of great talent and ability on his part leads me to recommend all inventors to apply to him to procure their Patents, as they may be sure of having the most faithful attention bestowed on their cases, and at very reasonable charges. JOHN TAGGART."

Portsmouth, N. H.

FRIDAY, JULY 7, 1871.

SENATOR SMITH, by his refusal to be cajoled or bullied by the copperhead leaders at Concord, has won for himself a hatred on the part of the Democracy compared to which the Waters of Marah were sweet indeed, and their rage is all the more intense from their knowledge of its impotence to harm the firm old man in any way. The coppery papers throughout the State howl dismally at him, and make some ludicrous suggestions as to what should be done with the Cerberus who guards the treasury from a general Democratic onslaught. One of these wailers is now before us, and, commencing with a false statement, its leading article goes on with a tirade about "feeble old man," "slave," "tool," "abject submission," "halting, timid, cowardly," "mere puppet," and all the rest of it. The false statement is to the effect that Judge Smith solemnly pledged himself to turn copperhead if he was elected to the Senate in Mr. Thrasher's place, when it has been proved that he made no promises at all, and expressly requested the Democratic leaders who tried so hard to make him promise, not to elect him. But the prime merit of the article we refer to is in the new discovery that quite throws in the shade that credited to Mr. Hibbard, that a representative had no right to vote on questions concerning his constituents! —which is nothing less than that a son must not pay any attentions to his own father unless the copperhead leaders are graciously pleased to give him permission! The lucid sheet we speak of says Senator Smith's sons are in Concord; (awful presumption! how *dare* they go to Concord, when the Democracy don't want them there?) that one of them has not seen his father for years, yet now visits him daily, even sits in the gallery when his aged father is in the Senate, and crowning infamy of all—actually escorts the old gentleman home after the session is over! [That some friend *must* accompany Mr. Smith, to protect him from personal violence at the hands—or feet of the brave copperheads who daily try to trip him down the stairs, is not mentioned.] Can these these things be? Never,—not in this State; perish the unworthy thought. Let it be made known at once, that any young man who dares exhibit filial respect for his aged parent, will be instantly decapitated by the virtuous Democracy; then we shall have no more such exhibitions.

The trouble with the copperheads is, that they were themselves wholly unable to induce Judge Smith to falsify a life long-record of uprightness; and now, after his being compelled to order the copper wire-pullers from his presence, so persistently did they insult him with their attempts to induce him to vote against his principles, they cry out "imbecility" and "instability!" Had he been less firm they would have embraced him as their dear friend. 'Tis said "Hell hath no fury like a woman scorned," but a Democrat who wants to get into the treasury and finds the door unexpectedly closed equals her.

THE EDITORIAL EXCURSION.—In consequence of the large number who have signified their intention of participating in the Editorial Excursion next week, it has been found necessary to change the programme somewhat, and to abandon the visit to Mount Mansfield altogether. When the proprietor of that resort made the very generous offer he did, he supposed the party would be within the limits of his resources. But it has outgrown them, and he finds that he cannot entertain it in a way which will be satisfactory to himself, or as he fears, to the company. That part of the route is therefore abandoned. Instead of going to Mansfield, the party will spend Monday night and Tuesday forenoon in the beautiful town of St. Albans, and the citizens promise it a cordial reception, and every effort to make the stay a pleasant one. Tuesday afternoon the company will go to Montreal—one day earlier than first announced—and leave for Newport, Vt., Thursday morning. The party will number about four hundred, and it is limited strictly to *actual members* of the Associations and their ladies. Justice to the railroads and others who have so kindly offered to accommodate the party renders the most rigid adherence to this rule absolutely necessary. Owing to this change the expense of the trip will be somewhat increased.

JUDGE Stuart has made an application to Judge Pratt, for a stay of proceedings in the case of Foster.

THE LEGISLATURE.

On the 5th, the House passed a joint resolution authorizing the governor to appoint three persons as a committee to establish a bureau of labor.

A joint resolution was introduced and passed that the governor be authorized to appoint a commissioner to represent the State in the convention on penitentiary and reformatory discipline to be held in Europe during the coming year.

A bill was introduced instructing the committee on retrenchment and reform to inquire into the expediency of making eight hours a legal day's work.

A bill to reimburse the city of Concord for rebuilding the State house, and also a bill to insure the building of the Concord and Rochester railroad, were read a second time and referred.

A resolution was introduced, instructing the committee on national affairs to inquire whether, under the 14th amendment of the Constitution of the United States, adult females are entitled to the right of suffrage and of holding office. Referred.

A resolution was passed that the session be brought to a close on Saturday next.

On the 6th, a bill for the equalization of taxation, which provides that, in taking the inventory for the purpose of taxation, all property shall be appraised at its true and full value, was read twice.

The railroad committee to whom was referred a bill for the chartering of a new railroad from Concord, through Manchester to Nashua, made a report recommending the postponement of the whole subject to the next session of the legislature. The report was signed by seven or eight out of the ten members of committee and was agreed to.

The Senate postponed the Manchester city charter bill, Senator Smith voting with the Republicans.

POLITICAL.

At the dinner of the Tammany society, in New York, July 4, Governor Hoffman sent a letter of apology, in which he said "the acceptance of certain amendments to the United States Constitution is not a practical question. The civil status of the colored man is established, and he is in actual possession of the rights of suffrage. The task before us is to save the Constitution as a whole." General McClellan, in a letter said: "Slavery is dead; let it remain forever. The negro has a right to vote; let him keep it, but strive to educate him to a fitness for the high privilege conferred on him. Show him who his real friends are, and he will eventually turn in our own favor the weapon so carefully forged for our destruction." Mr. Tweed, in the course of his remarks, said: "We propose to strike forward into a noble career and let past issues die. We propose to take the government of the country in our own hands and save the country from ruin." This endorsement of the new departure is supposed to mean Hoffman as a candidate for the Presidency, on that basis.

THE WORLD MOVES.—Tammany Hall has fully endorsed the principles for which the Republican party has fought so many years, and acknowledged that the Democratic party has been in the wrong while opposing them. McClellan, the hero of fifty suits of good clothes and fifty thousand shovels, boldly says "the negro has a *right* to vote," and urges the Democracy to "show him (the negro) who his real friends are?" They will have to enlighten the negro a great deal before he will recognize as "real friends" the men who fought so bitterly to keep him in bondage and degradation, and who have Ku-Kluxed him so earnestly since he became free; but every true Republican will rejoice to know that such sentiments can be uttered at a vast Tammany meeting and the speaker escape being hung to a lamp-post. And Boss Tweed says Tammany "proposes to strike forward into a noble career, take the government into their own hands and save the country from ruin." This is indeed encouraging; for when Tammany "strikes into a noble career" it will be such an advance as the world never yet saw. But the proposition to "take the government of the country into their own hands" may turn out to be one of the cases in which, though man proposes, he does not order the event; and if Tweed and his followers should "save the country" as they have saved New York, by putting all the public money in their own pockets, the "noble career" on which Tammany is just setting out will but carry them still further on in the downward course they have so long travelled.

SECRETARY BOUTWELL has called in one million of three per cent. certificates.

THE TREATY OF WASHINGTON was ratified by England on the 17th of June, the anniversary of the battle of Bunker Hill, and the people of the United States were officially notified of its ratification on the Fourth of July, by the President, in the following

PROCLAMATION.

Whereas the treaty of the United States of America and Her Majesty, Queen of Great Britain and Ireland, concerning the settlement of all cases of differences between the two countries, was concluded and signed at Washington by the high commissioners and plenipotentiaries of the respective governments, on the 8th of May last, which treaty is word for word as follows:—[Here follows the treaty.]

And whereas said treaty has been duly ratified on both parts and the respective ratifications of the same were exchanged in the city of London on the 17th day of June, 1871, by Robert C. Schenck, envoy extraordinary and minister plenipotentiary of the United States, and Earl Granville, Her Majesty's principal secretary of state for foreign affairs, on the part of their respective governments.

Now, therefore, be it known, That I, Ulysses S. Grant, President of the United States of America, have caused said treaty to be made public, to the end that the same and every clause and article thereof may be observed and fulfilled with good faith by the United States and citizens thereof.

In witness whereof I have hereunto set my hand and caused the seal of the United States to be affixed.

Done in the city of Washington this, the fourth day of July, one thousand eight hundred and seventy-one, and of the independence of the United States the ninety-sixth.

U. S. GRANT.

By the President,
HAMILTON FISH, Secretary of State.

NEAR Wilkesbarre, Penn., July 4th, about 50 feet of the Wyoming canal suddenly sank, completely draining the whole level. The canal has been built over the deserted chambers of a coal mine, the roof of which caved in. Fortunately the accident occurred on a holiday, as the water which rushed in the opening filled the adjoining chambers, and had the usual number of miners been at work their escape from the mines would have been cut off, causing a fearful loss of life.

The Portland and Ogdensburg Road will open to Centre Conway on the 10th, and to North Conway two weeks later.

BUSINESS NOTICES.

The cathartics used and approved by the physicians comprising the various medical associations of this State are now compounded and sold under the name of *Parson's Purgative Pills.*

We copy the following from an exchange, which is important if true:—Chronic diarrhœa of long standing, also dysentery, and all similar complaints common at this season of the year, can be cured by the use (internally) of *Johnson's Anodyne Liniment.* We know whereof we affirm.

SPECIAL NOTICES.

How We Used to be Physicked.

Who does not remember the time when spring purgation was considered indispensable to summer health? No matter for wry faces, the inevitable salts and senna, rhubarb, or calomel and jalap, must be administered. These "spring medicines," the youngsters were told, were to keep them hale and hearty during the summer. We all know that this was a falacy; that new vigor, not depletion, is what is required at the commencement of the summer solstice. As a preparation for the enervating effects of oppressive summer weather, a course of HOSTETTER'S STOMACH BITTERS is highly expedient. This famous vegetable preparation has three promi-nent properties: It renovates, purifies, and regulates all the functions of the body. It is composed exclusively of pure vegetable productions, viz: the essential principle of Monongahela Rye, and the most efficacious tonic and alterative roots, barks, and gums known to medical botanists. Hence, it is an absolutely safe medicine, and no tincture of the Pharmacopœia can compare with it either in purity, or in the variety of its objects, and its comprehensive results. Happily for mankind, the theory that it was necessary to prostrate a patient in order to cure him, is forever exploded, and the true philosophical doctrine, that vigor is the great antagonist of disease, has taken its place. Hostetter's Bitters is an invigorant, and hence it is the proper medicine for the feeble at this most trying season of the year.

Be sure that you obtain the genuine article, as there are innumerably vile imitations in the market. Look to the ornamental stamp, the engraved label, and the name blown into the glass. Hostetter's Stomach Bitters is sold in bottles only.

THE WORLD IS IN ARMS

A CARD.

HAVING disposed of my Insurance Business to JOSEPH P. MORSE and WINGATE N. ILSLEY, two gentlemen well known for their integrity and business capacity, I return my thanks to my old and constant patrons and friends, for their many favors, and earnestly recommend my successors, trusting the same generous patronage will be extended to them as to myself. They represent some of the oldest and most reliable Companies in both Fire and Life Insurance in the Country.

MRS. HARRIET BEECHER STOWE and family are at Hampton Beach.

AN EXCURSION PARTY from Boston will visit the Isles of Shoals in Steamer Cambridge, next Tuesday.

THE BOSTON YACHT FLEET, eleven vessels, came into the lower harbor on the evening of the 6th, and presented a fine appearance.

AN EXCURSIONIST asks why Steamer Appledore does not stay at the Shoals an hour, each day, now that the Concord train leaves an hour later than formerly.

ENGINE CO. No. 6 have appointed Jas. Ayers, M. E. Long and T. E. Burke a committee to confer with the committees of the other companies on the subject of a firemen's muster; and in the Board of Engineers, on the 5th, it was voted that the Board as a committee meet with the engine company committees on Saturday evening, July 8, to make arrangements.

TONY PASTOR'S TROUPE gave a medley entertainment, on the 5th. A portion of it was new, and another portion old, while Tony chose to introduce objectionable songs. The eccentric dancing of Walters was the best thing of the evening—more enjoyable than all the others combined, though Johnny Wade and Frank Kerns are hard to beat. Miss Gilmer and Mr. Carleton have fine voices and deserved the applause which greeted them in their duets. The company would no doubt draw another large audience should Tony choose to come this way again, notwithstanding the audience in attendance were not wholly satisfied with the programme.

WE CHRONICLED, six months ago, the loss of quite a large sum of money by an industrious Agent then doing business here, whose wife put several hundred dollars in the stove over night for safe keeping, and awoke in the morning to find that her husband had kindled a fire therein and burned the filthy lucre. Since then the Agent has met with better fortune and as if benefitted by some law of compensation has netted $6000 above all expenses, has purchased a farm at Hyde Park, near Boston, and is still reaping the benefit of the energy and sound judgment which led him to work the harder for the loss he had sustained and to advertise judiciously and liberally, confident that he had but to let the public know that the article he sold was valuable to the purchaser, to reap therefrom a small fortune.

THE SUMMER TERM of Mr. Lamprey's juvenile Dancing School was closed on Wednesday evening by a grand Ball for the little folks at Congress Hall. The high position held by Mr. Lamprey as a teacher was shown by the large and fashionable assemblage of ladies and gentlemen present; and the numerous pupils exhibited the proficiency always confidently looked for in classes instructed by him, in many new and intricate dance. The young people were beautiful dressed, and though in high spirits conducted themselves with all the decorum expected at an adult ball; and the pleased spectators of their enjoyment kept their seats till the close, at about half past 9 o'clock,—the Grand March with which the ball concluded being finely done. Harlow's Band furnished good music for the young dancers.

THE GOVERNOR OF UTAH forbade a parade of the Mormon militia on the 4th, and Brigham Young's troops backed down, at the last moment, on the appearance of three companies of Uncle Sam's troops.

THE NATIONAL DEBT was decreased $7,103,349 in June.

THE CELEBRATION of the 4th was more general this year than for many years previous; Richmond, Va., celebrated for the first time since the war, and even Salt Lake had as much of a demonstration as if it was in the Union; the smallest towns had bell ringing and flags, and abroad and in Halifax the day was observed. There were no very disastrous fires, though some twenty or more fair-sized ones are reported. But the record of accidents from the careless use of fire-arms is wonderful. No less than twenty persons are already reported in New England alone as maimed for life, and two killed. There were very few casualties in New York and its vicinity, though the amount of powder burned was prodigious. In New York city, John A. Davereck, treasurer of the Wadsworth Iron Works, and during the war lieutenant-colonel of the 21st N. Y. regiment, while walking the street with his wife was shot and killed by Mr. Emory, sexton of the First Presbyterian Church. Mrs. Davereck has become insane from the sudden shock. Emory had been firing a pistol on the street during the entire day. A woman while sitting in her house in St. Louis, was dangerously shot by a stray bullet from the pistol of a boy in the street. A private of the fifth Maryland regiment, now in camp at Frederick, Md., was fatally injured by the bursting of a swivel which he fired.

In addition to the firearm accidents, water, fire and the railroads caused many deaths. A young woman was drowned at Cumberland Me., and a young man at Augusta, while bathing; a man was burned to death in a stable at Albany, N. Y.; an Irishman, while drunk, was run over and killed by the cars in Worcester, Mass., another had his feet cut off at Somerville, and has since died, another was struck and killed by a train in Dorchester, and a collision took place in the Lowell Railroad station in Boston, by which a conductor was badly hurt and Mr. Thompson of Nashua had both legs broken; a steamer blew up on Lake Erie, killing three men; and rum caused several murders and many disturbances, in various places.

DEATHS.

In York, Me., July 1, Mr. GEORGE BEAN, aged 89 years.

THE NEW ORLEANS, MOBILE & TEXAS RAILROAD COMPANY

Are building a trunk line, connecting New Orleans with Mobile on the east, and giving

THE ONLY RAILROAD CONNECTION

between the former city and the great and most productive State of Texas of the west, the total distance from Mobile to Houston being 475 miles.

The Company is composed of strong Northern capitalists, who have already expended nearly **TEN MILLION DOLLARS** of their own funds in the construction of the line. They have built about 225 miles from Mobile westward, and secured by purchase of securities and made provision for the thorough repair and equipment of the 108 miles of the Texas division; leaving but 140 miles to be built

To Complete the Entire Road.

It is believed that no other railroad corporation in the country has ever made so large an expenditure from its own means before offering any of its securities to the public.

The Company now offer for sale the

Eight Per Cent. Mortgage Bonds

upon the Louisiana division of 226½ miles from New Orleans to the Sabine River. This will probably be the most valuable portion of the whole line, as it will be the only rail communication by which the enormous productions of Texas can reach the Southern metropolis.

So important is this road considered to Louisiana, that the State has made very liberal grants in aid of the enterprise, by direct donations, by endorsement of its bonds, and by subscriptions to the stock of the Company, amounting in all to over eight million dollars.

The Bonds now offered are of two classes:

FIRST MORTGAGE BONDS,

to the amount of $12,500 per mile, and

SECOND MORTGAGE BONDS,

to an equal amount, both principal and interest guaranteed by the State of Louisiana. The price of the two classes is the same, and subscribers can take their choice.

The Bonds are only in the denomination of $1,000, or £200 each, interest payable January and July, at the rate of eight per cent. currency in New York, or seven per cent. gold in London, at the option of the holder, at the time each coupon is due. Bonds can be registered, if desired.

No better security has been offered to investors. The Bonds are largely profitable, as well as entirely safe. One thousand dollars invested in these eight per cent. bonds will give the purchaser *more than seventy-seven per cent.* greater annual interest than the same amount invested in the new Government Five Per Cents.

At the same price, an 8 per cent. currency long bond is far cheaper than a 7 per cent. gold one. Calculating a return to specie payment in three years, and taking the time that the bonds of the New Orleans, Mobile and Texas Railroad have to run—45 years—we find that by compounding the interest of each, every six months, at 7 per cent. **an 8 per cent currency bond at 90 will give a return of $2,614.18 MORE than a 7 per cent. gold bond, at the same price, or nearly three times the amount of the original investment.**

The Bonds are dated May 1, 1871. The first coupon will, therefore, be a fractional one, running from May 1 to July 1. The price is 90, and accrued interest at 8 per cent. currency from May 1st to date of remittance.

"These Bonds are offered for the present at 90, and accrued interest at 8 per cent. currency from July 1 to date of remittance."

Subscriptions will be received in Portsmouth by

First National Bank.

Information concerning the Company and the Road, and pamphlets containing map and full details of the enterprise, can be obtained of the undersigned or any of the Company's advertised agents.

Ephraim Bull of Concord was badly injured on the 4th by the premature discharge of a cannon.

George W. Simpson, a carpenter aged about 30 years, was run over by an express train near Salmon Falls on Tuesday evening, the 4th, and was instantly killed.

Samuel Hutchins, Esq., a prominent citizen of East Concord, died suddenly at Fisherville on the 3d. Mr. Hutchins had filled several public offices, including two terms in the legislature.

THE MONT CENIS TUNNEL has proved a partial failure. A large portion of the roof has fallen in, and many of the workmen have been buried. Seven corpses have been recovered, and it is known that a number yet remain among the debris. The engineers are apprehensive that similar breaks in the roof may occur at other points, and supports of immense strength and dimensions are being prepared to guard against such a contingency.

POKER IN WASHINGTON.—"One night at our club," says a writer in the Washington Chronicle, "two young fellows found out that there was to be a game, and they started together and fixed the cards so that every man who should play would have an 'invincible hand.' This was done by working together different packs, so that when the cards were dealt every man should have the same hand exactly. Only the two youngsters were acquainted with the facts. When the cards were dealt, the first man picked up his hand, and by one glance saw that the five cards were invincible.

Without a word, a look, anything, he simply turned down his hand upon the table and waited. The next man took up his hand, looked at it, and turned as pale as death. He saw that, he had the invincible hand, one which could not be taken, and without a word he bet five hundred dollars. So the thing slipped around the table, but as two players were posted on the game only three were good to bet. Our attention was altogether enlisted with the chief players. The man whose cards lay upon the table was imperturbable, cool, silent.

The man who held the invincible "flush" in his hand was noisy, lusty, wild. We watched them both, and saw how the old gambler kept his hand down, and never chuckled, never expressed anything in his face, while the other was all afloat in his wits, noisy, boisterous, talkative. Finally the second man called the first one. One thousand dollars were down on the table. It was a big time in poker. The first man flung out his hand wild, and said in a bantering way to the other:

"Now, show out! Where are you? What have you got?"

When the first man saw this other invincible flush he turned white as the other man. He thought that he had mistaken his hand and had lost the count on a card. He turned it up, and flung it out, and there they were the same.

Immediately there was a great roar of laughter all around the table, and it was wonderful to see how these two men behaved. The man who had turned his cards down fathomed the joke in a minute and rushing around the table to the other fellow, put his hands around his neck, kissed him, and called him 'Johnny.'

The man Johnny rose up and denounced the world, cards, everybody—wanted to fight, and was as crazy as he had been before the hands were shown."

600,000 ACRES
CHOICE IOWA LANDS.

This Company is now offering for sale about six hundred thousand acres of the finest agricultural lands in the West. The Company sells only to actual settlers, and the terms are exceedingly reasonable, ranging from $8 to $15 per acre—the average being about $8. The greater part of these lands are situated along the line of its railroad between the cities of Des Moines and Council Bluffs, and are in the most accessible and fertile region in the State.

Sales made for cash or on credit long enough to enable any industrious man to pay for the land out of its crops.

These lands are held under a title direct from the General Government, and are not mortgaged or encumbered in any way. Full warranty deeds given to purchasers.

For maps, pamphlets, or any other information respecting them, address EBENEZER COOK, Land Commissioner, Davenport, Iowa.

EXPLORING TICKETS are sold at the Company's ticket office, at Chicago, and all other principal stations on its line, and if the purchaser buys land to the amount paid for the ticket is applied on the purchase money.

Consumption,
ITS CURE AND ITS PREVENTIVE.
By J. H. SCHENCK, M. D.

Many a human being has passed away, for whose death there was no reason than the ignorance of the known and indisputably proved means of cure. Those near and dear to family and friends are sleeping the dreamless slumber into which, had they calmly adopted

Dr. JOSEPH H. SCHENCK'S SIMPLE TREATMENT,

and availed themselves of his wonderfully efficacious medicines, they would not have fallen.

Dr Schenck has in his own case proved that whatever sufferings, fatality remains, that vitality, by his medicines and his directions for their use, is quickened into healthful vigor.

In this method there is nothing presumptuous. To the faith of the invalid is made no representation that is not a thousand times substantiated by living and visible witness. The theory of its cure by Dr. Schenck's medicines is as simple as it is unfailing. Its philosophy requires no argument. It is self assuring, self-convincing.

The Seaweed Tonic and Mandrake Pills are the first two weapons with which the citadel of the malady is assailed. Two-thirds of the cases of consumption or cases in dyspepsia and a functionally disordered liver. With this condition the bronchial tubes "sympathize" with the stomach. They respond to the morbidic action of the liver. How, then comes the culminating result, and the setting in, with all its distressing symptoms, of

CONSUMPTION.

The Mandrake Pills are composed of one of Nature's noblest gifts—the Podophyllum Peltatum. They possess all the blood-searching, alterative properties of calomel, but unlike calomel,

"LEAVE NO STING BEHIND."

The work of cure is now beginning. The vitiated and mucious deposits in the bowels and in the alimentary canal are ejected. The liver, like a clock, is wound up. It arouses from its torpidity. The stomach acts responively, and the patient begins to feel that he is getting, at last,

A SUPPLY OF GOOD BLOOD.

The Seaweed Tonic, in conjunction with the Pills, permeates and assimilates with the food. Digestion is now progressing, without its previous tortures. Digestion becomes painless, and the cure is seen to be at hand. There is no more flatulence, no exacerbation of the stomach. An appetite sets in.

Now comes the grand test. The blood purifier ever yet given by an indulgent father to suffering man. Schenck's Pulmonic Syrup comes in to perform its functions and to hasten and complete the cure. It enters at once upon its work. Nature cannot be cheated. It collects and ripens the impaired and diseased portions of the lungs. In the form of gatherings it prepares them for expectoration, and so! in a very short time the malady is vanquished, the rotten throne that it occupied is renovated and made new, and the patient, in all the dignity of regained vigor, steps forth to enjoy the manhood or womanhood that was

GIVEN UP AS LOST.

The second thing is, the patients must stay in a warm room, until they get well; it is almost impossible to cure them if living out when the disease is diseased, but it must be prevented or a cure cannot be effected. Fresh air and riding out, especially in the section of the country in the fall and winter season, are all wrong. Physicians who recommend that course lose their patients, if their lungs are badly diseased; and, yet, because they are in the house they must not sit down quiet: they must walk about as much and as much just as the strength will bear, to get up a good circulation of blood. The patients must keep in good spirits—be determined to be well. This has a great deal to do with the appetite, and is the great point to gain.

To demonstrate that such evidence is of the stability in the worst cases, and moral certainty in all others, is sinful. Dr. Schenck's personal statement to the family of his own cure was in those modest words:

"Many years ago I was in the last stages of consumption: confined to my bed, and at one time my physicians thought that I could not live a week; then like a drowning man catching at straws, I heard of, and obtained the preparations which I now offer to the public, and they made a perfect cure of me. It seemed to me that I could feel them penetrate my whole system. They soon ripened the matter in my lungs, and I would spit up more than a pint of offensive yellow matter every morning for a long time. As soon as that began to subside, my cough, fever, pains and night sweats all began to leave me, and my appetite became so great that it was with difficulty that I could keep from eating too much. I soon gained my strength, and have grown in flesh ever since."

"I was weighed shortly after my recovery," added the Doctor, "then looking like a mere skeleton; my weight was only ninety-seven pounds: my present weight is two hundred and twenty-five (225) pounds, and for years I have enjoyed uninterrupted health."

Dr. Schenck has discontinued his professional visits to New York and Boston. He or his son, Dr. J. H. Schenck, Jr., still continue to see patients at their office, No. 15 North Sixth street, Philadelphia, every Saturday from 9 A. M. to 4 P. M. Those who wish a thorough examination with the Respirometer will be charged $5. The Respirometer declares the exact condition of the lungs, and patients can readily learn whether they are curable or not.

The directions for taking the medicines are so plain as to be intelligible even of a child. Follow these directions, and kind Nature will do the rest, excepting that in some cases the Mandrake Pills are to be taken in increased doses; the three medicines need no other accompaniments than the simple instructions that accompany them: First, create appetite. Of returning health hunger is the most unkenning symptom. When it comes, as it will come, let the despairing at once be of good cheer. Good blood at once follows, the cough loosens, the night sweat is checked. In a short time both of these painful symptoms are gone forever.

Dr. Schenck's medicines are constantly kept in tens of thousands of families. As a laxative or purgative, the Mandrake Pills are a standard preparation; while the Pulmonic Syrup, as a cure of coughs and colds, may be required as a prophylactic against consumption in any of its forms.

Price of the Pulmonic Syrup and Seaweed Tonic $1.50, a bottle, or $7.50 a half dozen. Mandrake Pills, 25 cents a box. For sale by all druggists and dealers.

A GREAT MEDICAL DISCOVERY!
DR. WALKER'S CALIFORNIA
VINEGAR BITTERS.
Hundreds of Thousands Bear Testimony to their Wonderful Curative Effects.
WHAT ARE THEY!

THEY ARE NOT A VILE FANCY DRINK, Made of Poor Rum, Whiskey, Proof Spirits and Refuse Liquors doctored, spiced and sweetened to please the taste, called "Tonics," "Appetizers," "Restorers," &c., that lead the tippler on to drunkenness and ruin, but are a true Medicine, made from the Native Root and Herbs of California, **free from all Alcoholic Stimulants.** They are the GREAT BLOOD PURIFIER and a LIFE-GIVING PRINCIPLE, a perfect Renovator and Invigorator of the system, carrying off all poisonous matter and restoring the blood to a healthy condition. No person can take these Bitters according to direction and remain long unwell, provided the bones are not destroyed by mineral poison or other means, and the vital organs wasted beyond the point of repair.

For Inflammatory and Chronic Rheumatism and Gout, Dyspepsia or Indigestion, Bilious, Remittent and Intermittent Fevers, Diseases of the Blood, Liver, Kidneys and Bladder, these Bitters have been most successful. Such Diseases are caused by Vitiated Blood, which is generally produced by derangement of the Digestive Organs.

DYSPEPSIA OR INDIGESTION, Headache, Pain in the Shoulders, Coughs, Tightness of the Chest, Dizziness, Sour Eructations of the Stomach, Bad taste in the Mouth, Bilious Attacks, Palpitation of the Heart, Inflammation of the Lungs, Pain in the regions of the Kidneys, and a hundred other painful symptoms, are the offspring of Dyspepsia.

They invigorate the stomach and stimulate the torpid liver and bowels, which render them of unequalled efficacy in cleansing the blood of all impurities and imparting new life and vigor to the whole system.

FOR SKIN DISEASES, Eruptions, Tetter, Salt Rheum, Blotches, Spots, Pimples, Pustules, Boils, Carbuncles, Ring-Worms, Scald Head, Sore Eyes, Erysipelas, Itch, Scurfs, Discolorations of the Skin, Humors and Diseases of the Skin, of whatever name or nature, are literally dug up and carried out of the system in a short time by the use of these Bitters. One bottle in such cases will convince the most incredulous of their curative effect.

Cleanse the Vitiated Blood whenever you find its impurities bursting through the skin in Pimples, Eruptions or Sores; cleanse it when you find it obstructed and sluggish in the veins, cleanse it when it is foul, and your feelings will tell you when. Keep the blood pure, and the health of the system will follow.

PIN, TAPE and other WORMS, lurking in the system of so many thousands, are effectually destroyed and removed. For full directions, read carefully the circular around each bottle, printed in four languages—English, German, French and Spanish.

FOR FEMALE COMPLAINTS, whether in young or old, married or single, at the dawn of womanhood or at the turn of life, these Tonic Bitters have no equal. ☞ Send for a circular.

They are a Gentle Purgative as well as a Tonic, possessing also, the peculiar merit of acting as a powerful agent in relieving Congestion or Inflammation of the Liver, and all the Visceral Organs.

IN Nevada, July 5, a water spout passed over Bowen and Reno and Truckee, and washed a large wall of earth and rocks upon the track of the Central Pacific Railroad, so that a westward-bound freight train was thrown from the track.

SAMUEL RAINEY, general bookkeeper of the New Orleans National Bank, was shot at his desk and almost instantly killed by William Boyd, on the morning of July 6. The homicide was the result of former business complications.

IN Elgin, Ill., July 5, two men named Horton and Davis, who were engaged in a law-suit in regard to some land, met on Horton's farm, and Horton ordered Davis off, when the latter drew a revolver and shot Horton. The ball entered the left breast. Three shots were fired, but only one took effect. Horton was seriously hurt.

HARRY BLOW, nephew of Henry T. Blow, late United States minister to Brazil, was murdered at Granby, Newton county, Mo., Tuesday, July 4, by a number of young men who had a grudge against him and who assailed his house with stones. Blow seized a double-barrelled gun and while opening the door of the house was shot in the heart. The murderers are still at large.

THE American Knights Templar now visiting in England, from Pittsburg, Pa., were entertained in magnificent style by the Earl of Shrewsbury and Talbot, at his seat, Alton Towers, in Staffordshire, in honor of the Fourth of July. The Earl caused the American flag to be raised over the hall by the side of the ancient banner of the Talbots and in a most cordial speech welcomed the Americans.

AT Wataeka, Ill., on the night of July 5, nearly a thousand persons, including men, women and children, proceeded to the jail and took therefrom Martin Mera, who brutally murdered his son, ten years old, and after giving him twenty minutes to pray, a rope was placed around his neck, thrown over a limb of a tree, and hundreds of ready hands hauled him up and held him until he was dead.

The leader of the party and his abetors claim that Mera could only have been convicted of man slaughter, and for that reason they were justified in putting him beyond the reach of mercy. Mera, previous to his death, renounced Masonry and readopted Catholicism.

The Daily Chronicle.

Portsmouth, N. H.

SATURDAY, JULY 8, 1871.

THE LEGISLATURE.

The Senate has passed the bill to incorporate the Portsmouth Trust and Guarantee Company.

The House, on the 6th, adopted the report of the Railroad committee that it is inexpedient to legislate in the matter relating to the regulation of fares on railways.

The bill granting a charter for the Nashua, Acton & Boston Railroad was discussed. On a motion to refer it to the next legislature, the roll was called with the following results—yeas 155, nays 125.

Mr. Ramsdell moved a reconsideration. Mr. Putnam of Warren to lay on the table, and Mr. Page of Concord to adjourn. It was decided not carried. The roll was called, and when nearly completed Mr. Page withdrew his motion and called for the unfinished business in the order of the day.

Next came up a bill appropriating $10,000 in aid of the State normal school at Plymouth, which brought out a long discussion, but was finally carried.

The Senate passed the House resolutions removing by address Sheriff Moulton of Rockingham county, and Hamilton E. Perkins, judge of probate for Merrimack county. These removals cannot be considered as commiting Senator Smith to general party removals, as both officials decapitated were supported but feebly by the Republicans, and no regrets are expressed at the action.

The House on the 7th, rejected a bill reported by the Committee on Education and providing for the necessary survey and the publication of a State map.

The bill for the further protection of married men was discussed.

The vote in the Senate on the amendments to act re-districting the city of Manchester stood 6 to 6. Senator Smith took occasion in some few remarks to define his position and connection with the bill. Its present terms were represented as unjust, depriving many of their rights, and he was assured that it was not to be considered a party question. He did not deem the bill introduced into the Senate as remedying the evils existing as the amendments offered, and he gave the amendment his support as being geographically right, imposing no burdens and fair to both parties. He voted with the Republicans.

POLITICAL.

A cotemporary describes the political epidemic of the times as "Ring Worm."

The Mobile Register says to its Northern allies: "Make your platform, choose your candidates, gorge all the spoils if you like; but no air of superiority, no lofty looking down upon 'Rebels' and 'Secesh.' Not one glance or syllable of it. Better quit it, gentlemen, or somebody's ambitious prospects may be hurt, and there may be still another 'departure.'"

Senator Brownlow says Gen. Forest's testimony before the Ku-Klux Committee, that there were no Ku-Klux in Tennessee until his (Brownlow's) calling out the militia, is false. Forrest himself stated publicly at the time that there were 40,000 organized and equipped.

The Springfield Republican says of the ambition of Simon Cameron for the Vice Presidency: "Simple Simon may as well give it up first as last. His little game will not work. He stands no more chance of becoming Vice-President of the United States than of going down to posterity as a model of political purity and private integrity."

The entire police force of New York city has been ordered on duty to preserve the peace on the occasion of the celebration by the Orangemen of the anniversary of the battle of the Boyne, July 12. Last year the Roman Catholic Irish attacked the Orangemen while at a picnic, seriously injured many men and women and killed one man, if not more. The Orangemen then gave out that they would be ready to defend themselves on their next celebration, and both parties are said to have made preparations for a grand battle this year. It is questioned whether the New York authorities will dare to interfere should the Catholics attack the Protestants, as they are fearful of offending their political adherents should they attempt to preserve the peace.

Gilmore, of Boston, is projecting another musical jubilee. This time he proposes a coliseum which will cover an area of 800 by 500 feet, and be able to seat 100,000 persons. Why not roof in all out doors?

The ultramontane party in Prussia and Austria are very violent against Bismarck.

The supreme court of New Jersey has decided the dead-lock in the Patterson city government in favor of the democrats.

Minister Jay gave a dinner at Vienna on Tuesday, July 4, at which Von Beust and all the foreign ambassadors were present, and speeches very friendly to the United States were made.

Senator Pinchback of Louisiana (colored) has instituted a suit for $25,000 against the Jackson Railroad for refusing to furnish him passes in a sleeping-car on a account of his color.

The receiver's sale of the Novelty Iron Works began at New York, July 7. The engine of the steamer North Star brought $3950; two doubleslide lathes brought $1900 and $1450, respectively, and a large quantity of tools was sold by the pound.

During a storm in Nebraska on Wednesday night, July 5th, a train on the Fremont and Blair railroad was lifted from the track and blown twenty feet from the rails. An infant was killed, a mail agent fatally wounded and fifteen other persons more or less hurt.

The woman arrested at New Brunswick, N. J., for wholesale poisoning, is now charged with having thus disposed of eight children, six of her own, and two of her last husband's by his first wife. These children, with the three husbands, make a total of eleven persons sent out of the world by her.

France.—The vote of the French army was almost a unit for the republic, which proves a sad disappointment to the imperialists. A loan is to be raised by the municipality of Paris for the purpose of rebuilding the monuments destroyed during the siege. Jules Ducatel, a traitor from the communists to the Versaillists, has been accorded the cross of the legion of honor.

From the Portsmouth Journal.

The Honest Democracy. — Democratic leaders in the Legislature, while prating of the misgovernment to which the State has been subjected under Republican rule, have a refreshing way of proclaiming the baseness and dishonesty of their own party. The subject of a grant to the Agricultural College being under discussion the other day, Mr. Roles, a democratic representative from Ossipee, opposed it, because public institutions were extravagantly managed and of little benefit to the people. Carroll county, had recently had a Poor Farm established, which according to his confession was a precious sample of the looseness with which the public money is spent, even by Democratic officials, as they all are in that county. To which the Hon. F. R. Chase, the Democratic representative from Northfield, replied that he had heard all he wanted to hear about the Carroll County Poor Farm. He would remind the gentlemen from Ossipee that public rumor had it that the County Officers managed in some way to steal about $20,000 out of the building fund, and that they had also contrived to get rid of thirty-two paupers by death very soon after the establishment was opened. He thought the House would not care to hear any more about the Carroll County Poor Farm! We should think not — the Democratic side of it.

Hold them Responsible. — The people of this State will hold to a just responsibility the men who are guilty of protracting the session of the Legislature to an extraordinary length for the purpose of carrying out their partisan schemes in violation of the Constitution and the laws. The Republican Senators, with the aid of the Democratic Senator from No. 4, passed a resolution to adjourn a week ago, and sent it to the House for concurrence. That body by the order of Mr. Bingham, laid the resolution on the table—all the Republican members voting to close the session at that time and all the Democrats and Labor Reformers voting to continue it indefinitely. These men, before they had been a week at Concord, were very desirous to have the people understand that the Legislature was costing them $2000 a day. They then wanted a short session—to organize the State Government and adjourn, as soon as possible. Well, they got it organized, after a fashion, and might have closed their labors without further detriment to the State; but instead of doing this, they adjourned over virtually for five days, for every one of which each member will take his three dollars, and they go back, at the expiration of that time, to set probably two or three weeks longer, at an expense to the State of twenty or thirty thousand dollars, all of which is worse than thrown away, in their attempts to fix things so that the Republican majority, the legal voters of the State, may hereafter be ruled by the Democratic minority. That economical Labor Reformer, who was agoing to save the State fifty cents a day by stopping the supply of stationery to the members, will hardly be able to face his constituents after recording his vote in favor of such extravagant waste of the public money.

The Ku-Klux investigating committee examined Judge Pettis and Colonel Pugh of Alabama on the 6th. Their testimony was corroborative of the evidence previously given by Governor Lindsay and other conservative witnesses that no such organization as the Ku-Klux exists in Alabama, and that good order and respect for law prevail in that State. Colonel Pugh, at the outbreak of the war, was a member of the Confederate Congress from the same State.

J. M. Justice of Rutherford county, North Carolina, a prominent native Republican member of the legislature of that State, was examined at great length. He testified that some five weeks ago a party of forty or fifty armed and disguised men came to his house, took him out of bed and, in the presence of his family, beat him fearfully with clubs and pistols. They then carried him into the woods, and, threatening his life, made him promise that he would not come to Washington to testify before this committee concerning various outrages previously committed in his vicinity. They then left him, and he managed to get home, where he was confined to his bed for three weeks from the effect of severe internal injuries caused by his beating. Mr. Justice swore that he believed this and similar outrages were part of a regular system of political intimidation, and not merely neighborhood quarrels. He believed firmly in the existence of a Ku-Klux Klan in North Carolina.

—Some brave Missouri sportsmen hunted down a yellow dog under the impression that it was a panther.

BUSINESS NOTICES.

The Minority Rules in many cases, and one secret of the great success of the Messrs. Rice in conducting the American House, Boston, is the attention they pay to the minor comforts of all guests under their roof.

A fact worth remembering—Five cents' worth of *Sheridan's Cavalry Condition Powders*, given to a horse twice a week, will save double that amount in grain, and the horse will be fatter, sleeker, and every way worth more money than though he did not have them.

Married ladies, under all circumstances, will find *Parsons' Purgative Pills* safe; and, in small doses, a mild cathartic. They cause no griping pains or cramp.

SPECIAL NOTICES.

Our Skins are Sieves,

And through millions of orifices oozes the transparent fluid which nature does not need for vital purposes. This is a wise provision of Providence, but excessive perspiration is, nevertheless, extremely weakening. During the heats of summer all hard-working men perspire to an extent that is more or less debilitating. They, of all classes of the community, require a wholesome invigorant at this season. Let them not seek it in the liquors of the bar-room; they will not find it there. A medicated stimulant, pure and undefiled, is what they need; and among this class of remedies, Hostetter's Stomach Bitters stands alone. No valid plea can be urged against its use, even by the genius of Temperance itself; for even the Maine law permits the sale of diffusive stimuli for medicinal purposes. As a general renovating preparation, the Bitters has no equal anywhere. But this is only one of the merits of this famous invigorator. Its regulating properties give it an immense superiority over all the tonics of the Pharmacopœia. In cases of chronic constipation it is the most useful and certain of all aperients. It creates no violent commotion in the discharging organs, but gently relieving them of their obstructions, leaves them in a healthy, vigorous condition. It seems unnecessary to state, in view of the mass of testimony as to its effects in dyspepsia, that it is a permanent cure for that terrible and but too general complaint.

The numerous "Bitters," under various names, which mercenary dealers endeavor to substitute for Hostetter's Stomach Bitters, should be avoided, for their own sakes, by the sick and the public at large. Hostetter's Bitters are procurable in bottles only, and never sold in bulk.

THE WORLD IS IN ARMS

Against the new hair-coloring preparations. Science condemns them. They are virtually dead. Meanwhile,

Cristadoro's Excelsior Hair Dye

proved by time and sanctioned by practical chemists, has become the standard article of its class throughout the length and breadth of the land. NEW ADVERTISEMENTS.

FOR SALE! FOR SALE!

THAT DELIGHTFUL SEASIDE retreat known as the WOODMAN FARM, containing forty acres of land, a commodious, new and imposing house and convenient outbuildings, situated on the easterly side of Great Island, (Newcastle,) within a stone's throw of the ocean, and in full view of the "Isles of Shoals."

Also adjoining the same, "POINT JERRY," embracing ten acres of arable land extending far out into the sea, being the nearest point of land to the "Isles of Shoals," and forming the outside boundary of what is known as Little Harbor.

This is the most desirable spot on the seacoast for summer residences, possessing all the advantages of the world renowned "Isles of Shoals," in bracing atmosphere, deep sea fishing and surf bathing on one side, while on the other is a smooth, hard beach and still water. There is also upon it a never failing pond of fresh water, an old battery, and a light-house beacon. Roads always good and scenery unsurpassable.

MORSE & ILSLEY,

for the purpose of carrying on the Insurance Business in all its branches. They trust, by industry, integrity and good judgment, to merit the approbation of all the old patrons of the office, and to receive a good share of new business.

MR. HARVEY will still take a lively interest in the Companies for which he has so long and faithfully worked, and he is authorized to receive applications for Insurance in said Companies as our Agent.

JOSEPH P. MORSE,
WINGATE N. ILSLEY.

Portsmouth, May 1, 1871.

A CARD.

HAVING disposed of my Insurance Business to Joseph P. Morse and Wingate N. Ilsley, two gentlemen well known for their integrity and business capacity, I return my thanks to my old and constant patrons and friends, for their many favors, and earnestly recommend my successors, trusting the same generous patronage will be extended to them as to myself. They represent some of the oldest and most reliable Companies in both Fire and Life Insurance in the Country.

U. S. S. KANSAS arrived at quarantine, Friday. She will be disinfected, repaired and refitted for sea.

THE GOVERNOR has appointed as State fish commissioners Wm. F. Frye and Edward Watkins of Portsmouth, the commission of the old board having expired.

ON ACCOUNT of the severe illness of the younger Jenness of the Ocean House, at Rye, the coach line from Exeter to Rye Beach, and the steamer from Rye Beach to the Isles of Shoals will not be put on this season.

THE CONCORD RAILROAD have addressed a pamphlet to the members of the Legislature, in which the following interesting facts occur:—

Twenty-two trains a day are run over the Concord Railroad, and if necessary the number can be increased to one every fifteen minutes. The fares and freights over the Concord Railroad are from 33 to 50 per cent. less per mile, than over any other road in the State.

AT a meeting of S. F. Engine Co., No. 2, Friday evening, a committee of three, consisting of Foreman Wm. B. Randall, Ass't Foreman Willard Sears and Joseph H. Glines, were appointed to confer with the other committees and the Board of Engineers to arrange for the Firemen's Muster.

....THE NORTH CHURCH BICENTENNIAL.—Among those who have accepted invitations to be present at this celebration on the 19th and 20th of July, are Rev. Messrs. Moore, Whiting and Gage, former Pastors of the church, Prof. Roswald D. Hitchcock D. D., of New York, formerly of Exeter, Rev. Geo. E. Adams D. D., formerly a teacher in Portsmouth and Hon. Ezra A. Stevens of Boston. It is also hoped that Rev. Dr. Park of Andover, and Rev. Dr. Peabody of Cambridge will be present. The decoration of the church for the occasion is in the hands of a competent Committee and will no doubt be carried out with taste.

IN BOARD OF ALDERMEN, Thursday evening, the pig pen of Jere. Quill was voted a nuisance.

Leave was granted Thos. H. Odion to encumber Pleasant Street for repairs of house; also to J. M. Edmonds to encumber Congress Street.

The bonds of Collector Shannon were approved.

The bids of the various banks were received and were as follows:—

National Mechanics & Traders, 4 1-2 per cent. for deposits, 5 per cent. for loans.

New Hampshire, 5 per cent. for deposits, 5 1-2 per cent. for loans.

Rockingham, 4 1-4 per cent. for deposits, 4 1-4 per cent. for daily balances.

THE REPUBLICANS of this section of Rockingham County do not seem inclined to shed any bitter tears over the removal of Sheriff Caleb Moulton of Hampstead. His appointment was an unfortunate move for the party, his own town showing a large Republican loss at the March election. The only regret expressed is that the change of Sheriff affects all the Deputies. We hear the name of Henry F. Wendell, Esq., of this city mentioned for the succession, and it is reported that our Irish fellow citizens will insist on being recognized should the office go out of town, by the appointment of Mr. James Norton, formerly Master Boiler Maker at the Navy Yard, as Deputy Sheriff.

Communicated.

AT a regular meeting of Old Oaken Bucket Division, No. 2, S. of T., Thursday evening, July 6th, the following officers were installed for the ensuing quarter, by G. W. P. Thorndike and W. Con't Fletcher:—W. P., Fannie L. Thorndike; W. A., Amanda Holbrook; R. S., Susie Bryant; Asst. R. S., Freeman E. Vennard; F. S., Wm. T. Lyons; Treas., L. Augustus Fletcher; Chap., Margaret Prime; Con'r, Lizzie Dinsmore; A. C., Melvin Welch; I. S., Lizzie Lang; O. S., Rob't Driver; P. W. P., B. F. Thorndike.

This Division has been in existence only one year, July 4, yet much good has been done in the Temperance work even in that short time. It has been up hill work. From the fact that there has been so many failures during the past few years, in this great reform, through mismanagement many of our industrial temperance men and women have been idle in this matter and kept quiet, watching for the same results from our endeavors. But by hard work in the good cause we have made not a little advancement, and see no reason to doubt that a grand triumph of temperance principles is nearer than many believe. S.

THE INJUNCTION CASE of the Boston & Maine Railroad *vs.* the Portland, Saco & Portsmouth Railroad was decided in favor of the Boston & Maine.

A YOUNG MAN from Eliot, named Stimpson, was killed on the B. & M. Railroad near South Berwick village on Tuesday afternoon last. He was lying upon the track and was struck by the engine, which crushed his head to a shapeless mass, killing him instantly. He was aged 21, and was of intemperate habits.

....The members of the York County bar, with their ladies, and other invited guests enjoyed the hospitalities of the new and elegant Marshall House at York Beach on Wednesday last. Many of the party were conveyed to the House in the steamer Hoffman running from this city. A bountiful dinner was spread by the proprietor, Hon. N. G. Marshall, who is himself a lawyer. He was admitted to the bar in 1859, and has no competitor in his town. He was sheriff in 1854, but was "crowbarred" out by the Wells administration in 1865. In 1861-62 he was a State Senator and United States Assessor of Internal Revenue from 1862 to 1870.

AT the annual meeting of the stockholders of the International Telegraph Company, held at Portland, July 6, the following board of directors were elected for the ensuing year:—E. C. Bailey, Esq., of Boston; Hon. Frank Jones of Portsmouth; Hon. Woodbury Davis, Hon. Israel Washburn, Hon. George F. Shepley, Phillip H. Brown, Esq., Col. Charles B. Merrill, and Col. E. K. Harding of Portland; Hon. William McGilvery of Searsport; Hon. Samuel F. Hersey, Hon. J. W. Palmer and Hon. J. B. Foster of Bangor; Hon. T. J. Southard of Richmond, Treasurer, W. E. Gould of Portland. The reports of officers show the affairs of the company to be in a healthy and flourishing condition.

DARTMOUTH COLLEGE.—Commencement week begins Sunday, July 17, with the Baccalaureate Discourse by President Smith, and an address before the Theological Society, by Prof. J. C. Bodwell, of Hartford Theological Seminary. The annual Prize Speaking is to be given on Monday, and Class Day Exercises Tuesday. On Wednesday the Address before the Alumni Association will be given by Richard B. Kimball, Esq., of New York. In the afternoon the Anniversary of the United Literary Societies takes place, Rev. Dr. McCosh, President of the College of New Jersey, giving the Address, and B. P. Shillaber, Esq., the Poem. The Mendelssohn Quintette Club of Boston, close the day with a concert. The Alumni meet on Thursday, Commencement exercises open at 10 o'clock A. M., and a Levee finishing the five days session.

NEW HAMPSHIRE ITEMS.

Dover is infested with house robbers.

Albert Sargent of Bradford, on the 5th inst., while riding in a wagon with another person, placed his arm over the the back of his companion and over the muzzle of a shotgun. The other stooped to prevent some articles dropping through a hole in the bottom of the wagon and accidentally discharged the gun, the contents entering just below the right elbow, rendering amputation of the arm above the elbow necessary.

Mr. John Doer, a native of this State, committed suicide in New York city, Thursday morning, by taking opium. His age was 55 years.

At Rochester on Sunday last, while Rev. Dr. Thompson was baptising three little children, the whole congregation was astonished at seeing a white dove float slowly in at the open window. It hovered a few feet above the children, and remained in that position while the minister pronounced the blessing, and then flew quietly away.

The San Francisco *Chronicle* of May 21st has a long account of the career of a Miss Imogene Holbrook, of Nashua. It is stated that Mr. Geo. S. Lovely, of San Francisco, sent the sum of $200 in gold to Miss Holbrook for the purpose of paying the expenses of her journey to the Pacific Coast, and that upon her arrival they were to be married. It turns out, however, that Imogene left Nashua with another man, on the route, and is to marry him without so much as inviting Lovely to the wedding. In the scene which ensued when Lovely discovered the trick that had been played upon him the reporter did not take a hand, and so he contents himself with the moral,—"Don't go away from home for a wife."

THE NEW ORLEANS, MOBILE & TEXAS RAILROAD COMPANY

Are building a trunk line, connecting New Orleans with Mobile on the east, and giving

THE ONLY RAILROAD CONNECTION

between the former city and the great and most productive State of Texas of the west, the total distance from Mobile to Houston being 475 miles.

The Company is composed of strong Northern capitalists, who have already expended nearly **TEN MILLION DOLLARS** of their own funds in the construction of the line. They have built about 225 miles from Mobile westward, and secured by purchase of securities and made provision for the thorough repair and equipment of the 108 miles of the Texas division; leaving but 140 miles to be built

To Complete the Entire Road.

It is believed that no other railroad corporation in the country has ever made so large an expenditure from its own means before offering any of its securities to the public.

The Company now offer for sale the

Eight Per Cent. Mortgage Bonds

upon the Louisiana division of 226¾ miles from New Orleans to the Sabine River. This will probably be the most valuable portion of the whole line, as it will be the only rail communication by which the enormous productions of Texas can reach the Southern metropolis.

So important is this road considered to Louisiana, that the State has made very liberal grants in aid of the enterprise, by direct donations, by endorsement of its bonds, and by subscriptions to the stock of the Company, amounting in all to over eight million dollars.

The Bonds now offered are of two classes;

FIRST MORTGAGE BONDS,

to the amount of $12,500 per mile, and

SECOND MORTGAGE BONDS,

to an equal amount, both principal and interest guaranteed by the State of Louisiana. The price of the two classes is the same, and subscribers can take their choice.

The Bonds are only in the denomination of $1,000, or £200 each, interest payable January and July, at the rate of eight per cent. currency in New York, or seven per cent. gold in London, at the option of the holder, at the time each coupon is due. Bonds can be registered, if desired.

No better security has been offered to investors. The Bonds are largely profitable, as well as entirely safe. One thousand dollars invested in these eight per cent. bonds will give the purchaser *more than seventy-seven per cent.* greater annual interest than the same amount invested in the new Government Five Per Cents.

At the same price, an 8 per cent. currency long bond is far cheaper than a 7 per cent. gold one. Calculating a return to specie payment in three years, and taking the time that the bonds of the New Orleans, Mobile and Texas Railroad have to run—45 years—we find that by compounding the interest of each, every six months, at 7 per cent. **an 8 per cent currency bond at 90 will give a return of $2,614.18 MORE than a 7 per cent. gold bond, at the same price, or nearly three times the amount of the original investment.**

The Bonds are dated May 1, 1871. The first coupon will, therefore, be a fractional one, running from May 1 to July 1. The price is 90, and accrued interest at 8 per cent., currency from May 1st to date of remittance.

"These Bonds are offered for the present at 90, and accrued interest at 8 per cent. currency from July 1 to date of remittance."

Subscriptions will be received in Portsmouth by

First National Bank.

Information concerning the Company and the Road, and pamphlets containing map and full details of the enterprise, can be obtained of the undersigned or any of the Company's advertised agents.

"HALLO, JOHN!"

A Satisfactory Interview with an Unsatisfactory Visitor.

The burglars had been very active and bold in their operations in our city, but as the thermometer had marked above the nineties for several days, and I had little of value in my room, I preferred to risk that little, and leave my window open, although of easy access, rather than undergo partial suffocation. If an uninvited guest made his appearance, and I did not wake, he would not disturb me; if I did wake I could feign sleep, and let him take whatever he might find. "This class of visitors," I reasoned with myself, "do not generally commit personal violence, if they can accomplish theft and make good their escape without it."

These were my reflections every night as I undressed and threw myself on my bed, leaving my castle open to the enemy. I had been asleep one night about an hour, when I was awakened by the falling of a small china ornament. Starting slightly and opening my eyes, I saw the gas burning, and a tall, broad-shouldered man with his back turned toward me, but his face looking over his shoulder to see whether the noise had awakened me. Our eyes met, so that my plan to feign sleep would have been useless. My self-possession did not, however, forsake me. What followed, illustrates the value of presence of mind.

Opposite the side of my bed, and about eight feet from it, was the door of my room, two or three feet from which were the stairs leading to the lower hall. The burglar must have used a ladder in ascending to the roof, from which he entered the window. It was some thirty feet from the ground, and isolated. My plan was not only to escape myself but to effect his capture. I knew the policeman's beat, and that he would pass in a short time.

Sitting bolt upright, then, as I opened my eyes and saw the burglar looking very unpleasantly at me, I said, rubbing my eyes drowsily—although, to tell the truth, I was never more wide awake in my life; "Hallo, John, what are you looking for? Can't you come into my room without making such a confounded noise?"

The fellow, taken somewhat aback at being addressed in this way, said in a low but menacing voice, and pointing a revolver at me.

"Shut up! What do you take me for?"

"I took you for John!" I replied, with a well-assumed nonchalance. "But I didn't suppose he was after anything valuable, for he knows, as well as everybody else in the house, that I never keep anything valuable in my room, except one thing, and—by-the-way, if you are not the unluckiest fellow in the world."

"How's that?" growled my visitor.

"Well, I have a very good watch; but if you want to get it, you must pay a visit to the watchmaker's, after you leave here, for I had what I considered the bad, but now what seems the good fortune to break the spring yesterday, and left it for repairs."

"You're a precious cool one!" he said, evidently astonished at my indifference.

"What's the use of my getting excited or attempting to resist you? You are armed, and you see I am not. And if you had no weapon, your fighting weight must be at least thirteen stone, while mine is not more than nine and a half. I have no idea of interfering with you. If the room was full of diamonds, I would not raise my finger to save them. Take all you can find; I am going to sleep—so don't make any more noise."

"Hold on!" said the fellow; "where's your keys?"

"I suppose you want to make as much of a haul as you can," I said; "so look in my pants hanging over the bedpost there, and you'll find my pocket-book with a few stamps in it."

It was nearly time for the policeman to pass, and I paused to listen. I must in a few moments put my plan into execution. A glance quick as lightning, showed me that the key of the door was on the outside.

My listening expression did not escape the sharp and practiced eye of my prem visitor. It was a curious scene, no doubt; I, sitting bolt upright in my bed, in my night-clothes, unarmed, and this stalwart ruffian, pistol in hand, glaring half suspiciously, half-ferociously at me, and almost in the crouching attitude of a tiger about to spring upon his prey. But there I sat, coolly conversing with him, the necessity for the moment keeping my wits too wide awake to allow my fears to get the upper hand for an instant.

"What are you listening to?" asked the burglar.

"I thought I heard a cry of fire."

There was another pause, only for an instant, and in the dead of the night, I heard the steady tramp of the policeman. It was some distance off.

"You will find," I said, "some clothes of mine in the press—they will, however, be too small for you. Good night; the keys are in that middle drawer."

He turned to the drawer indicated, and, as he did so, with one tremendous bound I cleared the space between my bed and the door, slammed the door, and locked it upon him. Oblivious of my disbaille, I sprang to the steps. I had two flights to decend and the door to open, before I could reach the yard, but it was hardly possible for him to decend the ladder more quickly. Bounding rather than running down the stairs, I flung back the bolt and dashed into the yard. He was halfway down the ladder. Shouting "Police!" lustily, I seized the ladder at the bottom, and using all my power, brought it and the burglar to the ground with a crash. The pistol he held in his hand fell from his grasp. I made a dash for it, and he, springing to his feet like a cat, rushed at me, and as I stooped seized me by the nape of the neck. I turned the pistol upward, and pulled the trigger. It merely snapped—there were no more charges in it. With a terrible oath, the baffled villain wrenched the weapon from my grasp and raised it aloft to deal me what might have proved a fatal blow, when there was a rush behind him and he was felled to the ground. The policeman had heard my shout, and was just in time to rescue me.

The burglar was soon secured; and, in my excitement, I was about to relate the story I have here told, when the policeman, with a smile, suggested that I might "ketch cold in them clothes." I then remembered, for the first time since I had sprung from my bed, that I was shoeless and stockingless, and had nothing on but my night-shirt, and I beat a hasty retreat. With a long-drawn breath, I took my fine gold repeater, which had such a narrow escape, and was not at the watchmaker's after all, from under my pillow, looked at the hour, turned in, and after a little while fell asleep.

It is almost needless to add that the above story, narrated afterward to a jury, when I was in a better trim for story-telling than I was when the policeman interrupted me, had effect to giving my visitor lodgings in a public institution, and secure me from a repetition of his call for at least ten years.

Consumption,
ITS CURE AND ITS PREVENTIVE,
By J. H. SCHENCK, M. D.

Many a human being has passed away, for whose death there was no other reason than the neglect of known and indisputably proved means of cure. Those near and dear to family and friends are sleeping the dreamless slumber into which, laid they calmly adopted

Dr. JOSEPH H. SCHENCK'S SIMPLE TREATMENT,

and availed themselves of his wonderfully efficacious medicines, they would not have fallen victims. Dr. Schenck has in his own case proven that wherever sufficient vitality remains, that vitality, by his medicines and directions for the use of them, is quickened into healthful vigor.

In this statement there is nothing presumptuous. To the faith of the invalid is made no representation that is not a thousand times substantiated by living and available testimony. The theory of the cure by Dr. Schenck's medicines is as simple as it is unfailing. Its philosophy requires no argument. It is self assuring, self-convincing.

The Seaweed Tonic and Mandrake Pills are the first two weapons with which the citadel of the consumptive is assailed. Two-thirds of the cases of consumption originate in dyspepsia and a functionally disordered liver. The Seaweed Tonic (from the mucous tubes "sympathize" with the stomach. They respond to the morbific action of the liver. Here, then comes the culminating result, and the settling in, with all its distressing symptoms, of

CONSUMPTION.

The Mandrake Pills are composed of one of Nature's noblest gifts—the Podophillin of Pelletan. They possess all the blood-searching, alterative properties of calomel, but unlike calomel, they

"LEAVE NO STING BEHIND."

The work of cure is now beginning. The vitiated and morbid matter in the bowels and in the alimentary canal are ejected. The liver, like a clock, is wound up. It arouses from its torpidity. The stomach acts spontaneously, and the patient begins to feel that he is getting, at last,

A SUPPLY OF GOOD BLOOD.

The Seaweed Tonic, in conjunction with the Pills, permeates and assimilates with the food. Chyification is now proceeding, without its previous labor. Digestion becomes painless, and the cure is seen to be at hand. There is no more distress, no consciousness of the stomach. An appetite sets in.

Now comes the greatest Blood Purifier ever yet given by an Inspired Father to suffering man. Schenck's Pulmonic Syrup comes in to perform its functions and to hasten and complete the cure. It enters at once into its work. Nothing cannot be cheated. It collects and ripens the impaired and diseased portions of the lungs. In the form of gatherings it prepares them for expectoration, and lo! in a very short time the malady is vanquished, the rotten tissue has been expelled by coughing and made new, and the patient, in all the dignity of regained vigor, steps forth to enjoy the manhood or womanhood that was

GIVEN UP AS LOST.

The second thing is, the patients must stay in a warm room, until they get well; it is almost impossible to prevent taking cold when the lungs are diseased, but it must be prevented or a sure cure cannot be effected. Fresh air and riding out, especially in this section of the country in the fall and winter season, are all wrong. Physicians who recommend that course lose their patients, if their lungs are fully diseased; for it is impossible for them to do the house they must not sit down quiet; they must walk about the room as much and as fast as the strength will bear, to get up a good circulation of blood. The patients must keep in good spirits—be determined to live. This has much to do with the appetite, and is the great point to gain.

To despair of cure after such evidence of its possibility in the worst cases, and moral certainty in all others, is sinful. Dr. Schenck's personal statement to the Family of his own cure was in these modest words:

"Many years ago I was in the last stages of consumption; confined to my bed, and at one time my physicians thought that I could not live a week; then like a drowning man catching at straws, I heard of and obtained the medicines which I now offer to the public, and they made a perfect cure of me. I thought at the time that I could feel them penetrate my whole system. They soon ripened the matter in my lungs, and I would spit up more than a pint of offensive yellow matter every morning for a long time. As soon as that began to subside, my cough, fever, pains and night sweats all began to be easier, and my appetite became so great that it was with difficulty that I could keep from eating too much. I soon gained my strength, and have grown in flesh ever since."

"I was weighed shortly after my recovery," added the Doctor, "then looking like a mere skeleton; my weight was only ninety-seven pounds; my present weight is two hundred and twenty-five (225) pounds, and for years I have enjoyed uninterrupted health."

Dr. Schenck has discontinued his professional visits to New York and Boston. He or his son, Dr. J. H. Schenck, Jr., will continue to see patients at their office, No. 15 North Sixth street, Philadelphia, every Saturday from 9 A. M. to 3 P. M. Those who wish a thorough examination with the Respirometer will be charged $5. The Respirometer declares the exact condition of the lungs, and patients can readily learn whether they are curable or not.

The directions for taking the medicines are adapted to the intelligence even of a child. Follow these directions, and kind Nature will do the rest, excepting that in some cases the Mandrake Pills are to be taken occasionally. Nothing but the medicines need or other accompaniments than the simple instructions that accompany them. First, create appetite. Of course, good health hunger is the most welcome symptom. When it comes, as it will come, let the designing patient have no fear of gorging. Food eaten at once follows, the cough loosens, the night sweats is abated. In a short time both of these morbid symptoms disappear forever.

Dr. Schenck's medicines are constantly kept in tens of thousands of families, as a laxative or purgative, the Mandrake Pills are a standard preparation: while the Pulmonic Syrup, as a cure of coughs and colds, may be regarded as a prophylactic against consumption in any of its forms.

Price of the Pulmonic Syrup and Seaweed Tonic $1.50, a bottle, or $7.50 a half dozen. Mandrake Pills, 25 cents a box. For sale by all druggists and dealers in medicine.

A GREAT MEDICAL DISCOVERY!
DR. WALKER'S CALIFORNIA
VINEGAR BITTERS.

Hundreds of Thousands Bear Testimony to their Wonderful Curative Effects.

WHAT ARE THEY!

THEY ARE NOT A VILE FANCY DRINK,

Made of Poor Rum, Whiskey, Proof Spirits and Refuse Liquors dosored, spiced and sweetened to please the taste, called "Tonics," "Appetizers," "Restorers," &c., that lead the tippler on to drunkenness and ruin, but are a true Medicine, made from the Native Roots and Herbs of California, **free from all Alcoholic Stimulants.** They are the GREAT BLOOD PURIFIER and a LIFE-GIVING PRINCIPLE, a perfect Renovator and Invigorator of the system, carrying off all poisonous matter and restoring the blood to a healthy condition. No person can take these Bitters according to direction and remain long unwell, provided the bones are not destroyed by mineral poison or other means, and the vital organs wasted beyond the point of repair.

For Inflammatory and Chronic Rheumatism and Gout, Dyspepsia or Indigestion, Bilious, Remittent and Intermittent Fevers, Diseases of the Blood, Liver, Kidneys and Bladder, these Bitters have been most successful. Such Diseases are caused by Vitiated Blood, which is generally produced by derangement of the Digestive Organs.

DYSPEPSIA OR INDIGESTION, Headache, Pain in the Shoulders, Coughs, Tightness of the Chest, Dizziness, Sour Eructations of the Stomach, Bad taste in the Mouth, Bilious Attacks, Palpitation of the Heart, Inflammation of the Lungs, Pain in the regions of the Kidneys, and a hundred other painful symptoms, are the offspring of Dyspepsia.

They invigorate the stomach and stimulate the torpid liver and bowels, which render them of unequalled efficacy in cleansing the blood of all impurities and imparting new life and vigor to the whole system.

FOR SKIN DISEASES, Eruptions, Tetter, Salt Rheum, Blotches, Spots, Pimples, Pustules, Boils, Carbuncles, Ring-Worms, Scald Head, Sore Eyes, Erysipelas, Itch, Scurfs, Discolorations of the Skin, Humors and Diseases of the Skin, of whatever name or nature, are literally dug up and carried out of the system in a short time by the use of these Bitters. One bottle in such cases will convince the most incredulous of their curative effect.

Cleanse the Vitiated Blood whenever you find its impurities bursting through the skin in Pimples, Eruptions or Sores; cleanse it when you find it obstructed and sluggish in the veins, cleanse it when it is foul, and your feelings will tell you when. Keep the blood pure, and the health of the system will follow.

PIN, TAPE and other WORMS, lurking in the system of so many thousands, are effectually destroyed and removed. For full directions, read carefully the circular around each bottle, printed in four languages—English, German, French and Spanish.

FOR FEMALE COMPLAINTS, whether in young or old, married or single, at the dawn of womanhood or at the turn of life, these Tonic Bitters have no equal. ☞ Send for a circular.

They are a Gentle Purgative as well as a Tonic, possessing also, the peculiar merit of acting as a powerful agent in relieving Congestion or Inflammation of the Liver, and all the Visceral Organs. lyrdawfebl6

BASE BALL.—Chicagos at Chicago,7, Bostons 1. Olympics at Washington, 32, Kekiongas, 12.

By a collision on the New York & Newark Railroad, Saturday, four persons were killed and nine wounded.

THE schooner Success of New London ran into and sunk the schooner Mary A. Long of Philadelphia, off the upper end of Blackwell's Island, July 7. The Success was but little damaged.

AT Hudson, Minnesota, four steamer loads of men are engaged in pulling the piles driven by the West Wisconsin Railroad for a bridge. The bridge was commenced without provisionary legislation by the State of Minnesota. The pile driver is kept running all night, and it is claimed can drive piles faster than the others can pull them out.

THE SOCIETY of the Army and Navy of the Gulf held its third annual meeting at Newport, R. I., on the 7th, Lieutenant-General Sheridan, senior vice president, in the chair. A resolution was offered by Rear-Admiral Bailey, declaring Lieutenant-General P. H. Sheridan president by a *viva voce* vote, which was unanimously adopted. Resolutions of respect to the memory of the late Admiral Farragut were adopted. New York was selected as the next place of meeting, October 19, 1872. Colonel Howes of New York delivered the oration in the evening, and was followed by Rev. Dr. A. E. Mongomery in a memorial address on the life and character of Admiral Farragut. A poem by H. H. Brownell of Rhode Island closed the proceedings, and the society afterward had its annual dinner.

MONDAY, JULY 10, 1871.

THE LEGISLATURE.

In the House on the 7th, the committee on the rights of married men reported a bill providing that the husband should not be liable for the debts of his wife contracted before her marriage, and if she had property in her own right at the time of marriage for the payment of her said debts as if unmarried. The minority report dissented and recommended the postponement of the question until such a time as the women of New Hampshire have the right of suffrage. The bill was ordered to a second reading by a large majority.

A resolution to remove by address Grove S. Stevens, sheriff of Grafton county, was reported from the committee on judiciary.

Mr. Wadleigh moved to lay it on the table, and called the roll. Yes, 152; no, 158. He then moved it be referred to the Grafton county delegation.

The vote to recommit was lost—150 to 157; motion to adjourn was lost—140 to 163. The address passed by a vote of 148 to 140.

A bill to provide for the assessment and collecting of $300,000 as a State tax and joint resolutions in relation to Independence Hall, Philadelphia, and appropriating $10,000 to the Reform School, were ordered to a second reading.

The bill to organize the senatorial and councillor districts was read a second time and laid on the table.

The act in relation to the rights and liabilities of husband and wife was ordered to a third reading.

The early part of the afternoon session of the Senate was taken up in the disposal of general business, after which Mr. Fling [Dem.] from district No. 10, offered a resolution that a committee of two, to be appointed by the president of the senate, should visit Manchester during the adjournment, and view the city of Manchester, hear parties, and report on Tuesday next as to the necessity of a change in its ward lines.

Mr. Hall [Rep.] from district No. 5 said the Republicans had no objections to such a committee, but as the senate stood tied it was fair and under the rules the right of ballot should not be denied. His party desired to retire and report a member of said committee, and he offered an amendment to that effect. On a call of the roll the senate stood tied and the amendment was lost.

Mr. Barker, from district No. 9, said he had agreed during the recess to vote for such a resolution and should do it. He was as true a Republican as any, but he thought the city ward lines should be changed.

The vote on the resolution of Mr. Fling stood 7 to 5. Senator Smith acting with the Republicans throughout.

The committee consists of Senators Fling and Barker.

The Nashua Telegraph proposes the name of George William Curtis of New York for candidate for Vice President on the Republican ticket. Second the motion, every time.

The Coos Republican is greatly improved under its new management and has become one of the liveliest of wide awake Republican journals. It is doing good work in Coos.

The Cheshire Republican retracts its statement that a Democratic caucus at Concord resolved to impeach Senator Smith.

A Question of Privilege.—The Daily Patriot of yesterday, copies into its columns an infamously scandalous article on Senator Smith—infamous for its language and atrocious for its falsehoods. And this article it attributes to the Assistant Clerk of the Senate. We would like to believe the Patriot mistaken as to the authorship of the article in question. We have met Mr. Thayer, who is charged with writing it, and supposed him a gentleman. But no gentleman, and no manly man could have written it. No respectable blackguard could have written it.

The article having, however, been written and published as the production of an officer of the Senate, it behooves the Senate to investigate the matter. If written by the Assistant Clerk, it is a clear question of privilege and insult to the Senate itself, which that body cannot afford to let pass unpunished without disgracing itself and the State. We hope to see some Democratic Senator move a resolution of inquiry into this alleged breach of privilege and decency both. But if no Democrat moves in the matter, then should the Republican Senators move, and let the people of New Hampshire know whether such an outrage on the part of a subordinate towards a member of the highest legislative body of the State, whose servant he is, can go unrebuked and unpunished. If it can, then is the present Senate itself a disgraced body.—*Concord Monitor.*

Brutal Murder.—On Friday evening, July 7, Mr. David P. Wilbur, one of the best officers of the Chelsea (Mass.) police force, was murdered in cold blood while engaged in conversation with another officer, Mr. Wesley Abbott, on one of the principal streets of Chelsea. As the murderer approached the two officers Mr. Abbott stepped aside to let him pass, but he stopped when he got to them and addressed Mr. Wilbur, saying: "How are you," and put out his hand as if to shake hands with him, but instead discharged a pistol, which he had concealed, at Mr. Wilbur. The assassin then turned and fired at Mr. Abbott, but happily the shot did not take effect. The latter officer then drew his pistol and leveled it at his assailant; the cap snapped on the first trial, but the second time his pistol went off. All this time the man was running off, and just after Mr. Abbott fired he disappeared around the corner of Congress avenue. Mr. Wilbur after he was shot never spoke. He started to walk towards City Hall, but after walking some thirty feet fell dead to the sidewalk. The shot took effect just over the heart, severing the large blood vessels, causing him to bleed to death. From the description given of the murderer by officer Abbott suspicion strongly pointed towards Cornelius Conners, known as "Gleos" Conners, and at half past one he was arrested at his house, adjoining his saloon on Park Street.

There are many circumstances connected with the affair that seem to point toward Conners as the murderer. Some two years ago he was arrested by officer Wilbur for committing an assault with a dumb-bell, and was sent to the House of Correction for six months. Since this time Conners has had a grudge against the officer and has often announced his determination to get square with him. A day or two since Conners' father was fined for keeping a dog without a license, which his son had to pay, and Friday the mother of Conners was sent to the House of Correction in default of bail, having been committed as a common railer and brawler. Conners himself is a drunken, dissolute character and keeps a low groggery on Park Street, near the scene of the murder, in which vicinity he was seen shortly before the murder. He has been fully committed to appear before the Grand Jury in August.

Mr. Wilbur, the murdered man, was one of the most efficient officers on the force and was highly esteemed by his brother officers and the citizens. He leaves a widow and one child, a boy of three years.

During the June term of the United States district court of Mississippi the grand jury returned forty-five true bills under the enforcement act, embracing over 300 persons for whipping, fighting and murdering. The grand jury was in session five weeks. Twenty persons accused of various crimes under the same act have been liberated on bail to appear for trial at the December term.

Judge Stanley of San Francisco sentenced David Calderwood to pay a fine of $500 and to five days' imprisonment for contempt of court in reentering his property from which he had been dispossessed by order of the court, and double the amount for remarking audibly to his attorney while the judge was speaking, "That's a lie."

The Miners of Amador county (Cal.) offer to stop the strike and resume prices at the old rates, provided the military are removed, but the owners of the mines refuse to accept them back on any terms. The troops will remain in possession of the mines, which will be worked by new gangs.

The Mechanic's Fair, to be held in San Francisco in August next, promises to be an immense success. The Japanese contribution will equal that of any other, and will be the leading feature of the exhibition.

Four young men were poisoned on the 6th, at Lynn, Mass., by eating raw clams. Two of them died in a short time, another is in a precarious condition and the fourth is recovering.

It is estimated that the loss on cars, engines and track by the recent accident upon the Maine Central Railroad will not exceed $12,000.

The State Department has telegraphed to Consul-General Hall at Havana to intercede in behalf of the Cuban General Cavada.

Our Minister to Belgium writes that particular attention should be paid to passports by travellers intending to visit that country.

Freshets and thunderstorms have caused considerable damage in England recently.

The Granite State Free Press is enlarged and has a new dress. We are glad to welcome this evidence of Bro. Cheney's prosperity in that model town, Lebanon. We hope his neighbors will give him the extra few hundred subscribers he asks for and deserves.

—There is just now a marked Democratic temperance revival. Particular interest is felt by the managers in getting up separate temperance tickets for Republican gudgeons.—*Chicago Mail.*

—The telegraph reports our Democratic candidate for Governor at Concord. It is to be hoped that he is not there for the purpose of learning how the present Legislature accomplishes majorities.—*Portland Press.*

Partizan Legislation.—The Legislature has now been in session longer than the usual time of a busy session. But little business has been brought before it for actual discussion, and but a small part of that is of any particular importance to the people at large. There has not been, for more than a week, any business before either branch which could not properly be disposed of in twenty-four hours. The Senate has voted to fix a day of adjournment and the Republican members of the House have vainly tried to pass the resolution, but "Boss Bingham" & Co. have refused to allow it, and the Legislature has been kept in session day after day at an expense of thousands of dollars per day simply to see if some way could not be devised to carry out the schemes of partizan legislation, such as redistricting the State, changing the courts, repealing the laws against noturalization frauds, etc., by which a majority is to be secured for Harry Bingham for United States Senator next year. Verily these Democratic managers are pretty fellows to talk about economy. They would bankrupt the State to carry their personal and partizan schemes.—*Coos Republican.*

BUSINESS NOTICES.

A fact worth remembering—Five cents' worth of *Sheridan's Cavalry Condition Powders*, given to a horse twice a week, will save double that amount in grain, and the horse will be fatter, sleeker, and every way worth more money than though he did not have them.

Married ladies, under all circumstances, will find *Parsons' Purgative Pills* safe; and, in small doses, a mild cathartic. They cause no griping pains or cramp.

SPECIAL NOTICES.

Our Skins are Sieves,

And through millions of orifices oozes the transparent fluid which nature does not need for vital purposes. This is a wise provision of Providence, but excessive perspiration is, nevertheless, extremely weakening. During the heats of summer all hard-working men perspire to an extent that is more or less debilitating. They, of all classes of the community, require a wholesome invigorant at this season. Let them not seek it in the liquors of the bar-room; they will not find it there. A medicated stimulant, pure and undefiled, is what they need; and among this class of remedies, Hostetter's Stomach Bitters stands alone. No valid plea can be urged against its use, even by the genius of Temperance itself; for even the Maine law permits the sale of diffusive stimuli for medicinal purposes. As a general renovating preparation, the Bitters has no equal anywhere. But this is only one of the merits of this famous invigorator. Its regulating properties give it an immense superiority over all the tonics of the Pharmacopœia. In cases of chronic constipation it is the most useful and certain of all aperients. It creates no violent commotion in the discharging organs, but gently relieving them of their obstructions, leaves them in a healthy, vigorous condition. It seems unnecessary to state, in view of the mass of testimony as to its effects in dyspepsia, that it is a permanent cure for that terrible and but too general complaint.

The numerous "Bitters," under various names, which mercenary dealers endeavor to substitute for Hostetter's Stomach Bitters, should be avoided, for their own sakes, by the sick and the public at large. Hostetter's Bitters are procurable in bottles only, and never sold in bulk.

THE WORLD IS IN ARMS

Against the new hair-coloring preparations. Science condemns them. They are virtually dead. Meanwhile,

Cristadoro's Excelsior Hair Dye

proved by time and sanctioned by practical chemists, has become the standard article of its class throughout the length and breadth of the land. It is poisonless, rapid in its operation, certain to produce the required shade of color, and has no equal among hair dyes, either in the United States or Europe. ARE YOU GOING TO PAINT?

—IF SO, USE THE—

AVERILL CHEMICAL PAINT.

It is Cheaper, Handsomer and more durable than the best of other Paints. One Thousand Gallons of it were sold in this City, in the year 1870, and not one complaint has come from those who have used it; but all speak in its favor; it is mixed ready for application, and is much easier put on than any other Paint, making a smooth, glossy surface for years, that can be cleaned with hot suds without injuring it. It is excellent for walls inside, in the place of paper.

I shall keep this season a large stock of Chemical Paints of all shades on hand, to accommodate customers with any amount, without delay in ordering it. Those who want to use the Chemical Paints and have had them misrepresented by those who deal in Lead and Oil, are invited to call and examine my Paints that have been on Buildings two years, and you will find them as fresh as if laid but one month.

I am prepared to do Painting by Contract, or by the day, using the Chemical Paint, or furnishing good experienced workmen by the day at very low wages. B. NORTON, only Agent for selling the

LOCAL AFFAIRS.

BARNUM'S BIG SHOW will exhibit on Richards Avenue, on Friday, the 21st.

HARLOW'S BAND gave a very acceptable concert on Market Square, Saturday evening.

MR. LOWELL JENNESS was tipped out of a loaded team by the breaking of a nut near Congress Block, Saturday afternoon. No serious damage resulted.

—Several witnesses in the recent election case from Ward One, Portsmouth, testified that certain persons did not live in Portsmouth, but had "moved up into New Hampshire." Under such circumstances should not Portsmouth and the Isle of Shoals be annexed to New Hampshire?—*Coos Republican.*

SHORTLY after 5 o'clock, Saturday afternoon, a hand car was coming in on the C. & P. R. R. near the Rockingham Mill, and had for passengers several men, a woman and some children. The shifting engine "Othello" with two freight cars was coming in on the Eastern R. R., and as neither could stop, the hand car passengers, seeing their danger, jumped off. At the crossing, one of the freight cars struck the hand car and smashed it. One truck of the freight car ran off the track and spread the rails, but this was soon remedied and the regular trains to and from Boston were not delayed by the accident.

AT the regular meeting of Mt. Sinai Encampment, No. 9, I. O. O. F., held Friday evening, July 7, the following officers were installed for the ensuing term:—C. P., John H. Leverton; H. P., George F. Gilman; S. W., Hiram B. Lord; J. W., Willard Sears; Treasurer, William W. Cotton; Scribe, Joseph H. Gardiner; Trustees, Charles Robinson, W. W. Cotton, A. F. Craig. The following are the Appointed Officers for the term: M. T. Betton, Guide; A. J. Sides, Marshal; Elias Ayers, O. S.; J. Coolidge Davis, I. S.; A. J. Sides, 1st W.; Emmons B. Philbrick, 2d W.; Albert H. Tucker, 3d W.; Ammi F. Davis, 4th W.

THE ALACRITY with which the firemen responded to two alarms on Saturday gave good evidence of their excellent organization and efficiency. About half past six o'clock, A. M., a barn near the old Hazelton Foundry at the West End was discovered on fire, having probably caught from a locomotive. It was speedily extinguished. At half past one o'clock, P. M., another fire was discovered in the barn of Miss Sherburne at Christian Shore. It is said to have been set by mischievous children and was extinguished by workmen near by. A heavy gale had been blowing from 3 o'clock, A. M., and the slight losses incurred at these fires are the subject of congratulation among our citizens, to whom the fire bells brought fears of disastrous conflagrations.

—In the hearing before the Committee on Elections of the Portsmouth cases, we understand that objection was made to counting such names as Ichabod Goodwin, W. H. Y. Hackett and others in making up the requisite number of polls, on the ground that they were over seventy and did not pay a poll tax. This is a new Democratic doctrine of equality.—*Dover Enquirer.*

Just so. We also hear that Col. Joshua W. Peirce was denied the right of representation. Gov. Goodwin pays a city tax this year of $1292.85; Mr. Hackett's tax is $1125.36; and Col. Peirce's, $1113.47:—in all $3531.68: while in looking over the city tax books, taking the names at random, it seems that Elwood Hutton, John Sheehan, Samuel Spinney, Michael Leary, Michael McCartney and many others have not paid the poll taxes assessed against them for *five years.* They have the right of representation, while Messrs. Goodwin, Peirce and Hackett are denied it under the new Democratic dispensation. Citizens of Portsmouth, how do you like it?

THE Roman Catholic Irish societies of New York held a secret meeting Friday evening to consider what action they should take in regard to the anticipated Orange procession on the 12th instant. It is understood that the convention was in favor of first invoking the interference of the mayor, and then, if the procession was allowed, to attack and break it up. If this report is correct, these Irish societies exhibit a vast amount of cool "cheek," as they themselves are very fond of parading in Fenian and St. Patrick's Day processions. Our "adopted citizens," have no right to trouble us with their ancient political and religious feuds, but the Protestants have as much right to walk in procession as the Catholics have.

ASA PACKER offers the Lehigh University conditionally half a million dollars.

THERE is a great deal in "the art of putting things" so that the act which is infamous when performed by a political enemy becomes an act of saving virtue when performed by a political supporter. The Lyre possesses this art in a high degree, and finds no difficulty in blowing hot and cold through the same copper horn, when aimed at the same act performed by different parties. One day last week it assailed Senator Smith in a most scurrilous and indecent manner, calling the old gentleman a "slave," "tool," "mere puppet," &c., stigmatized his firmness in holding to principles he has maintained all his life as "treacherous imbecility" and "a disgrace to the Senate," and denounced his sons and others as "a gang of unprincipled men" for supporting him.

But the course which was so "unprincipled" in the old man's sons became wondrously honorable when the Democratic wire-pullers tried it, for a later issue of the Lyre exultingly boasts that "in spite of their close watching the Democratic Senators (not an 'unprincipled gang') had an interview with the aged man (not 'treacherous imbecile,' this time) last evening," and induced him to promise to vote copperhead,—which promise it is needless to say he did not make.

Not a copperhead paper in the State uttered a shriek at the "unprincipled gang" of Democratic leaders who—from the showing of their own party press—were engaged long before Judge Smith was elected Senator, in a desperate endeavor to make him a traitor to his own convictions. The Lyre endorses as commendable the efforts of the hungry Democratic politicians to bend the sturdy Senator into a footstool on which they can stand to boost Bingham into the U. S. Senate, but yells "unprincipled men" at the sons who are determined that if their father in his old age obscures the honorable record of a long life it shall not be their fault. A very fair sample of copperhead consistency.

NEW RAILROAD LINE.—The early completion of the Rondout and Oswego R. R. warrants us in naming some of the advantages of this great enterprise. It starts at the head of Ocean Ship and Steamship navigation at Rondout and Kingston Point on the Hudson, and terminates with its connections at Oswego. Two indispensable requisites of a first class road are thus secured. It opens up a fine agricultural and manufacturing district, hitherto untouched by railways. The local trade in all manner of farm produce and manufactures must become large, thus adding another indispensable requisite to a first class road, a *fine intermediate country.* What we have named alone is enough to secure success to any railway. All this is accomplished by building only one 100 miles of railway, 36 miles of which is done, and over half, *i. e.* 52 miles, of which will be completed by August 15th, and the whole by October, 1872. When one measures the distance between Rondout and Oswego, and notices the small amount of railway to build, we see how efficient it must become. It is located centrally between the manufacturing and mineral interest of Central New England and Western New York, and the great West and Northwest. It connects Oswego, which is a great grain depot and entrepot to all the Northwest, by the shortest line to New York and New England. On completion of the intended improvements on the Company's land and docks at Kingston Point, ocean vessels may load there with grain from Oswego for Europe, at a great saving of expense over shipment at New York. This road now offers 7 per cent. interest in gold at 90 and interest on $2,000,000, loan of first mortgages on its road. For sale at the banks in this vicinity.

NEW HAMPSHIRE ITEMS.

The barn of Mr. A. Brown at Ossipee was burned on Tuesday night. Loss about $500.

A child of Mr. V. T. Simmons of Manchester was killed on Thursday evening last, by falling out of the third-story window upon a picket fence. One of the pickets penetrated through its liver.

Mr William Heath, a farmer in easy circumstances in Manchester, committed suicide, Wednesday, by hanging. His age was about 45 years.

THE EDITORIAL EXCURSIONISTS start for Montreal this morning. The party will rendezvous to-night at St. Albans, Vermont.

JOB AND CARD PRINTING.—We have made great additions to our jobbing facilities—a mammoth Hand Press (the largest in Portsmouth,) new Display Type, Borders of various styles, &c.—and are prepared to execute with neatness and dispatch, all orders for FULL SHEET POSTERS, DATE SLIPS, PAMPHLETS, SERMONS, ADDRESSES, AUCTION BILLS, CONSTITUTIONS, BY LAWS, PROGRAMMES, HANDBILLS, CIRCULARS, ORDER OF DANCES, BLANKS, BILL HEADS, RECEIPTS, TICKETS, BUSINESS, MARRIAGE, ADDRESS AND VISITING CARDS, LABELS, TAGS, and in fact PRINTING OF ANY DESCRIPTION, AT SATISFACTORY PRICES. Orders received by mail, express, or at the CHRONICLE OFFICE will be *promptly filled.*

THE NEW ORLEANS, MOBILE & TEXAS RAILROAD COMPANY

Are building a trunk line, connecting New Orleans with Mobile on the east, and giving

THE ONLY RAILROAD CONNECTION

between the former city and the great and most productive State of Texas of the west, the total distance from Mobile to Houston being 475 miles.

The Company is composed of strong Northern capitalists, who have already expended nearly **TEN MILLION DOLLARS** of their own funds in the construction of the line. They have built about 223 miles from Mobile westward, and secured by purchase of securities and made provision for the thorough repair and equipment of the 168 miles of the Texas division; leaving but 140 miles to be built

To Complete the Entire Road.

It is believed that no other railroad corporation in the country has ever made so large an expenditure from its own means before offering any of its securities to the public.

The Company now offer for sale the

Eight Per Cent. Mortgage Bonds

upon the Louisiana division of 228¾ miles from New Orleans to the Sabine River. This will probably be the most valuable portion of the whole line, as it will be the only rail communication by which the enormous productions of Texas can reach the Southern metropolis.

So important is this road considered to Louisiana, that the State has made very liberal grants in aid of the enterprise, by direct donations, by endorsement of its bonds, and by subscriptions to the stock of the Company, amounting in all to over eight million dollars.

The Bonds now offered are of two classes:

FIRST MORTGAGE BONDS,

to the amount of $12,500 per mile, and

SECOND MORTGAGE BONDS,

to an equal amount, both principal and interest guaranteed by the State of Louisiana. The price of the two classes is the same, and subscribers can take their choice.

The Bonds are only in the denomination of $1,000, or £200 each, interest payable January and July, at the rate of eight per cent. currency in New York, or seven per cent. gold in London, at the option of the holder, at the time each coupon is due. Bonds can be registered, if desired.

No better security has been offered to investors. The Bonds are largely profitable, as well as entirely safe. One thousand dollars invested in these eight per cent. bonds will give the purchaser *more than seventy-seven per cent.* greater annual interest than the same amount invested in the new Government Five Per Cents.

At the same price, an 8 per cent. currency long bond is far cheaper than a 7 per cent. gold one. Calculating a return to specie payment in three years, and taking the time that the bonds of the New Orleans, Mobile and Texas Railroad have to run—45 years—we find that by compounding the interest of each, every six months, at 7 per cent. **an 8 per cent currency bond at 90 will give a return of $2,614.18 MORE than a 7 per cent. gold bond, at the same price, or nearly three times the amount of the original investment.**

The Bonds are dated May 1, 1871. The first coupon will, therefore, be a fractional one, running from May 1 to July 1. The price is 90, and accrued interest at 8 per cent. currency from May 1st to date of remittance.

"These Bonds are offered for the present at 90, and accrued interest at 8 per cent. currency from July 1 to date of remittance."

Subscriptions will be received in Portsmouth by

First National Bank.

Information concerning the Company and the Road, and pamphlets containing map and full details of the enterprise, can be obtained of the undersigned or any of the Company's advertised agents.

IRISH LINENS, DAMASKS, LINEN CAMBRIC HANDK'FS, &c.

We feel ourselves called on again to CAUTION CONSUMERS against the indiscriminate use of Irish fabrics made up to imitate our goods in fold, trade mark, and general appearance, and to warn them, that their only safeguard is to see that the authentic seal of our firm,

J. N. RICHARDSON, SONS & OWDEN,

is stamped on each article.

Determined to confine ourselves, as heretofore, to the use of yarns spun from the choicest and strongest Flax, by the best machinery obtainable; uniform in weight and elasticity—manufactured and bleached under our own superintendence, the consumer will be

GUARANTEED BY OUR SEAL

the same durability and satisfaction in the wear, which the genuine goods have always afforded.
